THE FARMERS' LOAN & TRUST COMPANY

Foreign Exchange, Cable Transfers,
Travelers' Letters of Credit

The Company is a legal depositary for moneys paid into Court, and is authorized to act as Executor, Administrator, Trustee, Guardian, Receiver, and in all other fiduciary capacities.

Acts as Trustee under Mortgages made by Railroad and other Corporations, and as Transfer Agent and Registrar of Stocks and Bonds.

Receives deposits upon Certificates of Deposit, or subject to check, and allows interest on daily balances.

Manages Real Estate and lends money on bond and mortgage.

Will act as Agent in the transaction of any approved financial business.

Depositary for Legal Reserves of State Banks and also for moneys of the City of New York.

Fiscal Agent for States, Counties and Cities.

**First Federal Reserve
Trust Company**

We believe it is worthy of
mention that the first Trust
Company in New York to
become a member of the Fed-
eral Reserve System was the
Broadway Trust Company
which joined in August, 1915.
To-day this Institution still
remains the only Trust Com-
pany member in the State of
New York.

Our deposits on August 1,
1915, were \$20,585,000.

On August 1, 1917, they had
increased to \$31,948,000.

This growth indicates that our
patrons have confirmed our
judgment in joining the system,
of which all national banks in
the country are also members.

SPECIAL NOTICE

**To Holders of First Consolidated Mortgage Thirty Year Five Per Cent
Gold Bonds of Ft. Wayne & Wabash Valley Traction Company,
due March 1st, 1934.**

Default having been made in the payment of the interest due September 1st, 1917, under the terms of the mortgage, dated March 1st, 1904, to The Trust Company of North America, Trustee (the Commercial Trust Company having been subsequently substituted as such Trustee), executed by Ft. Wayne & Wabash Valley Traction Company to secure an issue of its bonds, due March 1st, 1934, the undersigned, owning and representing large amounts of said bonds, have formed a Committee for the protection of the bondholders.

The Committee invites the holders of the said bonds to deposit them on or before November 15th, 1917, with the **Commercial Trust Company, City Hall Square, Philadelphia**, which has been appointed Depositary, or with its agent, **The Fidelity Title & Trust Company, Pittsburgh, Pa.**, for which Certificates of Deposit will be issued under a bondholders' protective agreement now on file with the Depositary, and a copy of which is filed with said agent. The Committee requests that the bondholders shall deposit their bonds promptly as the right of deposit will expire on November 15th, 1917, unless the time is extended as provided in the agreement.

Meetings

THE NEW YORK, NEW HAVEN AND HARTFORD RAILROAD COMPANY

To the Stockholders of the New York, New Haven and Hartford Railroad Company:

Notice is hereby given that the Annual Meeting of the Stockholders of The New York, New Haven and Hartford Railroad Company will be held in Harmonie Hall, No. 9 Elm Street, in the City of New Haven, Connecticut, on Wednesday, the 24th day of October, 1917, at 12:00 o'clock noon, for the following purposes:

1. To consider and take appropriate action upon the Statement of the affairs of The New York, New Haven and Hartford Railroad Company for the year ending December 31, 1916, and all acts described therein or reported at said meeting.

2. To elect a Board of Directors to serve until the next annual meeting and until their successors shall have been elected and qualified.

3. To act upon proposed amendments to the Stockholders' by-laws as follows:

Amend Article III by changing the date for the Annual Meeting of the Stockholders from the fourth Wednesday of October in each year to the third Wednesday of April in each year, and by striking out the words "Chairman of the Board" and inserting in lieu thereof the word "President", so that said article as amended shall read as follows:

"III. The annual meeting of this corporation at which directors shall be chosen, shall be held in the City of New Haven, Connecticut, on the third Wednesday of April in each year at 12 o'clock M., at such place as shall be fixed by the President or Directors."

Amend Articles IV, VII and IX by striking out the words "Chairman of the Board" whenever they occur and inserting in lieu thereof the word "President" so that said articles as amended shall read as follows:

"IV. A special meeting of this corporation may be called at any time by order of the Board of Directors and shall be held in the City of New Haven at such hour and place as shall be fixed by the President or Directors."

"VII. For each annual and special meeting of the Stockholders the Board of Directors shall appoint two tellers to receive and count the votes cast thereat. In case of the failure of the Board of Directors to make such appointment, or in case of the failure or inability of either or both of the tellers to serve at such meeting, the President shall appoint another teller, or tellers, in his, or their, places."

"IX. All the meetings of this Corporation shall be presided over by the President when he shall be present."

4. To transact any other business which may properly come before said meeting.

For the purpose of this meeting the transfer books of the Company will be closed from October 10th to October 24th, 1917, both days inclusive.

Dated at New Haven, Connecticut, this first day of October, 1917.

By order of the Board of Directors.

ARTHUR E. CLARK, *Secretary.*

NOTICE OF SPECIAL MEETING OF STOCKHOLDERS

Notice is hereby given that a Special Meeting of the Stockholders of the New York, New Haven and Hartford Railroad Company will be held in Harmonie Hall, No. 9 Elm Street, in the City of New Haven, Connecticut, at three o'clock in the afternoon of the twenty-fourth day of October, 1917, if the Annual Meeting shall have adjourned at that hour; if not, then immediately upon the adjournment of said Annual Meeting, for the following purposes:

1. To act upon the acceptance of the amendment to the charter of this corporation contained in an Act of the General Assembly in the State of Connecticut, approved May 15th, 1917, entitled: "An Act Amending the Charter of The New York, New Haven and Hartford Railroad Company," in reference to the issue of shares of preferred stock.

2. To act upon the acceptance of the amendment to the charter of this corporation contained in an Act, passed by the Commonwealth of Massachusetts, approved May 25th, 1917, entitled: "An Act Relative to the Issue of Preferred Stock by The New York, New Haven and Hartford Railroad Company."

3. To act upon a proposition to authorize the issue of not exceeding four hundred and fifty thousand (450,000) shares of cumulative preferred stock of the par value of one hundred dollars (\$100) each, the holders of which shall be entitled to receive out of the annual net income of the Company, dividends of not exceeding seven per centum per annum.

For the purpose of this meeting the transfer books of the Company will be closed from October 10th to October 24th, 1917, both days inclusive.

Dated at New Haven, Connecticut, this first day of October, 1917.

By order of the Board of Directors.

ARTHUR E. CLARK, *Secretary.*

NO. 74 BROADWAY NEW YORK

Meetings

THE DENVER & RIO GRANDE RAILROAD COMPANY

165 Broadway, New York, U. S. A.

To the stockholders of
The Denver & Rio Grande Railroad Company:

The Annual Meeting of the stockholders of The Denver & Rio Grande Railroad Company will be held at the principal office of the Company in Denver, Colorado, at 12 o'clock noon on Tuesday, October 16, 1917. The meeting will be held for the election of directors and for the transaction of any other business pertaining to the Company that may properly be brought before it.

There will be presented and submitted to and acted upon by said meeting a proposed amendment to the Certificate of Incorporation and Agreement of Consolidation of the Company, providing for construction, acquisition and operation of lines of railway, telephone and telegraph other than those designated and specified in said Certificate and Agreement, to be effected by adding to Article XI, Section Third, of said Certificate of Incorporation and Agreement of Consolidation the following additional subsections or paragraphs numbered 50, 51, 52, 53 and 54:

50. From a point at or near Cokedale, in Reilly Canon, in Las Animas County, Colorado, in a general northwesterly or northerly direction along Reilly Creek or its tributaries, by the most feasible route, to the divide between the drainage of Las Animas or Purgatoire River and the Apishapa River, and continuing thence into the valley of said Apishapa River to some point at or near the Village of Guinare in said valley, all in said Las Animas County, a distance of 15 miles, more or less; with extensions, branches and spurs to mines and industries in the vicinity of said route.

51. From a point at or near Ojo Caliente, in Taos County, New Mexico, in a general northwesterly direction along the Ojo Caliente River to La Madera, in Rio Arriba County, New Mexico, and passing through or into said Taos and Rio Arriba Counties, a distance of 4 miles, more or less; with extensions, branches and spurs to mines and industries in the valley of said River and its tributaries.

52. From a point at or near Helper, in Carbon County, Utah, in a general westerly direction along Spring Canon Creek and its tributaries, to Rains, all in said Carbon County, a distance of 7 miles, more or less; with extensions, branches and spurs to mines and other industries in the vicinity of said route.

53. From a point at or near Thompson, in Grand County, Utah, in a general northerly direction, along the drainage of Thompson, Wash., to Neslen, all in said Grand County, a distance of 5 miles, more or less; with extensions, branches and spurs to mines and other industries in the vicinity of said route.

54. From a point at or near Soldier Summit, in Wasatch County, Utah, in a general northeasterly direction by the most feasible route across the divide between the Price River and the Strawberry River, and along the valley of the Strawberry River, to the town of Duchesne; thence in a general easterly direction along the valley of the Duchesne River, via the most feasible route, to some point south of the Fort Duchesne Military Reservation; thence northeasterly across the Asphatum Ridge to the Town of Vernal, in Uintah County; the same passing through or into Wasatch, Duchesne and Uintah Counties, Utah, a distance of 132 miles, more or less; also with a branch from said point south of Fort Duchesne Military Reservation on the above described route, easterly along the Duchesne River to a point near its confluence with Green River at or in the vicinity of the Town of Ouray in said Uintah County, and all in Uintah County, Utah, a distance of 25 miles, more or less; together with extensions, branches and spurs to communities, mines and industries along the routes specified in this sub-section 54.

The books for the transfer of the Stock of the Company, both Common and Preferred, will be closed for the purposes of the meeting at twelve o'clock noon on Saturday, September 15th, 1917, and will be reopened at ten o'clock A. M., on the day following the annual meeting, or the final adjournment thereof.

JOHN P. HOWLAND, Secretary.
September 10th, 1917.

THE CHESAPEAKE & OHIO RAILWAY CO.
NOTICE OF

ANNUAL STOCKHOLDERS' MEETING.

New York, September 20, 1917.

Notice is hereby given that the Annual Meeting of the Stockholders of the Chesapeake & Ohio Railway Company will be held at the general office of the Company in the City of Richmond, Virginia, on Tuesday, October 23, 1917, at eleven o'clock a. m., (a) for the election of Directors, (b) for the purpose of considering all action heretofore taken or authorized by the Board of Directors or by the Executive Committee of the Company which may be submitted to the meeting, and (c) for the transaction of such other business as may lawfully come before the meeting, including the amendment of the first sentence of Section 1 of Article I of the by-laws of the Company so as to read as follows:

"Regular annual meetings of the stockholders for the election of directors from among their number and the transaction of such other business as may properly come before the meeting for action shall be held on the Tuesday preceding the last Tuesday of April in each year at 11 o'clock A. M. at the general office of the Company in the City of Richmond, Va."

The stock transfer books will be closed at the office of the Company, No. 71 Broadway, New York City, on Friday, September 28, 1917, at three o'clock p. m., and will be reopened on Wednesday, October 24, 1917, at ten o'clock a. m. By order of the Board of Directors.

War Revenue and Federal Income Tax Laws

These two acts embody all of the Federal Tax laws which are of vital importance to the commercial and financial world.

To provide its friends with the complete official text of these laws in convenient form, the National Bank of Commerce in New York has prepared a book which contains:

- I. The War Revenue Act, as approved Oct. 3, 1917.
- II. The Income Tax Law of Sept. 8, 1916, as amended to date, together with pertinent sections of the War Revenue Act.

Copies will be mailed upon request.

National Bank of Commerce in New York

Dividends

New York, October 3, 1917. To the Holders of Prior Preference Stock of Pere Marquette Railway Company

At a regular meeting of the Board of Directors held October 3, 1917, a quarterly dividend of \$1.25 per share (1 1/4%) was declared upon the Prior Preference Stock of Pere Marquette Railway Company, payable November 1, 1917, to stockholders of record October 15, 1917, without the closing of the transfer books.

E. M. HEBERD,
Assistant Secretary.

Referring to the foregoing notice, the Voting Trustees will, upon the receipt of the dividend therein mentioned, cause the same to be distributed through their agent, Guaranty Trust Company of New York, pro rata among the holders of Voting Trust Certificates for Prior Preference Stock of Pere Marquette Railway Company as the same appear on the books of the Voting Trustees at the close of business on October 15, 1917, without the closing of the transfer books. Checks will be mailed to such holders.

Dated New York, October 3, 1917.
BEEKMAN WINTHROP,
Secretary of Voting Trustees.

THE KANSAS CITY SOUTHERN RY. CO.

No 25 Broad St., N. Y., Sept. 18, 1917.
A quarterly dividend of ONE (1) PER CENT has this day been declared upon the Preferred Stock of this Company, from surplus earnings of the current fiscal year, payable October 15, 1917.

Checks in payment of the dividend will be mailed to stockholders at the addresses last furnished to the Transfer Agent.

G. C. HAND, Secretary.

DETROIT UNITED RAILWAY

Dividend No. 54.
A quarterly dividend of Two Dollars per share, being at the rate of Eight Per Cent per annum, on the Capital Stock of this Company, has been declared, payable December 1, 1917, to stockholders of record November 15, at 3 o'clock P. M.

Short Time Investments

2. The Guaranty Plan

Should automobiles be sold on time you ask?

Take sales at retail for instance, for even the most conservative banker approves of the application of ordinary commercial credit to wholesale transactions involving the purchase and sale of automobiles as well as any other new standard merchandise.

Installment banking, to be sound, must be premised upon identifiable merchandise, insured against practically all the hazards that inhere in the transaction, sold to individuals who establish adequate equity by substantial down-payment, and who have credit responsibility undoubtedly sufficient for the debt involved. The entire debt should be completely liquidated in a period considerably shorter than the useful life of the merchandise bought.

The Guaranty Plan is available only on standard makes of cars, produced by manufacturers of ample capital. Of course, every car is identifiable through serial and motor numbers.

The purchaser is required to pay down one-third the price of the car or more and to pay for insurance against fire, theft and conversion. This insurance is for the protection of all parties as their interests may appear.

Each purchaser must submit a signed statement and other proof of his ability to pay. His general credit standing is investigated.

Monthly payments on passenger cars may not exceed ten months, so that they far more than keep pace with depreciation. The average life of motor cars is four and three-quarter years.

Convincing proof of the economic soundness of the Guaranty Plan is provided in the collection record extending from the inception of the business to the present time.

Charts showing these collections will be gladly sent any bank or other investor.

All bad and doubtful debts have been charged off up to August 31, 1917. Of more than \$39,000,000. of paper bought to date losses have amounted to \$29,516.05. \$32,498,236.09 of this paper has matured, \$32,451,142.40 has been paid.

Should automobiles be sold on time? Indiscriminately, no. Under restrictions that yield the foregoing results, emphatically—yes.

Based on such paper there are issued Collateral Trust Securities maturing in from 2 to 10 months, which have been purchased by the foremost banks throughout the U. S. to a total of \$30,214,000.

May we send you our new booklet in which are presented in detail the full facts relating to this form of investment? It discusses such topics as the following:

Self Liquidation; Maturities;
Margin of Security; Volume of Paper;
Insurance Protection; 10,000 Name Paper;
Collection Record of Underlying Collateral;
Vocational Diversification of Underlying Names;
Geographical Distribution of Underlying Names;
Credit Check on Underlying Collateral.

MILK PRICE ANNOUNCEMENT

BY

BORDEN'S

FARM PRODUCTS COMPANY, Inc.

The price of milk at the farm is again increased, effective October 1, 1917. It naturally follows that our selling prices must also be increased.

The producers have named a price of \$3 10 per Cwt. for milk containing 3% butter-fat, with an additional 4c. for each one-tenth of one per cent of butter fat.

Judged by the fat content of the milk purchased this month and the record of October milk of former years, the quality of the milk purchased by this Company in October will average at least 3.9% butter-fat. These 9 points over 3% add 36c. to the base price of \$3 10, making a total cost of \$3 46 per Cwt., or approximately 7½c. per quart.

This is an increase of 1½c. per quart over present prices to the producer.

This makes necessary an Increase of at least 1½c. per quart in our selling prices.

We fear that in view of the present very large decrease in sales, this price increase will not be sufficient to cover the increased cost of milk and the greater fixed expense per unit, resulting from decreased volume of business, and leave a profit of one-half cent per quart. However, in view of the present trying conditions under which we are all living, we have decided to defer any increase beyond the 1½c. forced upon us, until such time as we have an opportunity to learn from our records and accounts of the extent to which the disposition of surplus milk and our decreased volume of sales under present prices have increased costs, as well as to observe the extent of any further decrease in sales following October 1st price adjustments.

A study of the latest costs under present reduced volume and particularly the effect of a further decrease in sales, if experienced, may make a further advance necessary in the near future.

However, under present conditions we prefer to forego reasonable profits temporarily and to make sure of the necessities of the situation rather than possibly to add unnecessarily to an already burdensome situation.

Effective October 1, 1917, and until further notice, selling prices will be as follows:

"Borden Three-Way Service"

Home Service—In Metropolitan District

Delivered at your home, in properly protected packages and at a proper temperature. Borden responsibility to your door:

Half Pts. Condensed Milk.....	.13
Half Pts. Route Cream.....	.16
Half Pts. Extra Heavy Cream.....	.21
Pts. Fluid Milk, Grade B.....	.07
Qts. Fluid Milk, Grade B.....	.14
Qts. Selected Milk Past., Grade A.....	.15
Qts. Certified Milk, Grade A.....	.20
Qts. Buttermilk.....	.10

Store Bottle Service—In New York City

Our bottled milk and cream delivered at stores for distribution by them, you taking delivery at the store. Less delivery service on our part, and more service on your part. Our delivered prices on quart packages to stores will be as follows:

Grade "A" Milk, Quarts....	13½c each
Grade "B" Milk, Quarts....	12½c each
Plus bottle deposit of 5c.	

Bulk Milk Service—In New York City

Grade "B" Milk, Creams, Buttermilk and Pot Cheese delivered in cans to stores for sale in bulk, you furnishing the container. The minimum of delivery service on our part, the maximum of service on your part. Grade "B" Milk, the product in which the public is chiefly interested

Will be delivered to stores for 10c per quart

The selling prices asked by the stores for both bottle and bulk goods are matters for their own decision. It can be readily seen, however, that if a whole cent is added to the price paid us it will still be possible for you to effect savings of from ½c. to 3c. on the quart of milk.

FRESH milk always of great food value to young and old is at these prices one of the most economical foods procurable. FRESH milk has a palatability and food value all its own.

Profits

in

United States Government Bonds

In all probability the tremendous number of investors now being taught to buy United States Government Bonds will create a demand that will, after the war, cause United States credit to sell as before, on approximately a 3% basis.

The present Liberty Loan, having back of it such wonderful security, offers at the same time a strong probability of a handsome increase in market value.

The investors of this country will not likely have another chance, after this war's financing, to buy such absolute security with such a strong probability of increase in principal.

This organization offers you its services in handling all details of your subscription to the second Liberty Loan.

THE FINANCIAL SITUATION.

We agree with Secretary McAdoo in thinking that it would be a calamity worse than a disaster upon the battlefield if the present Liberty Loan offering of \$3,000,000,000 should in any way fall short of proving an unqualified success. Therefore, it is encouraging to find the Secretary himself and banking and financial interests making such tremendous efforts to ensure a volume of subscriptions that will not only put failure out of the question, but afford an aggregate of investment takings that will be on a level with the magnitude of the country's resources, and in full consonance with the spirit and determination of the whole population to achieve victory in the present great conflict, whatever the sacrifices that may be required to that end. The campaign for the floating of the loan is being conducted with a vim and energy that leaves nothing to be desired, and makes it certain that the great mass of our citizens will rally to the support of the offering in a way and to an extent that will redound to the country's lasting glory.

Nevertheless, it will be the part of wisdom not to take any chances of jeopardizing the outcome in the slightest degree by neglect to guard against the effects of certain menacing features in the situation. The decline in security values on the Stock Exchange is a disheartening influence whose effects extend beyond the confines of the Exchange. It is the more potent for mischief because the shrinkage in values is particularly pronounced in the case of railroad securities. And here unfortunately there is a substantial basis for the shrinkage that is going on. One needs only to examine the returns of earnings as they come in month by month to realize that the prospects of these carriers are not such as to raise bright visions. Quite a number of returns of earnings, gross and net, for the month of August have come to hand the present week and they tell a dismal story of the unfortunate predicament in which the railroad carrying interest finds itself. The bearing of this on the floating of the loan will be readily recognized. With railroad profits reduced, dividend and interest payments on the securities of the carriers must in like manner diminish. This in turn strikes a blow at the intrinsic value of the securities, and further undermines the credit of the companies, already seriously impaired.

The decline in railroad securities is assuming alarming proportions, but is merely an expression of the actual facts of the situation. Who is to blame for all this? The answer is, the Inter-State Commerce Commission, which refuses to grant living rates of pay to the carriers for the transportation services they render. Only recently it denied a request for a 15% increase in freight rates on the ground that the carriers were not in need of such relief. It permitted merely some trivial increases in special articles and commodities. The result is now seen in railroad returns that refute absolutely the contention of the Commission that the carriers are not in need of generally higher rates. We will take for illustration only a few conspicuous instances. The New York Central in its August return shows gross earnings increased in the respectable sum of \$1,462,457; unfortunately this was attended by an augmentation in expenses of not less than \$2,798,690, thus leaving an actual loss in net of \$1,337,233. For the eight months ending with August gross earnings record a

gain of \$7,608,068, but the increase in expenses amounts to no less than \$17,965,623, giving a loss in net in the large sum of \$10,357,555.

The Pennsylvania Railroad has an exhibit of like character. For the eight months up to Aug. 31 it added no less than \$32,725,521 to the gross, but expenses increased \$43,337,120, producing a loss in net in amount of \$10,611,599. The Erie Railroad in its August return shows \$496,300 increase in gross earnings, but expenses mounted up in the sum of \$1,346,558, leaving a loss in net for the month of \$850,258. For the eight months this road has added \$2,810,140 to its gross revenues, but expenses have moved up in amount of \$7,962,587; as a consequence the net records a diminution in the sum of \$5,152,447. The net for the eight months this year is only \$7,261,944, as against \$12,414,391 in the eight months of last year.

Why, therefore, should not the Inter-State Commerce Commission do its patriotic duty and grant the carriers immediately an advance in rates commensurate with their needs. The losses in net earnings here disclosed furnish a warrant for the decline in security values on the Stock Exchange. This decline should be arrested, since in the nature of things it must tend to diminish the volume of subscriptions to the Liberty Loan. Manifestly, the owners of these securities, if they should be inclined to borrow on their holdings, will find their ability to do so seriously impaired by reason of the shrinkage in the market values. Not only that, but these holders will be less inclined to borrow, as they see the value of their investments shrink. We repeat, therefore, why should not the Commerce Commission come to the rescue and help at once to restore the value of these investments and thereby contribute powerfully to swell the volume of subscriptions to the Liberty Loan?

There is the more reason for relieving the railroads of their onerous burdens as it unfortunately happens that the drastic income and excess profits taxes levied under the War Revenue Act, which was put on the statute books the present week, also tend materially to weaken the ability of large numbers of the population to subscribe for the new Liberty bonds to the extent that they would wish. It is generally admitted that the Government's borrowings must come out of future savings, but these onerous tax burdens (along with the high cost of living, which is the natural concomitant of war) will unquestionably weaken the capacity of important classes of the population to save in any important degree. Indeed, as a result of these taxes and the method of levying them, such meager sums will in the case of many small businesses be left out of the year's profits, that those interested in these concerns will in not a few instances find it hard to meet ordinary living expenses.

The trouble about the excess profits tax is that it is not a tax at all on war profits or excess profits. Under the method of levying the tax, not a few individuals whose profits now are actually smaller than they were before the war, will be called upon to pay heavier amounts in taxes than some of those who are deriving very important gains from the war. The conferees made important changes in the language of this part of the measure, but the underlying principle, which is a vicious one, remains unaltered. This principle is that the business man is entitled to

an allowance of only a moderate percentage on the actual cash capital invested, and that the remainder should accrue to the Government. In statute-making many of our Congressmen and Senators are as thoroughly imbued with socialistic ideas as the individuals who are now endeavoring to establish a socialistic form of government in Russia, and are making a laughing-stock of themselves in the eyes of the whole world. We have indicated in previous articles how the new excess profits tax in this country is going to work, and the changes made by the conferees in the bill have not modified it greatly for the better. Definition of the invested capital has been broadened so as to include some allowance for good-will and for copyright, patents, &c., but the provision is so circumscribed and restricted and the language so involved that it is difficult to say whether any considerable advantage will result to the smaller business concerns from the same. On the other hand, the conferees have actually lowered the rate of return that is to be allowed as a maximum on the capital investment. The Senate bill had fixed the allowance at an amount not less than 6% or more than 10% of the actual invested capital for the taxable year. The conferees have changed this so as to allow not less than 7 or more than 9% of the invested capital, besides which a round exemption of \$3,000 is granted where no exemption was allowed before in the case of a corporation. Altogether, it still remains true, therefore, that instances will be numerous where business men, who for a long series of years have enjoyed an annual income of say \$15,000, will find themselves with only \$4,000 or \$5,000 left, after paying all the various kinds of taxes imposed under this new law.

The daily papers have featured the fact that under Section 209 of the law a tax of 8% per annum is imposed in the case of a trade having no invested capital or not more than a nominal capital, and that by Section 200 of the law it is provided that the terms "trade" and "business" shall include professions and occupations. From this the deduction has been made that the commission merchant, the lawyer, the doctor, and the dentist with large incomes but engaged in a business requiring little or no cash investment are treated with unusual harshness or severity. The impression has been distinctly created that these will be called upon to stand a tax which no one else is required to pay. The truth is that those in this category have reason to congratulate themselves, since they have been especially favored. Their excess profits tax will be limited to 8% of the net income, whereas in all other cases there will be a much heavier rate of taxation, beginning with 20% as a minimum and running up very quickly to 60%. Chairman Simmons of the Senate Finance Committee and one of the conferees on the bill, is certainly right in saying that "if this (meaning the 8% tax) is a joker, then every provision in the bill is a joker."

We have only room to add that as regards the controversy affecting the tax-free covenant in corporation bonds under which the corporations have been paying the tax, since the old law required collection of the tax on corporation bonds at the source of the income, and for which it had been proposed to substitute merely the furnishing of information at the source, thus throwing the burden of paying the tax upon the bondholder—here a compromise provision was

inserted in the bill by the conferees. As the Act now stands, the corporations will continue to pay the original normal tax of 2%, but will not be required to assume the additional normal tax of 2%.

The foreign trade figures of the United States for August 1917 are surprisingly good considering the restrictive effect upon exports of the various embargo measures put in force by the Government to restrict the outflow of foodstuffs and other merchandise to neutral countries of Europe. It is likely, also, that the shortage of tonnage has not been an un-Norwegian element in the situation, as the U-boat during the signally failing to cause any serious merchant ships food supplies of Great Britain, 800 were lost. Twenty materially reduced there killed and 17 others were portation facilities. T. attention to emphatically this week statement of Sir Joseph Maclay, the British Vice-troller of Shipping, which intimates that unless the United States faces the shipping problem and constructs 6,000,000 tons of shipping annually its military efforts will be crippled from the start.

The effect of the restricting influences above referred to is most clearly apparent at the Port of New York, where the aggregate of exports in August was the smallest of any month since January 1916, notwithstanding the much higher prices recently ruling for almost all commodities and the continued urgent call for supplies by our allies. Moreover, the decline in the outflow hence during the month, as compared with a year ago, reached 95 million dollars, an amount that if added to the exports for the period from the whole country would give an aggregate in excess of any monthly period in our history, excepting only January 1917. And it is at this point that the effect of the embargoes have been most seriously felt.

We say the result is surprisingly good considering all this and the truth of the remark will appear when we note that the export total for the United States for August at \$490,009,828 compares with \$510,167,438 in 1916 (the high record for the period) and with \$260,609,995 in 1915. For the eight months since January 1 1917 the shipments of merchandise at a value of \$4,153,080,749, contrast with \$3,435,501,945 the previous year, are 1,923 million dollars larger than for the similar period of 1915, and 600 millions in excess of the total for the full calendar year 1915. To what an extent high prices have been a contributing element in the current year's total may be conjectured from the fact that the latest officially issued list of export prices (that for June) puts wheat at \$2 72, against \$1 27 a year earlier; corn, \$1 66, against \$0.83; flour \$10 36, against \$5 52; cotton .223 cents, against .132 cents; structural iron and steel \$84 48 per ton, against \$56 50 (and all other items in that schedule have proportionately advanced); sole leather .596 cents, against .393 cents; while all important meat and dairy products are up from 9% to over 90%, &c.

Imports of commodities for the month, though somewhat under those for May and June of 1917, were yet of full volume, at \$270,509,379, exceeding those for any preceding August and last year by 71 million dollars. Furthermore, the total for the eight months is the heaviest on record for such a period and indicates in the main the increased purchasing power of the country as a result of the prosperity prevailing. At the same time, however, high prices have been instrumental here too in swelling

THE FINANCIAL SITUATION.

We agree with Secretary McAdoo in thinking that it would be a calamity worse than a disaster upon the battlefield if the present Liberty Loan offering of \$3,000,000,000 should in any way fall short of proving an unqualified success. Therefore, it is encouraging to find the Secretary himself and banking and financial interests making such tremendous efforts to ensure a volume of subscriptions that will not only put failure out of the question, but afford an aggregate of investment takings that will be on a level with the magnitude of the country's resources, and in full consonance with the spirit and determination of the whole population to achieve victory in the present great conflict, whatever the sacrifices that may be required to that end. The campaign for the floating of the loan is being conducted with a vim and energy that leaves nothing to be desired, and makes it certain that the great mass of our citizens will rally to the support of the offering in a way and to an extent that will redound to the country's lasting glory.

Nevertheless, it will be the part of wisdom not to take any chances of jeopardizing the outcome in the slightest degree by neglect to guard against the effects of certain menacing features in the situation. The decline in security values on the Stock Exchange is a disheartening influence whose effects extend beyond the confines of the Exchange. It is the more potent for mischief because the shrinkage in values is particularly pronounced in the case of railroad securities. And here unfortunately there is a substantial basis for the shrinkage that is going on. One needs only to examine the returns of earnings as they come in month by month to realize that the prospects of these carriers are not such as to raise bright visions. Quite a number of returns of earnings, gross and net, for the month of August have come to hand the present week and they tell a dismal story of the unfortunate predicament in which the railroad carrying interest finds itself. The bearing of this on the floating of the loan will be readily recognized. With railroad profits reduced, dividend and interest payments on the securities of the carriers must in like manner diminish. This in turn strikes a blow at the intrinsic value of the securities, and further undermines the credit of the companies, already seriously impaired.

The decline in railroad securities is assuming alarming proportions, but is merely an expression of the actual facts of the situation. Who is to blame for all this? The answer is, the Inter-State Commerce Commission, which refuses to grant living rates of pay to the carriers for the transportation services they render. Only recently it denied a request for a 15% increase in freight rates on the ground that the carriers were not in need of such relief. It permitted merely some trivial increases in special articles and commodities. The result is now seen in railroad returns that refute absolutely the contention of the Commission that the carriers are not in need of generally higher rates. We will take for illustration only a few conspicuous instances. The New York Central in its August return shows gross earnings increased in the respectable sum of \$1,462,457; unfortunately this was attended by an augmentation in expenses of not less than \$2,798,690, thus leaving an actual loss in net of \$1,337,233. For the eight months ending with August gross earnings record a

gain of \$7,608,068, but the increase in expenses amounts to no less than \$17,965,623, giving a loss in net in the large sum of \$10,357,555.

The Pennsylvania Railroad has an exhibit of like character. For the eight months up to Aug. 31 it added no less than \$32,725,521 to the gross, but expenses increased \$43,337,120, producing a loss in net in amount of \$10,611,599. The Erie Railroad in its August return shows \$496,300 increase in gross earnings, but expenses mounted up in the sum of \$1,346,558, leaving a loss in net for the month of \$850,258. For the eight months this road has added \$2,810,140 to its gross revenues, but expenses have moved up in amount of \$7,962,587; as a consequence the net records a diminution in the sum of \$5,152,447. The net for the eight months this year is only \$7,-261,944, as against \$12,414,391 in the eight months of last year.

Why, therefore, should not the Inter-State Commerce Commission do its patriotic duty and grant the carriers immediately an advance in rates commensurate with their needs. The losses in net earnings here disclosed furnish a warrant for the decline in security values on the Stock Exchange. This decline should be arrested, since in the nature of things it must tend to diminish the volume of subscriptions to the Liberty Loan. Manifestly, the owners of these securities, if they should be inclined to borrow on their holdings, will find their ability to do so seriously impaired by reason of the shrinkage in the market values. Not only that, but these holders will be less inclined to borrow, as they see the value of their investments shrink. We repeat, therefore, why should not the Commerce Commission come to the rescue and help at once to restore the value of these investments and thereby contribute powerfully to swell the volume of subscriptions to the Liberty Loan?

There is the more reason for relieving the railroads of their onerous burdens as it unfortunately happens that the drastic income and excess profits taxes levied under the War Revenue Act, which was put on the statute books the present week, also tend materially to weaken the ability of large numbers of the population to subscribe for the new Liberty bonds to the extent that they would wish. It is generally admitted that the Government's borrowings must come out of future savings, but these onerous tax burdens (along with the high cost of living, which is the natural concomitant of war) will unquestionably weaken the capacity of important classes of the population to save in any important degree. Indeed, as a result of these taxes and the method of levying them, such meager sums will in the case of many small businesses be left out of the year's profits, that those interested in these concerns will in not a few instances find it hard to meet ordinary living expenses.

The trouble about the excess profits tax is that it is not a tax at all on war profits or excess profits. Under the method of levying the tax, not a few individuals whose profits now are actually smaller than they were before the war, will be called upon to pay heavier amounts in taxes than some of those who are deriving very important gains from the war. The conferees made important changes in the language of this part of the measure, but the underlying principle, which is a vicious one, remains unaltered. This principle is that the business man is entitled to

an allowance of only a moderate percentage on the actual cash capital invested, and that the remainder should accrue to the Government. In statute-making many of our Congressmen and Senators are as thoroughly imbued with socialistic ideas as the individuals who are now endeavoring to establish a socialistic form of government in Russia, and are making a laughing-stock of themselves in the eyes of the whole world. We have indicated in previous articles how the new excess profits tax in this country is going to work, and the changes made by the conferees in the bill have not modified it greatly for the better. Definition of the invested capital has been broadened so as to include some allowance for good-will and for copyright, patents, &c., but the provision is so circumscribed and restricted and the language so involved that it is difficult to say whether any considerable advantage will result to the smaller business concerns from the same. On the other hand, the conferees have actually lowered the rate of return that is to be allowed as a maximum on the capital investment. The Senate bill had fixed the allowance at an amount not less than 6% or more than 10% of the actual invested capital for the taxable year. The conferees have changed this so as to allow not less than 7 or more than 9% of the invested capital, besides which a round exemption of \$3,000 is granted where no exemption was allowed before in the case of a corporation. Altogether, it still remains true, therefore, that instances will be numerous where business men, who for a long series of years have enjoyed an annual income of say \$15,000, will find themselves with only \$4,000 or \$5,000 left, after paying all the various kinds of taxes imposed under this new law.

The daily papers have featured the fact that under Section 209 of the law a tax of 8% per annum is imposed in the case of a trade having no invested capital or not more than a nominal capital, and that by Section 200 of the law it is provided that the terms "trade" and "business" shall include professions and occupations. From this the deduction has been made that the commission merchant, the lawyer, the doctor, and the dentist with large incomes but engaged in a business requiring little or no cash investment are treated with unusual harshness or severity. The impression has been distinctly created that these will be called upon to stand a tax which no one else is required to pay. The truth is that those in this category have reason to congratulate themselves, since they have been especially favored. Their excess profits tax will be limited to 8% of the net income, whereas in all other cases there will be a much heavier rate of taxation, beginning with 20% as a minimum and running up very quickly to 60%. Chairman Simmons of the Senate Finance Committee and one of the conferees on the bill, is certainly right in saying that "if this (meaning the 8% tax) is a joker, then every provision in the bill is a joker."

We have only room to add that as regards the controversy affecting the tax-free covenant in corporation bonds under which the corporations have been paying the tax, since the old law required collection of the tax on corporation bonds at the source of the income, and for which it had been proposed to substitute merely the furnishing of information at the source, thus throwing the burden of paying the tax upon the bondholder—here a compromise provision was

inserted in the bill by the conferees. As the Act now stands, the corporations will continue to pay the original normal tax of 2%, but will not be required to assume the additional normal tax of 2%.

The foreign trade figures of the United States for August 1917 are surprisingly good considering the restrictive effect upon exports of the various embargo measures put in force by the Government to restrict the outflow of foodstuffs and other merchandise to neutral countries of Europe. It is likely, also, that the shortage of tonnage has not been an unduly important element in the situation, as the United States is signally failing to cause any serious shortage in the food supplies of Great Britain, and has not materially reduced the shipping and transportation facilities. The Government has called attention to emphatically this week in a statement of Sir Joseph Maclay, the British Controller of Shipping, which intimates that unless the United States faces the shipping problem and constructs 6,000,000 tons of shipping annually its military efforts will be crippled from the start.

The effect of the restricting influences above referred to is most clearly apparent at the Port of New York, where the aggregate of exports in August was the smallest of any month since January 1916, notwithstanding the much higher prices recently ruling for almost all commodities and the continued urgent call for supplies by our allies. Moreover, the decline in the outflow hence during the month, as compared with a year ago, reached 95 million dollars, an amount that if added to the exports for the period from the whole country would give an aggregate in excess of any monthly period in our history, excepting only January 1917. And it is at this point that the effect of the embargoes have been most seriously felt.

We say the result is surprisingly good considering all this and the truth of the remark will appear when we note that the export total for the United States for August at \$490,009,828 compares with \$510,167,438 in 1916 (the high record for the period) and with \$260,609,995 in 1915. For the eight months since January 1 1917 the shipments of merchandise at a value of \$4,153,080,749, contrast with \$3,435,501,945 the previous year, are 1,923 million dollars larger than for the similar period of 1915, and 600 millions in excess of the total for the full calendar year 1915. To what an extent high prices have been a contributing element in the current year's total may be conjectured from the fact that the latest officially issued list of export prices (that for June) puts wheat at \$2 72, against \$1 27 a year earlier; corn, \$1 66, against \$0.83; flour \$10 36, against \$5 52; cotton .223 cents, against .132 cents; structural iron and steel \$84 48 per ton, against \$56 50 (and all other items in that schedule have proportionately advanced); sole leather .596 cents, against .393 cents; while all important meat and dairy products are up from 9% to over 90%, &c.

Imports of commodities for the month, though somewhat under those for May and June of 1917, were yet of full volume, at \$270,509,379, exceeding those for any preceding August and last year by 71 million dollars. Furthermore, the total for the eight months is the heaviest on record for such a period and indicates in the main the increased purchasing power of the country as a result of the prosperity prevailing. At the same time, however, high prices have been instrumental here too in swelling

the aggregate, especially of breadstuffs, chemicals, cotton and manufactures, hides and skins, and wool and manufactures. The eight months' total for this year at \$2,049,252,217, compares with \$1,667,136,054 in 1916 and \$1,150,858,760 in 1915. The net result of our foreign trade for August is an export balance of \$219,500,449, this contrasting with \$310,850,958 last year, and \$118,805,793 two years ago. For the eight months the favorable balance is \$2,103,828,532, a total exceeding by 54 million dollars the imports for the period and contrasting with \$1,891 last year and \$1,080,628,442 in 1915. The movement of August netted a loss to the country of \$27,357,136. The inflow of gold reached \$18,692,170, but the outflow of \$18,719,306, of which upwards of \$10,000,000 was for Spain, approximately 13 per cent to Spain and the remainder in greatest measure to various destinations in South America. For the eight months our net gain of gold reached \$206,524,789, this following net import balances of \$202,744,207 and \$212,925,875, respectively for the period in 1916 and 1915.

Cotton, which in the closing days of September had already recovered most of the decline of the early part of that month and late August—ruling extremely high withal—moved upward further in value the current week, following the publication on Tuesday of the first ginning statement of the current season and the report of the Department of Agriculture on the status of the crop Sept. 25. The latter report indicated a greater deterioration in condition than had been generally anticipated, and its announcement on the floor of the New York Cotton Exchange immediately stimulated an active speculation that carried prices for the staple up over \$5 per bale net within the day, and there has since been a further rise, middling upland spot cotton reaching 27.25 cents on Wednesday, or but little under the high level reached in July, and closing last night at 26.75 cents per pound. As officially promulgated, the condition of the crop on Sept. 25 was 60.4% of a normal, or lower than usual at that date, but comparing with 56.3 at the same time last year, 60.8 two years ago, 73.5 in 1914 and a ten-year average of 65.7. Furthermore, the Department stated that a condition of 60.4 on Sept. 25 foreshadows a yield per acre of only 168.3 lbs., and this, applied to the Government's estimated area of 34,600,000 acres, allowing 1% for abandonment, indicates an aggregate production of 12,047,000 bales, not including linters, this being barely 600,000 bales above the short yield of the previous season.

According to this final report on condition, every State makes a poorer showing than on Aug. 25. The deterioration during September in Texas, where condition was already given as very low, is stated as only 2 points, but in Oklahoma it reaches 22 points, Tennessee 15 points, Mississippi 12, Arkansas 11, Alabama and California 10, and elsewhere ranges from 2 points in Arizona to 7 points in North Carolina. Contrasted with last year the outlook is less favorable in Texas, California, Tennessee and Virginia, but much better in South Carolina, Louisiana, Alabama and Mississippi, and especially so in the last two, where the 1916 crop was signally poor. In fact, the forecasted yield per acre in Alabama is 140 lbs., against only 79 lbs. last year, and in Mississippi 183 lbs., against but 125 lbs. On the other

hand, the Texas estimate is only about a quarter of a bale (135 lbs.), against 157 lbs.

It is to be explained, of course, that the foregoing forecast is based upon the Sept. 25 condition and is subject to modification or revision up or down, according as future weather, including time of frosts (a point of greater importance than usual this year with the crop very late in maturing over much of the area), is better or worse than average. In a memorandum issued in conjunction with the condition report, the Crop Reporting Board of the Department of Agriculture refers to insects, boll worms and weevils as having caused heavy loss in Texas, Oklahoma, Arkansas, Louisiana, Mississippi, Tennessee, Alabama, Florida and Georgia, while cool weather, drought, shedding, wilt, blight and the lack of potash in fertilizers are also mentioned as important adverse factors. It is intimated, too, that, although rain in the drought-stricken sections of Texas stimulated plant growth, the maturing of a top crop there is extremely doubtful, and that in much of the more northerly portion of the belt the full maturing of a considerable quantity of cotton is dependent upon a late frost. Damage from the Gulf hurricane of last week is reported as small, the crop in the territory involved having been largely picked.

The memorandum also notes that picking is general and being pushed, except in northern districts, but there is a scarcity of pickers in many sections. The lateness of the crop and the labor shortage finds virtual confirmation in the statement of amount of cotton ginned to Sept. 25, issued by the Census Bureau just prior to the making public of the condition figures. In all only 2,498,381 bales had been ginned to the date mentioned, notwithstanding the high prices ruling, which should act as a stimulant to marketing cotton. This is the smallest total reported since 1910, and compares with no less than 4,081,989 bales for the period in 1916 and 2,903,829 bales in 1915.

Bank clearings in the United States for September 1917 reflect the continuation of marked activity in commercial and industrial lines as a whole. High prices, too, are playing their part in swelling the totals, while a decrease in the volume of speculation, as compared with a year ago, has had no mentionable effect upon the result except at New York. It thus happens that the latest total of clearings sets up by a fair margin a new high record for the particular month covered, as does the aggregate for the period since Jan. 1. Latterly, it must be admitted, there has been discernible a tendency towards lessened activity in some lines of trade and industry, and the various restrictive measures put in force by the Government, such as the export embargo—in contracting the outflow of goods from this port, serve to diminish the volume of clearings here.

Only 30 of the 176 cities included in our statement given on the first page of this issue exhibit any loss for September, while gains of 20% or more over the extremely heavy aggregate of the month a year ago are quite numerous. Furthermore, several cities exhibit totals the heaviest of any monthly period in their history, among them Rockford, Tacoma, Sacramento, Reno, Ogden, Santa Rosa, Aberdeen, Joplin, Grand Forks, Richmond and Savannah. The showing at New York is very good in view of the decline in speculative activity on the Stock Exchange.

Railroad earnings, reflecting the very heavy movement of goods, show very important gains in gross over the large figures of 1916, though the net earnings, owing to the great augmentation in operating expenses, are unsatisfactory. The building industry, adversely affected by high cost of materials or their scarcity and inability to secure an adequate labor force, has slumped notably.

For the country as a whole the total of clearings sets a new high record for September, and contrasted with 1916 there is a gain of 5.1%. For the nine months since Jan. 1 the current year's aggregate is 23.6% in excess of a year ago and 75.7% greater than for 1915. At New York the September clearings disclose a slight decrease from last year—3.3%—this following a gain then of 49.7% over the heavy totals of 1915. The nine months' aggregate is 19.9% more than that of 1916 and considerably larger than the twelve months' aggregate of 1915. Outside of New York the September result is 19.3% better than a year ago, and for the longer period there is an increase of 29.2%. At many individual cities notable gains for the nine months are to be mentioned, this remark applying particularly to Philadelphia, Wheeling, Erie, Chicago, Detroit, Cleveland, Milwaukee, Indianapolis, Akron, San Francisco, Seattle, Salt Lake City, Spokane, Tacoma, Fresno, Ogden, Kansas City, Omaha, St. Joseph, Sioux City, Topeka, Grand Forks, St. Louis, New Orleans, Richmond, Fort Worth, Atlanta, Memphis, Chattanooga, Little Rock, El Paso and Tulsa.

Dealings on the New York Stock Exchange in September, while in excess of those for either July or August, were of considerably smaller volume than for the month a year ago. Furthermore, the trend of values was downward and noticeably so in some of the more important railroad issues as well as in several leading industrial stocks. Operations in stocks for the month totaled 13,822,775 shares, against 29,992,582 shares in 1916 and 18,399,286 shares in 1915, while for the nine months they reached 140,676,380 shares, against 138,862,182 shares and 115,133,248 shares. Bonds, also, were less freely dealt in during the month, the transactions approximating only about 85 million dollars par value, against 97 millions last year. It is to be noted, however, that while the contraction in the dealings in railroad and miscellaneous bonds was very marked and operations in foreign securities, such as the United Kingdom, Anglo-French, American Foreign and Dominion of Canada issues, were in the aggregate well below last year, transactions in the Liberty Loan 3½s were of very large amount, totaling some 45½ million dollars, the bonds advancing to a satisfactory premium as the month closed.

The general mercantile and industrial situation in Canada continuing satisfactory in the main; the clearings exhibit for the Dominion for September is of much the same favorable nature as that for the United States. Briefly, the increase for the month in the total for the 23 cities furnishing comparative figures is 12.0%, while for the nine months the excess over a year ago reaches 22.4%.

A still further decrease marks the report of the British Admiralty on the losses of tonnage resulting from enemy submarines and mines. Only 11 British merchantmen of more than 1,600 tons each and 2 of smaller size were sent to the bottom during the

week ending last Saturday, making a new low record for any week since the inauguration of the German submarine campaign of frightfulness. It is possible that the steady decline in effectiveness of the underwater boats may in a measure be due to systematic preparations to intercept American transports carrying troops. This is something, however, that time alone can demonstrate. The British cruiser *Drake* is reported officially to have been torpedoed on Tuesday morning off the north coast of Ireland. She reached a harbor but then sank in shallow water. One officer and 18 men were lost. The Norwegian Legation at Washington announces that during the week ending with Sept. 19 Norwegian merchant ships of an aggregate tonnage of 30,800 were lost. Twenty Norwegian seamen were killed and 17 others were reported missing.

The "London Gazette" of Oct. 2 printed an official proclamation prohibiting the exportation to Sweden, Norway, Denmark and the Netherlands of all articles except printed matter of all descriptions and personal effects in the keeping of their owners. It later appeared, however, that this simply meant that there could be no exports to these countries without license. We discuss the subject in a separate article on a subsequent page.

The raids by German airmen on London have become almost a matter of daily occurrence and have undoubtedly had the effect of causing widespread nervousness. The demand for retaliation has finally become so insistent that the War Cabinet is understood to have decided in favor of creating an Air Ministry with a separate war service. The crowd of poor people in the southwest district of London appealed on Tuesday to the Premier, Lloyd George, for reprisals. The Premier shouted a response to the crowd, "we will give it all back to them, and we will give it to them soon. We shall bomb Germany with compound interest." The crowd cheered the promise of the Premier who had just completed a tour of the area damaged in the recent raids. Press dispatches from London point out that the Germans by the employment of 50 machines and at the most 200 men (including aviators and mechanics) have caused England to detach several hundred valuable guns and several thousand men, including skilled gunners, for home defense. The results of this campaign apart from these military factors have been the killing or wounding of fewer civilians and the damaging of property to a much smaller extent than the German people believe, but the indirect damages cannot be taken lightly. One London correspondent describes some of the effects as follows:

The normal life of the largest city in the world and of important coast cities has been disturbed for ten days and the industries and working capacity of the people of London have been seriously handicapped. For an average of more than two hours on six nights the majority of Londoners have been forced to give up their pursuits and take shelter in basements, public buildings, and underground railways, while the guns were roaring in battle above. Railway travel has been largely at a standstill during these periods and all classes of night work have been interfered with, while day work has been curtailed. The prolonged bombardments of heavy guns would be trying to the nerves of all but the strongest, and physicians say the nervous strain and loss of sleep has had a serious effect upon women and children. What the people of London are asking

now is why they should undergo these attacks without the Germans having to suffer similarly. ~~and~~

Yesterday's dispatches state that the War Cabinet has decided to carry out an elaborate program of strict retaliation on German cities for German raids over English cities. It will be practically an aerial offensive of tremendous proportions. Gen. Smutz, who with Premier Lloyd George is credited with inventing the aerial barrage which has proved partly successful in repelling raiders on London, appeared likely to be selected as the man in charge of the new Aero Department.

The French have already begun to retaliate and now are systematically bombing German cities. The inauguration of the program was announced on Tuesday, the official statement in part reading as follows:

The Germans last night made a new attack on the town of Dunkirk. The bombardment was very violent, causing serious material damage. It is reported there were numerous victims among the civilian population.

In reprisal for the bombardments carried out by the Germans against Bar-le-Duc and Dunkirk, our aviators last night threw bombs on the towns of Frankfort-on-the-Main, Coblenz, Treves and Stuttgart.

Our bombarding airplanes made numerous expeditions, in the course of which 2,120 kilograms (4,664 pounds) of explosives were thrown on military buildings in Roulers and 6,000 kilograms (13,200 pounds) on the railway stations at Metz-sur-Woippy and Thionville, the aerodrome at Chambley, encampments at Spincourt and Tilly, and munition depots at the Longeau Farm, where a violent explosion was observed.

On Thursday Frankfort-on-the-Main and Rastatt-Baden, 14 miles southwest of Karlsruhe, were effectively shelled from the air. In addition, the British and French flyers are keeping up their raids over German points of military advantage behind the fighting lines, again having loosed large quantities of explosives upon them.

The British have this week occupied the most prominent position in the military operations. East of Ypres in Flanders they have made a most important and successful drive which some correspondents compare with results achieved by the battle of the Marne. Yesterday the British forces occupied trenches on the crest of most of the high ground in the Ypres salient following a tremendous blow to the enemy on an eight mile front. The villages of Reutel, Noordenhoek, Polderhoek, Molenaersthoeke, Broodseinde and Gravenstafel were captured and the greater part of Poelcapelle was taken. The German losses were so severe that Crown Prince Rupprecht attempted only a few counter attacks. The Berlin report declares that the gain of the British was "restricted to a strip of land 1 to 1½ kilometres deep running from Poelcapelle via the eastern spur of Zonnebeke and along the road to Becelaere." The Berlin announcement says that the battle was of unusual intensity, but that the fourth army succeeded in withstanding the British attack. There has been no cessation in the extremely violent artillery duel between the French and the Germans in the Verdun sector. The Germans made another infantry attack north of Hill 344 in this region but were repulsed with heavy casualties.

Near Jacobstadt which lies midway between Riga and Dvinsk on the northern Russian front preparations are under way for a violent battle. Petrograd reports an intense artillery duel in progress in this region which is taken to indicate that the Germans are seeking to pave the way for the crossing of the Dvina river. To the south the Germans again are endeavoring to fraternize with the Russians, begging them to come out of their trenches, but the Russians are answering by firing upon their enemies. In the Austro-Italian theatre Gen. Cadorna's forces have been compelled to sustain further heavy counter-attacks from the Austrians reinforced by German reserve forces on the slopes of Monte San Gabriele near Gorizia. The attacks like similar ones delivered during the past have been repelled.

Conditions in Russia continue highly unsettled. But Premier Kerensky still seems to maintain control. The latest authority appears to be what is known as the "Democratic Congress" which is a development from the Democratic conference, representing nearly all political interests, held in Petrograd on Sept. 28. There are indications that the plan for a preliminary parliament advocated by certain strong groups in the Congress will not meet with opposition from the Government providing the property owning classes receive a fair representation in it. The Congress demanded that no step toward naming a Cabinet should be made without the sanction of the Congress, but Kerensky on Thursday announced the personnel of a new coalition Ministry which already had been chosen. The constitutional democratic party, against which the Democratic Congress has been in opposition, is represented by three members of this new cabinet. The portfolios of Foreign Affairs, War, Marine and Interior remain unchanged. Petrograd newspapers state that the preliminary parliament which the Democratic Congress has decided to set up will be a provisional body of a consultative not legislative character. It will be empowered, however, to consider questions of foreign policy. The Government is to supply it periodically with all information concerning the situation in the country.

The London market has been absorbed in discussing the prospects of the new British loan, details of which, it will be recalled, appeared in these columns last week. It is significant that the new bonds bear 5% and are convertible into any higher rate long-term issues that may be found necessary during the war. They are subject to the income tax and are offered at par. The amount of the issue is not limited—to quote a London expression, they are "on tap"—but the new bonds pay more than 5%, since they are repayable at 102 in 1922, 103 in 1924 and 105 in 1927, thus providing a not unattractive premium. The loan plan also includes 4% bonds with income tax compounded offered at 100 and repayable at 105 in 1927. Our own Liberty Bonds, which are being offered simultaneously, bear only 4% and are exempt from all taxation (including the ordinary income taxes), except estate and inheritance taxes, &c., but are subject (after making an allowance for the interest on \$5,000 for all holders) to the surtaxes on incomes and are convertible into any bonds at a higher rate that the Treasury may find it necessary to issue during the

continuance of the war. The experience of Britain certainly suggests that higher rates will eventually be necessary unless, as at the moment seems so improbable, the war should come to a sudden and unexpected end. The official lists for the English bonds were opened on Tuesday. Beyond the announcement that large initial subscriptions were received, no details of a definite nature have come forward by cable. The old $4\frac{1}{2}\%$ loans have ruled strong because they are convertible at par "and accrued interest" into the new issue, but the current 4 per cents not having the convertible privilege have experienced some degree of selling pressure. The national balance sheet for six months ending Sept. 30 was considered satisfactory, taken as a whole. The Chancellor's budget expenditure estimate for the whole year was £2,290,000,000. The half-year's experience showed a total of £1,347,399,000, which is below the usual excess that since the war began has been attending budget estimates. The official summary for the half-year follows:

Expenditures.....	£1,328,053,000
Other net outgo.....	19,346,000
Total	£1,347,399,000
Revenue.....	£255,222,000
Treasury bills (repayments deducted).....	484,929,000
Exchequer bonds.....	82,110,000
War savings certificates.....	166,550,000
Ways and means advances (less repayments).....	3,280,000
Other debt.....	332,519,000
Exchequer balances reduced.....	4,731,000
Total revenue (including minor items).....	£1,347,399,000

The tone of the London market is described as subdued. Italian issues have been in rather greater demand because of the reopening of the Rome Stock Exchange on Oct. 1. Russian bonds were heavy, owing to the reported delay in arranging for the October coupons on the Russian 4% loan of 1889. It has not been reported by cable whether the coupons have actually been paid, although there does not appear to be any real fear of actual default. It is significant that the National City Bank of New York has this week issued a notice to holders of the Russian $5\frac{1}{2}\%$ internal ruble bonds of 1916, first and second issues, that application can be made from Oct. 1 to Oct. 31, inclusive, to have matured interest coupons on these bonds paid in United States currency in New York until receipt of new advice from the Russian Government, by presenting the bonds for numerical registration at the bank in question. After this presentation the coupons from the bonds so registered will, the bank announces, be paid in United States currency at a rate to be fixed by the Russian Government monthly.

The English price level of commodities is showing a slight reactionary trend. The London "Economist's" index number for the end of September, as received by cable, indicates a reduction of 24 points from the high record figures of August, now standing at 5634, against 5658 in August and 4423 in September a year ago. A rather clearer indication of the actual situation is suggested by the fact that the current price is 156.1% above the basic price of 2200, which represents the average of the commodities concerned for the five-year period 1901-1905. A year ago the figure represented an increase of 101% as compared with an increase of 16.6% at the beginning of the war (July 31 1914). The reduction in September was mainly due to a decline from 1342 to 1221½ points in cereals and meat; other food products, for instance, tea, sugar, &c., increased to 726 points

from 670, while textiles are 1509½ points, as against 1504½ points a month ago. Minerals declined 7½ points for the month, and miscellaneous, rubber, timber, oils, &c., advanced from 1311½ to 1354½.

Beginning to-day, Saturday's sessions of the Paris Bourse will be resumed, but trading will end at 1 o'clock instead of 2 o'clock. The French moratorium has been extended for three months from Oct. 1. Daylight saving regulations also end to-day in France, the clocks being returned to normal time. The volume of trading on the Bourse is far from active. Russian bonds have been showing some weakness. Copper stocks have declined in sympathy with the American market and the news that the American Government had arbitrarily fixed the selling prices of the metal. Chief interest in financial Paris seems to be centring in the remarkable developments following the arrest of Bola Pacha, charged with having relations with the enemy. The chief charge against the prisoner is that he endeavored to buy up, in order to affect public sentiment in France, leading French papers, receiving the funds from Germany through leading banks in New York. The American Government has furnished effective aid in uncovering the transactions in this country. The prisoner has been refusing food, but after forcible feeding has become sufficiently strong to permit arrangements for an early trial.

There have been no changes in official rates at leading European centres from 5% in London, Paris, Berlin, Vienna and Copenhagen; $5\frac{1}{2}\%$ in Italy, Portugal and Norway; 6% in Petrograd, and $4\frac{1}{2}\%$ in Switzerland, Holland and Spain. In London the private bank rate is still quoted at $4\frac{3}{4}\%$ for sixty days and 4 13-16% for ninety days. No reports have been received by cable of open market rates at other European centres, as far as we have been able to learn. Money on call in London has remained at 4%.

The Bank of England records another substantial addition to its stock of gold, namely £630,775, although the total reserve showed a small reduction, £16,000, in consequence of an increase of £647,000 in note circulation. The proportion of reserve to liabilities declined to 18.89%, against 19.50% last week and 21.23% a year ago. Public deposits were reduced £1,773,000 and other deposits decreased £7,042,000. Government securities, however, increased £546,000. Loans (other securities) registered an expansion of £4,778,000. The Bank's gold holdings aggregate £55,727,381, as against £54,630,520 a year ago and £61,249,793 in 1915. Reserves total £32,348,000. This compares with £36,016,190 in 1916 and £46,823,273 the year preceding. Loans now stand at £98,371,000, which contrasts with £109,167,555 last year and £119,266,493 in 1915. The English Bank reports as of Sept. 29 the amount of currency notes outstanding as £162,989,755, as against £161,014,598 the previous week. The amount of gold held for the redemption of such notes is still given as £28,500,000. Our special correspondent is no longer able to give details by cable of the gold movement into and out of the Bank for the Bank week, inasmuch as the Bank has discontinued such reports. We append a tabular statement of comparisons:

BANK OF ENGLAND'S COMPARATIVE STATEMENT.

	1917. Oct. 3.	1916. Oct. 4.	1915. Oct. 6.	1914. Oct. 7.	1913. Oct. 8.
	£	£	£	£	£

Bank rate.....	5%	6%	5%	5%	5%

A further increase is shown by this week's statement of the Bank of France in its gold item of 1,845,975 francs, thus carrying the total of the Bank's gold on hand to 5,321,227,500 francs, of which 3,284,119,000 francs are held in vault and 2,037,108,500 francs abroad, as against 4,840,446,362 francs a year ago, when 4,165,888,287 francs were held in vault and 674,558,075 francs abroad, and 4,601,340,011 francs in 1915, all of which was held in vault. Silver holdings declined 504,000 francs. Note circulation recorded the large expansion of 425,209,000 francs. General deposits decreased 10,498,000 francs. Bills discounted showed a gain of 153,460,000 francs, while Treasury deposits were reduced 11,337,000 francs. The Bank's advances increased 2,147,000 francs. Note circulation aggregates 21,421,033,000 francs, which compares with 17,011,143,820 francs in 1916 and 13,664,084,765 francs the preceding year. In the week ending July 30 1914, the amount was 6,683,184,785 francs, that being the last statement issued by the French Bank after the commencement of hostilities until Dec. 24. Comparisons of the various items with the statement of last week and the corresponding dates in 1916 and 1915 are as follows:

BANK OF FRANCE'S COMPARATIVE STATEMENT.

Last week's statement of New York associated banks and trust companies, issued on Saturday, showed a loss in surplus reserves—although not an important one. Loans were increased \$46,290,000. Net demand deposits expanded \$34,220,000 to \$3,535,610,000 (Government deposits of \$240,626,000 deducted). Net time deposits, however, declined \$1,166,000. Cash in own vaults (members of the Federal Reserve Bank) expanded \$4,484,000 to \$84,682,000 (not counted as reserve). Reserves in the Federal Reserve Bank of member banks was reduced \$14,702,000 to \$366,481,000. Reserves in own vaults (State banks and trust companies) decreased \$3,724,000 to \$92,614,000. Reserves in other depositories (State banks and trust companies) registered a substantial increase, namely \$17,785,000. Circulation is now \$32,029,000, an increase of \$163,000. The aggregate reserve this week recorded a nominal loss of \$641,000 to \$569,066,000 (not counting \$84,682,000 cash in vault of member banks of Reserve system). At the corresponding period last year the total on hand was \$657,580,000, including cash in vault. Reserve requirements registered an increase of \$5,101,400, in consequence of which surplus reserves were reduced \$5,742,000, thus bringing the total of excess

reserves down to \$77,012,120, on the basis of only 13% reserves for the member banks of the Federal Reserve system (but not counting cash in vaults held by these banks). Last year the surplus reserve amounted to \$89,189,570 on the basis of reserve requirements of 18%. The bank statement is given in fuller detail in a subsequent section of this issue.

Despite the efforts of important banking interests to allay fears of stringency during the closing months of the year, it is not an over-statement that a considerable degree of nervousness concerning the money outlook does in fact still exist. We have referred in recent issues to the action of the Committee of Bankers connected with the Liberty Loan campaign in inducing banks and trust companies to release funds for fixed maturities secured by industrial collateral exclusively. A further definite step was taken by the committee this week, details of which were announced officially by the Federal Reserve Bank of New York on Monday. The announcement was in effect that in view of the approaching period during which large payments will be made on account of the new issue of Government bonds, the committee has considered it prudent to make arrangements with a large number of the banks and trust companies to place at the disposal of the committee a fund to be loaned as needed at the discretion of the committee. The committee states that it has pledged that a very large sum would be provided of which more than \$200,000,000 will be available immediately. It is expected to quote the announcement "that by this means the credit resources of the Federal Reserve Bank will be made available as needed." The natural effect of such an announcement was to provide an easier position for the call money market. But there seems to have been no appreciable relaxation as to definite maturities. The operations of the committee in making loans are not published in detail. Information is not available for instance as to whether the plans contemplate large time loans as well as sufficient offerings of demand accommodation to keep rates for the latter from becoming a source of unsettlement. There can be no question that the most practical form the relief could well take would be in the form of time loans for sufficiently distant dates to permit unrestricted mercantile and financial engagements extending into the new year. One important banker suggested to the writer that if the committee would name a 5% rate for three months loans which would bring the maturity after the usual year-end strain the action would be one of the most effective that could be taken to afford actual relief to the money position as a whole. Capital applications under the conditions that are now current are necessarily being restricted to the smallest possible limits. Severe liquidation in the stock market appears to be one of the direct results of the nervousness in money circles. As the price level declines additional margins are required by brokers, as well as the banks. The latter are showing a disposition to strengthen their positions, with a view of handling the specific demand connected with the distribution of the new war loan. It is of interest that the Federal Reserve Bank at New York, and presumably those at other centres, have decided to retain their rediscount rate on Government bond transactions that was current during the distribution of the June loan, that is to say, 3½%. The net result, of course, will be that the banks and trust companies will be able to lend

money to subscribers to the second loan at 4% (the rate of the bonds themselves) and to themselves rediscount the obligations at the Federal Reserve Bank at 3½%. This action should prove of assistance in making the new offering a success. Subscriptions to the \$400,000,000 block of Treasury short-term certificates of indebtedness recently offered closed on Tuesday. The amount was oversubscribed, though exact figures are not forthcoming. It is understood that New York banks took their usual share of such securities.

Dealing with specific rates for money, call loans this week ranged between 2 and 6%, against 2½ and 7% a week ago. Monday 6% was the high and ruling quotation, with 2% low. On Tuesday the highest was 5%, while the low was 3% and renewals at 4%. Wednesday the range was 4@5%, with 4½% the renewal basis. On Thursday the maximum was still 5%, which was also the renewal rate, and 4% the minimum. Friday's range was 3@4½%, with 4% the renewal figure. Time money ruled firm, particularly during the earlier part of the week when the supply of loanable funds was extremely scarce. Later, however, several large lenders came forward with offerings at 6%, causing a slightly easier tone, although the belief is expressed that no substantial reduction in rates need be looked for until the Government loan is out of the way. Sixty day funds are now quoted at 5½@6%, against 5¼@5¾%, while ninety days, and four, five and six months' money has continued at 5½@6%, with most of the business done at the latter-named figure. Last year sixty-day funds were quoted at 3¼@3½%, ninety days at 3¼@3½% and four, five and six months at 3½%.

Commercial paper rates were not changed from 5¼@5½% for sixty and ninety days' endorsed bills receivable and six months' names of choice character. Names less well known still require 5½@5¾%. Trading was dull and featureless.

Banks' and bankers' acceptances were quiet. The current high rates for funds on collateral loans have served as a check to this class of business. Quotations ruled firm, with detailed rates as follows:

	Spot Delivery			Delivery within 30 Days.
	Ninety Days.	Sixty Days.	Thirty Days.	
Eligible bills of member banks.....	3½ @ 3½	3½ @ 3½	3½ @ 3¼	3½ bid
Eligible bills of non-member banks.....	3½ @ 3½	3½ @ 3½	3½ @ 3½	4 bid
Ineligible bills.....	5 @ 4	4½ @ 4	4¼ @ 3¾	5½ bid

No changes in rates were announced this week by any of the Federal Reserve banks, as far as our knowledge goes. Prevailing rates for various classes of paper at the different Reserve banks are shown in the following:

DISCOUNT RATES OF FEDERAL RESERVE BANKS.

Note.—Rate for bankers' acceptances, 2½% to 4%. For notes, drafts and bills of exchange issued or drawn for the purpose of buying or carrying bonds, notes or certificates of indebtedness of the U. S., and secured thereby, having a maturity at time of discount of not more than 90 days, 3¼%.

In sterling exchange business seems to be confined almost exclusively to cable transfers, rates for which are maintained without deviation from 4 76 7-16. Sight bills, both bankers' and commercial, also are about maintained. But in other classes of bills a fractional decline in rates may be recorded at the close. There have been few features of interest this week. Licenses for gold export are not being applied for with any degree of freedom, the idea apparently prevailing that they will not be granted except under unusual conditions. No engagements of gold for export have been announced during the week.

Referring to quotations in detail, sterling exchange on Saturday, comparing with Friday of last week, was practically unchanged with demand still quoted at 4 7535, cable transfers at 4 76 7-16 and sixty days at 4 71 $\frac{5}{8}$ @4 71 $\frac{7}{8}$. Monday's market showed some irregularity, due mainly to uncertainty regarding mail schedules, and the persistent tightness in money; demand was a shade lower at 4 75 $\frac{1}{4}$ @4 7535, although cable transfers were not changed from 4 76 7-16 and sixty days from 4 71 $\frac{5}{8}$ @4 71 $\frac{7}{8}$; the perceptible broadening in the parity between sight bills and cables is attributed to the fact that, on account of the lack of definite information concerning prospective sailing dates, transactions are being put through almost exclusively by means of cable transfers, thus rendering the inquiry for sight bills practically negligible. Trading was limited in volume on Tuesday and the tone still irregular; demand declined to 4 75 $\frac{1}{4}$ @4 7530 and sixty days to 4 71 $\frac{1}{4}$ @4 71 $\frac{1}{2}$; cable transfers, however, remained pegged at 4 76 7-16. On Wednesday the situation was quiet and rates continued to rule at 4 75 $\frac{1}{4}$ @4 7530 for demand, 4 76 7-16 for cable transfers and 4 71 $\frac{1}{4}$ @4 71 $\frac{1}{2}$ for sixty days. Dulness was the chief feature of Thursday's operations; demand ranged at 4 75 $\frac{1}{4}$ @4 75 5-16, but cable transfers and sixty day bills were unchanged. On Friday the market was easy, though actual rates were still without change. Closing quotations were 4 71 $\frac{1}{4}$ @4 71 $\frac{1}{2}$ for sixty days, 4 75 $\frac{1}{4}$ @4 75 7-16 for demand and 4 76 7-16 for cable transfers. Commercial sight finished at 4 75@4 75 3-16, sixty days at 4 70 $\frac{5}{8}$ @4 71 $\frac{1}{8}$, ninety days at 4 68 $\frac{5}{8}$ @4 68 $\frac{7}{8}$, documents for payment (sixty days) at 4 70 $\frac{5}{8}$ @4 70 $\frac{7}{8}$ and seven-day bills at 4 74 $\frac{1}{4}$ @4 74 $\frac{3}{8}$. Cotton and grain for payment closed at 4 75@4 75 3-16.

Transactions in the continental exchanges this week, so far as the belligerent countries are concerned, were exceptionally light in volume and movements without especial significance. Changes in quotations, in fact, were confined for the most part to fractions. The week's developments in the Russian political situation were somewhat unsettling and rubles continued to rule at practically the low levels of last week's close. Trading, however, was insignificant, and the quotation little better than nominal. Lire were slightly firmer, and francs fairly well sustained, though no specific activity was noted in either case. No dealings in German or Austrian exchange are being put through and quotations are not available. The sterling check rate on Paris remains, as heretofore, at 27.18. In New York sight bills on the French centre closed at 5 79¼, against 5 80 a week ago; cables at 5 77¾, against 5 78; commercial sight at 5 80, against 5 80½, and commercial sixty days at 5 85, against 5 85¼ a week ago. Reichsmarks, no quotations. Kronen, no quota-

tions. Lire finished at 7 73 for bankers' sight bills and 7 72 for cables, which compares with 7 76 and 7 75 on Friday of last week. Rubles closed at 15.25, as against 15.25 the week previous. Greek exchange has not been changed from 5 12½ for checks.

In the neutral exchanges the feature was a sharp rise in Scandinavian exchange and the establishment of a new high record for exchange on Stockholm, which shot up to 37½ for checks, while sight bills on Christiania touched 32¼, also a new high point. Market factors previously mentioned, notably the operation of the Government's embargo on exports, which is causing a persistent scarcity of commercial offerings, were held responsible for the upward movement. Swiss francs were steady. Spanish pesetas continued very firm, while guilders ruled at or near the high levels of the preceding week. Bankers' sight on Amsterdam closed at 42¼, against 42½; cables at 42½, against 42¼; commercial sight at 42 3-16, against 42 1-16, and commercial sixty days at 42¼, against 41 15-16 a week ago. Swiss exchange finished at 4 71 for bankers' sight and 4 68½ for cables. This compares with 4 72 and 4 69½, respectively, on Friday of last week. Copenhagen checks closed at 31.50, against 30.80. Checks on Sweden finished at 36.50, which compares with 34.00, and checks on Norway closed at 32.00, as against 31.00 a week ago. Spanish pesetas finished at 23.25. Last week the closing rate was 24.00.

The New York Clearing House banks, in their operations with interior banking institutions, have lost \$1,453,000 net in cash as a result of the currency movements for the week ending Oct. 5. Their receipts from the interior have aggregated \$7,039,000, while the shipments have reached \$8,492,000. Adding the Sub-Treasury and Federal Reserve operations, which together occasioned a loss of \$71,299,000, the combined result of the flow of money into and out of the New York banks for the week appears to have been a loss of \$72,752,000, as follows:

Week ending Oct 5	Into Banks	Out of Banks	Net Change in Bank Holdings
Banks' interior movement.....	\$7,039,000	\$8,492,000	Loss \$1,453,000
Sub-Treasury and Federal Reserve operations.....	40,116,000	111,415,000	Loss 71,299,000
Total.....	\$47,155,000	\$119,907,000	Loss \$72,752,000

The following table indicates the amount of bullion in the principal European banks:

Banks of	Oct 4 1917			Oct 5 1916

a Gold holdings of the Bank of France this year are exclusive of £81,484,340 held abroad.
 * The gold holdings of the Bank of Russia for both years in the above statement have been revised by eliminating the so-called gold balance held abroad. On the latest reported date, the amount so held, £230,890,000.
 c July 30 1914 in both years. h Aug. 6 1914 in both years.

THE RESTRICTION ON EXPORTS TO NEUTRALS.

The newspapers of last Wednesday published an Associated Press dispatch from London, stating that "the 'Gazette' prints a proclamation prohibiting the exportation to Sweden, Norway, Denmark and the Netherlands of all articles, except printed matter of all descriptions and personal effects accompanied by their owners." This would have been so sweeping a move of policy, and would have involved so

extensive a change in trade as it has been conducted even during the war, that readers of the dispatch were frankly bewildered. If it were actually to be assumed that, because of the possibility that exports from Great Britain to the European neutrals might be passed along to Germany, therefore all exports to neutral markets would cease, then the export trade of England would be reduced by nearly \$310,000,000, on the basis of her actual shipments of merchandise to these four neutrals in the calendar year 1916. Supposing imports from these neutrals into England to continue in last year's magnitude, the "trade indebtedness" of England to them, as represented in 1916 by the \$194,000,000 excess of imports over exports, would be increased to more than \$500,000,000. The following table, from the British Board of Trade's report on last year's foreign commerce, shows what the actual status of England in this matter is:

	Exports to	Imports from
Sweden	£6,581,000	£20,597,000
Norway	10,891,000	16,674,000
Denmark.....	11,863,000	22,955,000
Netherlands.....	33,596,000	41,477,000
Total.....	£62,931,000	£101,703,000

The possibility of such a change in trade would naturally be reflected in England's foreign exchange market, and indirectly in our own; because, since sterling is supported at a virtually fixed valuation here, any further violent depreciation of sterling at Stockholm or Copenhagen would naturally result in sales of exchange on London here, and remittance of the proceeds to the European neutral markets. As a matter of fact, exchange rates on the Scandinavian markets moved sharply against New York on these reports of the London embargo. All of them touched the highest rates of war-time this present week. Swedish exchange, in particular, which stood at 34 cents to the kroner on Monday, went to 35¾ on Tuesday and 37¾ on Thursday; the last-named rate representing a premium of 31% over normal parity.

It soon turned out that the scope of the British embargo plans had been greatly over-stated. On Thursday morning the London dispatches reported that "the proclamation prohibiting exports to Sweden, Norway, Denmark and Holland involves no new policy, but is only an extension of the principle heretofore followed by the Allies. Its object is, briefly, to require licenses for the exportation of goods of all kinds, with the two exceptions mentioned—printed matter and personal effects." The dispatch added that "up to the present time certain classes of unimportant commodities have been exempt as regards licenses, but the new order will enable the authorities to control the whole export trade and direct its flow," and that "in order to secure uniformity of practice it has been decided to treat all goods alike."

It remained uncertain, however, and will for a good while remain so, how large will be the scope of the embargo on the neutrals, on England's part and on ours. The policy of control by government license—which our Government has formally adopted under the Embargo Act of June 15 and the President's proclamation of Aug. 26—has two aspects; its political effect and its economic effect. The political reason for this placing in the Government's hands of the power to restrict or prohibit exports to a given country has been clear from the start. Neutral European countries with a seaboard of their own, but in uninterrupted communication with Germany on the other

side, were at least able to import from England or America merchandise which would subsequently be passed along to Germany, thereby practically breaking the blockade of the German coast.

This possibility created an awkward problem for England while our own country was neutral. During the fiscal year ending with June, 1915, for instance, our own exports to Holland were larger by about 30% than in the year ending with June, 1914; the increase being \$32,000,000. To Sweden we shipped in the fiscal year 1915 nearly four times as much as in 1914; the increase being \$63,000,000, and our exports to Denmark increased from \$15,600,000 to \$79,800,000. The British Government endeavored to conduct or control what was inferred to be the indirect provisioning of Germany; but our own neutral position rendered its effort mostly impracticable.

The case now is obviously different; for any nation can do, in the way of prohibiting exports of its own goods to other countries, what it could not do, conformably to international law, in the way of prohibiting exports from one neutral to another. In the case of our wheat exports, particularly, our own case admitted of being stated in such a way that no reasonable objection could be made even by the neutrals. Our supply of wheat was notoriously insufficient to meet the full requirements of home and foreign consumers. Therefore we set up the principle that our own people must be provided for first, our allies next, and that the rest of the world, so far as our own surplus was concerned, must take its chance.

The President's proclamation, however, has greatly extended the scope of this provisional embargo. It now embraces not only wheat, but all foodstuffs, munitions, raw materials and many manufactures. Government license is required before such exports can go out either to our allies or to neutral countries; but the fact that the restriction would be applied to the European neutrals primarily and perhaps exclusively was well understood. Countries such as Holland and the Scandinavian States have answered, first, that the increase in their imports from the United States had been necessary because of decrease in merchandise received from other markets, chiefly the belligerents. This contention did not conclusively prove the case; and in fact, proof was rendered especially difficult from the fact that a European neutral might import a given quantity of grain, for example, from the United States, might use that grain for home consumption and might then export to Germany an equal quantity of grain from its own production.

Complete foreign trade statistics of these neutral countries, which would largely settle the merits of this question, have been unobtainable by the general public, though they are believed to be in the hands of the United States Government. But some light was thrown on the question by discovery of a compact whereby Holland, in order to get coal and similar commodities from Germany, had to pledge that she would send to Germany three-fourths of her total export of vegetables and butter, five-eighths of her total export of cheese, and as much of her cattle exports as she sent to other countries.

There can be no doubt of the importance, as a war measure, of restricting Germany's access to the products of the outside world, and especially to the products of her enemies. It is not so clear what will be the results on our relations with these neutral

Powers themselves. Complete embargo on food exports from the United States to Holland or Scandinavia would involve great hardship on the people of those countries. How would their political attitude, as between the Central Powers and the Entente Allies be affected? What would be the effect on their future relations with America? The end achieved may be so important as to supersede all such considerations, but the matter cannot be wholly overlooked.

What, on the other hand, will be the result on our own foreign commerce of this or a still more rigid embargo? In the calendar year 1916 we exported \$284,000,000 merchandise to the four countries, Denmark, Norway, Sweden and Holland. That was only a fraction of our \$5,481,000,000 total exports for the year; but it counted in the reckoning, and the fact that last July and August, for the first time since 1914, our monthly export trade has fallen below that of the year before—the decrease being \$70,000,000 in the one month and \$20,000,000 in the other—possibly emphasizes this consideration. Nevertheless, what will be watched with the larger interest by the general public is the testimony of events as to how this "tightening of the blockade" will affect the fortunes of the war, and the willingness of the German people to prolong it through another winter.

THE SECOND LOAN FOR THE WAR.

On behalf of the Government, Oct. 1 1917, Secretary of the Treasury McAdoo offered to the people of the country three billions of dollars of United States bonds, bearing 4% interest, payable twenty-five years from Nov. 15 1917, and redeemable, at option, ten years thereafter. Details of the offering will be found on a subsequent page, and under the extensive campaign for subscriptions will soon become familiar to every citizen. As in the original issue for two billions of dollars, these bonds bear the convertibility clause, and, within a stated period after a subsequent issue, may be exchanged for bonds bearing any higher rate of interest that may be decided upon.

Purely as a matter of investment, the opportunity to subscribers is an attractive one, since the bonds are free from ordinary taxes, bear a rate equivalent to that of the best-paying of our Eastern savings banks, and are in denominations of fifty dollars and multiples thereof, bringing them within the reach of all. In order to fully appreciate the value of these bonds, the subscriber should consider carefully the term for which they are to run, keeping always in mind the convertibility advantage written in. Speaking of the previous issue, it was indicated by us that a probability existed of an increased rate. Looking ahead, at the undertakings under way, the estimated needs of the Government already made, it is altogether probable that another issue of bonds will be offered early in the coming year. And since these transactions involve such tremendous amounts, testing the capacity of the people to furnish them immediately as called, it is quite probable that any subsequent issue will bear a still higher rate of interest than the 4% affixed in the present one. But a perspective of the ten years to run offers some interesting considerations to the investor.

One thing must be very apparent to the person of small means able to invest, we will say, from one to five thousand dollars; here is one means of setting

aside a sum that will be absolutely free from any and all the business vicissitudes that may come after the war. If the laboring man does not know what changed conditions will bring to his present wage earnings, be they high or low, he knows that his principal here is secure and his interest certain. And the same is true of the small independent capital of the man of small business. To the extent of his ability to invest he is insured against changing fortunes and he has no premium to pay. And when the conditions brought about by the war are considered, when the man of small business realizes his own personal impotency in the midst of world-currents of trade, he cannot but look upon these bonds as an anchor of safety that cannot elsewhere be duplicated. And it is not necessary to predict business disasters after the war in order to recognize this import of the opportunity which the nation's exigency makes possible.

On the other hand, while the rate of interest, supposing it to remain at four per cent, is to be compared by the prospective investor, especially the man of small means, with a prospective money rate that may be larger, the weight of the security behind is to be considered, together with an average loan rate preceding the war. Credit is a marvelous transformer. On the surface, during a period of readjustment, one would expect governments, individuals and corporations, to "pay more for money" than prior to the breaking out of the conflict. But this by no means inevitably follows. So many considerations enter into the issue and retirement of credit that no one knows. But when "money" is high, bonds are not cheap. And there attaches a compensatory advantage which still favors an investor in such a high grade security. So that, all things considered, safety of principal and rate of interest, as a *ten-year proposition* these bonds are very attractive.

In comparison with rentes and consols these small denomination bonds (speaking still of a prospective ten-year period) must look to the comparative volume of war issues and the probable ascending rate, for the establishment of a stable world-market price over the ten-year period. Supposing the desired ten million subscribers are found for this issue, the home-market price will tend, through the *necessary* trading which will follow, to advance to a premium, while the *number* of the bonds which may be offered by a given year would tend toward a depreciation below par, considerations which would not affect one who subscribes to hold. And not only is there likely to ensue a greater volume of home trading in Government bonds after the war than before, because of the large numbers who are now becoming investors, but by the very nature of changed and changing conditions in the principal countries of the world there will be greater and wider volume of trading in the securities of all countries. Small subscribers need not consider remote possibilities as a matter of personal guidance, since it is sufficient to say that in any time approaching normal no better security can be offered a bank as collateral, regardless of the small range of premium or depreciation, than a four per cent bond of the United States.

As a *means* of saving, the ten-year perspective is again to be brought into account. The great volume and number of these bonds afford a constant *place* in which to put savings. By subscribing now the

investor acquaints himself with all the details of issue, and with the probabilities that attach to the bonds. He has something which he can buy *after* his savings pay for his present subscription. He knows the security and the rate. He can continue to lay up his savings in this way whether or not there be another issue. And all these considerations are matters aside from the opportunity to aid the Government through patriotism.

LOOKING FORWARD TO THE PEACE COUNCIL.

Highly commendable, we think, is the action of President Wilson in selecting Colonel E. M. House to make a study of the elements and conditions of a lasting peace between the nations of the world. Press dispatches containing the announcement make it very plain that this work has no connection with any movement which the United States may make concerning either the terms or time of peace, as this may relate to the conduct of the present war, which is to be vigorously prosecuted on lines already laid down. It is merely a preliminary step looking to information on the part of the Government that will enable it to perform its duties and exert the full measure of its influence when the time does come to sit at a council table of peace.

It is made plain, further, that this work is undertaken in an entirely independent manner and is not connected with similar work carried on by other Governments, and that it is unrelated to our national diplomacy. Emphasis is laid upon the statement that this research is undertaken not for the purpose of *settling* internal European problems between the several States, but to enable the United States to attain a helpful position by the exercise of opinions, due to its disinterestedness, when these many and distracting problems shall come up in the conference for settlement. The main intent is to consider in advance the components of a lasting peace, what must be done by all the signatory Powers to that mighty document for world security, and how and when they shall take these necessary steps.

All peace plans in all lands and by all societies will be studied, and, as we understand it, briefed, for the attention of the President and the Commissioners on the part of the United States whenever, in the future, they are called into being. Whatever the ultimate peace plan may be, it must relate itself, in some degree, to those insistent questions of territory and polity which are now involved in the engulfing strife. Thus, the scope of the inquiry is indicated by the studies Colonel House and his corps of assistants will make. "He will collect the knowledge to be had about the Dardanelles; he will learn what he can about the aims and purposes and result of proposed steps in the Balkans, the facts as to the situation in South Africa, where German colonies have been taken by the British; exact statements of conditions in Belgium, what it will cost to restore that country and northern France, will be gathered; the Trentino will be studied; the plans and facts about Poland and Bohemia; the facts about Armenia and Syria; a study of Alsace-Lorraine and its problems—in short, all the problems with which the European diplomat is now familiar, will be studied and reported upon."

As announced, the United States stands outside an adjustment of internal European affairs, save only as this adjustment shall have an effect upon the

constructive and lasting peace which is to follow. It is conceivable that these adjustments might be made in a way, shall we say so temporary and insecure, so bound up by the influence of greater powers, that small States would still find themselves a bone of contention and in such straits that they could not maintain or even assert their independence and real integrity. The preliminary peace, in short, when the time comes to make it, must assure the possibility of the permanent peace. As we conceive it, the United States, fighting its own war, will make its own peace. Not, however, is the general belief of those best in a position to know, without deference to those nations with whom it is waging a common cause; nor will these nations enter into terms without consulting the United States. Consequently, when it comes to practical measures, there is need for the widest information and the profoundest judgments. And these the President has wisely seen fit to inaugurate.

The very magnitude of this task is proof of its necessity and importance. As constructive work, in the very hour when a besom of destruction shakes the foundations of States and society, it must serve to fill the heart of our people with confidence and hope. May we not believe that in this timely act the President has pointed to the pole-star of all his hope and all his effort—universal and lasting peace? Objection is seemingly made in some Administration circles to peace discussions at this time as indicative of a wavering or weakening purpose upon the part of the nation, but if we rightly interpret this step by the President, it is equivalent to saying that while inconsiderable discussions of peace might have a tendency to exert an undesirable influence upon the people, might tend to place the country in a false light before the world, the people may and should *think* on that lasting peace which it is hoped and intended, if possible, shall come upon free democracies, and States large and small, as a final result of war; and that so thinking, there is no need for a suppression of speech that is careful, exact and judicious with reference to time, place and content. For what the Government may do in the way of this preliminary preparedness for a final negotiation, under our systems of government, the people may likewise do.

Not a few of the strong minds of the world are looking forward to a great spiritual awakening on the part of mankind after the war. This attitude may be indicated in the contents of Mr. Wells's book, "God, the Invisible King." It is to be a renaissance of that "religion of humanity" so much heralded a decade ago, or even twenty years or more ago, when Mrs. Humphrey Ward published her novel, "Robert Elsmere." There is to be abounding sacrifice, a universal willingness to beat the swords into plowshares. President Wilson indicated in his famous address that the problem of peace very closely connected itself with general disarmament. But just as democracy and peace are all-embracing terms, so must the "dream" of to-day, when that good time shall come, be translated into a reality. There are the elements, consisting of a "world police," a "world court" and a "world league," with proportionate representative voting power, to be considered. And then there are conditions, nations and peoples as now constituted, to which elementary and fundamental principles must be fitted. Given a whole world humbled, contrite and compassionate, the task yet

remains of being, as we say, practical. And for this, wisdom must ever rest on knowledge. And so while the war is being prosecuted this proposed work can go on quietly, and to the highest advantage.

We read, therefore, in this salutary act of the President an admonition to the pacifist and an inspiration to the soldier—that the former shall not at this time press too far his hopes and opinions of peace, that the latter shall press on with confidence, each feeling that the aim and end is war present in the means, that the war shall never in any sense degenerate into selfish reprisal. And it becomes incumbent upon the people to consider well in their inmost minds, in their heart of hearts, the components of "democracy," and the imperative sacrifices all nations and their citizens must make to "lasting peace." Before, over a torn and sundered world, the flag of universal unity shall fly, the heart of humanity must be changed. An intensive study of conditions must lead to a knowledge of causes, and these in turn must lead to remedies. If, and we merely offer the conjecture, these investigations shall show that age-long repression of trade resulted, in large degree, in those pent passions which burst forth finally in this world conflict, then lasting peace and progress would seem to be inseparably interwoven with trade as the instrument of man's activities, as the natural and helpful outlet for his resist-
less energies. This is but one of the many questions.

To us, it is good to look upon this work going on unobtrusively as the war progresses. And very properly, it is a thing apart from the struggle. Only the other day, ex-Premier Asquith in an address declared, in substance, that as a lesson of the war, we must dismiss utterly from the mind the old doctrine that strength of armament was a condition of the preservation of peace. If this be true, an elucidation of the fact must come before the council when it shall meet. But how show this, at a time when minds are not yet cooled from contest, save by an able presentation of the whole philosophy of peace and war? We repeat, this is a noble constructive work in the midst of appalling destruction. It augurs the sincerity, the unselfish aim, the unshaken poise, of a nation at war. We hope the people of the country will appraise at its full significance, and to its commanding worth, this act of the President.

"PLENARY POWERS."

After a call at the White House to-day (said a Washington news item of last Monday) Senator Lewis of Illinois said he will propose a bill "giving the President full power to do anything during the forthcoming recess of Congress that may be called for by any sudden emergency." The Senator told him, continued the news item, that "we" could get the War Revenue bill passed this week, pass the Soldiers' Insurance bill next week, and adjourn by the end of the following week; the President, he said, is anxious that the Insurance bill pass, "so that the families of the soldiers can have security and the soldiers can have peace of mind." Mr. Lewis thinks "it would be wise (so he is reported as saying) for Congress to pass a law giving the President full power to do anything in the recess of Congress that may be called for by any sudden emergency, whether from international complications or home price-fixing of commodities for war necessity; this would prevent calling Congress before the regular December meeting and also give im-

mediate legality to any action, however unexpected." Mr. Lewis said the President "expressed himself as deeply appreciative of the generous course of Congress towards him, particularly in its refusal to hamper him in any way in any of his executive functions or of intruding party opposition or personal policies against necessary measures."

On Monday Mr. Lundeen of Minnesota offered in the House a joint resolution directing the President to lay an embargo on such foodstuffs as are necessary for home consumption and for our forces abroad; he would have the President (the news item says) "seize and apportion foodstuffs among the people when it proved necessary because of high prices and scarcity."

Were it not that seriousness as the opposite of humor appears so general in Congress, we might suspect Senator Lewis of a little concealed sarcasm; but that might be doing him injustice. The date of the regular session is only nine weeks from last Monday; are lurking emergencies so many that even a few weeks cannot be risked?

But as to the "plenary powers" proposed, that adjective is defined as "full in all respects or requisites, entire, absolute." Let us summon our imaginations and suppose that Congress had passed a law of five lines, last spring, thus: "That during the term of this war the President be and he is hereby constituted absolute dictator over and in respect to all persons and property within the United States or subject to their jurisdiction"? We do not think it injustice to Mr. Wilson to say that he would have cheerfully accepted this, and with as much appreciation of the generosity of Congress as Senator Lewis now says he expresses. It is evident that such an enactment would have been intelligible as to its purport, requiring nobody to puzzle over clumsy syntax and seemingly inconsistent sections; a vast amount of expenditure in money, time, and wrangle would also have been avoided. Congress could have gone home immediately, and the country could have settled down to discovering its situation and to acting accordingly, as best it might.

Does this possibly seem to any reader as either factious criticism or as flippant and exaggerated trifling with the gravest of matters? Does it seem to him that the proposition to grant plenary powers ("power to do anything in the recess of Congress that may be called for") is preposterous when viewed as against the past six months, or that there is really any room for granting, in substance, any additional powers? If so, we are serious in saying that scarcely anything remains to be added, as far as the language of statute can go. Consider the many statutes, by some called constructive and in the line of national preparation, which have been pushed through: for example the monstrous revenue bill, the espionage bill, the "control" bill. Whoever sits down and goes through these documents of prodigious length and sweep, poring over them until he has gathered an idea of how far they go and how much they involve, cannot escape seeing that they amount practically to an absolute dictatorship, however benevolent and wise and cautious he may assume that will be exercised. We might particularly say this of the "control" bill or bills, since absolute power is conferred in those over so many necessities, and since productive and trading operations are so interwoven and so interdependent that whatever touches them touches everything.

It is truthfully said that war cannot be conducted by a committee, and the Constitution recognized necessity in making the President Commander-in-Chief. Mr. Lincoln made his own decisions, as one man always must; he did not consult Congress about the command of the Army of the Potomac. On the other hand, he did not ask bills giving him absolute control. He was burdened with his responsibilities; he was serious, slow, cautious; he had an almost superhuman vision; but he never sought to force Congress.

Of some of the wild work of this session (particularly of the revenue bill) Congressmen are quoted as apologetically saying that its crudities and wrongs can be taken up at the regular session; yet still the clamor is that two remaining bills which are not really pressing at all shall not go over to December. Is it a mere coincidence that legislation is of a bad and unconsidered quality, now that legislative as well as executive functions are so nearly joined and absolute?

War emergency is made to cover too much. Let us refuse to admit that whoever advises thinking before doing is a secret enemy of the country, and that patriotism is highest with those who are noisiest and would rush with "eyes shut."

THE INSURANCE FEATURE OF THE MORATORIUM BILL.

Nothing need be added at present to what we have already said of the military insurance bill, but it may not be without value to refer again to the moratorium bill, whatever is done with either or both of these in the last hours of the session of Congress just closing. The insurance portion of the latter proposes to prohibit (within certain limitations which need not be re-stated) any lapsing for non-payment of premiums during the war service and to hold policies subject to tender of past-due renewals, with the usual rate of interest on loans, during six months after the service ends, with the further proviso that if the service is ended by death the policy less liens charged against it shall be paid. It is upon this that we now wish to add some comment.

The risk that any particular individual in good health will die within a few years is not great, and therefore the premium charge on "term" insurance is low. With each succeeding year of age the death risk increases a little; therefore the strict mathematical premium (sometimes called the "natural" one) would increase from year to year to the end. This is mathematically correct and sufficient, but is practically unworkable, since it would plainly join an increasing premium charge with a decreasing ability to pay. To meet this difficulty, the "level" or fixed premium was devised; this attaches to each age of insuring a fixed rate for the entire term of life; it charges too much for the risk at first, in order that it may charge too little in the man's later years, thus loading the early years that it may bear lightly on the "lean" part of life. The surplus or excess received over the cost of carrying the risk decreases with each year, but these excess sums are put by at interest, thus creating the reserve which is constantly misunderstood, the "vast accumulations" being imagined to be needless and therefore fit for heavy taxation. There are some modifications of method in practice, but they do not affect this simple explanation and so need not be mentioned.

Now this accumulating reserve (money that is not needed for use to-day but ultimately will be) is in every instance for account of the owner of the policy and of nobody else, as if it were a savings bank deposit, although it is not subject to his order exactly like such a deposit. He can use his reserve as available value if he wishes to sell the policy back to the company; he can borrow against it; or he can consume it in continuing the policy in force for a proportionate time, after ceasing to pay renewal premiums. "Dividends," so-called, depend largely on the amount of reserve accumulated, but these we do not have to consider.

The moratorium bill proposed to estop lapsing on policies which have been a year in force. But a policy accumulates nothing of consequence in its first year, because it has only just begun to contribute and because the expenses of the issue have to be covered in; here is one difficulty, and another is that an older policy may have loans already standing against it. A policy which has thus consumed its security value cannot be used for further borrowing, any more than a piece of real estate, already mortgaged for all it will bear, can be worked further in the loan market. If we have made the subject clear thus far, the reader instantly perceives that a "flat" order to hold policies in force without further renewal payments and charge the amounts up against them proposes to confiscate the reserve upon some policies for the benefit of holders of other policies. It is just as badly, and also just as positively, robbing one in order to benefit another, as would be an attempt to make all depositors in a savings bank contribute towards keeping intact (or, possibly, towards increasing) the deposits of customers who had gone to the front. We owe duties to our soldiers and sailors, and shall not shrink from meeting them; but it is not necessary to rob, on their behalf, the thrifty persons who remain at home and have their own burdens to carry.

When some company officers went to Washington and explained this to the Senate sub-committee its members "saw;" they were able to comprehend the point, and candid enough to confess it. This was something they had not thought about; what did not seem to attract their attention particularly yet we wish to emphasize to the utmost was this: they *had not tried* to think about it, but had just gone ahead with their proposition. A light came into the face of a representative of the War Department who was present; there is the Government! So came a proposition that Government might deposit a block of Liberty or other bonds with the companies, to secure them against loss, and that Government could secure itself in turn by taking a lien on the policies. In working out this clumsy scheme there would be some difficulties which we need not consider, for there is one solid objection: a policy that had no reserve value available as security to the company would not be security to Government or to anybody else. We take it that this needs only the simple statement; but, even if the scheme were workable, it would amount to broadening the proposed robbery of one person's substance for another person's benefit, by extending it to the Government—i. e., to the people—upon whom the heavy hand of taxation is about to descend as never before.

Further, no such step as these is necessary, since other methods of accomplishing the desired end, within the limits of reason and justice, exist, and had been indicated. Secretary McAdoo began sensibly

by consulting the companies; but after a protracted discussion they could not even agree among themselves as to a safe war extra charge and no proposition for any kind of partnership arrangement with Government for this purpose came to anything, although the company officers declared themselves deeply interested in the subject and tendered the utmost aid they could render. At that stage, the companies were virtually dropped as advisers and the insurance bill, said to have been written by a judge in a Federal court, made its appearance, followed later by the moratorium bill, and each of these was commended and pressed for immediate passage without change.

We have written the foregoing, not with an expectation of influencing the disposition of either of these bills in the present session, but as showing, once more, with what lack of intelligent consideration and with what lack of any attempt at such consideration the most novel, drastic and sweeping propositions are produced in Congress and urged for immediate enactment. We are a prosperous people, thus far; but we have much to learn, and it may be that one lesson we have to learn and to be thankful for is the serious meaning in the familiar lines beginning "sweet are the uses of adversity."

PRESENT WORTHS OF NEARLY-MATURED OBLIGATIONS.

[Communicated.]

Whenever a debtor corporation makes an acceptable offer to buy its nearly-matured bonds or notes, on an interest basis other than the contractual rate, the amount due on each purchase is made the subject of a separate calculation. Time may be saved, however, by ascertaining beforehand, and making a table of, the amounts due on a round amount—say, \$1,000,000—for each day of a month, provided there is a likelihood that several purchases may be made during the month. The amount due on any purchase, on any day, can then be found by multiplying the amount due on \$1,000,000 on that day, taken from the table, by the par value of the purchase.

There is a short method for ascertaining the daily present worths. The differences from day to day increase so nearly uniformly that, after calculating the present worths for three successive days—the 15th, 16th and 17th—a table covering the whole month can be constructed therefrom.

For the sake of illustration, let us assume that a $4\frac{1}{2}\%$ bond issue, interest payable semi-annually, is to mature on Jan. 1, and that the debtor corporation offers on July 1 next preceding to purchase the bonds on a 5% basis plus accrued interest. A holder of \$1,000,000 of these bonds would receive, when they mature, their face value plus \$22,500 in interest, in all \$1,022,500; on a 5% basis \$1 would amount in six months to \$1.025; and, inasmuch as the present worth of an amount is found by dividing it by the amount of \$1 at the given rate and time, the present worth on a 5% basis on July 1 of \$1,022,500 due Jan. 1 is the quotient of \$1,022,500 divided by 1.025, which is \$997,560.975,610. Before calculating the present worth on dates later than July 1 there must be deducted from the foregoing amount to be divided the interest accruing on the bonds from July 1 to the dates of purchase at the rate of \$125 per day, because the accrued interest is paid over by the purchaser; and from the divisor there must be taken for each elapsed day the daily interest of \$1 at 5%, i. e., .000,138+, the last figure, 8, repeating itself indefinitely. Thus we form the following table:

	Dividend.	Divisor.	Present Worth.
July 1.....	\$1,022,500 divided by 1.025		equals \$997,560.975,610
Less (14 days).....	1,750	.001,944 +	
July 15.....	\$1,020,750 divided by 1.023,055 +		equals 997,746.402,389
Less (1 day).....	125	.000,138 +	
July 16.....	\$1,020,625 divided by 1.022,916 +		equals 997,759.674,134
Less (1 day).....	125	.000,138 +	
July 17.....	\$1,020,500 divided by 1.022,777 +		equals 997,772.949,484
Less (14 days).....	1,750	.001,944 +	
July 31.....	\$1,018,750 divided by 1.020,833 +		equals \$997,959.183,673

Note.—There is no real necessity for ascertaining the present worths on July 1 and 31, as above, except that they may be used to verify the daily table which is described a little further on.

The difference between the present worths on July 15 and 16 is.....\$13,271,745
on July 16 and 17 is.....13,275,350
and the variation between these two differences is......003,605

Experience shows that this variation is practically constant within the limits of the month and that any error from its use in preparing a table of daily present worths will be negligible.

If, then, we use y as a symbol for this variation of .003,605 and let x represent the July 15 and 16 difference of \$13,271,745

$x + y$ equals the July 16 and 17 difference
 $x + 2y$ equals the July 17 and 18 difference
 $x + 3y$ equals the July 18 and 19 difference
 $x + 15y$ equals the July 30 and 31 difference
Also: $x - y$ equals the July 14 and 15 difference
 $x - 2y$ equals the July 13 and 14 difference
 $x - 3y$ equals the July 12 and 13 difference
 $x - 14y$ equals the July 1 and 2 difference

The sum of all the differences between July 1 and 16 is $15x - 105y$, which equals \$198,697,650. If this amount be deducted from the actual present worth on July 16, \$997,759,674,134, it leaves the calculated present worth on July 1 \$997,560,976,484, which stands at the head of the second column in the following table, and which exceeds the actual present worth on that day, as above, by only .000,874. This is less than nine-tenths of a mill on a million-dollar transaction.

The difference between the calculated present worths of July 1 and 2, represented by $x - 14y$, as above, = \$13,221,275. This amount is at the head of the first column of the table, and the amounts below it are formed by successive additions of the value of y . Also, the addition of each daily difference to the calculated present worth on the same line gives the present worth on the line below. It will be noticed that the calculated and actual present worths of July 31 differ by only .000,764. The accrued interest, in the third column, when added to the calculated present worth and rounded out to the nearest cent, gives the amount due in the last column.

	Daily Difference.	Calculated Present Worth.	Accrued Interest.	Amount Due.
July 1.....	\$13,221,275	\$997,560,976,484		\$997,560,98
2.....	.224,880	574,197,759	\$125	699.20
3.....	.228,485	587,422,639	250	837.42
4.....	.232,090	600,651,124	375	975.65
5.....	.235,695	613,883,214	500	998,113.88
6.....	.239,300	627,118,909	625	252.12
7.....	.242,905	640,358,209	750	390.36
8.....	.246,510	653,601,114	875	528.60
9.....	.250,115	666,847,624	1,000	666.85
10.....	.253,720	680,097,739	125	805.10
11.....	.257,325	693,351,459	250	943.35
12.....	.260,930	706,608,784	375	999,081.61
13.....	.264,535	719,869,714	500	219.87
14.....	.268,140	733,134,249	625	358.13
15.....	.271,745	746,402,389	750	496.40
16.....	.275,350	759,674,134	875	634.67
17.....	.278,955	772,949,484	2,000	772.95
18.....	.282,560	786,228,439	125	911.23
19.....	.286,165	799,510,999	250	1,000,049.51
20.....	.289,770	812,797,164	375	187.80
21.....	.293,375	826,086,934	500	326.09
22.....	.296,980	839,380,309	625	464.38
23.....	.300,585	852,677,289	750	602.68
24.....	.304,190	865,977,874	875	740.98
25.....	.307,795	879,282,064	3,000	879.28
26.....	.311,400	892,589,859	125	1,001,017.59
27.....	.315,005	905,901,259	250	155.90
28.....	.318,610	919,216,264	375	294.22
29.....	.322,215	932,534,874	500	432.53
30.....	.325,820	945,857,089	625	570.86
31.....	.329,425	959,182,909	750	709.18

The basis of calculation for any month of the last interest period is the par value of the bonds or notes plus interest due at maturity. For a month of any preceding interest period the basis is the present worth on the next succeeding interest day plus the interest then due.

F. G. NELSON.

UNITED STATES EXTENDS FURTHER CREDIT TO GREAT BRITAIN AND BELGIUM.

The United States Government on Oct. 1 made a further loan of \$50,000,000 to Great Britain and on Oct. 3 extended an additional credit of \$2,000,000 to Belgium. The total of all loans made to the Allies since the beginning of the war now amounts to \$2,518,400,000, of which Great Britain has received \$1,240,000,000 and Belgium \$55,400,000.

ARGENTINA REDEEMS DISCOUNT NOTES.

The Argentine Government on Oct. 1 redeemed \$15,000,000 discount notes placed in this country during the year by a syndicate composed of J. P. Morgan & Co., the National City Co., the Guaranty Trust Co., Kuhn, Loeb & Co., Harris, Forbes & Co. and Lee, Higginson & Co.

The proceeds of the loan were used to retire an equivalent amount of notes which matured in installments of \$5,000,000 on the first of each of the months of March, April and May, and to which reference was made in these columns on May 5.

By the payment of these notes Argentina's outstanding obligations in the United States have now been reduced, it is stated, to \$5,000,000, which will mature Dec. 15 next.

COMPARATIVE FIGURES OF CONDITION OF CANADIAN BANKS.

In the following we compare the condition of the Canadian banks, under the last two monthly statements, with the return for June 30 1914:

	ASSETS.	Aug. 31 1917.	July 31 1917.	June 30 1914.
Gold and subsidiary coin—				
In Canada.....	\$	50,317,149	50,349,060	28,948,841
Elsewhere.....	\$	20,906,077	21,893,779	17,160,111
Total.....	\$	71,223,226	72,242,839	46,108,952

Note.—Owing to the omission of the cents in the official reports the footings in the above do not exactly agree with the totals given.

\$400,000,000 ISSUE OF TREASURY CERTIFICATES OF INDEBTEDNESS OVERSUBSCRIBED.

The \$400,000,000 issue of 4% Treasury certificates of indebtedness, which was offered to the public on Sept. 25 and subscription books to which were closed on Oct. 2, was oversubscribed, Treasury Department officials announced on the 2nd inst. The amount of the oversubscription was not revealed by the Treasury officials, but the taking of the entire offering, which is greater by \$100,000,000 than any of the seven previous issues put out by the Government, was regarded as presaging the success of the Second Liberty Loan offering. The latest offering of certificates mature Dec. 15 next and the certificates are convertible into Liberty Loan bonds at par. They are exempt from all income taxation except the surtax on incomes of more than \$5,000. The Treasury Department reserves the right to redeem the entire \$400,000,000 issue at par an accrued interest upon ten day's notice at any date.

BRITISH GOVERNMENT'S NEW WAR FINANCING.

Details of the British Treasury's new war financing were made known under date of Sept. 30. The new loan, which is to be free of all British taxation, present or future, to subscribers not resident in the United Kingdom, is known as National war bonds and will bear interest at 5%. The sale of the new bonds began this week. They are offered at 100, and will be repayable at 102 in 1922, 103 in 1924 and 105 in 1927. The New York "Times" printed the following details concerning the new obligations in its issue of Oct. 1, in a special cable from London:

Terms of the new Government borrowing announced Thursday described the issue as consisting of national war bonds, bearing 5% interest, subject to the income tax deduction. The bonds are to be offered at 100 and will be repayable at 102 in 1922, at 103 in 1924, and at 105 in 1927. The loan operation also includes 4% bonds, with tax compounded, to be offered at 100 and be repayable at the same price as the 1927 5% issue.

Holders of the 5% national bonds may convert their purchases into 5% war loan bonds and the 4% issue may be converted into 4% war loan at 95 and 100, respectively. The new bonds also carry conversion rights into future war issues other than short-term securities. Holders of the 4½% war loan and the various issues of Exchequer bonds may convert their bonds into the 5% national bonds maturing 1924 and 1927, or into the 4% new loan of 1927.

The national war loan is to be free of all British taxation, present or future, to subscribers not resident in the United Kingdom.

Bankers conferred with the Prime Minister at the Bank of England on Thursday and promised active co-operation in bringing the new securities before investors. The Government aims at steady weekly subscriptions rather than a preliminary rush, with a subsequent slackening.

The initial effect of news of the pending financing was a rise on the Stock Exchange of more than 3 points in the 4½% war loan and of about a point in case of Exchequer bonds.

FRENCH APPROPRIATION BILL.

It was announced on Sept. 27 that the French Chamber of Deputies had passed by a vote of 480 to 4 the appropriation bill for the last quarter of the year, calling for 12,150,000,000 francs, or \$2,430,000,000.

EXTENSION OF FRENCH MORATORIUM.

The extension of the French moratorium for another period of three months was announced on Oct. 1.

FRENCH REGULATIONS FOR CONTROL OF EXCHANGE.

The following relative to the measures taken by the French Government with a view to controlling the foreign exchange situation, appeared in the New York "Evening Post" of Sept. 29, the information having come to it through special correspondence from Paris under date of Sept. 9:

While your market and Government are considering the problem of foreign exchange, it may be interesting to know what we are doing. A few weeks ago M. Thierry, Minister of Finance, sent the following circular letter to all bankers and brokers of France:

You are aware that the war which the Allied nations are forced to wage against the Central Empires is proceeding, not only on military ground, but also on financial and economic grounds. This results in special conditions which every one in France ought to accept through patriotism, if they are citizens or subjects of the Allied countries—and through respect for the hospitality they receive, if they belong to neutral nations.

One condition, to which I now call your most earnest attention, is the necessity that the banking industry carried on in France should subordinate all its exchange operations to the national interest.

For the present, it is contrary to the interest of France that there should be any speculation in exchange; that is, any buying of foreign money or money paper which does not correspond with a real and proximate payment, but only constitutes a provision for future selling at a profit. From this, banks not only ought to refrain themselves, but they ought also to dissuade their public from it.

Still more contrary to the interest of France is any exporting of capital which is not calculated to secure the payment of goods imported into France, or to satisfy within legal limits commercial or civil debts which may have fallen due, or finally to meet the living needs of persons who reside out of France but have their property in France. Remittances abroad ought to be reserved for such cases, and banks or brokers ought to refrain from furnishing exchange to persons who ask it for other reasons. In the same way, before they help out other banks or brokers with their own means of exchange, they ought to make sure that it is for a legitimate need.

For special cases, which it may seem to you deserve a derogation from the principles of this circular, you can always apply to the Department of General Movement of Funds at the Finance Ministry, which will let you know what should be done.

The restrictions imposed on French banks and brokers since the beginning of the war are as follows:

August 11 1914.—Gold and silver, coined or ingots, are declared contraband of war.

November 1915.—By agreement between Government and Paris banks, the latter communicate to the former the credits which they open or which are asked in favor of correspondents in neutral countries—and, from the end of 1916, the communication of all operations of money exchange are communicated obligatorily, as in England;

13 April 1916.—All negotiable instruments of credit and securities are made absolute contraband;

25 November 1916.—By an understanding between the French and English Governments, a complete list is established, so that everything which is not postal correspondence and which can serve to secure a transfer of enemy funds may be seized.

All these were regarded as "blockade measures" in exchange with neutral nations. The circular of Finance Minister Thierry is not directed against a possible movement of enemy funds, but against a dissipation of French instruments of credit even in Allied countries.

GERMANY'S SEVENTH WAR LOAN.

Subscriptions to Germany's seventh war loan were opened at the Reichsbank on Sept. 19 and will close on Oct. 18. The loan, it is said, is of the same character as the sixth war loan, with 5% bonds issued at 98, and 4½% Treasury certificates carrying a bonus for which the holders will have a chance to get from 110 to 120 when they are drawn for redemption. It is stated that conspicuous advertisements tell the public that the "loan can, must and shall succeed, else we encourage England to go on fighting." The banks and insurance companies, it is reported, offer facilities to small investors of 100 marks or so, who will be required to pay 10% in cash and the rest in easy installments, covering a period of from ten to twenty years. According to Amsterdam dispatches, land owners and farmers are expected to subscribe largely, as they are reputed to have plenty of cash available. The Krupps are said to have subscribed for 50,000,000 marks.

On Sept. 27 the cables stated that a full-page advertisement in Berlin newspapers, signed by the Chief Magistrates of Greater Berlin and appealing for subscriptions to the war loan, said, among other things:

Lately President Wilson has been hypocritically preaching the democratization of Germany by grace of the Entente and has attempted to sow discord among the German people and to drive it through inner dissension to foolish self-destruction. This must not be. Our firm purpose remains to hold out and win an honorable peace, insuring the Fatherland's future weal.

DEUTSCHE BANK WILL ISSUE NEW STOCK AND OPEN NEW BRANCHES.

According to an Amsterdam dispatch to the Exchange Telegraph Company under date of Oct. 2 the Deutsche Bank has decided to issue 20,000,000 marks of new shares, with dividends running from January 1917. Sanction, it is said, will be sought from the Government. It is believed, the dispatch adds, that the bank intends to open branches in Rumania, Russia and Belgium.

AUSTRIAN GOVERNMENT'S DEFICIT.

Cables to the daily press from Amsterdam, Sept. 27, gave the following information regarding the huge deficit which the Austrian Government faces:

According to Vienna advices, the Austrian Finance Minister has presented the 1917-18 budget to the Lower House of Parliament, showing estimated total expenditures of 22,169,000,000 kronen and estimated revenue of 3,890,000,000 kronen. In order to meet the deficit the Government asks authority to raise credits of 18,000,000,000 kronen. The total war expenditure of Austria-Hungary for the first three years of the war was 27,893,000,000 kronen. Expenses for the fourth year are estimated at 12,000,000,000.

REPORT OF OPENING OF ROME STOCK EXCHANGE.

On Saturday last, Sept. 29, cable advices stated that the Rome Stock Exchange would open on Oct. 1.

MEXICO'S PROHIBITION AGAINST GOLD AND SILVER EXPORTS.

It became known on Sept. 28 that the Mexican Government after Oct. 1 would refuse to accept American bills, silver coin or drafts on the United States in the payment of Federal taxes and duties. It is stated that the decree announcing this gives as a reason that the American Government having prohibited the export of gold it is impossible to change bills for gold. American gold coin will be accepted for taxes at the rate of two for one. The decree prohibits the exportation of any kind of Mexican coin or gold in bars. If ore or concentrates are exported which contain more than six grammes of gold per ton the exporters must import an equal amount of gold in refined form. If silver is exported in bars or in ores and concentrates containing more than 50 grammes per ton the exporters must import 25% of the values of the silver in gold bars or gold coin at a price to be fixed by the Treasury Department. That part of the decree dealing with the prohibition against export of gold and silver bars, we learn from the New York "Tribune," reads as follows:

From the date of the present decree the exportation of gold bars is absolutely forbidden.

Exporters of ores and concentrates of any kind containing gold of a value exceeding six grammes per ton will be under obligation to reimport to Mexico in gold bars suitable to mintage, or in Mexican or foreign gold coins a sum equivalent to the gold produced, according to the respective assays, by the ores or concentrates which may have been exported.

Exporters of silver bars or ores and concentrates containing silver of a value exceeding fifty grammes per ton shall be under the obligation to reimport in mintable gold bars, or in national or foreign gold coins, 25% of the value of the silver contained in the bars, ores or concentrates which may have been exported.

It was reported from Washington on Oct. 2 that both the State Department and the Mexican Legation had stated on that date that satisfactory arrangements had been made for the operation of American mines in Mexico under the decree forbidding the export of gold and silver bullion and coin. It is said that the State Department, through the Federal Reserve Board, has arranged for the payment of miners' wages in American money. The Mexican Government has announced that American gold will be received at two for one in the payment of all customs and internal revenues.

Reports were current on the 4th inst. that the gold embargo of the United States Government was expected to be modified to permit the withdrawal from the United States of gold deposited in this country by Mexico. The Federal Reserve Board is said to be studying other problems regarding the gold embargo with a view to ameliorating hardships.

\$200,000,000 PLEDGED BY LOCAL COMMITTEE TO EASE MONEY MARKET.

The announcement of the creation of a fund to be immediately available for maintaining an easy money market was made on Monday last, the 1st inst., by the sub-committee of the Liberty Loan Committee which has been studying data made up from reports received daily by the New York Federal Reserve Bank from the banks of New York and Brooklyn. The amount made immediately available by the committee was \$200,000,000. A statement issued in the matter said:

Daily reports are now being received from all the banks and trust companies in New York City in response to the request recently sent them.

In view of the approaching period during which large payments will be made on account of the new issue of Government bonds, the committee has considered it prudent to make arrangements with a large number of banks and trust companies which are now filing these reports to place at the disposal of the committee a fund to be loaned in their discretion as needed.

The committee has pledged that a very large sum will be provided, of which over \$200,000,000 is immediately available. It is expected that by this means the credit resources of the Federal Reserve Bank will be made available as needed.

The members of the committee that will have charge of the handling of this fund are as follows: Benjamin Strong Jr., Governor of the Federal Reserve Bank; James S. Alexander of the National Bank of Commerce; Frank A. Vanderlip, National City Bank; George F. Baker, First National Bank; Albert H. Wiggin, of the Chase National Bank; Walter E. Frew of the Corn Exchange National Bank; Gates W. McGarrath of the Mechanics & Metals National Bank; Charles H. Sabin of the Guaranty Trust Co., and James N. Wallace of the Central Trust Co.

NATIONAL BANKS ADVISED NOT TO INCREASE INTEREST RATE TO PREVENT LIBERTY LOAN WITHDRAWALS.

In answer to the question which has been raised by the national banks as to the advisability of raising their rate of interest on deposits from 3% to 4% so as to guard against heavy withdrawals for Liberty bond purchases, the Comptroller of the Currency advises against the payment of the higher rate at this time. The Comptroller's views are set out in the following statement:

OFFICE OF THE COMPTROLLER OF THE CURRENCY.

October 4 1917.

The Comptroller of the Currency has received a number of inquiries from national banks as to the expediency of raising the rate of interest on their deposits from 3% to 4%, so as to reduce the inconvenience which might arise from large withdrawals of deposits for investment in Liberty bonds.

The Comptroller has to-day sent out a circular letter in answer to these inquiries, which says in part:

"This office considers 4% a decidedly high rate for national banks to allow on deposits under existing conditions. My suggestion is that you take no action towards raising the rate of interest until you are in a better position to determine exactly what the effect of the offering of the Liberty bonds may be upon your deposits.

"If there should be large withdrawals of deposits for investment in Liberty bonds and you should require funds to meet these withdrawals or to supply your customers for their legitimate business needs, these funds can readily be obtained from the Federal Reserve Bank of your district at favorable rates—at present from 3½% to 4½% per annum—and against the money so obtained from your Federal Reserve Bank you do not, of course, have to carry reserve as you do for deposits.

"Your attention is also called to the fact that the national banks generally have the opportunity of being designated as temporary depositories for the purchase money of Liberty bonds sold through each bank, although these particular funds will of course be withdrawn from time to time as the Government shall need the money."

CANNOT SEND U. S. GOLD FROM COUNTRY BY MAIL.

Postmaster-General Burleson, in the following notice, calls attention to the prohibition against the transmission through the mails of gold from the United States, in conformity with President Wilson's embargo:

Office of the Postmaster-General, Washington, Sept. 26 1917.

Order No. 731.

In conformity with the proclamation and the regulations thereunder issued by the President on Sept. 7 1917, concerning the export or shipment of coin, bullion and currency, it is hereby ordered that United States coin or currency, gold coins, whether of United States or foreign mintage, and gold bullion are prohibited transmission through the regular or parcel-post mails to countries outside of the United States and its possessions.

Section 42, page 111, and Section 188, page 140, of the Postal Guide for July 1917, are modified accordingly.

The above prohibition is not applicable to foreign currency and foreign silver coins, which remain subject to the provisions of paragraph "(d)" of Section 42 above mentioned.

A. S. BURLESON, Postmaster-General.

J. HERBERT CASE DEPUTY GOVERNOR OF THE NEW YORK FEDERAL RESERVE BANK.

Announcement of the election of J. Herbert Case as Deputy Governor of the Federal Reserve Bank of New York was made in the following statement issued by the latter on the 4th inst.:

J. Herbert Case, Vice-President of the Farmers' Loan & Trust Co., has been elected Deputy Governor of the Federal Reserve Bank of New York. Mr. Case will resign from the Farmers' Loan & Trust Co. and take up his duties at the Federal Reserve Bank on Monday, Oct. 8 1917.

In his new post Mr. Case will succeed Robert H. Treman, who will resume his former position as President of the Tompkins County National Bank of Ithaca, N. Y. Mr. Treman during the absence of Governor Strong served as Acting Governor of the Reserve Bank. He will remain as a director of the Reserve Bank and has consented to continue to actively serve it until the close of the Liberty Loan campaign, and may possibly remain until the first of the year.

ANNOUNCEMENT REGARDING DISCOUNT RATES OF FEDERAL RESERVE BANK OF NEW YORK.

In announcing on the 3d inst. that no change had been made in the discount rates established by it, the Federal Reserve Bank of New York called attention to its schedule of rates. We give its announcement below:

At the regular weekly meeting of the directors of the Federal Reserve Bank, held to-day, it was decided to make no changes in the rates now established. Attention is directed to these rates, which are as follows:

For notes, drafts and bills of exchange, including promissory notes secured by eligible paper or bonds, notes or certificates of indebtedness of the United States, having a maturity at time of discount of not more than 15 days.....	3%
For notes, drafts and bills of exchange, having a maturity at time of discount of more than 15 days and not more than 90 days.....	4%
For agricultural paper having a maturity at time of discount of more than 90 days and not more than six months.....	5%

Special Rates.

For notes, drafts and bills of exchange issued or drawn for the purpose of buying or carrying bonds, notes or certificates of indebtedness of the United States, and secured thereby, having a maturity at time of discount of not more than 90 days.....	3½%
For trade acceptances having a maturity at time of discount of not more than 90 days.....	3½%
For one-day promissory notes of member banks required in connection with transactions involving the fiscal operations of the Government, secured by eligible paper or bonds, notes or certificates of indebtedness of the United States.....	2% to 4%

The special rate of 3½% at which the Federal Reserve Bank will discount notes made for the purpose of subscribing to the bonds of the United States Government applies to notes made by customers of member banks secured by the pledge of Liberty Loan Bonds or United States certificates of indebtedness maturing within 90 days.

The rate of 3% for collateral loans applies to notes made by member banks secured by any paper or securities which are eligible for discount at or purchase by the Federal Reserve Bank, that is to say, United States Government bonds, United States certificates of indebtedness, eligible municipal warrants issued in anticipation of taxes, commercial paper and bankers' acceptances.

It should not be understood that the rates now in force will necessarily remain so for any fixed period of time. The rates established by the bank must be governed by business and monetary conditions, but the directors of this bank see nothing in the present situation and outlook requiring any changes in the rates now established.

Oct. 3 1917.

EQUITABLE TRUST CO. TO JOIN FEDERAL RESERVE SYSTEM.

The trustees of the Equitable Trust Company of this city, at a meeting yesterday, Oct. 5, authorized the President of the institution to apply for membership in the Federal Reserve Reserve System. The Equitable Trust Company is one of the largest banking institutions in this city. It has a capital of \$6,000,000, and on Sept. 8 reported surplus and undivided profits of \$12,907,700, and aggregate deposits of \$194,334,600. It has branches in London and Paris. Alvin W. Kreeh is President.

GUARANTY TRUST CO. ADMITTED TO MEMBERSHIP IN FEDERAL RESERVE SYSTEM.

The officers of the Federal Reserve Bank of New York announced on the 3d inst. that the application for membership in the Federal Reserve System made by the Guaranty Trust Co. of New York had been approved by the Federal Reserve Board and that the formalities incident to the trust company's joining would be completed as soon as payment for the stock in the reserve bank is made.

CONFERENCE ON TRADE ACCEPTANCES.

The Joint Committee on the Trade Acceptance which grew out of action taken by the Chamber of Commerce of the United States at the War Convention of American Business held at Atlantic City on Sept. 17, will hold its first session in the Board Room of the Irving National Bank on Monday next. This Committee is a nationally representative body including a Committee of Three appointed by the Chamber of Commerce of the United States, and Committees appointed by the National Association of Credit Men and the American Bankers' Association.

The personnel of the Joint Committee is as follows:

Chamber of Commerce of U. S. of A.: Lewis E. Pierson, Chairman of the Board, Irving National Bank, New York City; Edwin B. Heyes, Credit Manager, W. & J. Sloane, New York City; Dr. J. T. Holdsworth, Dean of the School of Economics, University of Pittsburgh, Pittsburgh, Pa.

National Association of Credit Men: Kenneth R. Hooker, President and Treasurer, The Putnam-Hooker Company, Cincinnati, Ohio; Frank H. Randel, Manager, Philadelphia office, Auto Car Sales & Service Co., Philadelphia, Pa.; W. F. H. Koelsch, Vice-President, Bank of the United States, New York City.

American Bankers' Association: Robert H. Treman, Deputy Governor, Federal Reserve Bank of New York, New York City; George Woodruff, President, First National Bank, Joliet, Illinois; Joseph Wayne, Jr., President, Girard National Bank, Philadelphia, Pa.

Ex-Officio: J. H. Tregoe, Secretary-Treasurer, National Association of Credit Men, New York City.

FARM MORTGAGE BANKERS TO TEST FARM LOAN ACT—PROPOSED MORATORIUM LAW.

The recent convention in Minneapolis of the Farm Mortgage Bankers' Association was marked by the appointment of a committee to work out a uniform moratorium law applying to mortgage foreclosures, to be recommended to the State Legislatures. An explanation of the operation of the moratorium laws in Canada was a feature of the meeting.

A. L. Crossin of Winnipeg is said to have declared that the legislation had been "unfair, irritating and unnecessary," and to have advised that such laws be limited in application to homesteads and to men in actual foreign service.

Action toward raising a fund for the purpose of bringing a friendly suit to test the constitutionality of the Federal Farm Loan system was taken at the meeting. It is stated that the constitutionality of the Act is questioned, especially on account of its tax-exemption feature. This was inserted, the farm mortgage bankers charge, to popularize the bonds of the land banks and to strike a body blow at the organized farm mortgage bankers. It is alleged to constitute an effort to set up a monopoly. The prediction that farm mortgage bankers would soon have to work on a marginal difference of only 1% was made by Charles E. Lobdell, a member of the Federal Farm Loan Board. He was quoted as follows in the Minneapolis "Tribune":

The Federal Farm Loan system has reduced the rates on loans right close to 1%. You have not felt it much this year, but you who keep your ears to the ground have heard its tread, and you might as well recognize that it is your real competitor, that you are going to suffer in loss of business and much more in the loss of margin.

The days of 2, 3 and 4% spread between the borrower and the lender in this country are numbered. The business must come to a 1% basis, not immediately, perhaps, but the hour is close at hand, and those of you who cannot operate on that margin had better wind up and get out of the game while getting is good.

The Farm Loan Act has come to stay, and may as well be accepted as a part of our fixed economic policy, not, of course, in all its details, for it has many minor defects, some of which you have quite vociferously pointed out.

TEXAS LEGISLATURE ADOPTS MORATORIUM OR STAY-LAW FOR SOLDIERS AND SAILORS.

The third special session of the 35th Texas Legislature, which adjourned sine die Sept. 29, passed a moratorium or stay-law in behalf of the soldiers and sailors of the State, to prevent the foreclosure of deeds of trust and other chattel mortgages, without due and ample process of law.

This, according to our records, is the ninth State that has enacted such legislation. The other eight States are: Iowa, Maine, Maryland, Massachusetts, Michigan, Oregon, Pennsylvania and Wisconsin. We referred at length to all of these in our issue of Sept. 22, pages 1157 to 1159, inclusive.

The Mississippi Legislature recently convened in special session to consider, among other things, the enactment of a moratorium law to provide for the exemption of sailors, soldiers and other persons in actual military and naval service of the United States from the payment of any debt contracted prior to their enlistment while the nation is at war, and for a reasonable time thereafter to be fixed by the Legislature in the statute which they shall enact.

NEW YORK CLEARING HOUSE ELECTS OFFICERS—YEARLY FIGURES.

At the annual meeting of the New York Clearing House Association on the 2nd inst., Gates W. McGarrah, President of the Mechanics & Metals National Bank, was elected President to succeed Frank A. Vanderlip, President of the National City Bank. Mr. Vanderlip had been President of the Association since the 1915 meeting. Walter E. Frew, President of the Corn Exchange Bank, was chosen Chairman of the Clearing House Committee in place of Mr. McGarrah. Theodore Hetzler, President of the Fifth Avenue Bank, was elected Secretary, succeeding Joseph Byrne, Vice-President of the Hanover National Bank. William J. Gilpin and Clarence E. Bacon were re-elected Manager and Assistant Manager, respectively. Charles A. Hanna continues as Examiner. The Clearing House Committee now consists of Walter E. Frew, Chairman, Seward Prosser, Albert H. Wiggin, Francis L. Hine and Lewis E. Pierson. The constitution of the Association was amended at the annual meeting to provide for an afternoon exchange of returned items. Heretofore whenever a check had to be returned from one institution to another a messenger was used or the check cleared the next day.

The total transactions of the Clearing House Association for the year ended Sept. 30 1917, reached the enormous sum of \$193,681,822,820, comparing with \$155,742,333,909 the year before and \$96,183,554,464 in the year ending Sept. 30 1915. This year's total transactions were made up of \$181,534,031,387 clearances and \$12,147,791,432 balances. The average daily transactions for the year just closed amounted to \$641,330,539, of which \$601,106,064 represented exchanges and \$40,224,474 balances. The total transactions since the organization of the Clearing House sixty-four years ago aggregate \$3,072,438,892,504. The largest exchanges on any one day during the year were those

for Feb. 6 1917—\$1,218,586,762; the largest balances on any one day during the year were \$133,761,391 on Aug. 29 1917; the largest transactions on any one day during the year were witnessed on Feb. 6 1917 and reached \$1,265,758,049; the smallest exchanges on any one day during the year were recorded Aug. 6 1917 and amounted to \$333,575,821; the smallest balances on any one day during the year were those for March 13 1917, viz.: \$17,795,469; and the smallest transaction on any one day during the year occurred on Aug. 6 1917, the figures being \$365,764,811. The largest daily transactions on record are those of Feb. 6 1917, when they totaled \$1,265,758,049; the largest balances were recorded on Aug. 29 1917, and totaled \$133,761,391. The Manager's report states that the Association is now composed of 29 National banks, 16 State banks, and 14 trust companies. The Federal Reserve Bank of New York, and the Assistant Treasurer U. S., New York, also make their exchanges at the Clearing House. The Clearing House Collection Department also exchanges at the Clearing House, making 62 clearing institutions. There are 21 banks and trust companies in the city and vicinity, not members of the Association, which make their exchanges through banks that are members, in accordance with constitutional provisions.

BANKS AND TRUST COMPANIES WILL LEND MONEY AT 4% TO LIBERTY BOND BUYERS.

It was announced on the 3rd inst. by Everett B. Sweezy, Chairman of the Executive Committee of the Distribution Committee, that banks and trust companies in the Second Federal Reserve District have agreed to lend money at 4% to subscribers of the Second Liberty Loan. This step has been taken, said Mr. Sweezy, so as to encourage the public to buy bonds on the installment plan if cash is not available. Mr. Sweezy is quoted as saying:

The banks will receive subscriptions and will agree to advance money at 4%. This is the face rate of interest on the bonds of the Second Liberty Loan. In turn these banks will be able to re-discount at the Federal Reserve Bank of New York. On the part of the Liberty Loan Committee, the work of approaching the banks with this proposition has been done by the Sub-Committees on National Banks, Trust Companies and State Banks.

TRUST COMPANIES AGREE ON PLAN FOR PURCHASE OF LIBERTY BONDS ON WEEKLY PAYMENTS.

An agreement which it is expected will facilitate subscriptions for the Second Liberty Loan has been reached by thirty trust companies in New York City, it was announced on the 3rd inst. by G. B. Bogart, assistant to Arthur M. Anderson, Executive Secretary of the Distribution Committee. The partial payment plan of one dollar down at the time of subscription and a dollar a week until the completion of the contract is approved by these institutions. In discussing the plan Mr. Bogart said:

It is probable that a large number of the savings, State and National Banks will approve the suggestion of the Liberty Loan Committee. These institutions, of course, will be approached through the other sub-committees on National and State banks, which operate directly under the supervision of the Liberty Loan Committee. The banks will be supplied with enough cards to handle all the subscriptions that may be booked on the weekly payment plan.

CIRCULAR OUTLINING DETAILS OF SECOND LIBERTY LOAN BONDS AND FORM OF APPLICATION.

The Treasury Department, on Oct. 1 issued a circular setting out in detail the particulars regarding the Second Liberty Loan offering, mention of which was made in these columns last week. As in the case of the first offering of \$2,000,000,000, two classes of bonds will be issued in the second offering—coupon and registered. The coupon bonds, payable to bearer, will be issued in denominations of \$50, \$100, \$500, \$1,000, \$5,000 and \$10,000; the registered bonds will be put out in denominations of \$50, \$100, \$500, \$1,000, \$5,000, \$10,000, \$50,000 and \$100,000. In the present instance Secretary McAdoo asks for bids for \$3,000,000,000 bonds, but reserves the right to allot additional bonds up to one-half the amount of any oversubscription. Subscriptions for the bonds, which opened on October 1, will be received up to October 27. Applications for \$1,000 or less bonds from any one subscriber will be allotted in full, but applications in excess of that sum will be received subject to allotment. The bonds will be dated Nov. 15, 1917, and will bear interest at 4%, payable semi-annually on May 15 and Nov. 15. They will mature Nov. 15, 1942, but may be redeemed, in whole or in part, at par and accrued interest, at the option of the United States, after Nov. 15, 1927, on any interest date, after six months notice given in such manner as the Secretary of the Treasury may prescribe. Subscriptions are made payable 2% on

application, 18% on Nov. 15, 1917; 40% on Dec. 15, 1917, and 40% on Jan. 15, 1918. The full particulars, including the tax exemption features and conversion privilege, are set out in the circular, which we print in its entirety below:

1917—Department Circular No. 90.
Loans and Currency (Liberty Loan Circular No. 6).

TREASURY DEPARTMENT,
Office of the Secretary,
Washington, October 1, 1917.

The Secretary of the Treasury invites subscriptions at par and accrued interest, from the people of the United States, for \$3,000,000,000 of United States of America 10-25-Year 4% Convertible Gold Bonds, of an issue authorized by Act of Congress approved Sept. 24 1917; the right being reserved to allot additional bonds up to one-half the amount of any over-subscription.

DESCRIPTION OF BONDS.

Denominations.

Bearer bonds with interest coupons attached will be issued in denominations of \$50, \$100, \$500, \$1,000, \$5,000, and \$10,000. Bonds registered as to principal and interest will be issued in denominations of \$50, \$100, \$500, \$1,000, \$5,000, \$10,000, \$50,000, and \$100,000. Provision will be made for the interchange of bonds of different denominations and of coupon and registered bonds, and for the transfer of registered bonds, without charge by the United States, and under rules and regulations prescribed by the Secretary of the Treasury.

Rate of Interest, Date of Bonds, Maturity, and Redemption.

The bonds will be dated Nov. 15 1917 and will bear interest at the rate of 4% per annum from that date, payable semi-annually on May 15 and Nov. 15. The bonds will mature Nov. 15 1942 but the issue may be redeemed at the option of the United States on or after Nov. 15 1927 in whole or in part, at par and accrued interest, on any interest day, on six months' notice, given in such manner as the Secretary of the Treasury shall prescribe. In case of partial redemption the bonds to be redeemed will be determined by such method as may be prescribed by the Secretary of the Treasury. The principal and interest of the bonds will be payable in United States gold coin of the present standard of value.

Tax Exemption.

The bonds shall be exempt, both as to principal and interest, from all taxation now or hereafter imposed by the United States, any State, or any of the possessions of the United States, or by any local taxing authority, except (a) estate or inheritance taxes, and (b) graduated additional income taxes, commonly known as surtaxes, and excess-profits and war-profits taxes, now or hereafter imposed by the United States, upon the income or profits of individuals, partnerships, associations, or corporations. The interest on an amount of bonds and certificates authorized by said act, the principal of which does not exceed in the aggregate \$5,000, owned by any individual, partnership, association, or corporation, shall be exempt from the taxes provided for in clause (b) above.

Conversion Privilege.

If a subsequent series of bonds (not including United States certificates of indebtedness, war savings certificates, and other obligations maturing not more than five years from the issue of such obligations, respectively) bearing interest at a higher rate than 4% per annum shall, under the authority of said act approved Sept. 24, 1917 or any other act, be issued by the United States before the termination of the war between the United States and the Imperial German Government (the date of such termination to be fixed by proclamation of the President of the United States), then the holders of bonds of the present series shall have the privilege, at the option of the several holders, of converting their bonds at par, into bonds bearing such higher rate of interest, at the issue price of bonds of such subsequent series, not less than par, with an adjustment of accrued interest. Such conversion privilege must be exercised, if at all, at any time within the period, after the public offering of bonds of such subsequent series, beginning at the date of issue of bonds of such subsequent issue, as such date shall be fixed in such public offering, and terminating six months after such date of issue, and under such rules and regulations as the Secretary of the Treasury shall have prescribed. The bonds to be issued upon such conversion of bonds of the present series shall be substantially the same in form and terms as shall be prescribed by or pursuant to law with respect to the bonds of such subsequent series, not only as to interest rate but also as to convertibility (if future bonds be issued at a still higher rate of interest) or non convertibility, and as to exemption from taxation, if any, and in all other respects, except that the bonds issued upon such conversion shall have the same dates of maturity, of principal, and of interest, and be subject to the same terms of redemption before maturity, as the bonds converted; and such bonds shall be issued from time to time if and when and to the extent that the privilege of conversion so conferred shall arise and shall be exercised. If the privilege of conversion so conferred shall once arise, and shall not be exercised with respect to any bonds of the present series within the period above prescribed, then such privileges shall terminate as to such bonds and shall not arise again though again thereafter bonds be issued bearing interest at a higher rate or rates than 4% per annum.

APPLICATIONS.

Official Agencies.

The agencies designated by the Secretary of the Treasury to receive applications for the bonds now offered are the Treasury Department in Washington, D. C., and the Federal Reserve banks in Boston, New York, Philadelphia, Cleveland, Richmond, Atlanta (with branches at New Orleans), Chicago, St. Louis (with branch at Louisville), Minneapolis, Kansas City (with branch at Omaha), Dallas and San Francisco (with branches at Seattle and Spokane). Said banks have been designated also as fiscal agents of the United States, to collate applications, to give notices of the allotments which the Secretary of the Treasury will eventually make to subscribers, to receive payments, and to make delivery of the bonds allotted. Subscribers may send their applications direct to any of these official agencies.

Subscribers' Agencies.

Large numbers of National banks, State banks, and trust companies, investment bankers, express companies, newspapers, department stores, and other corporations, firms, and organizations have patriotically offered to receive and transmit applications for the Second Liberty Loan without expense to the applicants. The Secretary of the Treasury appreciates the value of these offers, and will have application blanks widely distributed, through the Federal Reserve banks, to these institutions throughout the country, as well as to the post offices. No commissions will be paid upon subscriptions, and those who receive and transmit applications are therefore rendering the service as a patriotic duty.

Form of Application.

Applications must be in the form prescribed by the Secretary of the Treasury and be accompanied by payment of 2% of the amount of bonds applied for. Applications must be for bonds to an amount of \$50 or some multiple thereof. Any subscriber making application for an amount of bonds not in excess of \$1,000 may, at the option of such subscriber, accompany such application by payment in full, at face value without interest, for the bond or bonds applied for, in which case a bond or bonds bearing interest from Nov. 15, 1917, will be delivered to the subscriber as soon as possible after the application, accompanied by such payment in full, is received. No payment other than the 2% required should accompany any application for bonds to an amount in excess of \$1,000.

Time of Closing Application Books.

Applications accompanied by payment as aforesaid must reach the Treasury Department or a Federal Reserve Bank or branch thereof, or some incorporated bank or trust company within the United States (not including outlying territories and possessions), not later than the close of business on Oct. 27 1917 the right being reserved by the Secretary of the Treasury to close the subscription on any earlier date. Applications received by any incorporated bank or trust company on or before Oct. 27 1917 must, by such bank or trust company, be transmitted to, or covered by its own subscription to the Federal Reserve bank of the district in which it is located, reaching such Federal Reserve bank not later than the close of business on Nov. 1 1917 accompanied by payment as aforesaid.

Allotment.

Applications for \$1,000 or less bonds from any one subscriber will be allotted in full. All applications for bonds in excess of \$1,000 will be received subject to allotment; and the Secretary of the Treasury reserves the right to reject any such applications, to make allotment of part of the amount of bonds applied for, to make allotment in full upon applications for smaller amounts and to make reduced allotments upon or to reject applications for larger amounts, and to make classified allotments and allotments upon a graduated scale, pursuant to the Act of Congress authorizing the bonds, should any such action be deemed by him to be in the public interest; and his action in these respects will be final. In case of applications rejected the accompanying payment of 2% will be returned without interest as soon as practicable. In case of partial allotments the excess of the 2% payment (without credit for interest) will be applied on the installments due Nov. 15 1917. The basis of allotment will be announced, and allotments will be made, on or about Nov. 5. Allotment notices will be mailed shortly thereafter.

Payments.

Payment for bonds allotted, in addition to the 2% on application, will be required as follows: 18% on Nov. 15, 1917; 40% on Dec. 15, 1917; 40% on Jan. 15, 1918, with accrued interest on both deferred installments. Receipt of installment payments made to official agencies prior to payment in full will be acknowledged by the several Federal Reserve banks. Payments must be made when and as required under penalty of forfeiture of any and all installments previously paid, and of all right or interest in the bonds allotted. Except in the case of subscriptions for amounts not in excess of \$1,000, as hereinbefore provided, no payments other than the 2% required with the application will be received until after allotment is made. Payment for bonds allotted in any amount may be completed after allotment without previous notice, but only on Nov. 15, 1917 and (the previous installment having been duly paid) on Dec. 15 1917 or Jan. 15 1918 with accrued interest.

Payment by United States Treasury Certificates of Indebtedness.

Payment may be made on Nov. 15 by United States Treasury certificates of indebtedness of any maturity, and on Dec. 15 by certificates maturing on that date, and on Jan. 15 1918 by certificates maturing on that date if any such are outstanding. These payments may be either for the full amount of the allotment, or for the first installment, or for the installment then due. Such certificates will be received at their face value, and the accrued interest thereon will be remitted by check to the subscriber. Unmatured certificates thus presented on Nov. 15 1917 in payment for bonds, must not be of a larger face value than the amount then to be paid on the subscription; and subscribers should obtain certificates in appropriate denominations in advance.

How to Make Payments.

It is strongly recommended that subscribers avail themselves of the assistance of their own banks and trust companies, in which case they will, of course, make payment through such institutions. In cases where they do not do so, subscribers should make payment, either in cash to the Treasury Department in Washington or to one of the Federal Reserve banks, or by bank draft, certified check, post office money order, or express company money order, made payable to the order of the Secretary of the Treasury if the application is filed with the Treasury Department in Washington (thus: "The Secretary of the Treasury, Second Liberty Loan Account"), or, if the application is filed elsewhere, made payable to the order of the Federal Reserve bank of the district in which the application is filed (thus: "Federal Reserve Bank of _____, Second Liberty Loan Account").

DELIVERY.

Bonds dated Nov. 15 1917 and bearing interest from that date, will be delivered by the several Federal Reserve banks as fiscal agents of the United States as far as practicable in accordance with written instructions given by the subscribers, and, within the United States, its Territories and insular possessions, will be delivered at the expense of the United States. Subscribers for an amount not in excess of \$1,000 who make payment in full at the time of filing their applications will receive bonds bearing interest from Nov. 15 1917 as soon as possible after their subscriptions are received. Such subscribers will receive no interest from date of payment to Nov. 15. All other subscribers will receive bonds promptly after due completion of payment.

INTEREST.

The bonds being dated Nov. 15 1917 no accrued interest will be due on subscriptions for bonds paid for in full on or before Nov. 15 1917. No rebate of interest will be allowed either on account of full payment in advance of Nov. 15 or on account of the 2% required to be paid with the application. Upon completion of payment for the bonds on Dec. 15 or Jan. 15 the subscriber will be required to pay accrued interest from Nov. 15 on the deferred installments at the rate of 4% per annum.

FURTHER DETAILS.

The bonds will be receivable as security for deposits of public money, but will not bear the circulation privilege.

Coupon bonds will have four interest coupons attached, covering interest payments up to and including Nov. 15 1919. On or after that date holders of these bonds should surrender the same and obtain a new bond or bonds having coupons attached thereto covering semi annual payments from May 15 1920 to Nov. 15 1942. Bonds with the limited number of interest coupons attached will be thus delivered in order to save the annoyance of the

delivery of interim receipts, and to allow sufficient time for the engraving and printing of bonds with the full number of coupons attached, without inconvenience to the subscriber.

Further details may be announced by the Secretary of the Treasury from time to time, information as to which as well as forms for application may be obtained from the Treasury Department or through any Federal Reserve Bank.

W. G. McADOO,
Secretary of the Treasury.

The following is the form of application issued by the Treasury Department for subscriptions to the loan:

UNITED STATES OF AMERICA.
10-25-Year 4% Convertible Gold Bonds
SECOND LIBERTY LOAN.
Application for Bonds.
Dated.....

To the Secretary of the Treasury:

According to the terms of Treasury Department Circular No. 90, dated Oct. 1 1917 the undersigned hereby applies for \$..... par value of the 10-25 Year 4% Convertible Gold Bonds of the United States, and agrees to pay par and accrued interest for any bonds allotted on this application. The sum of \$..... is inclosed herewith.

Signature of subscriber in full.....
Address, number and street.....
City or town.....
County..... State.....

Note 1.—This application should be transmitted through the subscriber's bank, trust company, or other agency acting on his behalf, or it may be filed direct with the Federal Reserve bank of his district, or the Treasury Department at Washington. It must reach some incorporated bank or trust company in the United States (not including outlying territories and possessions) or a Federal Reserve bank, or the Treasury Department at Washington, D. C., on or before the close of business Oct. 27 1917.

Note 2.—Subscriptions for amounts not in excess of \$1,000 may be accompanied either by a payment of 2% of the amount of bonds applied for, or by payment in full with the application. On all other subscriptions a payment of 2% is required and no payment in excess of 2% with the application will be accepted.

Note 3.—In case payment in full has been made herewith and an amount not in excess of \$1,000 applied for: Coupon bonds as described in this circular, dated and bearing interest from Nov. 15 1917 will be delivered to the above address, unless other instructions are given; if registered bonds are desired, fill out the form given below, in which case registered bonds dated Nov. 15 1917 will be mailed as promptly as possible to the address there given.

Following form to be filled out only in case registered bonds are desired and subscription (of \$1,000 or less) is full paid.

Register the bonds covered by the above full-paid subscription in the name of:

(First name in full)..... (Initial)..... (Last name).....

ALLOTMENTS FROM FEDERAL RESERVE DISTRICTS IN SECOND LIBERTY LOAN OFFERING.

The minimum and expected amounts of the Second Liberty Loan offering which the various Federal Reserve districts are counted upon to subscribe were indicated in an announcement made by the Treasury Department on Sept. 30. The minimum amount expected in the case of the New York Federal Reserve District is \$900,000,000 and the maximum amount \$1,500,000,000. The following is the apportionment for the twelve Federal Reserve Districts announced by the Treasury Department:

District.	Per Cent.	Minimum.	Expected Amount.
1 Boston.....	10	\$300,000,000	\$500,000,000
2 New York.....	30	900,000,000	1,500,000,000
3 Philadelphia.....	8½	250,000,000	415,000,000
4 Cleveland.....	10	300,000,000	500,000,000
5 Richmond.....	4	120,000,000	200,000,000
6 Atlanta.....	2½	80,000,000	135,000,000
7 Chicago.....	14	420,000,000	700,000,000
8 St. Louis.....	4	120,000,000	200,000,000
9 Minneapolis.....	3½	105,000,000	175,000,000
10 Kansas City.....	4	120,000,000	200,000,000
11 Dallas.....	2½	75,000,000	125,000,000
12 San Francisco.....	7	210,000,000	350,000,000
Total.....	100	\$3,000,000,000	\$5,000,000,000

The announcement of the Treasury Department states that:

In each case the amount has been computed on the percentage basis, and while the banking resources of each district—that is, the total resources of the nation's State banks and trust companies—have been given large consideration, other factors have been taken into account, such as the income tax collected from each district, the assessed value of property therein, the subscriptions received from each district to the first Liberty Loan, and the amount of bonds allotted on such subscriptions, the capital available for bond investment in each district and its population.

It is pointed out that the basis of apportionment thus varies materially from that used in the first Liberty Loan, when the banking resources of each Federal Reserve district were the sole basis of calculations. Apportionment by States, easy of computation in the first issue, cannot be determined except by Treasury experts in the second offering. It is likely that such apportionments will be announced shortly. Governors of the Federal Reserve banks have been notified by Secretary McAdoo of the apportionments. The sums stated in the "amount expected" column are designated as "the amount which each district should subscribe in order to

secure the result imperatively demanded for the defense and security of the nation."

The Borough of Manhattan must raise \$1,012,813,500 in the second Liberty Loan campaign if the maximum of \$1,500,000,000 set by the U. S. Treasury Department for the second Federal Reserve District is to be reached by Oct. 27. The apportionment of \$1,500,000,000 for the Federal Reserve District in which New York City and State are situated is based upon a total of \$5,000,000,000 for the second Liberty Loan of 1917. With Manhattan allotted more than a billion dollars worth of Liberty bonds, the Borough of Brooklyn will have \$54,148,500 to raise. The Bronx is down for a total subscription of \$2,511,000. A Sub-Committee on Apportionment, appointed by the Executive Committee on distribution of the Liberty Loan Committee, and made up of R. M. Byrnes, Vice-President of the National City Company; Harold Stanley, Vice-President of the Guaranty Trust Co.; and W. B. Walker of Harris, Forbes & Co. announced on the 3rd inst., how the \$1,500,000,000 for this Federal Reserve District must be split up. Not only were the totals for Manhattan, Brooklyn and the Bronx worked out, but also the subscriptions that every town and village must fill in order to do its share in the second Liberty Loan campaign. The statement of the sub-committee of which Mr. Byrnes is Chairman, regarding the allotment by counties, says:

After careful consideration, the Committee decided that the best single basis of apportionment would be found in a compilation and analysis of the total "banking capital" (that is, the capital, surplus, undivided profits and deposits, excluding banking deposits) of the commercial banks, that is, national banks, State banks and trust companies in each community. It was necessary to use unofficial figures in this compilation as the authoritative data recently reported to the Comptroller of the Currency was not available. The "banking capital," thus defined, of the Second Federal Reserve District was found to total \$6,195,720,000.

As the total district outside of New York City has been subdivided for the purposes of the present campaign into eight sub-districts, each presided over by a special sub-committee on distribution, the apportionment by communities was classified on these lines, so that each committee might have a definite idea of the amount of subscriptions expected from its territory and could see that each community was supplied with a definite mark to shoot at. The amount of labor involved in the original calculation of these community apportionments can only be appraised when it is realized that over 700 divisions had to be made, in each case the divisor being \$6,195,720,000.

The following table shows the results of the apportionment by the sub-divisions into which the entire Federal Reserve District No. 2 has been divided:

District No. 1.....	\$82,318,500
District No. 2.....	40,126,500
District No. 3.....	48,123,000
District No. 4.....	17,938,500
District No. 5.....	59,337,000
District No. 6.....	15,387,000
District No. 7.....	139,702,500
District No. 8.....	27,594,000
New York City—	
Bronx Borough.....	2,511,000
Brooklyn Borough.....	54,148,500
Manhattan Borough.....	1,012,813,500
Total.....	\$1,500,000,000

The total number of communities covered by this study, including New York City as one community, was 550 and the total number of banks included as a basis of the study, was 1,049.

Without taking into consideration the rural and suburban population without banking facilities surrounding the various communities covered by the compilation, it was found that the total population of the 550 communities embraced in this study was 9,496,636, or nearly 84% of the total population (1910 Census figures) of 11,329,375 for the entire Reserve District. The following table shows these figures in detail:

	Population 550 Banking Communities.	Total Population (Census).
Connecticut, Fairfield County.....	234,535	245,322
New Jersey, 12 Northern Counties.....	1,589,403	1,970,439
New York City, outside N. Y. State.....	2,905,815	4,346,731
New York City.....	4,766,883	4,766,883
Total.....	9,496,636	11,329,375

Although the proportion of population not covered by this study is comparatively small and the per capita amount of subscriptions to be expected from that part of the population is relatively less, it is the desire of the central Distribution Committee to make supplementary allotments to those communities without commercial banking facilities, which have organized local Liberty Loan committees. The Sub-Committee on Apportionment is considering this problem and will probably report its recommendations in regard to such supplementary allotments in a few days.

CONVERTIBILITY OF THE 3½% LIBERTY LOAN BONDS.

Announcement that a definite ruling regarding the time limit within which conversions of the 3½% Liberty Loan bonds may be made will shortly be forthcoming from the Treasury Department is made in the following circular issued on Oct. 2 by C. F. Childs & Co. of Chicago and New York:

The Secretary of the Treasury to-day advised us that after carefully reviewing the status of the 3½s wherein the law was not as specific as it

should have been regarding a time limit within which conversions could be made, a definite ruling on that point will soon be announced by the Treasury Department.

It is the Secretary's opinion that if any conflict exists between the intent, wording, or interpretation of the law, the benefit should properly be given to the bondholders rather than to the Government. Consequently, we believe we are prophesying conservatively in asserting that the option to the holders of the 3½s will be continuous whereby the holders of the 3½s may convert their bonds into any higher interest rate bonds which may at any time be issued. That is, holders desiring to exchange 3½s into new 4s (now offered) may make application to do so at any time until the Department announces a termination of that privilege with respect to that particular issue. Therefore, the holders of the 3½s may forego the present opportunity to make an exchange for the 4s without jeopardizing their privilege to later tender their 3½s for exchange into a future issue of bonds bearing any rate of interest higher than 3½%. Until this subject has been finally decided at the Treasury Department and an announcement made, the holders of the 3½s may reasonably postpone action without risk of losing their option to convert. In the absence of any specific time limit, the conversion privilege apparently remains vested in the holders of the 3½% bonds during the period of the war.

The above situation does not apply in the case of the 4s and their convertibility, for the law definitely gives the holders of the new 4s the option of converting into the next issue, if there should be another issue, bearing more than 4% interest. Furthermore, the holders of the 4s must avail of that conversion privilege or forfeit it within a certain prescribed time limit which will be based upon the date of issuance of any later higher rate bond issue.

The 3½s are apparently convertible into any future issue but the 4s are only convertible into the next succeeding higher rate issue.

LIBERTY LOAN SUBSCRIPTIONS.

Some of the larger subscriptions to the new Liberty Loan offering in the New York Reserve district, unofficially reported during the week, were as follows:

Metropolitan Life Ins. Co.	\$10,500,000	Coal & Iron Nat. Bank	\$1,023,450
Corn Exchange Bank	10,000,000	Atlantic Gulf & West Indies	1,000,000
Mutual Life Insurance Co.	10,000,000	Bank of America	1,000,000
New York Life Ins. Co.	10,000,000	Bernhard, Scholle Company	1,000,000
United States Steel Corp.	10,000,000	Chino Copper Co.	1,000,000
Prudential Ins. Co., Newark	7,500,000	Goldman, Sachs & Co.	1,000,000
Western Union Telegraph Co.	5,500,000	Hallgarten Company	1,000,000
Atoh, Topeka & S. Fe Ry. Co.	5,000,000	Maitland, Coppel Company	1,000,000
Chatham & Phenix National Bank, New York City	5,000,000	Mercantile Trust & Deposit	1,000,000
First National Bank, N. Y. C.	5,000,000	National City Bank for German-American Ins. Co.	1,000,000
Liberty National Bank	5,000,000	National Surety Co.	1,000,000
Marine Nat. Bank of Buffalo	5,000,000	Nevada Consol. Copper Co.	1,000,000
Northern Pacific Ry. Co.	5,000,000	Norfolk & Western Ry. Co.	(subscribed \$5,000,000, but this district will receive \$1,000,000)
Southern Pacific, through Kuhn, Loeb & Co.	5,000,000	Ray Consolidated Copper	1,000,000
Union Pacific RR., through Kuhn, Loeb & Co.	5,000,000	Spencer Trask & Co.	1,000,000
Republic Iron & Steel Co.	4,800,000	Wells, Fargo & Co.	1,000,000
Fidelity Trust Co., Newark	4,062,600	Jewelry Trade Committee	836,000
Hayden, Stone & Co.	3,000,000	Irvine National Bank	759,700
Utah Copper Co.	3,000,000	Stamford National Bank	630,400
Union Nat. Bank, Newark	2,521,250	Men's Clothing Trades Committee	600,000
Alaska Packers' Association	2,500,000	Guaranty Trust Co.	567,150
Manufacturers' Trust Co. of Brooklyn	2,500,000	Columbia Trust Co.	542,000
Metropolitan Trust Co.	2,500,000	Kings County Trust Co.	511,000
Importers & Traders' Nat. Bank	2,171,000	Broadway Trust Co.	500,000
American Sugar Refining Co.	2,000,000	California Packing Corp.	500,000
Emigrant Industrial Sav. Bk.	2,000,000	E. W. Bliss Company	500,000
Home Insurance Co.	2,000,000	German-American Ins. Co.	500,000
United States Trust Co.	2,000,000	Home Life Ins. Co.	500,000
Bankers Trust Co.	1,721,000	Hornblower & Weeks, N. Y. C.	500,000
Williamsburgh Savings Bank	1,500,000	National City Bank for German Alliance Ins. Co.	500,000
Citizens' National Bank	1,034,200		

OPENING OF SECOND LIBERTY LOAN CAMPAIGN— SECRETARY McADOO'S TOUR.

The nation-wide campaign for the second Liberty Loan offering was begun on the 1st inst. The day was marked by distinctive demonstrations in the cities and towns throughout the country. Secretary of the Treasury William G. McAdoo on the 1st opened his transcontinental speechmaking tour in Cleveland, where Tris Speaker, star outfielder of the Cleveland Baseball Club, presented Secretary McAdoo with a check for \$1,000 in payment for the first bond. Speaking in the Cleveland Public Square during the ceremonies attending the hoisting of the Liberty Loan flag, Secretary McAdoo said:

Roughly speaking, and after allowing for the amount of revenue to be raised by taxation for the fiscal year ending June 30 1918, we shall have to raise by additional bond issues between \$13,000,000,000 and \$14,000,000,000. It is estimated that \$5,000,000,000 will represent additional loans to the Allied Governments, which, in turn, will give their obligations bearing interest.

To raise thirteen to fourteen billions of dollars on or before the 30th of June, 1918, by the sale of bonds in recurring installments, seems to some people an impossible task. It is a stupendous undertaking, but it is not impossible for America. It is not easy, but it can be done. Our resources are adequate; our will is perfect; our spirit is indomitable; and our success is certain. We have only to pull together—bankers, lawyers, doctors, manufacturers, farmers, wage-earners, laborers, men and women alike. Girl Scouts and Boy Scouts, and every other class of people—and we can do the job. Already we have demonstrated what a united people can do when partisanship is subordinated to patriotism, when love of country becomes supreme. I look forward, therefore, with confidence to the success of the recurring campaigns we must make for the sale of Liberty Bonds.

At noon Mr. McAdoo attended a business men's luncheon at the Chamber of Commerce, where he made the principal address of the day. He said:

I am not going to discuss at length to-day the causes which have led America into this war. Through three years of patience unparalleled in the history of the world, through three years of forbearance in the face of insults which were never offered before by one civilized nation to another, your great President strove to keep this country at peace with all the world. But God had decreed that America should rescue civilization from the dark abyss into which this military despot of Germany had thrust it.

So America finds herself in the fight, and America intends that this fight shall be won and won quickly; America intends that those well-meaning but misguided people who talk inopportunely of peace when there can be no peace until the cancer which has rotted civilization in Europe is extirpated and destroyed forever, shall be silenced. I want to say here and now, with due deliberation, that every pacifist speech in this country made at this inopportune and improper time is in effect traitorous. More than that, it means the needless sacrifice of many more American soldiers upon the battlefields and the expenditure of much more American treasure. Every such speech is an encouragement to the Kaiser to fight harder and longer, and that means more American boys uselessly killed.

We intend that freedom and democracy shall be made supreme throughout the world. America has to be made safe and secure for the future. There are two systems to-day which have got to be reckoned with. They cannot both live together in the civilized world. These two principles are autocracy, or arbitrary and despotic government, on the one hand, and democracy, which breathes and lives because it exists upon the basis of a free people, on the other. These two principles have clashed in this war. One or the other has got to survive, just as certainly as the issue of slavery had to be fought to a conclusion in the Civil War. It is a tragedy of civilization that the single brain of a German despot should possess the power to throw a whole world into such terrible chaos and convulsions.

The important thing to do at the moment is to provide the first sinews of war. What are they? Always money. No nation can fight a war without money. We must raise something like eighteen billion dollars in this fiscal year. Something under four billion of that amount probably will be raised by taxation, and it leaves to the American people the opportunity—the privilege—of sustaining the credit of their Government by buying the bonds of their Government. These bonds will be offered to the American people.

No one class in this country can finance this war. In a democracy every class must do its duty and every class must equally have the opportunity of taking advantage of the privileges that may be offered by the Government. Here is one thing that every man, woman and child in America can do with their savings, because we are going to make it so easy to buy the obligations of the Government that the man who has a 25-cent piece can save and ultimately convert it into a Government bond.

We are going to issue war-saving certificates in denominations of \$5 each, and you can accumulate stamps from the Post Office in small denominations and paste them in that book until you get \$4 10 worth, and the Government of the United States at the end of five years will cash this certificate for \$5.

Speaking to several thousand citizens in Memorial Hall in Toledo on the 1st inst., Secretary McAdoo declared that the failure of a single issue of Government bonds would be worse for America than a disaster upon the field of battle. "We must never let that happen," he said. He further said:

A few days ago I read the following manifesto issued in Berlin by the League of German Municipalities:

"If money talks, the President of the United States may learn by Oct. 18, when the subscription lists close, that the echo of the new war fund given by the German people will have drowned out completely the clamor of unending protests which his reply to the Pope has given stimulus."

Let us meet that challenge by a subscription to our second Liberty Loan, on the 27th day of October, nine days after the close of the German loan, which will make clear to the German military despotism that America marshals not alone her brave soldiers upon the field, her invincible navy upon the high seas, her industries throughout the length and breadth of this land, but as well her financial resources, and that she is determined to use them all without stint and regardless of sacrifice to vindicate American rights, outraged too frequently by German infamies.

Let us answer this challenge by making clear to the world that the American people, with transcendent love of justice and of country, stand solidly behind their great President and support unequivocally the purpose of this war.

In a speech at an Indianapolis mass meeting on the 2d inst., Secretary McAdoo stated that if by any possible chance a single loan offered by the United States Government to the American people should fail, it would be a greater disaster, and have worse effect, than the loss of a great battle. He made the statement after saying that the United States Treasury is the heart of the war machine. The "gold pile" in the Treasury must be kept as plentifully supplied as the coal pile of a business, Mr. McAdoo declared. In part he said:

When war comes to a nation, the first essential is money. We must keep our soldiers and sailors armed and equipped with the best that money can buy and American skill devise. We must constantly provide them with necessary clothing and food. We must pay their wages. We must as a humane nation, support their dependent families while they are risking and giving their very lives for us. We must supply them with a reasonable amount of life insurance. We destroy their insurability and conscript almost the whole of their earning power when we draft them and send them to the front. We can do no less than reconstitute their destroyed insurability and their diminished earning power.

We must increase, strengthen and maintain our navy; we must provide a predominant fleet of aeroplanes and air fighters; we must build a great merchant fleet, so that our long line of communications with our gallant soldiers in France may be maintained, and our commerce carried across the seas in defiance of the German Kaiser and his submarines. We must succor our noble compatriots in arms—the British, French, Italians, Belgians, Russians—by lending them money with which they can buy arms and food and other supplies in our markets. All these things must be done, and done quickly.

It is upon the Treasury of the United States that every demand in time of war focuses, because everything goes back to the gold pile. The problem of the American Treasury is the problem of the American banker and the problem of the American people. It is the problem of keeping the Treasury supplied with the means to carry forward these great objects under the direction of the Commander-in-Chief of the Army and Navy of the United States, your President.

The money that we are raising by taxation and by bond issues is being devoted to these purposes. More than \$8,500,000,000 of the money that you are going to provide this fiscal year is being expended, or will be expended, upon your army—upon from 1,800,000 to 2,500,000 of the bravest and most gallant soldiers that ever donned the uniform. And your navy, recruited to the full with brave tars, under whose uniforms beat the true

hearts of American freemen, is being built up, equipped and manned with this money.

Preliminary to the opening of the campaign this week, Secretary McAdoo made public the following statement bearing on the Liberty Loan offering:

For the purpose of—
 equipping with arms, clothing and food our gallant soldiers who have been called to the field;
 maintaining our navy and our valiant tars upon the high seas;
 providing the necessary means to pay the wages of our soldiers and sailors and, if the bill now pending in the Congress passes, the monthly allowances for the support of their dependent families and to supply them with life insurance;
 constructing a great fleet of merchant vessels to maintain the line of communication with our brave troops in France, and to keep our commerce afloat upon the high seas in defiance of the German Kaiser and his submarines;
 creating a great fleet of aeroplanes, which will give complete supremacy in the air to the United States and the brave nations fighting with us against the German military menace; and for other necessary war purposes.

The Congress of the United States has authorized the Secretary of the Treasury to sell to the American people bonds of the United States bearing 4% interest, with valuable tax exemptions, and convertible under certain conditions into other issues of United States bonds that may be authorized by the Congress. The official circular of the Treasury Department gives full details.

There is now offered to the American people a new issue of \$3,000,000,000 of bonds to be known as the Second Liberty Loan. They will be issued in such denominations and upon such terms that every patriotic citizen will have an opportunity to assist the Government by lending his money upon the security of a United States Government bond.

It is essential to the success of the war and to the support of our gallant troops that these loans shall not only be subscribed, but oversubscribed. No one is asked to donate or give his money to the Government; but everyone is asked to lend his money to the Government. The loans will be repaid in full with interest at the rate of 4% per annum. A Government bond is the safest investment in the world; it is as good as currency and yet better, because the Government bond bears interest and currency does not. No other investment compares with it for safety, ready convertibility into cash, and unquestioned availability as collateral security for loans in any bank in the United States.

People by thousands ask the Treasury constantly how they can help the Government in this war. Through the purchase of Liberty Bonds every one can help. No more patriotic duty can be performed by those who cannot actually fight upon the field of battle than to furnish the Government with the necessary money to enable it to give our brave soldiers and sailors all that they require to make them strong for the fight and capable of winning a swift victory over our enemies.

We fight, first of all, for America's vital rights, the right to the unmolested and unobstructed use of the high seas, so that the surplus products of our farms, our mines and our factories may be carried into the harbors of every friendly nation in the world. Our welfare and prosperity as a people depend upon our right of peaceful intercourse with all the nations of the earth. To abandon these rights by withdrawing our ships and commerce from the seas upon the order of a military despot in Europe would destroy prosperity and bring disaster and humiliation upon the American people.

We fight to protect our citizens against assassination and murder upon the high seas while in the peaceful exercise of those rights demanded by international law and every instinct and dictate of humanity.

We fight to preserve our democratic institutions and our sovereignty as a nation against the menace of a powerful and ruthless military autocracy headed by the German Kaiser, whose ambition is to dominate the world.

We fight also for the noble ideal of universal democracy and liberty, the right of the smallest and weakest nations equally with the most powerful to live and to govern themselves according to the will of their own people.

We fight for peace, for that just and lasting peace which agonized and tortured humanity craves and which not the sword nor the bayonet of a military despot but the supremacy of vindicated right alone can restore to a distracted world.

To secure these ends I appeal to every man and woman who resides upon the soil of free America and enjoys the blessings of her priceless institutions to join the League of Patriots by purchasing a Liberty Bond.

OPENING OF SECOND LIBERTY LOAN CAMPAIGN IN NEW YORK.

The tremendous machinery devised by the bankers of New York, with the co-operation of Washington, for the selling of the Second Liberty Loan was put into motion in this city on Monday last, Oct. 1. As a preliminary, the city had been heavily placarded with Liberty Loan posters on Sunday night to catch the attention of the public as business was taken up the following morning. Proceedings opened in the financial district with a parade up Wall Street and Broadway to the plaza at the City Hall, where Mayor Mitchel made an address telling the purpose of the campaign. Allen B. Forbes, representing the committee in charge of the bond salesmen who will push the loan in this city, also made an address. The bond salesmen immediately scattered to all parts of the city, and the selling campaign was on in full force. Mayor Mitchel was the first individual subscriber reported in New York. As a part of the work of disposing of the \$3,000,000,000 bonds, arrangements were made for marshalling an army of 10,000 canvassers to join in the campaign. Mayor Mitchel in opening the campaign said:

We are gathered here again on the steps of City Hall to begin a new national service for the assistance of the nation in this war.

New York City has a reputation to maintain. From the beginning of the war in Europe we called the attention of the country to the necessity of national preparedness. Before the declaration of war, when the question of peace or war was hanging in the balance, a million citizens of this city swore allegiance to the President of the United States and sent their promise to Washington to support his hands in whatever he might be called upon to do. New York State has contributed her sons to the cause of democracy and freedom. We have to-day, I think, approximately a hundred thousand men in the camps or at the front across the Atlantic. This is a record to live up to. This is a standard to maintain. We and

you cannot afford to let the work of New York fall behind in this offering which you go out to make to the people to-day.

Mr. Forbes, Chairman of the Distribution Committee of the Liberty Loan Committee, spoke in part as follows at the City Hall meeting:

On behalf of the Liberty Loan Committee of this District, and on behalf of the active and militant Liberty Loan workers, I thank you, Mr. Mayor, or your inspiring words.

In your official capacity as Chief Magistrate of the capital of financial and commercial America, in your personal capacity as one of the greatest and wisest leaders in this crisis of our country, your words and your inspiration are of untold encouragement.

On this opening day I am especially gratified to see this great crowd which has turned out to inaugurate the campaign. I am glad to see the soldiers, for you men typify the spirit that you stand behind us as we must now stand behind you.

The fortunes of this war are very closely related to the success or failure of the work of the next four weeks in this country. The nature of the response of the American people to this Second Liberty Loan will be of direct aid either to our allies and ourselves or to Germany.

Although the task is greater than was the task of raising the first loan, we nevertheless enter this campaign with even greater confidence of success. The issues are clearer. The necessity is greater. The nation has been educated to the wisdom of buying bonds. As an appeal to the patriotism of the American man and as an investment of the soundest character these bonds should have a tremendous popular response. Where four and a half millions of our hundred millions responded to the first call, we may confidently expect twice as many millions to answer the second.

Upon us of this Second Federal Reserve District must necessarily fall the heaviest burden of this vast distribution. We have voluntarily assumed as before to raise far in excess of our own quota. This amount we feel sure will be fully subscribed, just as in the first loan. The eyes of the world are on New York.

I promise you, Mr. Mayor, that your constituents in New York will do all that continuous industry and conscientious realization of duty can contribute to the accomplishment of this, the principal and most important war measure of this month.

The first actual bank subscription in this city to the second Liberty Loan was for \$2,500,000, made immediately after the opening of business by Nathan S. Jonas, President of the Manufacturers' Trust Co. of Brooklyn. In the first loan campaign Mr. Jonas' bank took the largest subscription of any institution in Brooklyn in proportion to its size, subscribing for \$2,250,000 and receiving an allotment of \$1,632,000, and this time, he said, he was going to set even a higher mark for Brooklyn banks to aim for. Mr. Jonas said:

The Manufacturers' Trust Co. is determined to do its full share in selling the Second Liberty Loan.

At the Liberty Loan Campaign Committee's headquarters in the Equitable Building, where he came personally to enter his application, Mr. Jonas said:

We believe that every institution and individual that participated in the first loan should do better in the present loan. In order to set a mark for itself and an example for others to follow, the Manufacturers' Trust Co. has subscribed at the outset for \$2,500,000 of bonds, with the expectation of selling them to its customers and others through hard work, but in any event pledging itself to take for its own account any remaining bonds unsold on this initial subscription. The Manufacturers' Trust Co. is confident that it can sell these bonds, because it proposes to put the necessary energy and enthusiasm into the work, believing that it is incumbent upon all those who stay at home to support our boys at the front.

TEN THOUSAND CANVASSERS TO SELL LIBERTY BONDS.

Canvassers for the second Liberty Loan campaign are being marshalled in every part of the city. At Liberty Loan Headquarters it was announced early this week that 10,000 workers were expected to join the ranks. This small army will be directed by the Metropolitan Canvass Committee, of which A. B. Leach is Chairman. The committee has issued the following bulletin:

This organization has been formed at the request of the Liberty Loan Committee for the Second Federal Reserve District with a view to assisting in the work of directing and supervising the canvassing of the Boroughs of Manhattan, Brooklyn and the Bronx, so that every person residing therein may be informed regarding the Second Liberty Loan.

Its goal is to see New York City reach and even exceed its quota of bond subscriptions, and the committee will deem it an honor and a privilege to be permitted to establish close working relations with any and all of the various clubs, societies, colleges, schools, associations, &c., which are so nobly and unselfishly preparing to serve their country in this vital cause.

A harmonious general plan of linking together these various endeavors will result in keeping each campaign unit informed as to what lines all are pursuing, thus bringing the full measure of efficiency for the work as a whole.

Committee bulletins will be issued from time to time, reporting the work of the various organizations and giving publicity to any suggestions which may be helpful in the final success.

Literature issued by the main committee will be promptly delivered upon request.

Speakers will be provided upon due notice.

Inquiries of every kind bearing upon the campaign will receive prompt and courteous attention.

According to present arrangements of the Distribution Committee of the Liberty Loan Committee, canvassers will be instructed not to accept money for subscriptions. The purchaser will sign a subscription blank, which will be retained by the canvasser.

The canvasser will find out just how the purchaser wishes to pay. If the subscriber has no bank account which can be utilized, arrangements will be made to have the subscription handled by a bank convenient to the buyer.

INDUSTRIAL COMMITTEE TO CANVASS EMPLOYEES OF CORPORATIONS FOR SALE OF LIBERTY BONDS.

The Liberty Loan Committee announced on Oct. 2 the membership and working plans for its Industrial Committee. Corporations employing hundreds of thousands of men and women, and whose pay-rolls amount to many millions a week, are being swung into the Second Liberty Loan campaign by this committee, which is headed by Union N. Bethell, President of the New York Telephone Co. H. B. Thayer, President of the Western Electric Co., is Vice-Chairman; A. C. Bedford, President of the Standard Oil Co. of New Jersey, is a member, as are Samuel P. Colt, President of the United States Rubber Co.; Robert Gair, President of the Robert Gair Co.; Warren L. Green, President of the American Bank Note Co.; John Hays Hammond, engineer; J. S. McCulloh, General Commercial Superintendent of the New York Telephone Co.; Charles M. Schwab, President of the Bethlehem Steel Co.; Olin J. Stephens, President of Olin J. Stephens, Inc., and Guy E. Tripp of the Westinghouse Electric & Manufacturing Co. James Robb of the American Telephone & Telegraph Co. is Secretary. N. Dean Jay, Vice-President of the Guaranty Trust Co., and a member of the Distribution Committee of the Liberty Loan Committee, has helped in the organization of this committee.

EVERY MEMBER OF INTERNATIONAL BROTHERHOOD A BONDHOLDER IN SECOND LIBERTY LOAN.

Every working member of the International Brotherhood of Stationary Firemen, composed of 40,000 men, will become a bondholder in the Second Liberty Loan, according to Coroner Timothy Healy, President of the organization. In announcing this, a statement issued by the Publicity Department of the Liberty Loan Committee of the New York district on Sept. 28 said:

"The opportunity to become investors in a gilt-edged security on the easy-payment plan and at the same time to perform a patriotic duty will be taken advantage of by thousands of men who never before purchased a bond or security of any kind, according to Mr. Healy. He believes that the policy adopted by many of the large business firms in purchasing these bonds for their employees and then deducting from their salaries a stipulated weekly sum should be urged on all employers. Increased efficiency on the part of the employees will be but one of the many results the adoption of this plan will produce.

"Speaking for the International Brotherhood of Stationary Firemen," said Coroner Healy, "I know hundreds of our men who purchased Liberty Bonds by this method. Most of them have completed their payments and are highly gratified with their purchase. I feel very confident that every member of our union will be a bondholder in the Second Liberty Loan, and as many future loans as the Government will find necessary to call."

WOMEN'S COMMITTEE MEETING.

The women of the country are just as much under obligation to offer their time and services to the Government in the sale of Liberty Bonds as the men who have been called away to the front are to offer their lives. This was the keynote of the speech made by Gov. Strong of the Federal Reserve Bank at a meeting held this week by the Women's Committee of the Second Federal Reserve District to call together the heads of the various women's organizations in the city and enlist their aid in pushing forward the great campaign to raise \$5,000,000,000 by Oct. 28. Gov. Strong said he could not emphasize too strongly the importance of the women's work in this campaign. He explained that the service once undertaken must be kept up, that those who enlisted now must enlist for the entire duration of the war, and that their service must be a permanent one as long as the war lasts. He explained that after this bond issue there would be others of equal importance, as the Government will be obliged to raise anywhere between 13 and 15 billion dollars before the 30th of next June.

The actual work of selling the bonds, Gov. Strong said, would rest largely with the women. It is a tremendous responsibility, he added, but one that they must shoulder now that such a large percentage of the men have been called away to the war. They will actually and officially be in the service of the Government, since all of the work of Federal Reserve banks in selling Liberty Bonds is volunteer work, and those who volunteer to work under the Federal Reserve districts automatically become members of the Federal Reserve Bank of that district. Charles E. Mitchell, President of the National City Bank, who was the next speaker, made a special appeal to the women to save. The money for the Government bonds must come from the future savings of the people here, he said, and the habit of saving must become a part of the national life of the country. This, he added, rests mainly with the women of the nation, and upon their co-operation depends the success of the loan and consequently the success of the war.

LIBERTY LOAN CAMPAIGN IN CUBA.

With the object of raising a million-dollar subscription to the new Liberty Loan from members of the American colony in Cuba, Osgood Smith, an attorney of Havana and New York, has left for the Cuban capital to extend the Liberty Loan distribution work of the Second Federal Reserve District. Cuban investors took more than \$200,000 of the first issue of Liberty Bonds. Advices received at Liberty Loan headquarters in the Equitable Building indicate that banks throughout Cuba would receive subscriptions to new Liberty Bonds free of charge.

The recent action of the United States Treasury in subscribing for half of the \$30,000,000 issue of Cuban war bonds has tended to cement the financial relations between the two countries. Mr. Smith will co-operate with officials of banks in Cuba and with members of the American War Emergency Committee, which was formed by the American residents of Havana shortly after President Menocal of Cuba declared war on Germany last April.

LIBERTY LOAN COMMITTEE WILL DISTRIBUTE PAY ENVELOPES.

With a view to bringing the Second Liberty Loan to the attention of workingmen, the Publicity Department of the Liberty Loan Committee has ordered 500,000 pay envelopes, bearing a printed appeal for subscriptions to the loan. These envelopes will be for free distribution to firms employing more than 500 men. For concerns which prefer to use the envelopes they have in stock, printed slips for insertion in pay envelopes have been prepared, and where this would be too great a demand on the clerical force, rubber stamps for printing a fac-simile of the appeal on standard envelopes have been ordered. Both the inserts and rubber stamps, as well as the envelopes, may be obtained from the Liberty Loan Committee, at 120 Broadway. Envelopes and inserts bear a medallion of the Statue of Liberty in red, while above is inscribed:

There is a war.
We're in it.
Wars cost money.
We've got to pay for it.
"We" means Labor as well as Capital.

Across the medallion is a brief statement of the purposes of the loan, its value as an investment and an appeal for the purchase of the bonds on the installment plan.

LIBERTY BONDS ON PARTIAL PAYMENT PLAN.

To facilitate the duties of those who buy the new Government bonds on the partial payment plan of one dollar a week, the Liberty Loan Committee has devised a "punch card" which will tell at a glance exactly how much the patriotic bond buyer has paid on his certificate and the amount he still owes. The card will be distributed wherever the partial payment plan will be in effect during the big campaign. One card is to be given to the partial-payment buyer and a duplicate will be retained by the bank through which he has subscribed. It is stated that not only will the plan card save time in computation but enable bookkeepers, clerks or cashiers to know immediately how much money is outstanding at any period during the progress of payments.

One side of the card indicates the date on which a payment or installment is due, while the corresponding square on the reverse side will show how much has been paid, with the "punched hole" and how large the balance is. The first payment date is Nov. 5, and will continue until fifty payments are made, ending Oct. 14 1918. As an example, the card works as follows: Should you pay your one dollar on Jan. 7 1918, the punch mark on the card over that date will cancel at the same time the remainder on the back of the card, "\$10 total paid, balance due \$40."

The following statement was issued by Arthur M. Anderson, Executive Secretary of the Distribution Committee of the Liberty Loan Committee of the New York Federal Reserve District, regarding this phase of the campaign:

This question of uniformity was agitated immediately after the close of the first campaign, when many different methods of keeping track of the investors' installment payments were found to be practised among the banks and corporations of the Second Federal Reserve District. The plan now under way is to distribute among the banks a supply of cards, which will be punched every time an investor makes a payment. The purchaser of the bond will have one of the cards and the bank which handled his subscription another card, identical in size. Both cards will be punched at the same time and the first card will be returned to the subscriber. The second will be filed away until the next payment comes due. This system will be applicable to \$50, \$100 and \$500 bonds purchased by installments.

In the first campaign many of the banks found that the clerical work involved in handling thousands of small subscriptions was burdensome in the extreme. The adoption of the uniform system recommended by the Liberty Loan Committee will simplify the work of the banking forces.

It is proposed to get in touch with every bank in the district and to urge them to adopt the committee's suggestion. An offer will be made to supply the banks with cards free of charge.

GOV. STRONG ON THE EXPECTED RESULTS IN THE SECOND LIBERTY LOAN OFFERING.

Governor Strong of the Federal Reserve Bank of New York in a statement on Sept. 28, following the announcement of Secretary of the Treasury McAdoo concerning the Second Liberty Loan issue, stated that "if the efforts of the various committees throughout the New York Federal Reserve District result as successfully as they did before, it would produce subscriptions of about \$2,000,000,000 for this district, while some similar activities in the rest of the country * * * would produce total subscriptions of between \$500,000,000 and \$5,000,000,000." The following is Gov. Strong's statement:

Now that the Secretary of the Treasury has outlined his plans for the coming campaign, we can proceed in this district with a considerable degree of certainty. The Secretary has set \$3,000,000,000 as the minimum amount of bonds which should be sold throughout the country. In the last campaign we set for this district a figure of 50% of the amount of the entire issue, and we secured subscriptions aggregating something over \$1,300,000,000. If we again take 50%, or \$1,500,000,000, this time, as the smallest amount which we shall feel contented with, and if the efforts of the various committees throughout the district result as successfully as they did before, it would produce subscriptions of about \$2,000,000,000 for this district, while some similar activities in the rest of the country, based on the results last time, would produce total country-wide subscriptions of between \$4,500,000,000 and \$5,000,000,000.

Under the announced policy of allotting only 50% of any subscriptions in excess of \$3,000,000,000, such a subscription would result in the distribution of between 3 3/4 billions and 4 billions dollars of bonds. These are large figures, but the opportunity given this time for more complete organization justifies our setting our mark at \$1,500,000,000. Whatever sum is decided upon for the Second Federal Reserve District, \$1,500,000,000 or some other amount in that general neighborhood will be apportioned among the various communities in our territory.

LIBERTY LOAN MUST BE SUBSCRIBED, SAYS THOMAS W. LAMONT.

Blood, tears and treasure will be saved by America and the war shortened if the Liberty Loan is heavily subscribed, is the opinion of Thomas W. Lamont of J. P. Morgan & Co. Discussing the Second Liberty Loan on Oct. 2, Mr. Lamont said:

The best way to shorten the war is to see that the Liberty Loan is heavily subscribed. All Europe has been torn to pieces for three years. No end to the struggle seems yet to be in sight. Is there any way that we can avoid similar distress befalling America?

Yes, by going at this task hammer and tongs; by providing promptly the wherewithal to enable our own armies and those of our allies to push the conflict through speedily to victory; thus to shorten the war.

Everybody must fall to in this work. It is not the task of the rich or of the moderately well-to-do, or of the poor. It is the task of every one. It is your duty and your business to-day. Every man, woman and child should make the success of this loan his chief business. Everything else can wait. But the loan must be subscribed for without delay.

If you take hold in this spirit, you will save for yourselves and for your country much of the treasure, the blood and the tears that are saddening the whole world to-day.

WILLIAM A. NASH ON SECOND LOAN.

"The Liberty Loan, by its very nature, is a prior lien on everything in the land, and the very best investment that the citizen can have," said William A. Nash, Chairman of the Board, Corn Exchange Bank, in a statement on Sept. 28, emphasizing the imperative duty of all patriotic Americans to subscribe to the Second Liberty Loan. Mr. Nash would have this point kept in mind by all, that this loan must not fail. He said:

It is the patriotic duty of every one to put some money into the new loan. It is inconceivable that the soldier will fail in his duty. It is equally unbelievable that there will be any hesitation in subscriptions to the new loan. Having embarked in this great enterprise, to falter, to temporize, or to count the cost is equivalent to cowardice at the front, and the timidity and selfishness of money should be regarded as disloyalty. I have seen many crises that demanded personal sacrifice and courage, and the man or institution who has gone wholeheartedly into a noble cause has never regretted his unselfishness, and it is on this basis I urge the full and freest support to the Government by generous subscriptions to the new loan.

Let us not misunderstand this Liberty Loan. It is the newest and the oldest of our securities. Back of every investment in the country is the Government. It gives value to every enterprise and business. Therefore, when it concentrates its power and influence in a bond it creates a first mortgage on every railroad, every industrial, every municipality in the country.

LIBERTY BONDS WILL GO TO A PREMIUM AFTER WAR, ACCORDING TO VICTOR MORAWETZ.

In the opinion of Victor Morawetz, not only is immediate subscription to the Second Liberty Loan the patriotic duty of every American, but those who back the Government with their money at this time are making an investment which is not only the safest in the world, but is likely to be a highly profitable one. Mr. Morawetz points out that the exemption of the bonds from all taxation except that on inheritances and the surtax on incomes, together with their

convertibility into any issue bearing a higher rate of interest, will certainly keep them at par during the war and send them to a premium at its conclusion. Mr. Morawetz said:

Both patriotic duty and self-interest call upon every citizen to subscribe to the extent of his ability for the second issue of Liberty Loan bonds.

We were forced into the war to protect American lives and commerce and to preserve the world from domination by the unprincipled, treacherous and brutal military autocracy of Germany. If the power of France, England and Russia should be broken and Germany remain undefeated in the present war, no nation would be safe from future aggression by Germany, and we should be compelled to maintain a vast standing army and a great navy to preserve our country and the rest of the American continent from German domination. The United States no longer could remain a peaceful nation and our national prosperity would be undermined.

Having entered the war, we must take every step necessary to win it promptly. Every day the war lasts will add enormously to its cost. Defeat, or failure to win a decisive victory, would be ruinous.

The vast sums necessary to carry on the war must be raised by taxation or by the issue of bonds, the principal and interest of which ultimately must be paid by taxation. Failure of the Government to sell its bonds upon favorable terms must inevitably result in heavier future taxation.

Within a short time before the beginning of the war the various high-class 4% railroad bonds had a market value above par. These railroad bonds were subject to all State, municipal and United States taxes. The 4% bonds now offered by the national Government at par are free from all United States, State and local taxation except as above stated (that is, inheritance taxes and surtaxes on incomes and excess profits and war profits taxes), and they are safer than any railroad bond. They are the safest investment in the world.

By reason of the conversion right attached to these bonds, subscribers are assured that their market value will be maintained approximately at par as long as the war lasts. Government bonds selling at par during the war are bound to go to a premium when peace is declared. Subscribers for these bonds, therefore, are practically insured against loss, and they are certain to make a profit when peace is declared.

E. P. MAYNARD'S VIEWS ON LOAN.

Edwin P. Maynard, President of the Brooklyn Trust Co., has been appointed head of the Brooklyn Advisory Committee which is working under the supervision of the Distribution Committee of the Liberty Loan Committee to supervise the flotation of the bonds in the Borough of Brooklyn. Mr. Maynard declared on Sept. 27 that it was the paramount duty of everyone in the country to do their utmost from now until the 27th of October toward making the Second Liberty Loan a success. He is quoted as follows:

The placing of the new Liberty Loan must, from now until Oct. 27, when subscriptions close, be the chief business of every man and woman in the United States.

We cannot send our men to France to fight for the liberty of the world and the future safety of the United States unless enormous sums of money are provided with which to manufacture guns, ammunition, ships, clothing, and buy food and a thousand things necessary for our men to make them the powerful army of the United States, which we will and must have.

Few people seem to have much of an understanding as to where the money comes from which pays for the subscriptions to the bonds. It should be realized that all the dollars in the country, except such small amounts as we may have in our pocket books, are invested in or loaned to our business enterprises, railroads and manufactories, and cannot be withdrawn from where they are now at work, for the purchase of bonds, without causing great disturbance and damage.

Money may be in the savings bank, but the bank, in order to pay interest to its depositors, has invested it and has only as much free cash as it needs for ordinary withdrawals—if the latter became extraordinary, it would become necessary to sell bonds, probably at a loss, and to the injury of cities and railroads whose obligations the bank had previously bought.

The new Liberty Bonds must be paid for out of the money of the people which is not now at work—that is, future earnings. Savings banks, particularly, will receive subscriptions for bonds, which may be paid for in weekly or monthly payments, as the money is earned; but the plan will not work unless every man and woman in Brooklyn does his or her share.

The responsibility for the equipment and support of our soldiers and sailors is on each one of us, and cannot be evaded if we would; but evasion is not to be thought of; we will each do our utmost for the men at the front who are bearing the "heat and burden of the day" and fighting the battle for us.

LIBERTY BONDS WILL ALWAYS CONFORM TO MARKET VALUE OF CAPITAL, SAYS ALVIN W. KRECH.

That the Liberty Bonds will always conform to the current money market and value of capital was emphasized in a statement issued on Wednesday by Alvin W. Krech, President of the Equitable Trust Co. Discussing this question, he said:

The relation of the Liberty Loan to the bond market reminds me of the old definition of a liquid as "Any material which takes the shape of the vessel into which it is poured." I wonder if investors fully realize that the Liberty Loan Bonds conform and will always conform to the current money market and value of capital.

"If the world market says that 4% is a fair income from the highest type of investment security, i. e., the obligation of the United States Government, then the investor is going to get 4% on his money, but if the world declares, as evinced in its demands for capital, that the fair income from this security is at a higher rate, then the investor through his conversion privilege in future issues is going to get that higher rate on his money. The Liberty Loan Bond is the only security in the history of the world, as far as I know, which insures the investor that he will at all times receive a fair rate on his capital.

The tremendous decline in the bond market to-day is of course, not due to the impairment of the properties which the bonds cover, but simply to a readjustment of the value of capital. Your investor in the old line bonds must take his medicine and watch his securities decline as the readjustments in the money market occur, but in the future if he is fortunate enough or wise enough to be the owner of Liberty Bonds, he will care little or nothing as to the readjustment in capital values.

It is certainly a remarkable feature, and in my mind it is worth no smaller percentage of the cost of the bond to have it. The Liberty Loan bondholder simply finds himself in the position of the owner of a house, who, if rents go up, has such a contract that he can rent at higher figures, but if rents go down he has a contract which forces the present tenant to remain.

SMALL SUBSCRIPTIONS VITAL TO SUCCESS OF NEW LIBERTY LOAN.

Popular support of the Second Liberty Loan from small investors is an absolute necessity if the issue is to be a success, according to a resolution passed by the Liberty Loan Committee on the 4th inst. Pointing out the fact that the large subscriptions which are given publicity through the press cannot alone carry the whole burden the resolution which was signed by every member of the committee, reads as follows:

The Liberty Loan Committee of New York desires to emphasize the fact that subscriptions in great number from small investors are absolutely essential to the success of the Liberty Loan.

The large subscriptions are given prominence in the press, but twenty-five subscriptions of \$10,000,000, one each day during the balance of this campaign, would total only \$250,000,000. We must raise a total of \$1,500,000,000 or nearly \$65,000,000 a day until Oct. 27. We are nearly \$100,000,000 behind this average at the present time.

To reach the total desired by the Government, millions of small subscriptions are needed. Our objective of \$1,500,000,000 calls for an average of approximately \$200 from every grown man and woman in the Second Federal Reserve District. We earnestly request the co-operation of the press and the public in emphasizing this fact.

LIBERTY LOAN CAMPAIGN BY RAILROADS.

Concerning the second Liberty Loan campaign which will be conducted by the railroads, under the leadership of Alfred H. Smith, President of the New York Central lines, the following announcement is made:

With a vast series of special local organizations of officers and employees, the special Liberty Loan Committee on Railroads headed by President Alfred H. Smith of the New York Central Lines has gotten under way its second nation-wide campaign to reach more than 1,500,000 transportation workers of all ranks. The annual wage earnings of this railroad army are approximately \$1,500,000,000, or \$4,000,000 a day.

Chairman Smith has called upon all railroad executives in the country to exhaust every effort to double the sales made to railroad workers in the first Liberty Bond campaign, when 241,280 individual employees subscribed a total of \$20,027,966. This amount was in addition to approximately \$40,000,000 of bonds taken in large blocks by the railroad companies, and the wide scattering of the securities was made possible through the corporations' arrangement that employees make payments in monthly installments from their earnings.

Telegrams just sent to over 500 railroad president throughout the United States urging special organized efforts for sale of the Second Liberty Loan read as follows:

The Liberty Loan Committee, under direction of the Secretary of the Treasury, again requests the undersigned to ask your support in selling Liberty Loan Bonds to railway officers and employees of every grade. It is deemed desirable to make a concerted effort by all roads in the country to put the opportunity equally before all, along the general lines adopted with respect to the first Liberty Loan, offered last spring. Your committee's experience emphasizes the importance of prompt and thorough special organizations in order to obtain effective results. Please wire if you will co-operate.

COMMITTEE ON RAILROADS.

(Signed) A. H. SMITH, Chairman.
F. D. UNDERWOOD
HENRY WALTERS
L. F. LOREE
W. H. TRUESDALE
WALKER D. HINES
JOHN B. DENNIS
H. W. BURNHAM, Secretary, Grand Central Terminal.

Responses from railroad executives pledging hearty co-operation and the formation of special organizations for the bond-selling have come in sufficient volume to indicate a practically unanimous effort, and one that, with the advantage of previous experience, promises to surpass former results. The Committee on Railroads has set Oct. 27 as the final date on which subscriptions may be received.

The energies of all the vast executive organizations of the American railroads, numbering nearly 1,000 separate companies, large and small, will be impressed in the bond-selling campaign throughout the next three weeks. Circulars, subscription blanks and advertising matter will be distributed to every individual railroad employee, under the plan for special organizations; this will be followed up by personal work in charge of local committees of both officers and employees. Employing officers in all of the various departments of transportation service, in the field as well as in offices, will be instructed to bring the matter of contributing to the nation's war sinews to the personal attention of every man and woman who is able to make a subscription.

Detailed reports from sixty-seven of the leading railroad companies give the percentage of the total number of employees in various departments of transportation service who subscribed to the first Liberty Loan as follows:

General officers, executives, 33.4%; legal department, 45%; traffic department, 41.7%; accounting department, 29%; engineering department, 17.6%; transportation department, (a) engineers, 17.7%, (b) firemen, 12%, (c) conductors, 18%, (d) agents, operators and station forces, 12.5%; others, 16.5%; locomotive department, 13.8%; car department, 12.8%; maintenance of way department, 4%; all other employees, 16.7%. Average percentage of all employees subscribing, 12.4%.

The National railroad campaign will be prosecuted from the offices of President Smith in the Grand Central Terminal, where constant reports will be received on the progress of the work covering every city and hamlet in the country.

PLANS UNDER WAY FOR PARADE AND PAGEANT ON LIBERTY LOAN DAY.

The Liberty Loan Committee of the New York Federal Reserve District made known on the 3rd inst. its plans for a monster Liberty Loan Pageant and Parade Demonstration in New York City, to be held on Wednesday, Oct. 24. This day is to be proclaimed officially by President Wilson,

Governor Whitman and Mayor Mitchel as "Liberty Loan Day." The plans came to a head on Wednesday when 1,000 representatives of every patriotic, civic, commercial, financial, industrial, labor, agricultural and trade organization in this section met at the Seventy-First Regiment Armory, 34th St. and Park Avenue, and exchanged ideas as to features to be used. Each of the organizations will have a place in the march. The parade is expected to visualize the participation of every class and creed, race and color in Government bond buying and serving in this war. It will carry a further significance, in that it will be in honor of every man, woman, boy and girl who bought a Liberty bond. For the special purpose of the parade demonstration the Liberty Loan Committee has established a Parade Bureau at No. 50 Madison Ave., in charge of John T. Farrell. The War Department has taken official cognizance of the demonstration by detailing Major Lorillard Spencer of the 15th (negro) Federalized National Guard, to assist in the military feature of the parade. Floats emblematic of industry, trade, commerce, finance, the army, the navy, the farmer, historical and allegorical, will find an important position in the procession. School children also, as will many other divisions of importance, are to participate in an imposing demonstration. The plans call for an honor division in this respect—that double files of Liberty bond holders will be lined along the curb and through which the major portion of the parade will pass, much as a guard of honor acts at ceremonials. The Mayor's Committee on National Defense has promised its aid in the matter of decorations and will obtain the decorations that were placed in front of the Public Library at Forty-Second Street when the French and British Missions were the city's guests.

CLOCKS WILL SHOW PROGRESS OF SUBSCRIPTIONS TO NEW LIBERTY LOAN.

Twenty-seven clocks to show the progress of subscriptions to the second Liberty Loan are to be erected in prominent locations throughout Greater New York City. In addition to exhibiting the amounts subscribed day by day throughout the country, the clocks will also show at a glance the Second Federal Reserve District subscriptions as well. One hand will present the subscriptions reported for the entire country, while the other will indicate the amount raised in this district.

BIG CORPORATIONS WILL BUY LIBERTY BONDS FOR EMPLOYEES ON PARTIAL PAYMENT PLAN.

Purchase of bonds of the second Liberty Loan has been made easy for the employees of the New York Telephone Co. and the other telephone companies comprising the Eastern group of the Bell System, by a plan for partial payments just adopted. The bonds will be purchased for the employees, who will pay for them in installments. For each \$50 bond subscribed for, the company will deduct from the pay of employees paid weekly, \$1 each week for fifty weeks. In case of employees paid semi-monthly or monthly, \$5 will be deducted for the months of November 1917 and October 1918, and \$4 each intervening month. The Standard Oil Co., the General Electric Co., the United States Rubber Co., the American Bank Note Co., the Bethlehem Steel Co., the Western Electric Co., and the Westinghouse Electric & Manufacturing Co. have decided to adopt this plan of assisting their employees to secure the new bonds.

THE NEW WAR REVENUE ACT.

The War Revenue tax bill became a law on Oct. 3 when President Wilson affixed his signature to the measure. The conferees, after two weeks' labors on the bill, completed the work of adjustment on Sept. 29; the bill as agreed to in conference was accepted by the House without a roll call on Oct. 1, and on the 2nd inst. it was adopted by the Senate without a dissenting vote. As in the case of the House there was no roll call in the Senate on the bill. The measure had been before Congress since last May. It passed the House on May 23 and on Sept. 10 was passed by the Senate. It is the largest revenue yielding measure ever passed by Congress, and is expected to produce a total of \$2,534,870,000 during the first year of its operation. The Senate bill provided for a yield of \$2,416,670,000 and the House bill \$1,868,920,000. The conferees declare the bill to be one of the best ever prepared. Senator Simmons and Representative Kitchin headed the conference committee. Mr. Kitchin, who objected to the measure as it passed the Senate as a "rich man's

measure," stated on Sept. 30 that no better war tax bill than the one now presented ever has been drafted in any country. He said:

We had before us virtually all past bills of this country and many of those drawn in foreign countries since this war began, and this is a better measure than any of them. The burden is shifted around equitably between rich and poor, and while every one has to pay, none has to pay unfairly, I think. I anticipate its approval by the House without difficulty.

Few sources of revenue have been overlooked in the new taxation measure. The levies include an amusement tax of 10% of virtually all exceeding five cents; a stamp tax ranging from two cents on every check or draft "payable otherwise than at sight or on demand" of \$100 or less and two cents for each additional \$100 or fraction thereof to an additional five cents on the present tax on playing cards; an additional cent on two-cent postage and one cent postcards, and eight cents a \$100 on the premiums of new insurance policies being charged.

The new income tax reaches many more persons than heretofore, exemptions for single persons being lowered to \$1,000 and for married persons to \$2,000. They will pay 2% on the amount of their incomes between the new exemptions and the old, \$3,000 and \$4,000, respectively, and 4% after that. An additional 1% on incomes between \$5,000 and \$7,000 up to 50% on incomes exceeding \$1,000, 000 is called for under the bill.

Beginning with a minimum of 20% of the excess profits not in excess of 15% of the invested capital for the taxable year, the levies on excess profits reach a maximum of 60% on profits in excess of 33% of such capital. Allowances for capital would include both tangible and intangible assets. Exemptions would be from 7 to 10%.

Material increases in the rates on second class mail matter are called for under the new law. They are based on a zone system with different rates for reading and advertising matter carried by publications. Beginning July 1 1918, a flat increase of a quarter of a cent a pound will be charged on reading matter and one year later it will be raised to a half a cent increase, making the rate for all zones 1½ cents a pound. Advertising matter increases over the present rate vary from one-fourth to 2¼ cents, according to the different zones, up to July 1 1919, and by a gradual increase reach a rate of from 2 to 10 cents a pound after July 1 1921. The present "free-in-country" system would be retained.

Manufacturers' taxes embrace a broad scope, including automobiles, musical instruments, jewelry and sporting goods, 3%; perfumes, patent medicines, cosmetics and chewing gum, 2%, and motion picture films, one-fourth of a cent a foot.

Large increases over the present law, ranging from 1% on \$50,000 to 10% on \$10,000,000, are made in the inheritance tax section.

Drinks, hard and soft, and tobacco in every form come in for a raise. Outstanding figures are: Whiskey, \$2 10 a gallon; beer, \$2 50 a barrel, wine, about double the present rate; grape juice, one cent a gallon; syrups, from 5 to 20 cents a gallon. Rates on cigars and tobacco have also been increased.

All the new taxes became effective with the signing of the bill by the President, except certain specified rates. The one-cent letter and postcard tax becomes operative in thirty days and the second-class mail increases July 1. The new income and war excess profits taxes are based on income of the 1917 calendar year and payable before March 31 1918. All stamp taxes, including those on parcel post packages, become effective Dec. 1. Amusement admissions and club dues taxes go into effect Nov. 1, as do taxes on freight and passenger transportation, sleeping car, drawing room and steamship berths; pipe line transportation, insurance policies and telegraph and telephone messages costing fifteen cents or more.

Postmaster-General Burleson is said to have assured Congress that before the new increased second-class mail rates become effective next July he will use his influence to have the entire subject reopened by the Senate and House Postal Committees and a modified system established as a substitute. The conferees accepted the compromise in the Revenue bill, it was stated to-day, with the express understanding that the department and Congressional committees would take up the question before the rates become effective and present some new plan. Members of Congress prominent in the efforts to increase the rates said on the 3d inst. that they did not expect the Revenue bill's rates to go into effect. Postmaster-General Burleson is said by Congress-

men to oppose increasing the rates on reading matter, especially that on newspapers.

The following are the final official estimates of the Treasury Department and Senate Finance Committee experts of revenue expected from the bill during the first year of its operation:

Incomes, individual and corporate.....	\$851,000,000
Excess profits.....	1,000,000,000
Distilled spirits.....	135,000,000
Rectified spirits.....	5,000,000
Fermented liquors.....	46,000,000
Wines, liquors, &c.....	7,000,000
Syrups, soft drinks, &c.....	13,000,000
Cigars.....	10,000,000
Cigarettes.....	21,500,000
Tobacco.....	30,000,000
Snuff.....	1,800,000
Cigarette papers.....	100,000
Freight transportation.....	77,500,000
Express packages.....	10,800,000
Passenger transportation.....	60,000,000
Pipe lines transportation.....	4,500,000
Seats and berths.....	4,500,000
Telegraph and telephone messages.....	7,000,000
Insurance.....	5,000,000
Automobiles and motorcycles.....	40,000,000
Musical instruments, phonographs, records, &c.....	3,000,000
Motion picture films.....	3,000,000
Jewelry.....	4,500,000
Sporting goods.....	1,200,000
Pleasure boats.....	500,000
Proprietary medicines.....	3,400,000
Perfumery and cosmetics.....	1,900,000
Chewing gum.....	400,000
Cameras.....	750,000
Amusement admissions.....	50,000,000
Club dues.....	1,500,000
Stamp taxes, including playing cards and parcels post.....	29,000,000
Inheritance taxes.....	5,000,000
Virgin Islands products.....	20,000
First-class mail matter.....	70,000,000
Second-class mail matter.....	6,000,000
Munitions manufacturers' tax.....	25,000,000
Total.....	\$2,534,870,000

Representative Fordney, of Michigan, ranking Republican member of the House Ways and Means Committee, has had incorporated in the "Congressional Record" concrete examples of the workings of the taxes on profits and excess profits under existing law and the new revenue bill. His statement follows:

The following table shows the total amount of income, corporation and excess profits taxes that will be paid (a) by a corporation with a capital of \$100,000 and a net income of \$50,000; (b) by a partnership of three parties with a capital of \$100,000 and a net income of \$50,000; and (c) by an individual engaged in business with \$100,000 capital and \$50,000 of net profits.

For Corporations.

(a) Corporation with capital of \$100,000 and net income of \$50,000.	
Deducting from net income 9% of the capital, the maximum deduction, plus \$3,000, or total deduction of \$12,000, shows the taxable income to be \$38,000.	
Tax on amount in excess of deduction and not over 15% of capital—	
\$3,000 at 20%.....	\$600
Tax on amount of profit in excess of 15% of capital and not over 20%—\$5,000 at 25%.....	1,250
Tax on amount in excess of 20% of capital and not over 25%—	
\$5,000 at 35%.....	1,750
Tax on amount in excess of 25% and not over 33% of capital—	
\$8,000 at 45%.....	3,600
Tax on amount in excess of 33% of capital—\$17,000 at 60%.....	10,200
Total excess profits tax.....	\$17,400
Net income.....	\$50,000
Excess profits tax.....	17,400
Net income subject to income tax—\$32,600 at 6%.....	1,956
Total tax.....	\$19,356

For Partnerships.

(b) A partnership of three parties with a capital of \$100,000 and net income of \$50,000.	
Deducting from net income 9% of capital invested, plus \$6,000, or a total deduction of \$15,000, shows the taxable income to be \$35,000.	
Tax on amount of income in excess of deduction and not over 15% of capital.....	
Tax on amount of income in excess of 15% but not over 20% of capital—\$5,000 at 25%.....	\$1,250 00
Tax on amount of income in excess of 20% but not over 25% of capital—\$5,000 at 35%.....	1,750 00
Tax on amount of income in excess of 25% but not over 33% capital—\$8,000 at 45%.....	3,600 00
Tax on amount of income over 33% of capital—\$17,000 at 60%.....	10,200 00
Total excess profits tax.....	\$16,800 00
Net income.....	\$50,000 00
Less excess profits tax.....	16,800 00
Income for distribution.....	33,200 00
Share for each partner.....	11,067 00
Income tax for each partner:	
\$9,067 at 2%.....	\$181 34
\$7,067 at 2%.....	141 34
\$2,500 at 1%.....	25 00
\$2,500 at 2%.....	50 00
\$1,067 at 3%.....	32 01
Total for each.....	429 69
Total for all three (3 multiplied by \$429.69) or.....	1,289 07
Total tax.....	\$18,089 07

For Individuals.

(c) Individual engaged in business with capital of \$100,000 and net income of \$50,000.

The excess profits tax would be the same as on a partnership, which is shown above to be \$16,800.

Net income	\$50,000
Deduct excess profits tax	16,800
Income subject to income tax	33,200
Income tax of individual on \$33,200:	
\$31,200 at 2%	\$624
29,200 at 2%	584
2,500 at 1%	25
2,500 at 2%	50
2,500 at 3%	75
2,500 at 4%	100
5,000 at 5%	250
13,200 at 8%	1,056

Total income tax	\$2,764
Excess profits tax shown above	\$16,800
Add total income tax	2,764

Total tax \$19,564

The full text of the bill is given on another page in to-day's issue of our paper.

A feature of the new law which has been the subject of much discussion in the newspapers is the provision under which salaried men, business and professional, are called upon to pay a war profits tax of 8% (in addition to the income tax levies) on incomes in excess of \$6,000. The provision was inserted in the conference deliberations on the bill, along with another (in Sec. 200 of the Act), which defines the terms "trade" and "business" as including "professions and occupations." The 8% excess tax on individual incomes in excess of individual income of \$6,000, is embodied in Sec. 209, which reads as follows:

That in the case of a trade or business having no invested capital, or not more than a nominal capital, there shall be levied, assessed, collected and paid, in addition to the taxes under existing law and under this Act, in lieu of the tax imposed by Sec. 201, a tax equivalent to 8% of the net income of such trade or business, in excess of the following deductions: In the case of a domestic corporation, \$3,000, and in the case of a domestic partnership, or a citizen or resident of the United States, \$6,000; in the case of all other trades or business, no deduction.

It is stated that the Treasury Department holds informally, in advance of definite presentation of the question in an official way, that the 8% excess profits tax is to be assessed against all salaries in excess of \$6,000 with the exception of those of Senators, Representatives and all others who receive compensation from the Government.

Representative J. Hampton Moore, of Philadelphia, one of the members of the conference committee, in explaining the adoption of this provision, was quoted in the New York "Times" of the 4th inst. as saying:

The excess profits tax on individuals is due to the fact that corporations were heavily taxed, and many individuals in professional and business life are capable of earning as much as some corporations. It was felt that farmers, speculators in foodstuffs, cotton planters, surgeons, lawyers, editors, engineers, and other professional men should be taxed for excess profits, but be given an exemption of \$6,000 before the excess profits tax begins.

There were many cases pointed out where professional men without capital absorb the business of other men, and charge as much as the traffic will bear. It was felt they should share in payment of an excess profits tax, along with the corporations.

Chairman Simmons of the Senate Finance Committee, also a member of the conference committee, in refuting the report that the new provision was a "joker," was quoted to the following effect in the New York "Tribune" of yesterday:

"If this is a joker," he said, "then every provision in the bill is a joker."

Mr. Simmons explained that the tax on professional incomes was not only fair but necessary if the burden of taxation was to be distributed equitably. "We tax corporations, farmers and mechanics on their excess profits," he said. "The rate of levy in these excess profits taxes is graduated according to the capital invested, and there is the exemption of from 7 to 9%."

"With the professional man there is no capital invested. But a professional man make make fifty or a hundred thousand dollars a year. Why should he not pay an excess profits tax? Since there is no capital invested to guide in fixing the tax after the plan in levying against the others, we have had to lay a flat rate of 8% against the professional man."

Mr. Simmons further pointed out that the 8% excess profits tax against professional incomes was not only thoroughly discussed in conference where it was really drafted, but that he had explained it at length on the floor of the Senate prior to the adoption of the conference report.

Some confusion and misinterpretation has arisen out of the wording of the section imposing stamp taxes on negotiable instruments, which has been misconstrued to mean that a tax has been placed on bank checks. The bill provides for a tax on "Drafts or checks payable otherwise than at sight or on demand," &c., two cents for each \$100, according to an Associated Press dispatch from Washington on Oct. 1. The official interpretation of this section is that, as a check is payable at sight and on demand, it, therefore, is excluded from the tax.

It was made known last night, in Associated Press dispatches from Washington, that detailed instructions to postmasters on the increased letter mail rates which become

effective on Nov. 2, under the terms of the War Tax Act, were issued yesterday by Postmaster-General Burleson. They do not apply to mail to most foreign countries, which are fixed by international treaties, but they do apply to all domestic mail, and under that classification is included mail to Canada, Mexico, Cuba, Panama, the United States Postal Agency at Shanghai, and all persons in the military service of the United States in Europe. The Post Office Department issued these instructions:

Postmasters shall, on and after Nov. 2, see that postage is paid at the rate of three cents an ounce or fraction thereof on letters and other first-class matter, except drop letters. All drop letters, that is, letters mailed for delivery from the office at which posted, including those for delivery by city, rural, or other carrier of such office, are required to have postage paid on them at the rate of two cents an ounce or fraction thereof. Postal cards are required to be prepaid two cents, and, therefore, the one-cent postal cards must have a one-cent postage stamp affixed to them in addition to one-cent stamp impressed on such cards. Postcards (private mailing cards), bearing written messages, must have two cents postage prepaid on them.

REDUCTION IN PRICE OF ANTHRACITE PEA COAL AT PENNSYLVANIA MINES.

A reduction of sixty cents a ton in the price of anthracite pea coal at the Pennsylvania mines was made effective Oct. 1 by the Fuel Administration under an order issued Sept. 29. The "Official Bulletin" announces the issuance of the order as follows:

The Fuel Administration authorizes the following:

Reductions have been ordered in the price at which Pennsylvania anthracite pea coal may be sold f. o. b. the mines. Hereafter the maximum f. o. b. mine prices in the several fields will be as follows:

White Ash	\$3 40
Red Ash	3 50
Lykens Valley	3 75

Producers, to whom a differential of not to exceed 75 cents was permitted in the President's order of Aug. 23, may continue to add the same differential to the above prices.

The following is the official order in full:

To all persons, firms and corporations engaged in the mining and production of coal in the State of Pennsylvania:

The President of the United States having heretofore, on or about Aug. 23 1917, by virtue of the provisions of an act of Congress approved Aug. 10 1917, entitled "An Act to provide further for the national security and defense by encouraging the production, conserving the supply, and controlling the distribution of food products and fuel," ordered and directed that the maximum prices which should not be exceeded in the sale of Pennsylvania anthracite pea coal should be as follows, to wit: White ash pea coal, \$4 per ton; Red ash pea coal, \$4 10 per ton; and Lykens Valley, \$4 35 per ton, when sold by certain producers specified in paragraph 4 of the President's proclamation of Aug. 23 1917, and that when sold by any other producers the maximum price should not exceed by more than 75 cents the prices mentioned above;

Now, by direction of the President of the United States, the Fuel Administrator hereby orders and directs that, until further order in the premises, the above-mentioned maximum prices for Pennsylvania anthracite pea coal be, and the same hereby are, modified and reduced, pending further investigation, to the following maximum prices: White ash pea coal, \$3 40 per ton; Red ash pea coal, \$3 50 per ton and Lykens Valley \$3.75 per ton; which said prices are to be observed by the producers specified in paragraph 4 of the President's proclamation of Aug. 23 1917.

And it is further ordered that all other producers shall sell Pennsylvania anthracite pea coal at maximum prices not to exceed the above-mentioned maximum prices by more than 75 cents per ton of 2,240 pounds.

These prices shall become effective at 7 a. m. Oct. 1 1917.

H. A. GARFIELD,
Fuel Administrator.

Washington, D. C., Oct. 1 1917.

FUEL ADMINISTRATION'S ORDER LIMITING RETAILERS' COAL PROFITS.

An order limiting the retailers' margin on coal and coke was issued this week by H. A. Garfield, Federal Fuel Administrator. Under the order, which went into effect Oct. 1, it is stipulated that the retail gross margin added by any retail dealer to the average cost of any size or grade of coke or coal shall not exceed the average gross margin for the same size or grade during 1915, plus 30% of the retail gross margin for 1915; it is provided, however, that the retail gross margin added shall in no case exceed the average added during July 1917. A definition of the retail gross margin is contained in the order, which also states that monthly reports from retail dealers in various sections of the country will be required by the Fuel Administrator and the Federal Trade Commission. The following is the order of Fuel Administrator Garfield regulating retail coal margins:

FUEL ADMINISTRATION.

Washington, October 1 1917.

To all persons, firms, corporations, and associations engaged in the handling and sale of coal or coke at retail, hereinafter referred to as retailers or retail dealers:

The President of the United States, in pursuance of the provisions of the Act of Congress approved Aug. 10 1917, entitled "An Act to provide further for the national security and defense by encouraging the production, conserving the supply, and controlling the distribution of food products and fuel," and particularly for the purpose of carrying into effect the provisions of said Act relating to fuel, having on the 21st day of Aug. 1917, fixed the price at which bituminous coal may be sold at the mouth of the mine, and having on the 23rd day of Aug. 1917 fixed the price at which certain sizes of anthracite coal may be sold at the mouth of the mine on and after the 1st day of Sept. 1917, and, by the same order, having fixed the amount

which may be paid as commission to jobbers, now, in furtherance of the purpose for which said Act was passed and by direction of the President of the United States, the Fuel Administrator hereby orders and directs:

On and after the 1st day of Oct. 1917, in making prices and sales to consumers, the retail gross margin (as hereinafter defined) added by any retail dealer to the average cost (determined as hereinafter provided) of any size or grade of coal or coke for each class of business shall not exceed the average gross margin added by such dealer for the same size or grade for each class of business during the calendar year 1915, plus 30% of said retail gross margin for the calendar year 1915; provided, however, that the retail gross margin added by any retail dealer shall in no case exceed the average added by such dealer for the same size, grade and class of business during July 1917.

By this order retailers are required to fix a retail gross margin which may be less than, but shall not in any instance exceed, the margin added by them in 1915, plus 30% thereof.

Definition of Retail Dealer.

Every person, partnership, corporation, or association physically receiving, handling, and delivering coal or coke to consumers is a retail coal or coke dealer within the meaning of this order.

Definition of Retail Gross Margin.

The retail gross margins of the different classes of retail coal and coke dealers are defined as:

- (1) The difference between the price charged by a retail coal or coke dealer to consumers and the average cost of coal or coke to such retailer, free on board railroad cars at his railroad siding, yard, pocket, or trestle, when such coal or coke is received by him by rail.
- (2) The difference between the price charged by a retail coal or coke dealer to consumers and the average cost of coal or coke to such retailer free alongside his wharf, pocket, or water yard, when such coal or coke is received by him by water.
- (3) The difference between the price charged by a retail coal or coke dealer to consumers and the average cost of coal or coke to such retailer at wholesalers' pockets, trestles, railroad sidings, mines, tipples, dumps, docks, yards or wharves.

How to Ascertain Average Cost.

The average cost of coal or coke to retail dealers, to which the gross retail margin may be added, shall be ascertained by them for each size and grade on the first and sixteenth days of each calendar month, according to the following method:

The tonnage and average cost of coal or coke on hand at the beginning of a period is to be combined with the tonnage and average cost of coal or coke received during the period.

Example—Egg Coal.

	Tons.	Total cost.	Average cost per ton.
On hand Oct. 1.....	100	\$600 00	\$6 00
Received Oct. 1 to 15, inclusive.....	300	1,500 00	5 00
Total.....	400	2,100 00	5 25
Sold Oct. 1 to 15, inclusive.....	350	-----	-----
On hand Oct. 16.....	50	262 50	5 25
Received Oct. 16 to 31, inclusive.....	300	1,425 00	4 75
Total.....	350	1,687 50	4 82

In the above example the average cost per ton of egg coal to which the gross margin should be added for sales during the period Oct. 1 to Oct. 15, inclusive, is \$6; during the period Oct. 16 to 31, inclusive, it is \$5 25; and for sales during the period Nov. 1 to 15, inclusive, the average cost is \$4 82. The same method of computation must be applied by each dealer in ascertaining his average cost of each size and grade of coal or coke.

Monthly Reports Required.

From retail dealers in various sections of the country monthly reports will be required by the United States Fuel Administrator and the Federal Trade Commission on blanks to be supplied for this purpose. On these forms the dealers must return the cost of coal or coke received by them, their sales prices, and their gross margins. Whenever necessary supplementary reports on accounting forms provided therefor will be required to show the actual cost of conducting the retail business and other information which may be required. The accounting forms will contain directions as to returning them to the State fuel administrators.

Any persons, firms, corporations, or associations not engaged in the retail coal or coke business before Jan. 1 1916, and consequently unable to determine their retail gross margin during 1915 by the method above described shall return at once to the Fuel Administrator at Washington, D. C., a sworn statement of the average retail gross margin which they have received during the period they have been in business on each grade and size of coal and coke and for each class of business. Pending investigation and action upon this information, such retail dealers may continue to sell coal or coke at a gross margin not to exceed the average gross margin which they have received during said period: *Provided, however*, That the above-mentioned increase of 30% shall not be added by them to such margin, and that the retail gross margin added by such persons, firms, corporations, or associations to their average cost of coal or coke shall not in any case exceed the average retail gross margin added by them for the same size, grade and class of business during the month of July 1917.

Retailers' Contracts With Consumers.

Contracts between a retail dealer and a consumer made before this date are not affected by this order, provided that such contracts are bona fide in character and enforceable at law.

In making deliveries of coal or coke under such contracts a retail dealer will be expected to supply only the minimum amount of any coal or coke which under the terms thereof he can be obliged to deliver unless and until he has met the reasonable requirements of other consumers desiring to purchase coal or coke from such dealer.

Immediate investigation into the cost of local distribution and the profits of retail dealers will be made by the State fuel administrators acting through local committees and with the aid of accountants. The State fuel administrators will be charged with the duty of recommending to the Fuel Administrator remedies for all abuses and avoidable hardships arising under the operation of this order.

The "Official Bulletin," published by the Committee on Public Information, had the following to say on the 1st. regarding the order of Fuel Administrator Garfield describing the method whereby retail coal and coke dealers shall fix maximum gross margins:

Under the plan announced, the retailer ascertains his retail margin in the year 1915, when more normal conditions prevailed than at present. To this he may add not to exceed 30% of that margin, which, of course, includes his profits at that time. It is provided, however, that in no case shall the gross margin added by any retail dealer exceed the retail margin added by him during July 1917.

The first consideration of the Fuel Administrator must be to get coal to the consumer, and the dealers cannot be expected to make the extraordinary efforts which they must make this winter, if everybody is to get coal, unless they are given a reasonable profit.

Mr. Garfield believes that this plan will result in determining at once in each community a retail margin fair to both the consumer and the dealer; and that, this being a fact, the public uncertainty regarding retail coal prices, and the uncertainty as to whether or not to buy will be entirely removed. It is possible that in some communities the percentage of increase of the present cost of retail coal business is more than 30% in excess of the cost in 1915. When this can be clearly demonstrated, the local fuel administrator will be empowered to recommend a readjustment. All such readjustments must be taken up in the first instance with the local committees to be appointed by the State fuel administrators. Readjustment, also, will be made whenever the Fuel Administrator learns that the retail margin added by any dealer is too high. In this connection Mr. Garfield stated emphatically that in fixing this margin the dealer is under no obligation to increase his 1915 margin by the full 30%.

SUSPENSION OF HIGHER GRAIN RATES AND RESULTANT LOWERING OF BASIS OF BUYING WHEAT PRICE.

The proposed general increase by the Eastern railroads on grain, grain products and by-products of grain, which were to have become effective on Oct. 1, were suspended until Jan. 29 by the Inter-State Commerce Commission on Sept. 27. The rates proposed increases from Chicago and other points to New York, Philadelphia, Baltimore, Boston, and other Eastern points on both domestic and export grain. Proposed increases, on a somewhat different scale, from St. Paul to Eastern points, also were suspended.

The "Journal of Commerce" reports that the present and proposed rates on the commodities from Chicago, Ill., to New York and other seaboard cities are:

PRESENT AND PROPOSED RATES FROM CHICAGO (IN CENTS PER 100 POUNDS).

Commodity to:	—Present—		—Proposed—

Following the suspension of the proposed grain tariffs by the Inter-State Commerce Commission the Grain Corporation of the United States Food Administration on Sept. 28 announced that a readjustment would be necessary of the buying basis of the Corporation in the Eastern markets of New York, Baltimore, Philadelphia and Buffalo, as compared with the basic market prescribed by the Price Commission of Chicago and the Western markets which directly relate to Chicago.

According to the New York "Commercial" the Grain Corporation announced that it would purchase all grades of wheat in those four markets at two cents a bushel less than that quoted by the Government, or on the basis of \$2 26 per bushel for No. 2 hard winter, c. i. f. New York. Those mills which have any unsold wheat and flour and which have been protected against decline by the Grain Corporation, were requested to send detailed statements before Oct. 5 to the latter's New York office, 42 Broadway. Elevators having unsold wheat in store or in transit were also asked to make similar statements under oath.

BARGE AND TOWING ASSOCIATION TO EXPEDITE NEW ENGLAND COAL SHIPMENTS.

The United States Shipping Board, it became known on Sept. 28, has, in an effort to facilitate the delivery of coal to New England points, authorized the organization of the New England Coal Barge and Towers Association. The Board, says a special dispatch from Washington to the "Journal of Commerce" of this city on Sept. 28, has asked all the towing and barge interests in this section of the country to join the new organization. This solution of the coal transportation situation was suggested, it is said, by a special committee, of which Otis B. Kent, of the Shipping Board, is Chairman. Representatives of the transportation and coal interests of Boston, New York, Philadelphia and Fall River had representation on this committee, which has, with the approval of the Shipping Board, provided for the organization of the new association. The latter is to be a voluntary co-operative unit comprising the owners of tugs and barges in service on the North Atlantic Coast. Captain Arthur Crowley, it is stated, has been appointed supervisor of coal barge operations, with headquarters in Boston. He will, it is said inform himself from day to day as to the position and status of every barge and towboat operated by each member of the association, with the purpose of ensuring their operation at a maximum efficiency. The special dispatch to the "Journal of Commerce" also contained the following information regarding the new organization:

The carriers forming the association will be liable for neither assessments, dues nor penalties, and each of them will retain control and direction of its own equipment. Existing rates of transportation will not for the present be disturbed, and the individual contracts and contractual powers of the members will continue unimpaired. Each member of the association, however, will advise the supervisor each day by telegraph or telephone as to the exact position and status of every barge and towboat in its service, and will conform to such other regulations as may from time to time be issued by the committee with the approval of the Shipping Board. The plan of operation as proposed may be thus illustrated:

A member having a barge at Portland to be moved southbound and not having a tug available for that purpose will communicate with the Supervisor, who will report all tugs at Portland or en route thereto. The owner of the barge will then arrange with the owner of a suitable tug for immediate dispatch. Where a particular barge cannot be safely operated in conjunction with the tug immediately available such barge may be held for a tug with which it may be safely coupled, but where the only obstacle to an immediate dispatch is a disagreement as to the towage charges, the barge must be moved at the compensation offered by its owner, and the difference in rate thereafter will be adjusted by an arbitration committee consisting of James J. Storrow, Charles H. Potter and W. W. Willett.

The members of the association will establish and observe a uniform schedule of lay days and demurrage as follows:

Cargo capacity of barges—	Lay days—	
	For	For
less	load'g.	unloading.
Over 1,500 but not over 2,000 tons	1	2 1/2
Over 2,000 but not over 2,500 tons	1 1/2	2 1/2
Over 2,500 tons	2	3

A demurrage charge of not less than 7 cents per cargo-ton per day shall be applied for the detention of barges beyond the periods so specified.

An extended use of Cape Cod Canal, while not required, is recommended where such action can be safely taken and will facilitate the movement of coal.

It was announced: "The success of the plan as outlined above will depend in great measure upon the efforts of the individual members. Co-operation on the part of such carriers will render unnecessary the requisitioning by the Government of the facilities here under consideration; but if the scheme as proposed should fail of its purpose such further action as may be necessary will be taken by the Board.

"Additional tugs and barges will necessarily be taken for direct war uses and the coal shortage in New England will become more and more acute. It is therefore imperative that the carriers to whom this circular is directed shall contribute their equipment to the consummation of this common purpose. As a testimonial of their patriotic service, each of such carriers will be furnished with a certificate of membership and will be authorized to display on its floating equipment the pennant of the association."

"BEEFLESS TUESDAYS" INAUGURATED IN HOTELS, RESTAURANTS AND DINING CARS.

In a nation-wide effort to curtail the consumption of meat, and to encourage the eating of vegetables and fish, the Hotel Association of New York City on Oct. 2 announced that beginning Tuesday, Oct. 2, "Beefless Tuesday" would be observed in all hotels which are members of the Association. Accordingly, last Tuesday practically all of the large hotels and restaurants in New York featured fish and vegetables on their menus. Meats other than beef could be obtained, although patrons were encouraged to eat vegetables and fish. Where beef in its varied forms did not appear on the menus, this appeal from the Food Administration was substituted:

The United States Food Administration wishes to discourage use of beef on Tuesdays. This appeal to patriotism has our support, for which reason we do not offer our patrons beef in any form on to-day's menus.

The Hotel Association of New York State, of which John McGlynn is President, on Oct. 2 decided to institute "Beefless Tuesdays," next week, Oct. 9. John E. Cavanaugh,

President of the Society of Restaurateurs, on the 2nd inst. telegraphed John M. Bowman, of the Biltmore Hotel, who is a member of the United States Food Administration, that his colleagues were enthusiastic over the "Beefless Tuesday" plan. Reports from Atlantic City, San Francisco and New England, according to the New York "Tribune," indicate that these places have already taken up the work. Child's and Thompson's, two of the largest "chain restaurant" systems in New York City, are both members of the National Hotel and Restaurant Food Conservation Commission, and, it is stated, will aid the movement as eagerly as the largest hotels and dining places. The railroads of the country have also inaugurated "Beefless Tuesdays" on their dining cars. The Lehigh Valley Railroad last Tuesday dropped beef from its dining car menus and in its restaurants, and substituted fish, eggs and vegetables in its place. The Pennsylvania Railroad also had a "Beefless Tuesday" in all restaurants and dining cars east of Pittsburgh. The Chicago, Burlington and Quincy Railroad, according to the New York "Evening Post," has likewise adopted the "Beefless Tuesday" plan, a bulletin issued by the commissary department of the railroad on Oct. 1 saying:

Beginning Tuesday, Oct. 2, and continuing thereafter until further notice, in accordance with the wish of the United States Food Administrator, and agreed to by all of the railroad dining-car departments of the country, beef will not be served in any form in our dining-cars on Tuesday.

BRITISH FOOD COMMISSION HERE TO CO-OPERATE WITH U. S. FOOD ADMINISTRATION.

A British Food Commission, headed by Owen Hugh Smith, who has been British Minister of Munitions, and consisting of eight other members, arrived at an Atlantic port on Oct. 2 and will proceed to Washington at once, where they will work in conjunction with the representatives of Great Britain who have been in this country co-operating with the United States Food Administration in the work of supplying food supplies for the armies and civil population of the Allied nations. The other members of the commission, all of whom are experts on food production and purchase, are Charles S. H. Leslie, Charles S. Dalziel, William Piercy, Albert J. Mills, Charles Pearson, John H. Bowron and James McAdam. The newly arrived commission will be attached to Lord Northcliffe's organization in this country.

U. S. URGED TO RUSH SHIPBUILDING BY GREAT BRITAIN—THE SHIPBUILDING PROGRAM.

Declaring that the shortage of shipping is the most vital factor in the present situation and that the building of merchant vessels is of the utmost importance, the Controller of Shipping for Great Britain, in a statement issued through the Associated Press on Sept. 28, urged that the United States undertake a merchant shipbuilding program on a much more extensive scale, "even if this means the building of six million tons a year," which he states, is three times the best Great Britain has accomplished, and five or six times what the United States has previously done. The statement said:

It is of the utmost importance that the United States should realize that the shortage of shipping is the most vital fact in the present situation and the building of merchant ships is of the utmost importance.

The question the United States must face is whether, on the basis of the shipbuilding preparations she is now making, it will be possible for her to send any substantial force to France next spring without such a drain on the world's shipping as will subtract just as much from the fighting strength of the other Allies as her own forces will add.

However large and powerful the Army which the United States trains during the winter, it may be rendered absolutely useless as an addition to the fighting forces against Germany if there are no ships to transport it except at the cost of stopping the flow of vital necessities to the present armies.

The loss of shipping since the beginning of the ruthless U-boat war is now roughly equal to the total losses prior to that time. By next spring Germany may be expected to destroy 200 vessels in excess of what are built in the meantime.

Next spring this year's harvest will be largely exhausted and the need of supplying Italy, France and Great Britain will be largely increased. At the same moment the United States will need a large increase in vessels to transport its army and to maintain it.

What must be the program of the United States? It must be large enough to outbuild submarine destruction. Even if this means the building of six million tons a year, which is three times the best the British have done and five or six times what the United States has previously done, this is not impossible if the United States puts into it an effort comparable with the efforts the Allies put into creating their armies, navies and munitions. To build six million tons of shipping would require about 3,500,000 tons of steel, or less than 10% of her output. It would take not more than half a million men, the majority unskilled.

The task thus outlined is small compared with the effort put forth by the principal belligerents in other directions. Great Britain, for example, increased her army from a quarter of a million to over five million.

She added a quarter of a million men to her navy and trebled it in size, while in munitions the British effort, whether measured in money, men, or material, has been greater than what is needed for an adequate American shipbuilding program.

Before the war all the shipping in the world was only worth about the same capital as the two big English railway companies. It would be the most incongruous thing in the history of warfare if the war, in which such immensely greater strength has been exerted in other directions, should have the issue decided by failure to solve the problem of building six million tons of shipping a year in a country with such vast resources as the United States.

What is the present situation regarding U-boat losses? It is clear that the submarine war will fall in its main intention. It will not starve Great Britain and it will not interfere with the adequate supply of munitions. But British shipping strength still is being constantly reduced, and we have not yet reached the point where building equals the losses.

The United States Shipping Board on Sept. 26 made public figures showing that the merchant ships engaged in the Atlantic trade represent 25,500,000 gross tons of which England is operating 13,400,000 gross tons, or nearly 53%, and the United States over 2,000,000 gross tons, or about 8%. The Board also announced that the Government now has in service for foreign trade 458 ships with an aggregate deadweight tonnage of 2,871,359, not including 117 ships of German and Austrian origin, totalling 700,285 tons, thus giving a grand total available for service to-day of 575 vessels of 3,571,644 deadweight tons. The Shipping Board's announcement, issued through the Committee on Public Information, reads as follows:

The United States has to-day 458 ships of over 1,500 deadweight tons, with an aggregate tonnage of 2,871,359, either engaged in or capable of participating in foreign trade. There are also 117 ships of a tonnage of 700,285 of German and Austrian origin. The United States Shipping Board Emergency Fleet Corporation has commandeered nearly 400 steel ships of more than 2,500,000 tons which are being completed or under contract for construction in American yards. The Board's Fleet Corporation has also contracted for 636 ships with a tonnage of 3,124,700. Totaled these figures show that the United States will have near the end of 1918 a merchant fleet of more than 1,600 ships aggregating 9,200,000 tons to carry its foreign commerce, as compared with an overseas marine of 1,614,222 tons on June 30 1914, scarcely a month before the European war began.

The tonnage referred to is exclusive of that engaged on inland waters, unsuitable coastwise ships and small craft operating along the coast and in bays and harbors, and does not, of course, include the prospective additional program of the Emergency Fleet Corporation. The fleet in prospect is already becoming a reality. Several of the commandeered ships are already taking cargo; others will leave the ways in increasing numbers with each succeeding month. The ships for which the Shipping Board has contracted are under construction and the first launching is expected within sixty to ninety days. The additional shipbuilding program of the Emergency Fleet Corporation, developed under the direction of Admiral Capps, its present general manager, will total approximately 2,500,000 tons. The total building program therefore would represent about 10,000,000 tons, or, including those vessels commandeered on the ways, about 13,700,000 tons. The capacity of the Great Lakes yards in building ships of 4,200 tons and under has been estimated at 140 vessels, but these yards are at present tied up with other work, and the corporation intends to hurry their release. In addition to the floating tonnage on the Great Lakes which the Fleet Corporation intends to withdraw, there are a number of lake vessels being cut down so that they may be brought through the Welland Canal. There are 26 of these large vessels which are being cut in two for this purpose.

Already the Shipping Board has diverted about 200,000 tons from the coastwise shipping to the Atlantic trade. It is expected that nearly 1,000,000 tons in all will be diverted. This will add materially to the power of the American merchant marine in the Atlantic.

The Shipping Board estimates that there are 48,000,000 gross tons of merchant shipping in the world. This includes 31,000,000 gross tons of overseas ships, 6,000,000 tons of inland and Baltic ships, 6,000,000 tons of coastwise ships and 5,000,000 tons of enemy ships.

The Atlantic shipping has been estimated by the Board to be approximately 25,500,000 gross tons. This includes 13,400,000 gross tons of British ships, 3,350,000 tons of Scandinavian ships, 2,000,000 tons of United States ships, 1,600,000 tons of French ships, 1,250,000 tons of Italian ships, 1,200,000 tons of Dutch ships and 2,270,000 gross tons of all other ships.

The Pacific shipping has been estimated by the Board to be approximately 5,500,000 tons, which includes 2,100,000 gross tons of British ships, 1,900,000 tons of Japanese ships and 1,500,000 tons of all others. Included in this last item is 400,000 gross tons of United States ships.

Supplementary to the above statement the Shipping Board on Sept. 26 issued the following announcement concerning the ship building program of the Emergency Fleet Corporation, revised by Rear Admiral Capps as General Manager, who succeeded Major General Goethals in July:

During the past two months the Emergency Fleet Corporation has awarded contracts for 118 wooden vessels, of 3,500 tons deadweight capacity each, to twenty-seven different shipyards. There had previously been awarded contracts for 235 wooden vessels of similar type to the above, and for 58 vessels of composite construction, thereby making a total award to date of 411 wooden and composite vessels of an aggregate deadweight tonnage of 1,460,900.

During the past two months the designs for machinery have been completed for the manufacture of engines, boilers, and other articles of equipment for these vessels, for which the facilities available of machine shops and boiler works throughout the country have been availed of. Specifications have been prepared and negotiations outlined and initiated for the assembly and installation of machinery in wooden vessels, the most of which have been, or are being, constructed as "hulls only."

Great difficulty has been experienced on the Atlantic Coast in obtaining suitable lumber for these ships, and it is anticipated that there will be greater delay in their completion than was expected when this movement was begun, notwithstanding every possible effort on the part of the corporation and its contractors.

Since Aug. 1 there have been awarded contracts for 155 steel cargo vessels of 1,076,800 deadweight tonnage, distributed among six shipyards. The most important of these contracts are for vessels of the so-called fabricated type and special shipyards are being prepared for them.

Contracts for the boilers, machinery and steel construction of these vessels have already been placed and the contractors are actively at work in the preparation of the sites for the assembling of the ships. The best

efforts of the Emergency Fleet Corporation are devoted to expediting these great shipbuilding projects.

Previous to Aug. 1 seventy steel cargo vessels of 587,600 tons total deadweight capacity had been contracted for. These vessels were distributed among ten shipyards. Therefore at the present time the total number of steel vessels under construction for the United States is 225, with a total aggregate deadweight tonnage of 1,663,800.

By proclamation of Aug. 3 1917 the fleet corporation under authority delegated by the President under the provisions of the Emergency Act, approved June 15 1917, requisitioned all vessels under construction in the shipyards of the United States of 2,500 tons deadweight capacity and above. By this act the United States acquired a total number of 403 vessels, determined by the progress report obtained from the various shipyards to be actually under construction; in many cases where keels had not actually been laid, engines, boilers, equipment, and materials, all of which also were requisitioned, are in various stages of progress; and in comparatively few cases contracts existing for vessels not actually begun which may or may not be proceeded with as the merits of each case, compared with what is desirable construction, are considered.

The total deadweight tonnage under construction thus acquired and on which orders have been issued to proceed with maximum expedition exceeds 2,000,000 tons deadweight.

There are now under construction for the Emergency Fleet Corporation

Type of vessels—	No. of vessels.	deadw'ght tonnage.
Wood	353	1,253,900
Composite	58	207,000
Steel	225	1,663,800
Requisitioned vessels	400	2,800,000
Grand total	1,036	5,924,700

In addition to the above, Congress, in a pending bill, is authorizing the construction of additional vessels whose total deadweight capacity will be nearly 5,000,000 tons. Plants for the major portion of these additional vessels are now in course of preparation, and many of them will be of special types adapted to particular necessities of war, and, while substantially cargo carriers, will have much greater speed than the cargo vessels now under construction.

The corporation has ascertained from the builders of requisitioned vessels their demands for structural steel, machinery, and various items of equipment and is endeavoring to regulate the supply of those items, to provide for the individual needs of the shipbuilders in accordance with their program of capacity so far as the country's resources are available, and it is clear that with the apparent needs of the naval service and the War Department with which the emergency fleet corporation is working in harmonious co-operation, every mechanical resource of the United States, with considerably increasing development, will be necessary to the realization of this program and what must follow in continuation of it.

The Fleet Corporation has instituted an Industrial Service Department, which, by co-operation with the Department of Labor, is undertaking to assist shipbuilders and others in the employment of suitable labor and to initiate an extensive system of vocational training with the purpose of adapting allied trades and unskilled labor for service in shipyards, and through co-operation with the Y. M. C. A. organization throughout the United States to give attention to the housing and personal affairs of the men recruited for shipbuilding work. The vast development of shipbuilding essential to this emergency necessitates an agency of this kind, because up to this time the thinning out of unskilled men in the older shipyards over a large territory is, in many instances, resulting in greatly decreased production. It has been estimated that 150,000 new men are necessary for full production.

With the passage of the pending bill, the Congress will have authorized \$1,799,000,000 for the Shipping Board and the Emergency Fleet Corporation and the actual appropriations made, including those in the pending bill, reach a total sum of \$1,085,000,000.

U. S. TO REFUSE COAL TO NEUTRAL SHIPS TO PREVENT FOODSTUFFS REACHING GERMANY.

As indicating the extreme lengths to which it is proposed to go in order to make complete the embargo which will prevent Germany or northern neutrals of Europe from obtaining products of the United States, Canada, Mexico or any of the South American countries, the Exports Administrative Board at Washington on Oct. 6 issued an order refusing coal to all vessels bound for the northern European neutral countries, unless their cargoes are inspected in American ports. A statement issued by the Board says that not only will bunker coal be refused to vessels bound for European neutral ports with cargoes of goods which might find their way to Germany, but vessels bound for South America or other non-European ports will be refused coal if the commanders of the vessels do not agree on their return to have on board a cargo which may be approved by the Board, and destined for a country other than one of the neutrals bordering on Germany. In deciding to cut off bunker coal to ships engaging in this trade the United States, it is pointed out, is within its rights under international law, as it can do what it will with its own commodities. For some time, it is said, there has been a tightening up on the export of coal to South American countries in an effort to cut off supplies to German-owned public utilities concerns which it has been charged have supplied funds for German propaganda in this country. The statement issued by the Exports Administrative Board on the 4th inst. read as follows:

The Exports Administrative Board, in formulating their policy with regard to granting bunkers to neutral vessels, are actuated solely by the desire to prevent commodities from going to border neutrals for export to Germany. At the present time the Exports Administrative Board will not permit commodities, that may benefit the enemy directly or indirectly, to be exported from this country to the border neutrals, because the Board has not yet been able to elicit the information which will enable them to determine whether such commodities will so benefit the enemy; and in accordance with this policy the Board feel that consistency demands that

they should not grant bunker licenses for a vessel which is bound for a border neutral and carries a cargo which may benefit the enemy, notwithstanding such cargo has originated in another country. In other words, although the Board has no means, and does not purpose, to prevent trade between other neutrals and the border neutrals, they are, nevertheless, in a position to state that if vessels wish to use the coal of the United States they should not be permitted to apply our coal to the prosecution of a voyage which will result in supplying or assisting to supply the enemy with foodstuffs or feedstuffs or any other commodities.

Numerous cases have been presented to the Board where vessels have touched at a United States port en route to a border neutral and carrying cargo which did not originate in the United States, but which is destined for a border neutral and will undoubtedly accrue to the benefit of the enemy.

This causes a serious embarrassment, and to avoid such embarrassment the Board has adopted a policy calculated to prevent such cases arising in the future. This policy consists in stipulating that a vessel en route to non-European neutrals which touches at a United States port for bunker coal shall not be permitted to have bunker coal for the voyage unless she will agree to return to the United States with a cargo which would be approved by the Board, or which is destined for a country other than a border neutral. The Board is anxious to assist neutral vessels in continuing their service to South American and other non-European ports; but pending the receipt of the complete information which has been solicited from the border neutrals with respect to their resources and requirements, the Board feels that they can properly pursue no other policy than the one outlined above.

HOUSE AND SENATE ADOPT CONFERENCE REPORT ON WAR DEFICIENCY APPROPRIATION BILL.

The Administration war deficiency appropriation bill, carrying total appropriations of \$7,991,400,000 was passed by the Senate on Sept. 25, without a record vote. The bill as passed by the House on Sept. 18 by a unanimous vote, carried appropriations of about \$7,141,000,000. The measure was sent to conference and the conferees reduced the total appropriations to \$1,758,124,000. The Senate adopted the conference report on Oct. 3, and the House took like action the next day, Oct. 4. The measure is now ready for the President's signature. The Senate bill appropriated outright \$5,606,000,000, and authorized the Government departments to enter into contracts to the extent of \$2,385,000,000. The House bill directly appropriated \$4,827,000,000, and authorized contracts for \$2,314,000,000. The Senate Committee on Appropriations in reporting the bill to the Senate on Sept. 24 added, at the request of the War Department, \$779,613,714 in direct appropriations and \$70,550,000 in contract authorizations, to the House measure, bringing the total appropriations up to \$7,992,365,221. The additions made by the Senate Committee in so far as major items were concerned, were the Army appropriation increase of \$749,247,394 and a Navy increase of \$24,049,500. Senator Martin, Chairman of the Committee on Appropriations and Democratic floor leader in the Senate, urged sharp scrutiny of what he termed extravagant and almost reckless departmental estimates. He declared appropriations during five months of the war would reach about \$20,000,000,000 and expressed concern lest the first year's total be \$50,000,000,000. Over the Democratic leader's opposition the Senate adopted, 28 to 26, an amendment by Senator Robinson appropriating \$500,000 for the Employment Bureau of the Department of Labor. With the understanding that it would be perfected and reinstated in conference the Senate struck out an appropriation of \$1,240,000 for civilian training camps. It also rejected amendments of Senator Frelinghuysen, of New Jersey, for a \$5,000,000 cantonment road in New Jersey and of Senator Fletcher for \$350,000 for Key West naval station improvements. Senator Martin as a result of a conference with Provost Marshal General Crowder withdrew the appropriation committee amendment limiting the use of the \$6,000,000 registration and selection fund to the million men authorized to be called under the draft law. The amendment was changed so that examination can be made of any number of men "not in excess of the number the War Department can properly clothe, feed and equip." It was explained that this would provide for all the examining and exemption boards could take care of within the next three months and would provide for 1,500,000 men. The Senate on Sept. 25 also rejected an amendment by Senator Curtis authorizing the Secretary of the Navy to accept garments furnished free by the comforts committee of the Navy League. The amendment was predestined to revive the controversy between Secretary of the Navy Daniels and the officials of the Navy League. After a warm debate between Senator Curtis and Senator Overman, of North Carolina, the amendment was thrown out on a point of order.

The principal items included in the Senate bill are:

Shipping Board, \$635,000,000 cash for the construction program authorized of \$1,749,000,000; Army and Navy emergency funds of \$100,000,000 each; construction of torpedo boat destroyers, \$225,000,000 to start a \$350,000,000 program; Army transportation, \$413,000,000; fortifications,

\$1,495,000,000 appropriated and \$975,000,000 more authorized; Army subsistence, \$320,000,000; clothing and camp equipment, \$357,000,000; engineer operations, \$191,000,000; medical department, \$129,000,000; pay increases for foreign service, \$31,000,000; horses, \$48,000,000; barracks, \$49,000,000; ordnance stores and ammunition, \$732,270,000; small arms target practice, \$89,676,000; ordnance stores and supplies, \$113,520,000; manufacture of arms, \$32,690,000; automatic machine guns, \$113,520,000, with \$220,277 additional authorized; armored motor cars, \$36,750,000, with \$75,550,000 additional authorized; naval aviation, \$45,000,000; naval ammunition, \$40,146,000, with \$15,000,000 more authorized; naval batteries, \$50,000,000, and \$28,000,000 more authorized; naval reserve ordnance, \$47,500,000, and \$17,500,000 more authorized; naval training camps, \$12,600,000.

HOUSE PASSES BILL CREATING FEDERAL AIRCRAFT BOARD.

The House on Sept. 25 passed without a roll call the Sheppard-Hulbert bill, which gives a legal status to the Aircraft Production Board of the Council of National Defense, and, says a special dispatch to the New York "Times," in effect creates a new department of aeronautics, inasmuch as it combines the airplane services of the Army and Navy Departments under one head with the Aircraft Production Board. The bill previously passed the Senate and now goes to conference. As passed by the House it provides for a board of nine members, comprising the Chief Signal Officer of the Army, two other Army officers to be appointed by the Secretary of War; the Chief Constructor of the Navy and two others naval officers, and three civilian members, one of the latter to serve as chairman. The civilian members, under the House bill, will not be recommended for their services. The appointment of the chairman by the President would be subject to the approval of the Senate. The bill as passed by the Senate on Sept. 12 provided for the creation of a board of twelve members, seven of whom would be civilians, with a yearly salary of \$7,500 each. The Aircraft Production Board of the Defense Council, of which Howard E. Coffin is chairman, has thus far served merely in an advisory capacity to the Signal Corps of the Army, which under the old law has full charge of the aviation service. The Aircraft Production Board has had numerous dealings with the aviation branches of the Allied Governments, and the new legislation is to give the American commission authority equal to that possessed by the Entente boards. The new Aircraft Board will have power to supervise and direct the purchase, production and manufacture of aircraft, engines and all ordnance, instruments, accessories and materials used in airplanes, including the purchase, lease, acquisition or construction of plants for the manufacture of aircraft, engines and accessories. The bill appropriates \$100,000 for administrative expenses during the fiscal years 1917 and 1918.

CHARLES R. PAGE CHOSEN MEMBER OF FEDERAL SHIPPING BOARD.

The nomination of Charles R. Page, of San Francisco, as a member of the United States Shipping Board, was sent to the Senate for confirmation by President Wilson on Sept. 29. The Senate confirmed Mr. Page's nomination on the 4th inst. Mr. Page has been chosen to succeed Theodore Brent, of New Orleans, who resigned in July as a result of the Denman-Goethals controversy. Mr. Page is prominent in marine insurance circles in San Francisco, and is a director of the Firemen's Fund Insurance Company of San Francisco. He is regarded as an expert on marine insurance and is a practical insurance man. His appointment to the Shipping Board is said to have been recommended to the President by Senator Phelan, of California.

E. F. CARRY CHOSEN DIRECTOR OF OPERATIONS FOR SHIPPING BOARD.

Announcement was made on Sept. 28 that E. F. Carry, a car manufacturer of Chicago, had relinquished his position as a member of the Wage Adjustment Board, created by the Shipping Board to settle labor disputes, to become Director of Operations for the Federal Shipping Board. Mr. Carry will assume executive charge of all matters pertaining to the operation of merchant ships commandeered by the Shipping Board, as well as vessels now building by the Board in various shipyards throughout the country. He will name three assistants, one each to direct operations on the Atlantic, the Pacific and the Gulf. The Shipping Board, as stated in these columns last week, will begin to operate ships on Oct. 15, when all American merchant vessels will be requisitioned either for Government operation or for service under Government direction.

Louis A. Coolidge, of Boston, has been chosen a member of the Wage Adjustment Board, to succeed Mr. Carry.

THE SAN FRANCISCO SHIPYARD STRIKE—OTHER LABOR DISPUTES.

The return to work of the 30,000 striking shipyard workers at San Francisco did not take place on Sept. 28, but was delayed for a few days. Late on Sept. 27 members of the boilermakers' union voted not to return to work under the terms of the temporary agreement (referred to in these columns last week), though this had been accepted by a majority of the unions affiliated with the Iron Trades Council. But on Sept. 30 the boilermakers voted to accept the terms of the agreement and decided to resume work the next morning, Oct. 1.

About half of the shops affected by the strike opened on Sept. 28 on the strength of the announcement that the unions connected with the Iron Trades Council had on Sept. 26 agreed to return to work, but they closed again when notified that the boilermakers had refused to accept the temporary agreement, which provided that wages up to and including \$4 25 a day should be increased 20%; wages from \$4 26 up to and including \$5 should be increased 12½%, and wages from \$5 01 up should not be increased to more than \$6. Army officers in San Francisco on Sept. 28 issued a statement which made clear to the striking workmen that it was the consensus of expert opinion that the strike, which had halted the Government's shipbuilding program, was prolonging the war. "The military situation demands that ships be commissioned at the earliest date practicable and any obstruction thereto seriously sets back the victory which is essential on land and sea to effect peace," the statement concluded.

R. N. Burton, President of the Iron Trades Council, on Sept. 28 again instructed all members of the unions concerned in the strike to return to work the next day, Sept. 29. Only a handful of men responded when the concerns opened. In defiance of Mr. Burton's order, James Enright, Secretary of the Boilermakers' Union, declared that any boilermaker who returned to work "will be discharged from the union." As already stated, however, the boilermakers on Sunday, Sept. 30, decided to accept the terms of the temporary agreement ratified by the other unions. The agreement was made public on Sept. 26 for the first time and, according to the San Francisco "Chronicle," reads as follows:

This agreement, made and entered into this the 23d day of September 1917 between the conference committee representing the California Metal Trades Association and the California Foundrymen's Association and the conference committee representing the Iron Trades Council:

Witnesseth: That the parties hereto agree to recommend to the organizations represented by them and urge the adoption of the following agreement:

That all work shall be resumed on September — 1917 by all members of the various unions of the Iron Trades Council.

All conditions as expressed in the various agreements binding the California Metal Trades Association and the California Foundrymen's Association and the Iron Trades Council, and which agreement expired on the 15th day of September 1917 shall continue, with the exception of the wage schedule, which shall be modified to read as follows:

Wages, up to and including \$4 25 a day, shall be increased 20%.

Wages, from \$4 26 a day up to and including \$5 a day, shall be increased 12½%.

Wages, from \$5 01 per day up to and including a point where such increase shall not bring the wages above \$6 a day, 10%.

It is understood that the increased scale adopted shall not create any advance which shall bring about a higher wage than \$6 a day. It is understood that the object in agreeing to this advance in wages, at this time, is purely patriotic on both sides, and in order that the needs of the Government in time of war shall not be hampered. Furthermore, it is understood that there shall be no discrimination used against any firm which shall be supplying material, or against material, machinery or any other apparatus for supplies, which they have been, or which may be ordered in connection with the needs of the conducting of the business of the parties involved.

Eight hours shall constitute a day's work, and all overtime shall be paid at the rate of time and one-half for first three hours after regular quitting time. Double time shall be paid for all time over eleven hours a day, but this shall not apply in cases where more than one shift is required.

Employees shall be paid off some regular and definite day of each week, and no more than a week's pay held back. Employees discontinuing their work voluntarily, or by virtue of being laid off or discharged, shall be paid all wages due them within twenty-four hours, excepting on Monday or holidays, when wages due shall be paid on the day following.

All of the foregoing shall be binding until such time, and thirty days thereafter, as the wage adjustment board shall render its decision in settling conditions.

When the Government's decision is rendered and has been accepted by both parties hereto it is agreed and understood that such decision shall be retroactive and apply to all wages paid on and after the date on which the men affected shall return to work.

This agreement shall be approved and ratified in writing within three days from date by the California Metal Trades Association, the California Foundrymen's Association and the Iron Trades Council.

In witness whereof this agreement has been this day executed.

A threatened strike of 10,000 Great Lake seamen set for Oct. 1 was called off on Sept. 30 by union leaders when the

Shipping Board serving as an arbitrator in the dispute between the Lake Carriers Association and the Lake Seamen's Union, decided to grant the wage increases demanded. Other demands, calling for abolishment of the "discharge book," recognition of the union and a similar agreement on the great lakes to that entered into by carriers and the unions on the Atlantic Coast were raised temporarily, as was the matter of overtime. The men agreed to a minimum wage for able seamen during October and November of \$95 a month. The carriers had declined to pay more than \$85. Deck hands will receive \$60 a month, \$2 50 more than the carriers were to pay. It has been the custom on the lakes for years to pay higher wages during the last two months of the operating season. The summer rate for seamen this year was \$72.

Twelve thousand metal workers in Seattle shipyards struck on Sept. 29, thereby carrying into effect the order issued on Sept. 25 by the Seattle Metal Trades Council, the central organization of the unions and referred to in these columns last week. The strike was called in order to force demands for higher wages and for an eight hour day in lumber mills. Three large steel shipyards and ninety-five smaller plants were closed as a result of the strike.

The Labor Investigation Commission appointed by President Wilson last week, of which Secretary of Labor William B. Wilson is Chairman, left Washington on Oct. 1 on a two months tour of Western States to inquire into the causes of labor unrest and to attempt settlement of strikes and other industrial disorders. The Commission will make its first stop at Phoenix, Arizona.

Agreement on navy yard wage scales, representing a general average increase of more than 10%, was reached at a conference in Washington on Oct. 3 between Assistant Secretary of the Navy Roosevelt and the Presidents of the International Trades Union, representing navy yard employees. The new schedule goes into effect Nov. 1 for one year. The Navy Department on Oct. 3 issued the following statement regarding the new scale:

The new scale represents an average increase of considerably over 10% in the skilled trades, both metal and wood working. This increase in the higher ratings will be 40 cents or more a day, and the department will continue the plan of reducing the number of ratings in each trade from five to three. This will give substantial increases to the lower paid men.

A committee is to be appointed to adjust certain minor questions involving localities or special trades.

It is felt by all who have taken part in these conferences that this adjustment is an important step and will do much to assist in the effective prosecution of the war work of the Government.

GREAT BRITAIN'S EMBARGO ON EXPORTS TO NORTHERN EUROPEAN NEUTRALS.

Indication that the Allies, in concerted action, have determined on a still more vigorous economic blockade of Germany is seen in the announcement of the British Government, which on Oct. 2 made known its intention to put into effect an embargo on the exportation to Sweden, Norway, Denmark and the Netherlands of all articles except printed matter of all descriptions and personal effects accompanied by the owners. Coming close on the export embargo of the United States, which is being administered to keep from the European neutrals everything that might supply the Central Powers, Great Britain's action, dispatches from Washington on Oct. 3 said, is regarded as one of the most important of the war. In a figurative sense, it is pointed out, Great Britain holds one end of the rope and the United States the other. Gradually, as it is being drawn taut, the military power of Germany is being strangled because the embargo cuts off the supplies she has been receiving through the adjacent neutrals. It is said that the United States had urged upon Great Britain for some time the necessity for placing an embargo on exports to the northern neutral countries of Europe, and that negotiations have been carried on by the Washington officials with France, Italy and other countries at war with Germany to induce them to take a similar course. Great Britain's action indicates, it is stated, that the Allies have united in a decision that the European neutrals must cut off the shipment of all supplies to Germany. American officials and some of the Allies, it is said, heretofore have hesitated as to just how far to go in demanding cessation of trade between the European neutrals and Germany. At one time, it is stated, it appeared they would ask no more than that neither Allied goods nor materials supplanted by

Allied commodities be sold in Germany by the neutrals. The new policy determined upon by the Entente countries can be accomplished through rigid embargoes applied by all the Allies.

Dispatches from London on the 3d inst. stated that the announcement of Great Britain's embargo caused the greatest puzzlement to the London newspapers. Owing to existing agreements for the export of commodities with those countries named in the embargo order, none of the London papers, the dispatch said, could believe that the embargo proclamation meant what it apparently says. Some papers interpreted its meaning to be that nothing shall be exported except under license. And this view has proved correct, for the Associated Press in dispatches from London on the 3d stated it had learned that the proclamation involved no new policy, but was only an extension of the principle heretofore followed by the Allies. Its object is, briefly, says the Associated Press dispatch, to require licenses for the exportation of goods of all kinds, except printed matter and personal effects. The Associated Press dispatch continued:

Up to the present certain classes of unimportant commodities have been exempt as regards licenses, but the new order will enable the authorities to control the whole export trade and direct its flow, and to secure uniformity of practice it has been decided to treat all goods alike.

THE STEEL INDUSTRY'S WAGE ADVANCE.

Reference was made in our issue of Sept. 22 (page 1216) to the wage advance of 10% made by the United States Steel Corporation, which has been followed quite generally by other steel producers. Below we print what the "Iron Age" had to say in its editorial columns relative to the advance:

The wage advance in the iron and steel industry announced in the case of the Steel Corporation to become effective Oct. 1, is the fifth advance of approximately 10% made since the war started. The four preceding advances became effective on Feb. 1, May 1 and Dec. 15 of last year and on May 1 1917.

While some comment has been made upon the fact that wages are increased in the iron and steel industry at a time when prices are declining, it is to be observed that the vital fact is that prices realized upon shipments are increasing, owing to the completion of the older and lower-priced orders. This increase promises to continue for some time to come, and open market prices could continue to decline for quite a while, at the moderate pace of the past few weeks, before the two items would come together.

J. W. MITCHELL HEAD OF NEW YORK FOOD BODY— SECOND REJECTION OF G. W. PERKINS.

The Senate at Albany on Oct. 2 rejected for the second time the nomination of George W. Perkins as head of the New York State Food Commission. The vote was 20 "for" to 25 "against."

After the Senate had refused to confirm Mr. Perkins nomination, which Governor Whitman has been insisting upon ever since the Senate was convened in extraordinary session last August, the Governor presented the name of John W. Mitchell, Chairman of the State Industrial Commission and former President of the United Mine Workers. The Senate confirmed his appointment by a unanimous vote. Mr. Mitchell is a Democrat and was appointed to the industrial commission by former Governor Glynn.

Without a dissenting voice the Governor's appointment of Jacob Gould Schurman, President of Cornell University, was confirmed, and only one vote was recorded against Charles A. Wieting of Cobleskill, as the other member of the Commission.

Following the rejection of Mr. Perkins nomination as head of the Food Commission, the Senate by a vote of 19 "for" to 23 "against," defeated a bill recommended by Governor Whitman and Mayor Mitchell, to amend the law in order that Mr. Perkins, who is a member of the Palisades Interstate Park Commission, might retain that office and at the same time be eligible for appointment by the Mayor as a market commissioner of New York City. The Senate then adjourned sine die.

In speaking of Mr. Perkins defeat the Governor said:

He would have had behind him a driving force that no other man that I know of could possibly command in that position. But I have great confidence in Mr. Mitchell, too, and feel very happy and grateful over his consent to serve as head of the Commission.

Mr. Perkins had the following to say upon hearing that the Senate had rejected his nomination as Chairman of the Commission:

Twelve up-State Republicans, three New York City Republicans and ten Tammany Democrats from this city voted against my confirmation as Chairman of the State Food Commission.

The up-State Republicans said they were against me because the farmers and the Dairymen's League were opposed to me. If that be true it would be interesting to know on what grounds the New York City Republicans and the Tammany Senators based their objections, for their constituents are consumers, and if the producers are against me the consumers should be for me. The Dairymen's League is against me—bitterly against me.

My opposition to their methods has been open, constant and vigorous. In my judgment what they are doing is not only immoral but illegal, and

the ten Tammany Senators and three New York City Republicans, by their vote to-day, sided with the Dairymen's League and by so doing grossly betrayed their constituents in this city.

It goes without saying that I shall continue to do all I can as a citizen to help solve the food problem, and that I shall place at the disposal of whomsoever the Governor appoints all the information and knowledge I have obtained and help him in every way I possibly can.

In last week's issue of our paper we published Mr. Perkins reply of Sept. 27 to an advertisement which appeared in 141 newspapers of the State on that date, at his own expense but framed and signed by Samuel Fraser of Geneseo, representing various agricultural societies of the State, attacking him as unsuited to head the Commission.

The oath of office was taken by Mr. Mitchell on Oct. 4 and after a conference with the Governor he announced that on Tuesday next the Commission would meet at the Capitol to perfect organization. The headquarters of the Commission will be located at Albany and branch offices will be established in New York City and in some of the other cities throughout the State. Mr. Mitchell declined to discuss the food situation or the program of the Food Control Commission, saying:

I haven't had time to give sufficient thought to the work of the Commission to justify an attempt to outline its duties or its program. Like every other citizen, however, I have kept generally in touch with the agitation over the food situation. The work of the Industrial Commission is so well organized that I can leave it, but I'll be here from time to time.

During war times I believe it to be highly immoral for any one to take an advantage of the nation's stress to unduly advance prices. If the Government has the stated power to restore normal conditions as to production and distribution of foodstuffs it would be proper to do so.

O. H. KAHN ON NECESSITY OF GOVERNMENT ADOPTING FAIR ATTITUDE TOWARD BUSINESS.

Referring to the so-called excess profits tax in the war revenue bill, Otto H. Kahn, of the banking firm of Kuhn, Loeb & Co. of New York, in an address before the Harrisburg (Pa.) Chamber of Commerce on Sept. 30 stated that "in contrast to the English law our excess profits tax penalizes the achievements of enterprise, hard work, ability and wise planning, and places them on the same footing with the exactions of the war profiteer." Mr. Kahn's remarks were submitted under the head: "How American Business Men Can Help Win the War," and in essaying that "we recognize that the law of supply and demand does not hold in war time," he indicated the readiness of business to give to the Government what it needs and to "let the public have what it needs at such prices as you (the Government) choose to determine;" he pointed out, however, that business at the same time says to the Government that "in using the power placed in your hands to which we gladly and unreservedly subject ourselves, let business feel that the attitude of the Government towards it will be wise and circumspect and fair, and that the scales will be held even." The following is Mr. Kahn's speech in part:

In contrast to the British tax the American so-called excess profits tax, as proposed, is not an impost merely on profits due to the calamitous and accidental circumstances of war, but an impost on all profits over an arbitrarily fixed percentage of return on capital employed—a percentage which is inordinately low and is made still more inadequate by the definition of the term "capital employed" in an excessively restricted sense.

It is in effect not an excess profits tax at all, but an additional tax on incomes derived from business, regardless of varying circumstances and conditions, superimposed on the general income tax (the graduated scale of which rises to 67%; i. e., 50% higher than the maximum rate in England) and levied upon business only.

In this country 80% of the total sum to be raised by war taxation is contributed by the income and excess profits tax. In Great Britain, in the fourth year of the war, it is about the same; in France and Germany a much lower percentage.

In contrast to the English law our excess profits tax penalizes the achievements of enterprise, hard work, ability and wise planning, and places them on the same footing with the exactions of the war profiteer.

Apart from various offsets and allowances and refunds which are wisely permitted in England, the three pre-war years with which comparison is made there as here to determine excess profits, were years of great prosperity in Great Britain, whilst they were, on the whole, years of rather less than normal profits in this country. It is true that the excess war profit tax in England is now, in the fourth year of the war, 80%, whilst the rates under the business profit tax as adopted in the Senate ranges from 12% to 60%. But the difference in spirit and detail and application between the Senate bill and the English law is such as to make the tax under the former decidedly more troublesome and in many cases more onerous than under the latter.

To an overwhelming degree the sons of the well-to-do have not waited to be conscripted. They have volunteered in masses—a far greater percentage of them than of those in humbler circumstances. That is merely as it should be. Having greater advantages they have corresponding duties. Not having dependents to take care of, they can better afford to volunteer than those less fortunately situated.

But the patriotic zeal of the sons of the well-to-do in coming forward to offer their lives to the country does give a doubly false and sickening sound to the ranting of the agitator who would arouse class hatred, who uses the conscription of a small percentage of the poor as excuse for a demand to impose punitive burdens on the well-to-do, who call this "a rich man's war and a poor man's fight" when an overwhelming percentage of the sons of men of means have eagerly and freely offered themselves for military service and when capital and business pays more than four-fifths of the cost of the war directly and a large share of the remaining fifth indirectly.

A moment's reflection will show that every reason of self-interest would have prompted men of business to oppose war and to continue a state of affairs in which business prospered amazingly, and many of them furnished material and supplies to Europe at enormous profits.

Every consideration of personal advantage would have commanded men of affairs to stand with and support the agitation of the peace-at-any-price party. They spurned such ignoble reasoning; they rejected that affiliation, because they are patriotic citizens first and business men afterward.

We say to the Government: "We recognize that the law of supply and demand does not hold in war time. Take what you need and let the public have what it needs at such prices as you choose to determine. We shall not haggle or bargain."

But we also say: "In using the power placed in your hands to which we gladly and unreservedly subject ourselves, let business feel that the attitude of the Government towards it will be wise and circumspect and fair, and that the scales will be held even."

We gladly acknowledge that as far as the Executive branch of the Government is concerned this has been the spirit of its actions and expressions. The economic problems which the Administration is called upon to solve are of formidable difficulty and magnitude, and they have been and are being dealt with, on the whole, with great wisdom, efficiency and breadth of vision. (If, without wishing to pick flaws where there is so much to praise, I may make one reservation, it is that the exceedingly important, indeed vital, subject of providing an adequate and steady supply of labor does not seem as yet to have been tackled with the energy, courage and vigor for which it calls.)

The time when, in the general rush and turmoil of a period of tremendous and headlong development, big business was to some extent a law unto itself, is over, never to return. We must accept and we should welcome reasonable supervision and regulation.

What we protest against and resent is ignorance and shallow thought, and, still more, demagogism, envy and prejudice, under the flag of war necessities and social justice, waging a campaign through inflammatory appeal, misstatement and specious reasoning to punish success, despoil capital and harass business.

We object to any tendency of relieving one or more sections of the country of their due share of burden at the expense of other sections of the country, or of favoring one calling at the expense of other callings. It is just as wrong for legislators to be unduly subservient to capital and business as to the despoilers and defamers of capital and business.

A democracy which discriminates against a class or a section is just as guilty as an autocracy which discriminates in favor of a ruling caste. Self-government presupposes self-restraint.

Liberty can only thrive and persist in the soil of justice. If the world is to be made safe for democracy, democracy must take care to make itself safe for the world.

It is too little realized that, though not in form, yet certainly in fact, the leaders of business are elected by the business community at large, and hold their position subject to "recall." With insignificant exceptions the men at the head of big affairs are self-made men, having risen from the ranks to their present stations.

Money, it is true, can be bequeathed, but not brains and character, and whilst the possession of inherited money gives a man certain advantages—not without some drawbacks—it does not bestow upon him any considerable degree of influence amongst business men, let alone leadership.

No one can occupy a prominent and influential place in the republic of business unless he is trusted completely by those who observe him closest and know him best—i. e., his fellow business men. Brains, knowledge, character and service are the qualifications required.

Let a man retrograde, deteriorate, go astray, and the business community will soon find it out, and, however high the position he may occupy, will exercise the "recall" by withdrawing its confidence and ceasing to follow him.

I think it would serve a wise and useful purpose if the President or the Secretary of the Treasury were to see fit to appoint a Board of Economic and Financial Strategy, composed, in part at least, of business men—just as the Army and Navy have boards of experts to elaborate and deal with strategic problems—a board which would carefully deliberate and advise as to the exigencies both of our immediate situation and of the conditions likely to confront us after the war.

We shall have to meet, after the return of peace, both in our own country and abroad, the onset of the business men of Europe, spurred on by dire necessity to put forth their utmost efforts, trained to discipline, co-operation and inventiveness in the cruel school of years of desperate war upon their own soil or at their very door, backed by the full power of their respective governments and the laws of their respective countries.

I have no fear but that American business men will hold their own in that fierce competition; provided—not that they be given the thorough and active governmental backing which other nations extend to their merchants, manufacturers and bankers (we do not ask for that and we believe we do not require it)—but provided that they be not hampered and harassed by the Government and the lawmakers; provided that ignorance, prejudice, ill-will and suspicion be not permitted to place fetters upon them.

W. S. KIES ON DEVELOPMENT OF OUR EXPORT TRADE AND CHEMICAL INDUSTRY.

"The Development of Our Export Trade" was discussed by W. S. Kies, Vice-President of the National City Bank of New York before the Third National Exposition of Chemical Industries at the Grand Central Palace, New York, on Sept. 26. In the course of his remarks Mr. Kies pointed out that during the war period substantial progress has been made by the United States in the development of its South American trade, due to the fact that we have had the market pretty much to ourselves. In putting the question as to whether we will be able to keep the business which we have built up during the last three years, he well said that the development of our trade with South America, as well as the building up of our foreign markets everywhere, will primarily depend upon our ability to produce on a basis which will permit us to sell our products in competition with trained and efficient Europe. Continuing he said:

During the war period, we have made material gains which will be of aid to our export business after the war. We are constructing a great fleet of merchant vessels, and shall henceforth be able to deliver our goods

with our own ships. We have established branch banks abroad, and provided facilities for the aid of our business interests. We will no longer need to depend upon German and English banks to make our collections and finance our shipments. As a result of three years of unprecedented prosperity, our industries are on the soundest possible basis. Debts have been paid off, depreciation and maintenance charges properly taken care of, and surpluses accumulated. Old machinery and plants have been scrapped and modern equipment substituted.

The country has been awakened to the need for developing a permanent export trade, and we have learned much about foreign markets. Many agencies, branch houses and new export companies have been established throughout the world. We have learned to lean upon ourselves and to do business more directly. Trade with far off countries has been diverted into new routes leading to this country. We are importing direct rubber and tin from the Dutch East Indies, jute from India, wool from Australia, tobacco from Sumatra, and many other raw materials which heretofore we have purchased through England.

So much for what we have gained during the war period. On the other hand, we have progressed little, if at all, in the direction of working out a definite export policy for this country. Our exporters are still compelled to compete with one another in foreign markets, as their right of organization in foreign effort is doubtful under the Sherman Act. The Webb Bill, which would give manufacturers the right to combine in foreign fields, has as yet not become a law. No definite progress has been made in the working out of reciprocal tariff arrangements with countries whose markets we are interested in developing. While we are spending hundreds of millions of dollars in building merchant vessels, nothing has been done toward repealing the obnoxious features of the Seamen's Act or other marine legislation which make impossible the operation of a merchant marine by Americans in competition with the rest of the world.

We have entered upon a necessary program of price fixing on the one hand and taxation of profits on the other, which is viewed with deep concern by business interests in this country. After the war, the prosperity of this country will depend upon the prosperity of our industries, and that in turn will depend upon the ability to withstand the competition which is sure to come. If the natural progress and development of our industries are handicapped on the one hand by the limitation of profits through price fixing, and these profits are still further diminished by large taxes, there will be difficulty in fortifying industry against the competitive struggle to come. Add to this handicap the increasing cost of labor, bearing in mind that it is always easy to move wages upward and almost impossible to move them downward; consider the growing inefficiency of labor in this country, and one may well be concerned at our ability to produce at a cost which will enable us to compete successfully in the markets of the world.

But there are certain things in which the manufacturers themselves may be at fault. In the processes of production, inefficiency in management is often responsible for waste and the inefficiency of labor. The general attitude of labor should not be too much criticised. The great majority of laboring men of this country are thoroughly patriotic, and, under proper organization and direction, willing to do their utmost to contribute to the winning of the war. The increased cost of living, and the large profits which capital has enjoyed during the last three years, justify, in many cases, their demands for increased wages. The important thing, however, is that labor should be made to see that present wage advances should be considered as war bonuses, and that it should be willing to go back to normal wages when living expenses decrease and competitive conditions make impossible the payment of present scales.

Finally, the success of the American manufacturer in maintaining his hold upon export business will depend upon the development of a broader spirit of co-operation and of nationalism. American banks and American facilities for doing business should be used wherever available. The interest of every American should be the interest of all in a foreign market. American business standards and American business methods in foreign countries should be such as to warrant the respect and approval of all. Through organizations of Americans in the various foreign markets, our business ideals can be enforced, and this can be accomplished when our manufacturers once thoroughly realize the importance and necessity of co-operative effort in foreign fields.

Now is the time to intelligently plan for the future, and to build a sure foundation for a permanent export business, for while at the moment the business skies may be overcast and cloudy, and the rumblings of the coming storm may disturb us, yet with the dawn of another day we may awake to find the storm clouds scattered and the sun still shining upon a world redeemed forever from the hate, fury and murder of war.

SAVING THROUGH BETTER CAR LOADING.

Pacific Coast shippers by co-operating in heavier car loading saved during the month of August enough cars to supply the Southern Pacific's entire Pacific system for one and one-half days, according to figures made public by traffic officials this week by the Bureau of News of the Southern Pacific Company, which says:

Upon an average, 3,000 cars are required daily to fill the demands of all the shippers located on the 6,700-mile system of the Southern Pacific Co. By heavier car-loading, 4,537 cars were saved during August 1917 as compared with the same month last year.

The extraordinary value to shippers of using the full car space available is shown by the statement that the above saving was sufficient to provide during August all the cars required to load the following commodities: Sugar, paper, peas and beans, salt, dried fruits, canned goods, rice, potatoes, corn and oats, brick.

HOW RAILROAD CAPACITY FOR SERVICE IS BEING RAISED.

Reports just compiled for the Railroads' War Board indicate that the travelling public in general and the shippers in particular are giving the finest kind of co-operation to the railroads in the handling of the increased traffic that the war has produced. What this co-operation means may be gleaned from the following made public by the Railroads' War Board on Sept. 29:

Since May 1 the railroads, aided by the loyalty and understanding of the public, have been able to reduce their passenger service by approximately 25,000,000 miles. This has released thousands of train crews and locomotives for use in the freight service and cleared thousands of miles of track, thereby facilitating the movement of coal, food products and supplies needed by the Government.

In addition to the foregoing saving of equipment and trackage, the shippers, big and small, have rallied so splendidly to the slogan "Make one car do the work of two," that a saving of close to half a million freight cars has been accomplished. This saving of freight cars had enabled the railroads to move approximately 25% more freight since war was declared than during the same period last year.

Intensive loading and general increase in the size of the "trade units" used by the various industries has rendered possible the saving of car space. Cotton, for instance, which was formerly moved in units of fifty bales, now moves only in units of 65 and 75. The increase in the trade unit in this one commodity alone has produced a saving of anywhere from 83,000 to 125,000 small cars.

Sugar, on which the carload minimum from the South was formerly only 24,000 pounds per car, now moves only on a 60,000 carload minimum.

The producers of manufactured food products, especially the canners, have also come to a realization of the value of intensive loading, and are now loading virtually all of their cars to capacity.

Coal, which has been loaded beyond capacity on most lines since the beginning of the war, is also moving freely now, although labor trouble in some parts of the country is tending to counteract the efforts of the railroads to meet the abnormal demand for fuel. During the past month the supply of cars on the "lake coal" lines has been increased 25% and there has been some increase in the movement of bituminous coal to the lake ports, but it has not been proportionate to the increased supply of cars as labor trouble has tended to decrease the mine production.

Although excellent results have been achieved to date through the co-operation of the shippers, the travelling public and the railroads, it will be necessary for all concerned to exert renewed efforts, as the abnormal demands upon the railroads in the movement of both troops and supplies is constantly increasing, while the securing of new equipment is virtually impossible.

From now on, 2,500 cars a day will be required by the Government to move food and supplies to the men in training at the National Army, National Guard and other encampments, while the demand of the Allies for cars to carry export goods to the seaports will be practically doubled. All of this additional traffic must be moved by the railroads, although they have only 3% more equipment than they had at this time last year.

NEW INTER-STATE COMMERCE COMMISSIONERS— TEXT OF LAW INCREASING MEMBERSHIP OF BOARD.

President Wilson on Sept. 29 sent to the Senate for confirmation the nominations of Robert W. Wooley of Virginia, Clyde B. Atchison of Oregon, and George W. Anderson, of Massachusetts, as members of the Inter-State Commerce Commission. Messrs. Atchison and Anderson were appointed by the President under authority of the law approved Aug. 9, providing for an increase in the membership of the Commission from seven to nine members, while Mr. Wooley was chosen by the President to serve out the unexpired term of the late Judson C. Clements, of Georgia, who died in Washington last June. Mr. Wooley, whose term will expire Dec. 31 1920, was Publicity Director for the first Liberty Loan campaign, and is a former Director of the Mint. He served as Publicity Manager for the Democratic National Committee in the last campaign. Mr. Atchison, whose term will expire Dec. 31 1921, is a Republican, and was formerly Oregon State Railroad Commissioner. Mr. Anderson has been United States District Attorney at Boston since October 1914, and previous to that time was a member of the Massachusetts Public Service Commission. Early in the present year he was detailed by Attorney-General Gregory to conduct a nation-wide investigation into the high cost of food products. Mr. Anderson was nominated for the term ending Dec. 31 1922.

The law providing for the increase in the membership of the Inter-State Commerce Commission was signed by President Wilson on Aug. 9. The bill was passed by the Senate on May 22 and by the House on June 27, and was agreed to in conference on Aug. 3. The House adopted the conferees' report on Aug. 4, and similar action was taken by the Senate two days later, Aug. 6. Under the new law the Interstate Commerce Commission is authorized to divide its members into as many divisions as may be deemed necessary to carry on its administrative work. In all proceedings relating to the reasonableness of rates or alleged discriminations, however, not less than three members of the Commission must participate, and in all valuation hearings five members must sit. The new law forbids railroads from filing tariffs until advance consent of the Commission is obtained. Notice of tariff changes, it is said, have heretofore piled in on the Commission, sometimes at the rate of hundreds a day. The new requirements compel the road first to consult the Commission. The new law also provides that no increase in railroad rates or fares shall be allowed to become effective before Jan. 1 1920 without first having been approved by the Commission. The text of the bill as enacted into law reads as follows:

An Act to amend the Act to regulate commerce, as amended, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section twenty-four of an Act entitled "An Act to regulate commerce," approved Feb. 4 1887, as amended, be further amended to read as follows:

"Sec. 24. That the Interstate Commerce Commission is hereby enlarged so as to consist of nine members, with terms of seven years, and each shall

receive \$10,000 compensation annually. The qualifications of the members and the manner of the payment of their salaries shall be as already provided by law. Such enlargement of the commission shall be accomplished through appointment by the President, by and with the advice and consent of the Senate, of two additional Interstate Commerce Commissioners, one for a term expiring Dec. 31 1921 and one for a term expiring Dec. 31 1922. The terms of the present commissioners, or of any successor appointed to fill a vacancy caused by the death or resignation of any of the present commissioners, shall expire as heretofore provided by law. Their successors and the successors of the additional commissioners herein provided for shall be appointed for the full term of seven years, except that any person appointed to fill a vacancy shall be appointed only for the unexpired term of the commissioner whom he shall succeed. Not more than five commissioners shall be appointed from the same political party.

Sec. 2. That section 17 of said Act, as amended, be further amended to read as follows:

"Sec. 17. That the commission may conduct its proceedings in such manner as will best conduce to the proper dispatch of business and to the ends of justice. The commission shall have an official seal, which shall be judicially noticed. Any member of the commission may administer oaths and affirmations and sign subpoenas. A majority of the commission shall constitute a quorum for the transaction of business, except as may be otherwise herein provided, but no commissioner shall participate in any hearing or proceeding in which he has any pecuniary interest. The commission may, from time to time, make or amend such general rules or orders as may be requisite for the order and regulation of proceedings before it, or before any division of the commission, including forms of notices and the service thereof, which shall conform, as nearly as may be, to those in use in the courts of the United States. Any party may appear before the commission or any division thereof and be heard in person or by attorney. Every vote and official act of the commission, or of any division thereof, shall be entered of record, and its proceedings shall be public upon the request of any party interested.

"The commission is hereby authorized by its order to divide the members thereof into as many divisions as it may deem necessary, which may be changed from time to time. Such divisions shall be denominated respectively division 1, division 2, and so forth. Any commissioner may be assigned to and may serve upon such division or divisions as the commission may direct, and the senior in service of the commissioners constituting any of said divisions shall act as chairman thereof. In case of vacancy in any division, or of absence or inability to serve thereon of any commissioner thereto assigned, the chairman of the commission, or any commissioner designated by him for that purpose, may temporarily serve on said division until the commission shall otherwise order.

"The commission may by order direct that any of its work, business, or functions arising under this Act, or under any Act amendatory thereof, or supplemental thereto, or under any amendment which may be made to any of said Acts, or under any other Act or joint resolution which has been or may hereafter be approved, or in respect of any matter which has been or may be referred to the commission by Congress or by either branch thereof be assigned or referred to any of said divisions for action thereon, and may by order at any time amend, modify, supplement, or rescind any such direction. All such orders shall take effect forthwith and remain in effect until otherwise ordered by the commission.

"In conformity with and subject to the order or orders of the commission in the premises, each division so constituted shall have power and authority by a majority thereof to hear and determine, order, certify, report, or otherwise act as to any of said work, business, or functions so assigned or referred to it for action by the commission, and in respect thereof the division shall have all the jurisdiction and powers now or then conferred by law upon the commission, and be subject to the same duties and obligations. Any order, decision, or report made or other action taken by any of said divisions in respect of any matters so assigned or referred to it shall have the same force and effect, and may be made evidenced, and enforced in the same manner as if made, or taken by the commission, subject to rehearing by the commission, as provided in section 16—a hereof for rehearing cases decided by the commission. The secretary and seal of the commission shall be the secretary and seal of each division thereof.

"In all proceedings before any such divisions relating to the reasonableness of rates or to alleged discriminations not less than three members shall participate in the consideration and decision; and in all proceedings relating to the valuation of railway property under the Act entitled 'An Act to amend an Act entitled "An Act to regulate commerce," approved Feb. 4 1887, and all Acts amendatory thereof, by providing for a valuation of the several classes of property of carriers subject thereto and securing information concerning their stocks, bonds, and other securities,' approved Mar. 1 1913, not less than five members shall participate in the consideration and decision.

"The salary of the secretary of the commission shall be \$5,000 per annum.

"Nothing in this section contained, or done pursuant thereto, shall be deemed to divest the commission of any of its powers."

Sec. 3. So much of section 18 of the Act to regulate commerce as fixes the salary of the secretary of the commission is hereby repealed.

Sec. 4. That paragraph 2, section 15, of the Act to regulate commerce approved Feb. 4 1887 as amended, be further amended by adding the following: "Provided further, until Jan. 1 1920 no increased rate, fare, charge or classification shall be filed except after approval thereof has been secured from the commission. Such approval may, in the discretion of the commission, be given without formal hearing, and in such case shall not affect any subsequent proceeding relative to such rate, fare, charge, or classification."

Approved, Aug 9 1917.

CONFIRMATION OF WILLIAM C. ADAMSON AS GENERAL APPRAISER OF THE PORT OF NEW YORK.

The Senate on Sept. 22 confirmed the nomination of Representative William C. Adamson of Georgia as General Appraiser of Merchandise for the Port of New York. Judge Adamson, who has served in the House of Representatives for about twenty years and is now Chairman of its Committee on Inter-State and Foreign Commerce, will, it is said, resign from Congress on Jan. 1 to assume his new duties. He was indorsed for the post of General Appraiser, which is a life position paying a yearly salary of \$9,000, by the entire Georgia delegation in the Senate and House. Mr. Adamson has played a prominent part in the House deliberations during the past two decades. He is the author of the recent eight-hour law, the physical valuation of railroads and various other measures.

TEXT OF THE WAR REVENUE ACT.

Below we give the text of the War Revenue Bill as enacted into law with its approval by President Wilson on the 3d inst. Reference to the alterations made by the conferees appears in an item on a preceding page.

An Act to provide revenue to defray war expenses, and for other purposes.
Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

TITLE I.—WAR INCOME TAX.

Section 1. That, during the present war, in addition to the normal tax imposed by subdivision (a) of section one of the Act entitled "An Act to increase the revenue and for other purposes," approved Sept. 8 1916, there shall be levied, assessed, collected, and paid a like normal tax of 2 per centum upon the income of every individual, a citizen or resident of the United States, received in the calendar year 1917 and every calendar year thereafter.

Sec. 2. That during the present war, in addition to the additional tax imposed by subdivision (b) of section one of such Act of Sept. 8 1916, there shall be levied, assessed, collected, and paid a like additional tax upon the income of every individual received in the calendar year 1917 and every calendar year thereafter, as follows:

- 1 per centum per annum upon the amount by which the total net income exceeds \$5,000 and does not exceed \$7,500;
- 2 per centum per annum upon the amount by which the total net income exceeds \$7,500 and does not exceed \$10,000;
- 3 per centum per annum upon the amount by which the total net income exceeds \$10,000 and does not exceed \$12,500;
- 4 per centum per annum upon the amount by which the total net income exceeds \$12,500 and does not exceed \$15,000;
- 5 per centum per annum upon the amount by which the total net income exceeds \$15,000 and does not exceed \$20,000;
- 7 per centum per annum upon the amount by which the total net income exceeds \$20,000 and does not exceed \$40,000;
- 10 per centum per annum upon the amount by which the total net income exceeds \$40,000 and does not exceed \$60,000;
- 14 per centum per annum upon the amount by which the total net income exceeds \$60,000 and does not exceed \$80,000;
- 18 per centum per annum upon the amount by which the total net income exceeds \$80,000 and does not exceed \$100,000;
- 22 per centum per annum upon the amount by which the total net income exceeds \$100,000 and does not exceed \$150,000;
- 25 per centum per annum upon the amount by which the total net income exceeds \$150,000 and does not exceed \$200,000;
- 30 per centum per annum upon the amount by which the total net income exceeds \$200,000 and does not exceed \$250,000;
- 34 per centum per annum upon the amount by which the total net income exceeds \$250,000 and does not exceed \$300,000;
- 37 per centum per annum upon the amount by which the total net income exceeds \$300,000 and does not exceed \$500,000;
- 40 per centum per annum upon the amount by which the total net income exceeds \$500,000 and does not exceed \$750,000;
- 45 per centum per annum upon the amount by which the total net income exceeds \$750,000 and does not exceed \$1,000,000;
- 50 per centum per annum upon the amount by which the total net income exceeds \$1,000,000.

Sec. 3. That the taxes imposed by sections one and two of this Act shall be computed, levied, assessed, collected, and paid upon the same basis and in the same manner as the similar taxes imposed by section one of such Act of Sept. 8 1916, except that in the case of the tax imposed by section 1 of this Act (a) the exemptions of \$3,000 and \$4,000 provided in section 7 of such Act of Sept. 8 1916, as amended by this Act, shall be respectively, \$1,000 and \$2,000, and (b) the returns required under subdivisions (b) and (c) of section 8 of such Act as amended by this Act shall be required in the case of net incomes of \$1,000 or over, in the case of unmarried persons, and \$2,000 or over in the case of married persons, instead of \$3,000 or over, as therein provided; and (c) the provisions of subdivision (c) of section 9 of such Act, as amended by this Act, requiring the normal tax of individuals on income derived from interest to be deducted and withheld at the source of the income shall not apply to the new 2% normal tax prescribed in section 1 of this Act until on and after Jan. 1 1918, and thereafter only one 2% normal tax shall be deducted and withheld at the source under the provisions of such subdivision (c), and any further normal tax for which the recipient of such income is liable under this Act or such Act of Sept. 8 1916, as amended by this Act, shall be paid by such recipient.

Sec. 4. That in addition to the tax imposed by subdivision (a) of section 10 of such Act of Sept. 8 1916, as amended by this Act, there shall be levied, assessed, collected, and paid a like tax of 4 per centum upon the income received in the calendar year 1917 and every calendar year thereafter, by every corporation, joint-stock company or association, or insurance company, subject to the tax imposed by that subdivision of that section, except that if it has fixed its own fiscal year, the tax imposed by this section for the fiscal year ending during the calendar year 1917 shall be levied, assessed, collected, and paid only on that proportion of its income for such fiscal year which the period between January 1 1917 and the end of such fiscal year bears to the whole of such fiscal year.

The tax imposed by this section shall be computed, levied, assessed, collected, and paid upon the same incomes and in the same manner as the tax imposed by subdivision (a) of section 10 of such Act of Sept. 8 1916, as amended by this Act, except that for the purpose of the tax imposed by this section, the income embraced in a return of a corporation, joint stock company or association, or insurance company, shall be credited with the amount received as dividends upon the stock or from the net earnings of any other corporation, joint stock company or association, or insurance company, which is taxable upon its net income as provided in this title.

Sec. 5. That the provisions of this title shall not extend to Porto Rico or the Philippine Islands, and the Porto Rican or Philippine Legislature shall have power by due enactment to amend, alter, modify or repeal the income tax laws in force in Porto Rico or the Philippine Islands, respectively.

TITLE II.—WAR EXCESS PROFITS TAX.

Sec. 200. That when used in this title—

The term "corporation" includes joint stock companies or associations and insurance companies;

The term "domestic" means created under the law of the United States, or of any State, Territory, or district thereof, and the term "foreign" means created under the law of any other possession of the United States or of any foreign country or government;

The term "United States" means only the States, the Territories of Alaska and Hawaii, and the District of Columbia;

The term "taxable year" means the twelve months ending Dec. 31, excepting in the case of a corporation or partnership which has fixed its

own fiscal year, in which case it means such fiscal year. The first taxable year shall be the year ending Dec. 31 1917, except that in the case of a corporation or partnership which has fixed its own fiscal year, it shall be the fiscal year ending during the calendar year 1917. If a corporation or partnership, prior to March 1 1918, makes a return covering its own fiscal year, and includes therein the income received during that part of the fiscal year falling within the calendar year 1916, the tax for such taxable year shall be that proportion of the tax computed upon the net income during such full fiscal year, which the time from Jan. 1 1917, to the end of such fiscal year bears to the full fiscal year; and the term "pre-war period" means the calendar years 1911, 1912 and 1913, or if a corporation or partnership was not in existence or an individual was not engaged in a trade or business during the whole of such period, then as many of such years during the whole of which the corporation or partnership was in existence or the individual was engaged in the trade or business.

The terms "trade" and "business" include professions and occupations.

The term "net income" means in the case of a foreign corporation or partnership or a nonresident alien individual, the net income received from sources within the United States.

Sec. 201. That in addition to the taxes under existing law and under this Act there shall be levied, assessed, collected, and paid for each taxable year upon the income of every corporation, partnership, or individual, a tax (hereinafter in this title referred to as the tax) equal to the following percentages of the net income:

20% of the amount of the net income in excess of the deduction (determined as hereinafter provided) and not in excess of 15% of the invested capital for the taxable year.

25% of the amount of net income in excess of 15% and not in excess of 20% of such capital;

35% of the amount of net income in excess of 20% and not in excess of 25% of such capital;

45% of the amount of net income in excess of 25% and not in excess of 33% of such capital; and

60% of the amount of the net income in excess of 33% of such capital.

For the purpose of this title every corporation or partnership not exempt under the provisions of this section shall be deemed to be engaged in business, and all the trades and businesses in which it is engaged shall be treated as a single trade or business, and all its income from whatever source derived shall be deemed to be received from such trade or business.

This title shall apply to all trades or businesses of whatever description, whether continuously carried on or not, except—

(a) In the case of officers and employees under the United States, or any State, Territory, or the District of Columbia, or any local sub-division thereof, the compensation or fees received by them as such officers or employees;

(b) Corporations exempt from tax under the provisions of Section 11 of Title I of such Act of Sept. 8, 1916, as amended by this Act, and partnerships and individuals carrying on or doing the same business, or coming within the same description; and

(c) Incomes derived from the business of life, health and accident insurance combined in one policy issued on the weekly premium payment plan.

Sec. 202. That the tax shall not be imposed in the case of a trade or business of a foreign corporation or partnership or a non-resident alien individual, the net income of which trade or business during the taxable year is less than \$3,000.

Sec. 203. That for the purposes of this title the deduction shall be as follows, except as otherwise in this title provided—

(a) In the case of a domestic corporation the sum of (1) an amount equal to the same percentage of the invested capital for the taxable year which the average amount of the annual net income of the trade or business during the pre-war period was of the invested capital for the pre-war period (but not less than 7 or more than 9% of the invested capital for the taxable year) and (2) \$3,000;

(b) In the case of a domestic partnership or of a citizen or resident of the United States, the sum of (1) an amount equal to the same percentage of the invested capital for the taxable year which the average amount of the annual net income of the trade or business during the pre-war period was of the invested capital for the pre-war period (but not less than 7 or more than 9% of the invested capital for the taxable year) and (2) \$6,000;

(c) In the case of a foreign corporation or partnership or of a non-resident alien individual, an amount ascertained in the same manner as provided in subdivisions (a) and (b) without any exemption of \$3,000 or \$6,000.

(d) If the Secretary of the Treasury is unable satisfactorily to determine the average amount of the annual net income of the trade or business during the pre-war period, the deduction shall be determined in the same manner as provided in section 205.

Sec. 204. That if a corporation or partnership was not in existence, or an individual was not engaged in the trade or business during the whole of any one calendar year during the pre-war period, the deduction shall be an amount equal to 8% of the invested capital for the taxable year plus in the case of a domestic corporation, \$3,000, and in the case of a domestic partnership or a citizen or resident of the United States \$6,000.

A trade or business carried on by a corporation, partnership or individual, although formally organized or reorganized on or after Jan. 2, 1913, which is substantially a continuation of a trade or business carried on prior to that date, shall for the purpose of this title be deemed to have been in existence prior to that date, and the net income and invested capital of its predecessor prior to that date shall be deemed to have been its net income and invested capital.

Sec. 205. (a) That if the Secretary of the Treasury upon complaint finds either (1) that during the pre-war period a domestic corporation or partnership or a citizen or resident of the United States, had no net income from the trade or business, or (2) that during the pre-war period the percentage which the net income was of the invested capital was low as compared with the percentage which the net income during such period of representative corporations, partnerships, and individuals, engaged in a like or similar trade or business, was of their invested capital, then the deduction shall be the sum of (1) an amount equal to the same percentage of its invested capital for the taxable year which the average deduction (determined in the same manner as provided in section 203 without including the \$3,000 or \$6,000 therein referred to) for such year of representative corporations, partnerships or individuals engaged in a like or similar trade or business, is of their average invested capital for such year, plus (2) in the case of a domestic corporation \$3,000 and in the case of a domestic partnership or a citizen or resident of the United States \$6,000.

The percentage which the net income was of the invested capital in each trade or business shall be determined by the Commissioner of Internal Revenue, in accordance with regulations prescribed by him, with the approval of the Secretary of the Treasury. In the case of a corporation or partnership which has fixed its own fiscal year the percentage determined for the calendar year ending during such fiscal year shall be used.

(b) The tax shall be assessed upon the basis of the deduction determined as provided in section 203, but the taxpayer claiming the benefit of this section may at the time of making the return file a claim for abatement of the amount by which the tax so assessed exceeds a tax

computed upon the basis of the deduction determined as provided in this section. In such event, collection of the part of the tax covered by such claim for abatement shall not be made until the claim is decided, but if, in the judgment of the Commissioner of Internal Revenue, the interests of the United States would be jeopardized thereby, he may require the claimant to give a bond in such amount and with such sureties as the commissioner may think wise, to safeguard such interests, conditioned for the payment of any tax found to be due, with the interest thereon, and if such bond, satisfactory to the commissioner, is not given within such time as he prescribes, the full amount of tax assessed shall be collected and the amount overpaid, if any, shall upon final decision of the application be refunded as a tax erroneously or illegally collected.

Sec. 206. That for the purposes of this title, the net income of a corporation shall be ascertained and returned (a) for the calendar years 1911 and 1912 upon the same basis and in the same manner as provided in section 38 of the Act entitled "An Act to provide revenue, equalize duties, and encourage the industries of the United States, and for other purposes," approved Aug. 5, 1909, except that income taxes paid by it within the year imposed by the authority of the United States shall be included; (b) for the calendar year 1913 upon the same basis and in the same manner as provided in section II of the act entitled "An act to reduce tariff duties and to provide revenue for the Government, and for other purposes," approved Oct. 3, 1913, except that income taxes paid by it within the year imposed by the authority of the United States shall be included, and except that the amounts received by it as dividends upon the stock or from the net earnings or other corporations, joint-stock companies or associations, or insurance companies, subject to the tax imposed by section II of such act of Oct. 3, 1913, shall be deducted and (c) for the taxable year upon the same basis and in the same manner as provided in title I of the act entitled "An Act to increase the revenue, and for other purposes," approved Sept. 8, 1916, as amended by this act, except that the amounts received by it as dividends upon the stock or from the net earnings of other corporations, joint stock companies or associations, or insurance companies, subject to the tax imposed by title I of such act of Sept. 8, 1916, shall be deducted.

The net income of a partnership or individual shall be ascertained and returned for the calendar years 1911, 1912, and 1913, and for the taxable year, upon the same basis and in the same manner as provided in title I of such Act of Sept. 8, 1916, as amended by this Act, except that the credit allowed by subdivision (b) of section 5 of such act shall be deducted. There shall be allowed (a) in the case of a domestic partnership the same deductions as allowed to individuals in subdivision (a) of section 5 of such Act of Sept. 8, 1916, as amended by this Act; and (b) in the case of a foreign partnership the same deductions as allowed to individuals in subdivision (a) of section 6 of such act as amended by this Act.

Section 207. That as used in this title the term "invested capital" for any year means the average invested capital for the year, as defined and limited in this title, averaged monthly. As used in this title, "invested capital" does not include stocks, bonds, (other than obligations of the United States) or other assets, the income from which is not subject to the tax imposed by this title, nor money or other property borrowed, and means, subject to the above limitations:

(a) In the case of a corporation or partnership: (1) Actual cash paid in, (2) the actual cash value of tangible property paid in other than cash, for stock or shares in such corporation or partnership at the time of such payment (but in case such tangible property was paid in prior to Jan. 1, 1914, the actual cash value of such property as of Jan. 1, 1914, but in no case to exceed the par value of the original stock or shares specifically issued therefor) and (3) paid in or earned surplus and undivided profits used or employed in the business exclusive of undivided profits earned during the taxable year; Provided, that (a) the actual cash value of patents and copyrights paid in for stock or shares in such corporation or partnership, at the time of such payment, shall be included as invested capital, but not to exceed the par value of such stock or shares at the time of such payment, and (b) the good-will, trade marks, trade brands, the franchise of a corporation or partnership or other intangible property, shall be included as invested capital if the corporation or partnership made payment bona fide therefor specifically as such in cash or tangible property, the value of such good-will, trade mark, trade brand, franchise or intangible property, not to exceed the actual cash or actual cash value of the tangible property paid therefor at the time of such payment; but good will, trade marks, trade brands, franchises of a corporation or partnership, or other intangible property, bona fide, purchased prior to March 3, 1917, for and with interests or shares in a partnership or for and with shares in the capital stock of a corporation (issued prior to March 3, 1917), in an amount not to exceed, on March 3, 1917, 20 per centum of the total interests or shares in the partnership or of the total shares of the capital stock of the corporation, shall be included in invested capital at a value not to exceed the actual cash value at the time of such purchase, and in case of issue of stock therefor not to exceed the par value of such stock;

(b) In the case of an individual, (1) actual cash paid into the trade or business, and (2) the actual cash value of tangible property paid into the trade or business, other than cash, at the time of such payment (but in case such tangible property was paid in prior to Jan. 1, 1914, the actual cash value of such property as of Jan. 1, 1914), and (3) the actual cash value of patents, copyrights, good will, trade marks, trade brands, franchises or other intangible property, paid into the trade or business, at the time of such payment, if payment was made therefor specifically as such in cash or tangible property, not to exceed the actual cash or actual cash value of the tangible property, bona fide, paid therefor at the time of such payment.

In the case of a foreign corporation or partnership or of a nonresident alien individual the term "invested capital" means that proportion of the entire invested capital as defined and limited in this title, which the net income from sources within the United States bears to the entire net income.

Sec. 208. That in case of the reorganization, consolidation, or change of ownership of a trade or business after March 3, 1917, if an interest or control in such trade or business of 50 per centum or more remains in control of the same persons, corporations, associations, partnerships, or any of them, then, in ascertaining the invested capital of the trade or business, no asset transferred or received from the prior trade or business shall be allowed a greater value than would have been allowed under this title in computing the invested capital of such prior trade or business if such asset had not been so transferred or received, unless such asset was paid for specifically as such, in cash or tangible property, and then not to exceed the actual cash or actual cash value of the tangible property paid therefor at the time of such payment.

Sec. 209. That in the case of a trade or business having no invested capital or not more than a nominal capital there shall be levied, assessed, collected and paid in addition to the taxes under existing law and under this Act, in lieu of the tax imposed by section 201, a tax equivalent to 8% of the net income of such trade or business, in excess of the following deductions: In the case of a domestic corporation \$3,000, and in the case of a domestic partnership, or a citizen or resident of the United States, \$6,000, in the case of all other trade or business, no deduction.

Sec. 210. That if the Secretary of the Treasury is unable in any case satisfactorily to determine the invested capital, the amount of the deduc-

tion shall be the sum of (1) an amount equal to the same proportion of the net income of the trade or business received during the taxable year as the proportion which the average deduction (determined in the same manner as provided in section 203 without including the \$3,000 or \$6,000 therein referred to) for the same calendar year of representative corporations, partnerships and individuals, engaged in a like or similar trade or business, bears to the total net income of the trade or business received by such corporations, partnerships and individuals, plus (2) in the case of a domestic corporation \$3,000 and in the case of a domestic partnership or a citizen or resident of the United States, \$6,000.

For the purpose of this section the proportion between the deduction and the net income in each trade or business shall be determined by the Commissioner of Internal Revenue in accordance with regulations prescribed by him, with the approval of the Secretary of the Treasury. In the case of a corporation or partnership which has fixed its own fiscal year, the proportion determined for the calendar year ending during such fiscal year shall be used.

Sec. 211. That every foreign partnership having a net income of \$3,000 or more for the taxable year and every domestic partnership having a net income of \$6,000 or more for the taxable year shall render a correct return of the income of the trade or business for the taxable year setting forth specifically the gross income for such year and the deductions allowed in this title. Such returns shall be rendered at the same time and in the same manner as is prescribed for income tax returns under title I. of such act of Sept. 8, 1916, as amended by this act.

Sec. 212. That all administrative, special and general provisions of law including the laws in relation to the assessment, remission, collection, and refund of internal revenue taxes not heretofore specifically repealed, and not inconsistent with the provisions of this title, are hereby extended and made applicable to all the provisions of this title and to the tax herein imposed, and all provisions of Title I of such Act of Sept. 8 1916, as amended by this Act, relating to returns and payment of the tax therein imposed, including penalties, are hereby made applicable to the tax imposed by this title.

Sec. 213. That the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury, shall make all necessary regulations for carrying out the provisions of this title, and may require any corporation, partnership, or individual, subject to the provisions of this title, to furnish him with such facts, data, and information as in his judgment are necessary to collect the tax imposed by this title.

Sec. 214. That Title II (sections 200 to 207 inclusive) of the Act, entitled "An Act to provide increased revenue to defray the expenses of the increased appropriations for the Army and Navy, and the extensions of fortifications, and for other purposes," approved March 3 1917, is hereby repealed.

Any amount heretofore or hereafter paid on account of the tax imposed by such Title II, shall be credited toward the payment of the tax imposed by this title, and if the amount so paid exceeds the amount of such tax the excess shall be refunded as a tax erroneously or illegally collected.

Subdivision (1) of Section 301 of such Act of Sept. 8 1916, is hereby amended so that the rate of tax for the taxable year 1917, shall be 10%, instead of 12 1/2%, as therein provided.

Subdivision (2) of such section is hereby amended to read as follows: "(2) This section shall cease to be of effect on and after Jan. 1 1918."

TITLE III.—WAR TAX ON BEVERAGES.

Sec. 300. That on and after the passage of this act there shall be levied and collected on all distilled spirits in bond at that time or that have been or that may be then or thereafter produced in or imported into the United States, except such distilled spirits as are subject to the tax provided in Section 303, in addition to the tax now imposed by law, a tax of \$1 10 (or, if withdrawn for beverage purposes, or for use in the manufacture or production of any article used or intended for use as a beverage, a tax of \$2 10) on each proof gallon, or wine gallon when below proof, and a proportionate tax at a like rate on all fractional parts of such proof or wine gallon, to be paid by the distiller or importer when withdrawn, and collected under the provisions of existing law.

That in addition to the tax under existing law there shall be levied and collected upon all perfumes hereafter imported into the United States containing distilled spirits, a tax of \$1 10 per wine gallon, and a proportionate tax at a like rate on all fractional parts of such wine gallon. Such tax shall be collected by the collector of customs and deposited as internal revenue collections, under such rules and regulations as the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury, may prescribe.

Sec. 301. That no distilled spirits produced after the passage of this Act shall be imported into the United States from any foreign country, or from the West Indian Islands recently acquired from Denmark (unless produced from products the growth of such islands, and not then into any State or Territory or district of the United States in which the manufacture or sale of intoxicating liquor is prohibited) or from Porto Rico, or the Philippine Islands. Under such rules, regulations, and bonds as the Secretary of the Treasury may prescribe, the provisions of this section shall not apply to distilled spirits imported for other than (1) beverage purposes or (2) use in the manufacture or production of any article used or intended for use as a beverage.

Sec. 302. That at registered distilleries producing alcohol, or other high-proof spirits, packages may be filled with such spirits reduced to not less than 100 proof from the receiving cisterns and tax paid without being entered into bonded warehouse. Such spirits may also be transferred from the receiving cisterns at such distilleries, by means of pipe lines, direct to storage tanks in the bonded warehouse and may be warehoused in such storage tanks. Such spirits may be also transferred in tanks or tank cars to general bonded warehouses for storage therein, either in storage tanks in such warehouses or in the tanks in which they were transferred. Such spirits may also be transferred after tax payment from receiving cisterns or warehouse storage tanks to tanks or tank cars, and may be transported in such tanks or tank cars to the premises of rectifiers of spirits. The Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury, is hereby empowered to prescribe all necessary regulations relating to the drawing off, transferring, gauging, storing and transporting of such spirits; the records to be kept and returns to be made; the size and kind of packages and tanks to be used; the marking, branding, numbering and stamping of such packages and tanks; the kinds of stamps, if any, to be used; and the time and manner of paying the tax; the kind of bond and the penal sum of same. The tax prescribed by law must be paid before such spirits are removed from the distillery premises, or from general bonded warehouse in the case of spirits transferred thereto, except as otherwise provided by law.

Under such regulations as the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury, may prescribe, distilled spirits may hereafter be drawn from receiving cisterns and deposited in distillery warehouses without having affixed to the packages containing the same distillery warehouse stamps, and such packages, when so deposited in warehouse, may be withdrawn therefrom on the original gauge where the same have remained in such warehouse for a period not exceeding thirty days from the date of deposit.

Under such regulations as the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury, may prescribe, the manufacture, warehousing, withdrawal and shipment, under the provisions of the existing law, of ethyl alcohol for other than (1) beverage purposes or (2) use in the manufacture or production of any articles used or intended for use as a beverage, and denatured alcohol, may be exempted from the provisions of section 3283 Revised Statutes of the United States.

Under such regulations as the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury, may prescribe, manufacturers of ethyl alcohol for other than beverage purposes may be granted permission under the provisions of section 3285, Revised Statutes of the United States, to fill fermenting tubs in a sweet-mash distillery not oftener than once in 48 hours.

Sec. 303. That upon all distilled spirits produced in or imported into the United States upon which the tax now imposed by law has been paid, and which, on the day this act is passed, are held by a retailer in a quantity in excess of 50 gallons in the aggregate, or by any other person, corporation, partnership, or association in any quantity, and which are intended for sale, there shall be levied, assessed, collected, and paid a tax of \$1 10 (or, if intended for sale for beverage purposes or for use in the manufacture or production of any article used or intended for use as a beverage, a tax of \$2 10) on each proof gallon, and a proportionate tax at a like rate on all fractional parts of such proof gallon: Provided that the tax on such distilled spirits in the custody of a court of bankruptcy in insolvency proceedings on June 1 1917 shall be paid by the person to whom the court delivers such distilled spirits at the time of such delivery, to the extent that the amount thus delivered exceeds the 50 gallons hereinbefore provided.

Sec. 304. That in addition to the tax now imposed or imposed by this Act on distilled spirits there shall be levied, assessed, collected, and paid a tax of 15 cents on each proof gallon and a proportionate tax at a like rate on all fractional parts of such proof gallon on all distilled spirits or wines hereafter rectified, purified, or refined in such manner, and on all mixtures hereafter produced in such manner, that the person so rectifying, purifying, refining, or mixing the same is a rectifier within the meaning of section 3244, Revised Statutes as amended and on all such articles in the possession of the rectifier on the day this Act is passed: Provided, That this tax shall not apply to gin produced by the redistillation of a pure spirit over juniper berries and other aromatics.

When the process of rectification is completed and the tax prescribed by this section has been paid, it shall be unlawful for the rectifier or other dealer to reduce in proof or increase in volume such spirits or wine by the addition of water or other substance; nothing herein contained shall, however, prevent a rectifier from using again in the process of rectification spirits already rectified and upon which the tax has theretofore been paid.

The tax imposed by this section shall not attach to cordials or liquors on which a tax is imposed and paid under the Act entitled "An Act to increase the revenue and for other purposes," approved Sept. 8, 1916, nor to the mixing and blending of wines, where such blending is for the sole purpose of perfecting such wines according to commercial standards, nor to blends made exclusively of two or more pure straight whiskies aged in wood for a period not less than four years and without the addition of coloring or flavoring matter or any other substance than pure water, and if not reduced below 90 proof: Provided, That such blended whiskies shall be exempt from tax under this section only when compounded under the immediate supervision of a revenue officer, in such tanks and under such conditions and supervision as the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury, may prescribe.

All distilled spirits taxable under this section shall be subject to uniform regulations concerning the use thereof in the manufacture, blending, compounding, mixing, marking, branding and sale of whiskey and rectified spirits, and no discrimination whatsoever shall be made by reason of a difference in the character of the material from which same may have been produced.

The business of a rectifier of spirits shall be carried on, and the tax on rectified spirits shall be paid, under such rules, regulations and bonds as may be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury.

Any person violating any of the provisions of this section shall be deemed to be guilty of a misdemeanor and, upon conviction, shall be fined not more than \$1,000 or imprisoned not more than two years. He shall, in addition, be liable to double the tax evaded, together with the tax, to be collected by assessment or on any bond given.

Sec. 305. That hereafter collectors of internal revenue shall not furnish wholesale liquor dealers' stamps in lieu of and in exchange for stamps for rectified spirits unless the package covered by stamp for rectified spirits is to be broken into smaller packages.

The Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury, is authorized to discontinue the use of the following stamps whenever in his judgment the interests of the Government will be subserved thereby:

Distillery warehouse, special bonded warehouse, special bonded rewarehouse, general bonded warehouse, general bonded retransfer, transfer brandy, export tobacco, export cigars, export oleomargarine and export fermented liquor stamps.

Sec. 306. That the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury, is hereby authorized to require at distilleries, breweries, rectifying houses, and wherever else in his judgment such action may be deemed advisable, the installation of meters, tanks, pipes, or any other apparatus for the purpose of protecting the revenue, and such meters, tanks, and pipes and all necessary labor incident thereto shall be at the expense of the person, corporation, partnership, or association on whose premises the installation is required. Any such person, corporation, partnership, or association refusing or neglecting to install such apparatus when so required by the Commissioner shall not be permitted to conduct business on such premises.

Sec. 307. That on and after the passage of this Act there shall be levied and collected on all beer, lager beer, ale, porter, and other similar fermented liquor, containing $\frac{1}{2}\%$ or more of alcohol, brewed or manufactured and sold, or stored in warehouse, or removed for consumption or sale within the United States, by whatever name such liquors may be called, in addition to the tax now imposed by law, a tax of \$1 50 for every barrel containing not more than thirty-one gallons, and at a like rate for any other quantity or for the fractional parts of a barrel authorized and defined by law.

Sec. 308. That from and after the passage of this Act taxable fermented liquors may be conveyed without payment of tax from the brewery premises where produced to a contiguous industrial distillery of either class established under the Act of Oct. 3 1913, to be used as distilling material, and the residue from such distillation, containing less than $\frac{1}{2}$ of 1% of alcohol by volume, which is to be used in making beverages, may be manipulated by cooling, flavoring, carbonating, settling and filtering on the distillery premises or elsewhere.

The removal of the taxable fermented liquor from the brewery to the distillery and the operation of the distillery and removal of the residue therefrom shall be under the supervision of such officer or officers as the

Commissioner of Internal Revenue shall deem proper, and the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury, is hereby authorized to make such regulations from time to time as may be necessary to give force and effect to this section and to safeguard the revenue.

Sec. 309. That upon all still wines, including vermouth, and upon all champagne and other sparkling wines, liqueurs, cordials, artificial or imitation wines or compounds sold as wine, produced in or imported into the United States, and hereafter removed from the custom house, place of manufacture, or from bonded premises for sale or consumption, there shall be levied and collected, in addition to the tax now imposed by law upon such articles, a tax equal to such tax, to be levied, collected, and paid under the provisions of existing law.

Sec. 310. That upon all articles specified in section 309 upon which the tax now imposed by law has been paid and which are on the day this Act is passed, held in excess of 25 gallons in the aggregate of such articles and intended for sale, there shall be levied, collected, and paid a tax equal to the tax imposed by such section.

Sec. 311. That upon all grape brandy or wine spirits withdrawn by a producer of wines from any fruit distillery or special bonded warehouse under subdivision (c) of section 402 of the Act entitled "An Act to increase the revenue, and for other purposes," approved Sept. 8, 1916, there shall be levied, assessed, collected, and paid, in addition to the tax therein imposed a tax equal to double such tax to be assessed, collected and paid under the provisions of existing law.

Sec. 312. That upon all sweet wines held for sale by the producer thereof upon the day this act is passed, there shall be levied, assessed, collected, and paid an additional tax equivalent to 10 cents per proof gallon upon the grape brandy or wine spirits used in the fortification of such wine, and an additional tax of 20 cents per proof gallon shall be levied, assessed, collected, and paid upon all grape brandy or wine spirits withdrawn by a producer of sweet wines for the purpose of fortifying such wines and not so used prior to the passage of this act.

Sec. 313. That there shall be levied, assessed, collected, and paid—

(a) Upon all prepared syrups or extracts (intended for use in the manufacture or production of beverages, commonly known as soft drinks, by soda fountains, bottling establishments, and other similar places) sold by the manufacturer, producer, or importer thereof, if so sold for not more than \$1.30 per gallon, a tax of 5 cents per gallon; if so sold for more than \$1.30 and not more than \$2 per gallon, a tax of 8 cents per gallon; if so sold for more than \$2 and not more than \$3 per gallon, a tax of 10 cents per gallon; if so sold for more than \$3 and not more than \$4 per gallon, a tax of 15 cents per gallon, and if so sold for more than \$4 per gallon a tax of 20 cents per gallon; and

(b) Upon all unfermented grape juice, soft drinks or artificial mineral waters (not carbonated), and fermented liquors containing less than one-half per centum of alcohol, sold by the manufacturer, producer, or importer thereof, in bottles or other closed containers, and upon all ginger ale, root beer, sarsaparilla, pop, and other carbonated waters or beverages, manufactured and sold by the manufacturer, producer, or importer of the carbonic acid gas used in carbonating the same, a tax of 1 cent per gallon; and

(c) Upon all natural mineral waters or table waters sold by the producer, bottler, or importer thereof in bottles or other closed containers at over 10 cents per gallon, a tax of 1 cent per gallon.

Sec. 314. That each such manufacturer, producer, bottler, or importer shall make monthly returns under oath to the Collector of Internal Revenue for the district in which is located the principal place of business, containing such information necessary for the assessment of the tax, and at such times and in such manner as the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury, may by regulation prescribe.

Sec. 315. That upon all carbonic acid gas in drums or other containers (intended for use in the manufacture or production of carbonated water or other drinks) sold by the manufacturer, producer, or importer thereof, there shall be levied, assessed, collected, and paid a tax of 5 cents per pound. Such tax shall be paid by the purchaser to the vendor thereof and shall be collected, returned, and paid to the United States by such vendor in the same manner as provided in Section 503.

TITLE IV.—WAR TAX ON CIGARS, TOBACCO AND MANUFACTURES THEREOF.

Sec. 400. That upon cigars and cigarettes, which shall be manufactured and sold, or removed for consumption or sale, there shall be levied and collected, in addition to the taxes now imposed by existing law, the following taxes, to be paid by the manufacturer or importer thereof: (a) on cigars of all descriptions made of tobacco, or any substitute therefor, and weighing not more than three pounds per thousand, 25 cents per thousand; (b) on cigars made of tobacco, or any substitute therefor, and weighing more than three pounds per thousand, if manufactured or imported to retail at 4 cents or more each, and not more than 7 cents each, \$1 per thousand; (c) if manufactured or imported to retail at more than 7 cents each and not more than 15 cents each, \$3 per thousand; (d) if manufactured or imported to retail at more than 15 cents each and not more than 20 cents each, \$5 per thousand; (e) if manufactured or imported to retail at more than 20 cents each, \$7 per thousand: Provided, That the word "retail" as used in this section shall mean the ordinary retail price of a single cigar, and that the Commissioner of Internal Revenue may, by regulation, require the manufacturer or importer to affix to each box or container a conspicuous label indicating by letter the clause of this section under which the cigars therein contained have been tax-paid, which must correspond with the tax-paid stamp on said box or container; (f) on cigarettes made of tobacco, or any substitute therefor, made in or imported into the United States, and weighing not more than three pounds per thousand, 80 cents per thousand; weighing more than three pounds per thousand, \$1 20 per thousand.

Every manufacturer of cigarettes (including small cigars weighing not more than three pounds per thousand) shall put up all the cigarettes and such small cigars that he manufactures or has manufactured for him, and sells or removes for consumption or use, in packages or parcels containing five, eight, ten, twelve, fifteen, sixteen, twenty, twenty-four, forty, fifty, eighty, or one hundred cigarettes each, and shall securely affix to each of said packages or parcels a suitable stamp denoting the tax thereon and shall properly cancel the same prior to such sale or removal for consumption or use under such regulations as the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury, shall prescribe; and all cigarettes imported from a foreign country shall be packed, stamped, and the stamps canceled in a like manner, in addition to the import stamp indicating inspection of the Custom House before they are withdrawn therefrom.

Sec. 401. That upon all tobacco and snuff hereafter manufactured and sold, or removed for consumption or use, there shall be levied and collected, in addition to the tax now imposed by law upon such articles, a tax of 5 cents per pound, to be levied, collected, and paid under the provisions of existing law.

In addition to the packages provided for under existing law, manufactured tobacco and snuff may be put up and prepared by the manufacturer

for sale or consumption, in packages of the following description: Packages containing one-eighth, three-eighths, five-eighths, seven-eighths, one and one-eighth, one and three-eighths, one and five-eighths, one and seven-eighths, and five ounces.

Sec. 402. That sections 400, 401 and 404 shall take effect thirty days after the passage of this Act: provided, that after the passage of this Act and before the expiration of the aforesaid thirty days, cigarettes and manufactured tobacco and snuff may be put up in the packages now provided for by law or in the packages provided for in sections 400 and 401.

Sec. 403. That there shall also be levied and collected upon all manufactured tobacco and snuff in excess of one hundred pounds, or upon cigars or cigarettes in excess of one thousand which were manufactured or imported, and removed from factory of Custom House prior to the passage of this Act, bearing tax-paid stamps affixed to such articles for the payment of the taxes thereon, and which are, on the day after this Act is passed, held and intended for sale by any person, corporation, partnership, or association and upon all manufactured tobacco, snuff, cigars or cigarettes removed from factory or Customs House after the passage of this Act, but prior to the time when the tax imposed by section 400 or section 401 upon such articles takes effect, an additional tax equal to one-half the tax imposed by such sections upon such articles.

Sec. 404. That there shall be levied, assessed and collected upon cigarette paper made up into packages, books, sets, or tubes, made up in or imported into the United States and intended for use by the smoker in making cigarettes the following taxes: On each package, book or set, containing more than 25 but not more than 50 papers, one-half of one cent; containing more than 50 but not more than 100 papers, 1 cent; containing more than 100 papers 1 cent for each one hundred papers or fractional part thereof; and upon tubes, 2 cents for each 100 tubes or fractional part thereof.

TITLE V.—WAR TAX ON FACILITIES FURNISHED BY PUBLIC UTILITIES AND INSURANCE.

Sec. 500. That from and after the 1st day of Nov. 1917, there shall be levied, assessed, collected, and paid (a) a tax equivalent to 3 per centum of the amount paid for the transportation by rail or water or by any form of mechanical motor power when in competition with carriers by rail or water of property by freight consigned from one point in the United States to another; (b) a tax of 1 cent for each 20 cents, or fraction thereof, paid to any person, corporation, partnership, or association, engaged in the business of transporting parcels or packages by express over regular routes between fixed terminals, for the transportation of any package, parcel, or shipment by express from one point in the United States to another: Provided, That nothing herein contained shall be construed to require the carrier collecting such tax to list separately in any bill of lading, freight receipt, or other similar document, the amount of the tax herein levied, if the total amount of the freight and tax be therein stated; (c) a tax equivalent to 8 per centum of the amount paid for the transportation of persons by rail or water, or by any form of mechanical motor power on a regular established line when in competition with carriers by rail or water, from one point in the United States to another or to any point in Canada or Mexico, where the ticket therefor is sold or issued in the United States, not including the amount paid for commutation or season tickets for trips less than thirty miles, or for transportation the fare for which does not exceed 35 cents, and a tax equivalent to 10 per centum of the amount paid for seats, berths, and staterooms in parlor cars, sleeping cars, or on vessels. If a mileage book used for such transportation or accommodation has been purchased before this section takes effect, or if cash fare be paid, the tax imposed by this section shall be collected from the person presenting the mileage book, or paying the cash fare, by the conductor or other agent, when presented for such transportation or accommodation, and the amount so collected shall be paid to the United States in such manner and at such times as the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury, may prescribe; if a ticket (other than a mileage book) is bought and partially used before this section goes into effect it shall not be taxed, but if bought but not so used before this section takes effect, it shall not be valid for passage until the tax has been paid and such payment evidenced on the ticket in such manner as the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury, may by regulation prescribe; (d) a tax equivalent to 5 per centum of the amount paid for the transportation of oil by pipe line; (e) a tax of 5 cents upon each telegraph, telephone, or radio, dispatch, message, or conversation, which originates within the United States, and for the transmission of which a charge of 15 cents or more is imposed: Provided, That only one payment of such tax shall be required, notwithstanding the lines or stations of one or more persons, corporations, partnerships, or associations shall be used for the transmission of such dispatch, message, or conversation.

Sec. 501. That the taxes imposed by section 500 shall be paid by the person, corporation, partnership, or association paying for the services or facilities rendered.

In case such carrier does not, because of its ownership of the commodity transported, or for any other reason, receive the amount which as a carrier it would otherwise charge, such carrier shall pay a tax equivalent to the tax which would be imposed upon the transportation of such commodity if the carrier received payment for such transportation: Provided, That in case of a carrier which on May 1 1917, had no rates or tariffs on file with the proper Federal or State authority, the tax shall be computed on the basis of the rates or tariffs of other carriers for like services as ascertained and determined by the Commissioner of Internal Revenue: Provided further, That nothing in this or the preceding section shall be construed as imposing a tax (a) upon the transportation of any commodity which is necessary for the use of the carrier in the conduct of its business as such and is intended to be so used or has been so used; or (b) upon the transportation of company material transported by one carrier, which constitutes a part of a railroad system, for another carrier which is also a part of the same system.

Sec. 502. That no tax shall be imposed under section 500 upon any payment received for services rendered to the United States, or any State, Territory, or the District of Columbia. The right to exemption under this section shall be evidence in such manner as the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury, may by regulation prescribe.

Sec. 503. That each person, corporation, partnership, or association receiving any payments referred to in section 500 shall collect the amount of the tax, if any, imposed by such section from the person, corporation, partnership, or association making such payments, and shall make monthly returns under oath, in duplicate, and pay the taxes so collected and the taxes imposed upon it under paragraph 2 of section 501 to the collector of internal revenue of the district in which the principal office or place of business is located. Such returns shall contain such information, and be made in such manner, as the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury, may by regulation prescribe.

Sec. 504. That from and after the first day of November 1917, there shall be levied, assessed, collected and paid the following taxes on the issuance of insurance policies:

(a) Life insurance: A tax equivalent to 8 cents on each \$100 or fractional part thereof, of the amount for which any life is insured under any policy of insurance or other instrument by whatever name the same is called: Provided, that on all policies for life insurance only by which a life is insured not in excess of \$500, issued on the industrial or weekly payment plan of insurance, the tax shall be 40% of the amount of the first weekly premium: Provided further, that policies of reinsurance shall be exempt from the tax imposed by this subdivision;

(b) Marine, inland, and fire insurance: A tax equivalent to 1 cent on each dollar or fractional part thereof of the premium charged under each policy of insurance or other instrument by whatever name the same is called whereby insurance is made or renewed upon property of any description (including rents or profits), whether against peril by sea or inland waters, or by fire or lightning, or other peril: Provided, that policies of reinsurance shall be exempt from the tax imposed by this subdivision.

(c) Casualty insurance: A tax equivalent to 1 cent on each dollar or fractional part thereof of the premium charged under each policy of insurance or obligation of the nature of indemnity for loss, damage, or liability (except bonds taxable under subdivision two of schedule A of Title VIII) issued or executed or renewed by any person, corporation, partnership, or association transacting the business of employers' liability, workmen's compensation, accident, health, tornado, plate glass, steam boiler, elevator, burglary, automatic sprinkler, automobile, or other branch of insurance, (except life insurance, and insurance described and taxed in the preceding subdivision): Provided that policies of reinsurance shall be exempt from the tax imposed by this subdivision;

(d) Policies issued by any person, corporation, partnership or association whose income is exempt from taxation under Title I of the Act entitled "An Act to increase the revenue and for other purposes," approved Sept. 8 1916, shall be exempt from the taxes imposed by this section.

Sec. 505. That every person, corporation, partnership, or association, issuing policies of insurance upon the issuance of which a tax is imposed by section 504, shall, within the first fifteen days of each month, make a return under oath, in duplicate, and pay such tax to the Collection of Internal Revenue of the district in which the principal office or place of business of such person, corporation, partnership, or association is located. Such returns shall contain such information and be made in such manner as the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury, may by regulation prescribe.

TITLE VI.—WAR EXCISE TAXES.

Sec. 600. That there shall be levied, assessed, collected, and paid—

(a) Upon all automobiles, automobile trucks, automobile wagons, and motor-cycles sold by the manufacturer, producer, or importer, a tax equivalent to 3% of the price for which so sold; and

(b) Upon all piano-players, graphophones, phonographs, talking machines and records used in connection with any musical instrument, piano-player, graphophone, phonograph, or talking machine, sold by the manufacturer, producer, or importer, a tax equivalent to 3% of the price for which so sold; and

(c) Upon all moving picture films (which have not been exposed) sold by the manufacturer or importer a tax equivalent to $\frac{1}{4}$ of 1 cent per linear foot; and

(d) Upon all positive moving picture films (containing a picture ready for projection) sold or leased by the manufacturer, producer, or importer, a tax equivalent to $\frac{1}{2}$ cent per linear foot; and

(e) Upon any article commonly or commercially known as jewelry, whether real or imitation, sold by the manufacturer, producer, or importer thereof, a tax equivalent to 3% of the price for which so sold; and

(f) Upon all tennis rackets, golf clubs, baseball bats, lacrosse sticks, balls of all kinds, including baseballs, foot balls, tennis, golf, lacrosse, billiard and pool balls, fishing rods and reels, billiard and pool tables, chess and checker boards and pieces, dice, games and parts of games, except playing cards and children's toys and games, sold by the manufacturer, producer or importer, a tax equivalent to 3 per centum of the price for which so sold; and

(g) Upon all perfumes, essences, extracts, toilet waters, cosmetics, petroleum jellies, hair oils, pomades, hair dressings, hair restoratives, hair dyes, tooth and mouth washes, dentifrices, tooth pastes, aromatic cachous, toilet soaps and powders, or any similar substance, article, or preparation by whatsoever name known or distinguished, upon all of the above which are used or applied or intended to be used or applied for toilet purposes, and which are sold by the manufacturer, importer, or producer, a tax equivalent to 2 per centum of the price for which so sold; and

(h) Upon all pills, tablets, powders, tinctures, troches, or lozenges, syrups, medicinal cordials or bitters, anodynes, tonics, plasters, liniments, salves, ointments, pastes, drops, waters (except those taxed under section 313 of this Act), essences, spirits, oils, and all medicinal preparations, compounds, or compositions whatsoever, the manufacturer or producer of which claims to have any private formula, secret or occult art for making or preparing the same, or has or claims to have any exclusive right or title to the making or preparing the same, or which are prepared, uttered, vended, or exposed for sale under any letters patent, or trademark, or which, if prepared by any formula, published or unpublished, are held out or recommended to the public by the makers, venders, or proprietors thereof as proprietary medicines, or medicinal proprietary articles or preparations, or as remedies or specifics for any disease, diseases or affections whatever affecting the human or animal body, and which are sold by the manufacturer, producer, or importer, a tax equivalent to 2 per centum of the price for which so sold; and

(i) Upon all chewing gum or substitute therefor sold by the manufacturer, producer, or importer, a tax equivalent to 2% of the price for which so sold; and

(j) Upon all cameras sold by the manufacturer, producer, or importer, a tax equivalent to 3 per centum of the price for which so sold.

Sec. 601. That each manufacturer, producer, or importer of any of the articles enumerated in section 600 shall make monthly returns under oath in duplicate and pay the taxes imposed on such articles by this title to the collector of internal revenue for the district in which is located the principal place of business. Such returns shall contain such information and be made at such times and in such manner as the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury, may by regulations prescribe.

Sec. 602. That upon all articles enumerated in subdivisions (a), (b), (c), (f), (g), (h), (i) or (j) of section 600, which on the day this Act was passed are held and intended for sale by any person, corporation, partnership or association other than (1) a retailer who is not also a wholesaler or (2) the manufacturer, producer, or importer thereof, there shall be levied, assessed, collected and paid a tax equivalent to one-half the tax imposed by each such subdivision upon the sale of the articles therein enumerated. This tax shall be paid by the person, corporation, partnership or association so holding such articles.

The taxes imposed by this section shall be assessed, collected, and paid in the same manner as provided in section 1002 in the case of additional taxes upon articles upon which the tax imposed by existing law has been paid.

Nothing in this section shall be construed to impose a tax upon articles sold and delivered prior to May 9 1917 where the title is reserved in the vendor as security for the payment of the purchase money.

Sec. 603. That on the day this Act takes effect, and thereafter on July 1 in each year, and also at the time of the original purchase of a new boat by a user, if on any other date than July 1st, there shall be levied, assessed, collected, and paid, upon the use of yachts, pleasure boats, power boats, and sailing boats, of over five net tons, and motor boats with fixed engines, not used exclusively for trade or national defense, or not built according to plans and specifications approved by the Navy Department, an excise tax to be based on each yacht or boat, at rates as follows: Yachts, pleasure boats, power boats, motor boats with fixed engines, and sailing boats, of over five net tons, length not over fifty feet, 50 cents for each foot, length over fifty feet and not over one hundred feet, \$1 for each foot, length over one hundred feet, \$2 for each foot; motor boats of not over five net tons with fixed engines, \$5.

In determining the length of such yachts, pleasure boats, power boats, motor boats with fixed engines, and sailing boats, the measurement of over-all length shall govern.

In the case of a tax imposed at the time of the original purchase of a new boat on any other date than July 1st, the amount to be paid shall be the same number of twelfths of the amount of the tax as the number of calendar months, including the month of sale, remaining prior to the following July 1st.

TITLE VII.—WAR TAX ON ADMISSIONS AND DUES.

Sec. 700. That from and after the first day of November, 1917, there shall be levied, assessed, collected, and paid (a) a tax of 1 cent for each 10 cents or fraction thereof of the amount paid for admission to any place, including admission by season ticket or subscription, to be paid by the person paying for such admission: Provided, That the tax on admission of children under twelve years of age where an admission charge for such children is made, shall in every case be 1 cent; and (b) in the case of persons (except bona fide employees, municipal officers on official business, and children under twelve years of age) admitted free to any place at a time when and under circumstances under which an admission charge is made to other persons of the same class, a tax of 1 cent for each 10 cents or fraction thereof of the price so charged to such other persons for the same or similar accommodations to be paid by the persons so admitted; and (c) a tax of 1 cent for each 10 cents or fraction thereof paid for admission to any public performance for profit at any cabaret or other similar entertainment to which the charge for admission is wholly or in part included in the price paid for refreshment, service, or merchandise; the amount paid for such admission to be computed under rules prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury, such tax to be paid by the person paying for such refreshment, service, or merchandise. In the case of persons having the permanent use of boxes or seats in an opera house or any place of amusement or a lease for the use of such box or seat in such opera house, or place of amusement there shall be levied, assessed, collected, and paid a tax equivalent to 10 per centum of the amount for which a similar box or seat is sold for performance or exhibition at which the box or seat is used or reserved by or for the lessee or holder. These taxes shall not be imposed in the case of a place the maximum charge for admission to which is 5 cents, or in the case of shows, rides, and other amusements (the maximum charge for admission to which is 10 cents) within outdoor general amusement parks, or in the case of admissions to such parks.

No tax shall be levied under this title in respect to any admissions all the proceeds of which inure exclusively to the benefit of religious, educational, or charitable institutions, societies, or organizations, or admissions to agricultural fairs, none of the profits of which are distributed to stockholders or members of the association conducting the same.

The term "admission" as used in this title includes seats and tables, reserved or otherwise, and other similar accommodations, and the charges made therefor.

Sec. 701. That from and after the first day of November, 1917, there shall be levied, assessed, collected and paid, a tax equivalent to 10 per centum of any amount paid as dues or membership fees (including initiation fees) to any social, athletic or sporting club or organization where such dues or fees are in excess of \$12 a year, such taxes to be paid by the person paying such dues or fees. Provided, That there shall be exempted from the provisions of this section all amounts paid as dues or fees to a fraternal beneficiary society, order, or association, operating under the lodge system or for the exclusive benefit of the members of a fraternity itself operating under the lodge system, and providing for the payment of life, sick, accident, or other benefits to the members of such society, order or association or their dependents.

Sec. 702. That every person, corporation, partnership, or association: (a) receiving any payments for such admission, dues or fees, shall collect the amount of the tax imposed by section 700 or 701 from the person making such payments; or (b) admitting any person free to any place for admission to which a charge is made shall collect the amount of the tax imposed by section 700 from the person so admitted; and (c) in either case shall make returns and payments of the amounts so collected, at the same time and in the same manner as provided in section 503 of this Act.

TITLE VIII.—WAR STAMP TAXES.

Sec. 800. That on and after the first day of December, 1917, there shall be levied, collected, and paid, for and in respect of the several bonds, debentures, or certificates of stock and of indebtedness, and other documents, instruments, matters and things mentioned and described in Schedule A of this title, or for or in respect of the vellum, parchment, or paper upon which such instruments, matters, or things, or any of them, are written or printed, by any person, corporation, partnership, or association who makes, signs, issues, sells, removes, consigns, or ships the same, or for whose use or benefit the same are made, signed, issued, sold, removed, consigned, or shipped, the several taxes specified in such schedule.

Sec. 801. That there shall not be taxed under this title any bond, note or other instrument, issued by the United States, or by any foreign Government, or by any State, Territory, or the District of Columbia, or local subdivision thereof, or municipal or other corporation exercising the taxing power, when issued in the exercise of a strictly governmental, taxing, or municipal function; or stocks and bonds issued by co-operative building and loan associations which are organized and operated exclusively for the benefit of their members and make loans only to their shareholders, or by mutual ditch or irrigating companies.

Sec. 802. That whoever—

(a) Makes, signs, issues, or accepts, or causes to be made, signed, issued or accepted, any instrument, document, or paper of any kind or description whatsoever without the full amount of tax thereon being duly paid;

(b) Consigns or ships, or causes to be consigned or shipped, by parcel post any parcel, package, or article without the full amount of tax being duly paid;

(c) Manufactures or imports and sells, or offers for sale, or causes to be manufactured or imported and sold, or offered for sale, any playing cards, package, or other article without the full amount of tax being duly paid;

(d) Makes use of an adhesive stamp to denote any tax imposed by this title without canceling or obliterating such stamp as prescribed in Section 804; Is guilty of a misdemeanor and upon conviction thereof shall pay a fine of not more than \$100 for each offense.

Sec. 803. That whoever—

(a) Fraudulently cuts, tears, or removes from any vellum, parchment, paper, instrument, writing, package or article, upon which any tax is imposed by this title, any adhesive stamp or the impression of any stamp, die, plate, or other article provided, made, or used in pursuance of this title;

(b) Fraudulently uses, joins, fixes, or places to, with, or upon any vellum, parchment, paper, instrument, writing, package, or article, upon which any tax is imposed by this title, (1) any adhesive stamp, or the impression of any stamp, die, plate, or other article, which has been cut, torn, or removed from any other vellum, parchment, paper, instrument, writing, package, or article, upon which any tax is imposed by this title; or (2) any adhesive stamp or the impression of any stamp, die, plate, or other article of insufficient value; or (3) any forged or counterfeit stamp, or the impression of any forged or counterfeited stamp, die, plate, or other article;

(c) Willfully removes, or alters the cancellation, or defacing marks of, or otherwise prepares, any adhesive stamp, with intent to use, or cause the same to be used, after it has been already used, or knowingly or willfully buys, sells, offers for sale, or gives away, any such washed or restored stamp to any person for use, or knowingly uses the same;

(d) Knowingly and without lawful excuse (the burden of proof of such excuse being on the accused) has in possession any washed, restored, or altered stamp, which has been removed from any vellum, parchment, paper, instrument, writing, package or article,

Is guilty of a misdemeanor, and upon conviction shall be punished by a fine of not more than \$1,000 or by imprisonment for not more than five years, or both, in the discretion of the court, and any such re-used, canceled or counterfeited stamp and the vellum, parchment, document, paper, package, or article upon which it is placed or impressed shall be forfeited to the United States.

Sec. 804. That whenever an adhesive stamp is used for denoting any tax imposed by this title, except as hereinafter provided, the person, corporation, partnership, or association, using or affixing the same shall write or stamp or cause to be written or stamped thereupon the initials of his or its name and the date upon which the same is attached or used, so that the same may not again be used: Provided, That the Commissioner of Internal Revenue may prescribe such other method for the cancellation of such stamps as he may deem expedient.

Sec. 805. (a) That the Commissioner of Internal Revenue shall cause to be prepared and distributed for the payment of the taxes prescribed in this title suitable stamps, denoting the tax on the document, articles, or things to which the same may be affixed, and shall prescribe such method for the affixing of said stamps in substitution for or in addition to the method provided in this title, as he may deem expedient.

(b) The Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury, is authorized to procure any of the stamps provided for in this title by contract whenever such stamps cannot be speedily prepared by the Bureau of Engraving and Printing; but this authority shall expire on the first day of January 1918, except as to imprinted stamps furnished under contract, authorized by the Commissioner of Internal Revenue.

(c) All internal revenue laws relating to the assessment and collection of taxes are hereby extended to and made a part of this title, so far as applicable, for the purpose of collecting stamp taxes omitted through mistake or fraud from any instrument, document, paper, writing, parcel, package, or article named herein.

Sec. 806. That the Commissioner of Internal Revenue shall furnish to the Postmaster General without prepayment a suitable quantity of adhesive stamps to be distributed to and kept on sale by the various postmasters in the United States. The Postmaster General may require each such postmaster to give additional or increased bond as postmaster for the value of the stamps so furnished, and each such postmaster shall deposit the receipts from the sale of such stamps to the credit of and render accounts to the Postmaster General at such times and in such form as he may by regulations prescribe. The Postmaster General shall at least once monthly transfer all collections from this source to the Treasury as internal-revenue collections.

Sec. 807. That the collectors of the several districts shall furnish without prepayment to any assistant treasurer or designated depository of the United States located in their respective collection districts a suitable quantity of adhesive stamps for sale. In such cases the collector may require a bond, with sufficient sureties, to an amount equal to the value of the adhesive stamps so furnished, conditioned for the faithful return, whenever so required, of all quantities or amounts undisposed of and for the payment monthly of all quantities or amounts sold or not remaining on hand. The Secretary of the Treasury may from time to time make such regulations as he may find necessary to insure the safekeeping or prevent the illegal use of all such adhesive stamps.

Schedule A.—Stamp Taxes.

1. Bonds of indebtedness: Bonds, debentures, or certificates of indebtedness issued on and after the 1st day of December 1917, by any person, corporation, partnership, or association, on each \$100 of face value or fraction thereof, 5 cents: Provided, That every renewal of the foregoing shall be taxed as a new issue: Provided further, That when a bond conditioned for the repayment or payment of money is given in a penal sum greater than the debt secured the tax shall be based upon the amount secured.

2. Bonds, indemnity, and surety: Bonds for indemnifying any person, corporation, partnership or corporation who shall have become bound or engaged as surety, and all bonds for the due execution or performance of any contract, obligation, or requirement, or the duties of any office or position, and to account for money received by virtue thereof and all other bonds of any description, except such as may be required in legal proceedings, not otherwise provided for in this schedule, 50 cents; Provided, that where a premium is charged for the execution of such bond, the tax shall be paid at the rate of 1 per centum on each dollar or fractional part thereof of the premium charged: Provided further, that policies of reinsurance shall be exempt from the tax imposed by this subdivision.

3. Capital stock, issue: On each original issue, whether on organization or reorganization, of certificates of stock by any association, company, or corporation, on each \$100 of face value or fraction thereof, 5 cents: Provided, That where capital stock is issued without face value, the tax shall be 5 cents per share, unless the actual value is in excess of \$100 per share, in which case the tax shall be 5 cents on each \$100 of actual value or fraction thereof.

The stamps representing the tax imposed by this subdivision shall be attached to the stock books and not to the certificates issued.

4. Capital stock, sales or transfers: On all sales, or agreements to sell, or memoranda of sales or deliveries of, or transfers of legal title to shares or certificates of stock in any association, company, or corporation, whether made upon or shown by the books of the association, company, or corpora-

tion, or by any assignment in blank, or by any delivery, or by any paper or agreement or memorandum or other evidence of transfer or sale, whether entitling the holder in any manner to the benefit of such stock or not, on each \$100 of face value or fraction thereof, 2 cents, and where such shares of stock are without par value, the tax shall be 2 cents on the transfer or sale or agreement to sell on each share, unless the actual value thereof is in excess of \$100 per share, in which case the tax shall be 2 cents on each \$100 of actual value or fraction thereof: Provided, That it is not intended by this title to impose a tax upon an agreement evidencing a deposit of stock certificates as collateral security for money loaned thereon, which stock certificates are not actually sold, nor upon such stock certificates so deposited: Provided further, That the tax shall not be imposed upon deliveries or transfers to a broker for sale, nor upon deliveries or transfers by a broker to a customer for whom and upon whose order he has purchased same, but such deliveries or transfers shall be accompanied by a certificate setting forth the facts: Provided further, That in case of sale where the evidence of transfer is shown only by the books of the company the stamp shall be placed upon such books; and where the change of ownership is by transfer of the certificate the stamp shall be placed upon the certificate; and in cases of an agreement to sell or where the transfer is by delivery of the certificate assigned in blank there shall be made and delivered by the seller to the buyer a bill or memorandum of such sale, to which the stamp shall be affixed; and every bill or memorandum of sale or agreement to sell before mentioned shall show the date thereof, the name of the seller, the amount of the sale, and the matter or thing to which it refers. Any person or persons liable to pay the tax as herein provided, or any one who acts in the matter as agent or broker for such person or persons who shall make any such sale, or who shall in pursuance of any such sale deliver any stock or evidence of the sale of any stock or bill or memorandum thereof, as herein required, without having the proper stamps affixed thereto with intent to evade the foregoing provisions shall be deemed guilty of a misdemeanor, and upon conviction thereof, shall pay a fine of not exceeding \$1,000, or be imprisoned not more than six months, or both, at the discretion of the court.

5. Produce, sales of, on exchange: Upon each sale, agreement of sale, or agreement to sell, including so-called transferred or scratch sales, any products or merchandise at any exchange, or board of trade, or other similar place, for future delivery, for each \$100 in value of the merchandise covered by said sale or agreement of sale or agreement to sell, 2 cents, and for each additional \$100 or fractional part thereof in excess of \$100, 2 cents: Provided, That on every sale or agreement of sale or agreement to sell as aforesaid there shall be made and delivered by the seller to the buyer a bill, memorandum, agreement, or other evidence of such sale, agreement of sale, or agreement to sell, to which there shall be affixed a lawful stamp or stamps in value equal to the amount of the tax on such sale: Provided further, That sellers of commodities described herein, having paid the tax provided by this subdivision, may transfer such contracts to a clearing house corporation or association, and such transfer shall not be deemed to be a sale, or agreement of sale, or an agreement to sell within the provisions of this Act, provided that such transfer shall not vest any beneficial interest in such clearing house association but shall be made for the sole purpose of enabling such clearing house association to adjust and balance the accounts of the members of said clearing house association on their several contracts. And every such bill, memorandum, or other evidence of sale or agreement to sell shall show the date thereof, the name of the seller, the amount of the sale, and the matter or thing to which it refers and any person or persons liable to pay the tax as herein provided, or anyone who acts in the matter as agent or broker for such person or persons, who shall make any such sale or agreement of sale, or agreement to sell, or who shall, in pursuance of any such sale, agreement of sale, or agreement to sell, deliver any such products or merchandise without a bill, memorandum, or other evidence thereof as herein required, or who shall deliver such bill, memorandum, or other evidence of sale, or agreement to sell, without having the proper stamps affixed thereto, with intent to evade the foregoing provisions, shall be deemed guilty of a misdemeanor, and upon conviction thereof shall pay a fine of not exceeding \$1,000, or be imprisoned not more than six months, or both, at the discretion of the court.

That no bill, memorandum, agreement, or other evidence of such sale, or agreement of sale, or agreement to sell, in case of cash sales of products or merchandise for immediate or prompt delivery which in good faith are actually intended to be delivered shall be subject to this tax.

6. Drafts or checks payable otherwise than at sight or on demand, promissory notes, except bank notes issued for circulation, and for each renewal of the same, for a sum not exceeding \$100, 2 cents; and for each additional \$100 or fractional part thereof, 2 cents.

7. Conveyance: Deed, instrument, or writing, whereby any lands, tenements, or other realty sold shall be granted, assigned, transferred, or otherwise conveyed to, or vested in, the purchaser or purchasers, or any other person or persons, by his, her, or their direction, when the consideration or value of the interest or property conveyed, exclusive of the value of any lien or encumbrance remaining thereon at the time of sale, exceeds \$100 and does not exceed \$500, 50 cents; and for each additional \$500 or fractional part thereof, 50 cents: Provided, That nothing contained in this paragraph shall be so construed as to impose a tax upon any instrument or writing given to secure a debt.

8. Entry of any goods, wares, or merchandise at any Custom House, either for consumption or warehousing, not exceeding \$100 in value, 25 cents; exceeding \$100 and not exceeding \$500 in value, 50 cents; exceeding \$500 in value, \$1.

9. Entry for the withdrawal of any goods or merchandise from customs bonded warehouse, 50 cents.

10. Passage ticket, one way or round trip, for each passenger, sold or issued in the United States for passage by any vessel to a port or place not in the United States, Canada, or Mexico, if costing not exceeding \$30, \$1; costing more than \$30 and not exceeding \$60, \$3; costing more than \$60, \$5: Provided, That such passage tickets, costing \$10 or less, shall be exempt from taxation.

11. Proxy for voting at any election for officers, or meeting for the transaction of business, of any incorporated company or association, except religious, educational, charitable, fraternal, or literary societies, or public cemeteries, 10 cents.

12. Power of attorney granting authority to do or perform some act for or in behalf of the grantor, which authority is not otherwise vested in the grantee, 25 cents: Provided, That no stamps shall be required upon any papers necessary to be used for the collection of claims from the United States or from any State for pensions, back pay, bounty, or for property lost in the military or naval service or upon powers of attorney required in bankruptcy cases.

13. Playing cards: Upon every pack of playing cards containing not more than fifty-four cards, manufactured or imported and sold, or removed for consumption or sale, after the passage of this Act, a tax of 5 cents per pack in addition to the tax imposed under existing law.

14. Parcel post packages: Upon every parcel or package transported from one point in the United States to another by parcel post on which the

postage amounts to 25 cents or more, a tax of 1 cent for each 25 cents or fractional part thereof charged for such transportation, to be paid by the consignor.

No such parcel or package shall be transported until a stamp or stamps representing the tax due shall have been affixed thereto.

TITLE IX.—WAR ESTATE TAX.

Sec. 900. That in addition to the tax imposed by section 201 of the Act entitled "An Act to increase the revenue, and for other purposes", approved Sept. 8 1916, as amended—

(a) A tax equal to the following percentages of its value is hereby imposed upon the transfer of each net estate of every decedent dying after the passage of this Act, the transfer of which is taxable under such section (the value of such net estate to be determined as provided in Title II of such Act of Sept. 8 1916):

One-half of 1 per centum of the amount of such net estate not in excess of \$50,000;

One per centum of the amount by which such net estate exceeds \$50,000 and does not exceed \$150,000;

One and one-half per centum of the amount by which such net estate exceeds \$150,000 and does not exceed \$250,000;

Two per centum of the amount by which such net estate exceeds \$250,000 and does not exceed \$450,000;

Two and one-half per centum of the amount by which such net estate exceeds \$450,000 and does not exceed \$1,000,000;

Three per centum of the amount by which such net estate exceeds \$1,000,000 and does not exceed \$2,000,000;

Three and one-half per centum of the amount by which such net estate exceeds \$2,000,000 and does not exceed \$3,000,000;

Four per centum of the amount by which such net estate exceeds \$3,000,000 and does not exceed \$4,000,000;

Four and one-half per centum of the amount by which such net estate exceeds \$4,000,000 and does not exceed \$5,000,000;

Five per centum of the amount by which such net estate exceeds \$5,000,000 and does not exceed \$8,000,000;

Seven per centum of the amount by which such net estate exceeds \$8,000,000 and does not exceed \$10,000,000; and

Ten per centum of the amount by which such net estate exceeds \$10,000,000.

Sec. 901. That the tax imposed by this title shall not apply to the transfer of the net estate of any decedent dying while serving in the military or naval forces of the United States, during the continuance of the war in which the United States is now engaged, or if death results from injuries received or disease contracted in such service, within one year after the termination of such war. For the purposes of this section the termination of the war shall be evidenced by the proclamation of the President.

TITLE X.—ADMINISTRATIVE PROVISIONS.

Sec. 1000. That there shall be levied, collected, and paid in the United States, upon articles coming into the United States from the West Indian Islands acquired from Denmark, a tax equal to the internal-revenue tax imposed in the United States upon like articles of domestic manufacture; such articles shipped from said islands to the United States shall be exempt from the payment of any tax imposed by the internal-revenue laws of said islands: Provided, That there shall be levied, collected, and paid in said islands, upon articles imported from the United States, a tax equal to the internal-revenue tax imposed in said islands upon like articles there manufactured; and such articles going into said islands from the United States shall be exempt from payment of any tax imposed by the internal-revenue laws of the United States.

Sec. 1001. That all administrative, special, or stamp provisions of law, including the law relating to the assessment of taxes, so far as applicable, are hereby extended to and made a part of this Act, and every person, corporation, partnership, or association liable to any tax imposed by this Act, or for the collection thereof, shall keep such records and render, under oath, such statements and returns, and shall comply with such regulations as the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury, may from time to time prescribe.

Sec. 1002. That where additional taxes are imposed by this Act upon articles or commodities, upon which the tax imposed by existing law has been paid, the person, corporation, partnership, or association required by this Act to pay the tax shall, within thirty days after its passage, make return under oath in such form and under such regulations as the Commissioner of Internal Revenue with the approval of the Secretary of the Treasury shall prescribe. Payment of the tax shown to be due may be extended to a date not exceeding seven months from the passage of this Act, upon the filing of a bond for payment in such form and amount and with such sureties as the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury, may prescribe.

Sec. 1003. That in all cases where the method of collecting the tax imposed by this Act is not specifically provided, the tax shall be collected in such manner as the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury, may prescribe. All administrative and penalty provisions of Title VIII, of this Act, in so far as applicable, shall apply to the collection of any tax which the Commissioner of Internal Revenue determines or prescribes shall be paid by stamp.

Sec. 1004. That whoever fails to make any returns required by this Act or the regulations made under authority thereof within the time prescribed or who makes any false or fraudulent return, and whoever evades or attempts to evade any tax imposed by this Act or fails to collect or truly to account for and pay over any such tax, shall be subject to a penalty of not more than \$1,000, or to imprisonment for not more than one year, or both, at the discretion of the court, and in addition thereto a penalty of double the tax evaded, or not collected, or accounted for and paid over, to be assessed and collected in the same manner as taxes are assessed and collected, in any case in which the punishment is not otherwise specifically provided.

Sec. 1005. That the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury, is hereby authorized to make all needful rules and regulations for the enforcement of the provisions of this Act.

Sec. 1006. That where the rate of tax imposed by this Act, payable by stamps, is an increase over previously existing rates, stamps on hand in the collectors' offices and in the Bureau of Internal Revenue may continue to be used until the supply on hand is exhausted, but shall be sold and accounted for at the rates provided by this Act and assessment shall be made against manufacturers and other taxpayers having such stamps on hand on the day this Act takes effect for the difference between the amount paid for such stamps and the tax due at the rates provided by this Act.

Sec. 1007. That (a) if any person, corporation, partnership, or association has prior to May 9 1917 made a bona fide contract with a dealer for the sale, after the tax takes effect, of any article (or in the case of moving picture films, such a contract with a dealer, exchange, or exhibitor, for the sale or lease thereof) upon which a tax is imposed under Title III, IV, or VI, or under subdivision 13 of Schedule A of Title VIII, or under this section; and (b) if such contract does not permit the adding of the whole

of such tax to the amount to be paid under such contract, then the vendee or lessee shall, in lieu of the vendor or lessor, pay so much of such tax as is not so permitted to be added to the contract price.

The taxes payable by the vendee or lessee under this section shall be paid to the vendor or lessor at the time the sale or lease is consummated, and collected, returned and paid to the United States by such vendor or lessor in the same manner as provided in section 503.

The term "dealer" as used in this section includes a vendee who purchases any article with intent to use it in the manufacture or production of another article intended for sale.

Sec. 1008. That in the payment of any tax under this Act not payable by stamp a fractional part of a cent shall be disregarded unless it amounts to one-half cent or more, in which case it shall be increased to one cent.

Sec. 1009. That the Secretary of the Treasury, under rules and regulations prescribed by him, shall permit taxpayers liable to income and excess profits taxes to make payments in advance in installments or in whole of an amount not in excess of the estimated taxes which will be due from them, and upon determination of the taxes actually due any amount paid in excess shall be refunded as taxes erroneously collected: Provided that when payment is made in installments at least one-fourth of such estimated tax shall be paid before the expiration of thirty days after the close of the taxable year, at least an additional one-fourth within two months after the close of the taxable year, at least an additional one-fourth within four months after the close of the taxable year, and the remainder of the tax due on or before the time now fixed by law for such payment: Provided further, that the Secretary of the Treasury, under rules and regulations prescribed by him, may allow credit against such taxes so paid in advance of an amount not exceeding 3 per centum per annum calculated upon the amount so paid from the date of such payment to the date now fixed by law for such payment; but no such credit shall be allowed on payments in excess of taxes determined to be due, nor on payments made after the expiration of four and one-half months after the close of the taxable year. All penalties provided by existing law for failure to pay tax when due are hereby made applicable to any failure to pay the tax at the time or times required in this section.

Sec. 1010. That under rules and regulations prescribed by the Secretary of the Treasury, Collectors of Internal Revenue may receive, at par and accrued interest, certificates of indebtedness issued under Section 6 of the Act entitled "An Act to authorize an issue of bonds to meet expenditures for the national security and defense, and, for the purpose of assisting in the prosecution of the war, to extend credit to foreign Governments, and for other purposes," approved April 24 1917, and any subsequent Act or Acts, and uncertified checks in payment of income and excess profits taxes, during such time and under such regulations as the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury, shall prescribe; but if a check so received is not paid by the bank on which it is drawn the person by whom such check has been tendered shall remain liable for the payment of the tax and for all legal penalties and additions the same as if such check had not been tendered.

TITLE XI.—POSTAL RATES.

Sec. 1100. That the rate of postage on all mail matter of the first class, except postal cards, shall, thirty days after the passage of this Act, be, in addition to the existing rate, 1 cent for each ounce or fraction thereof: Provided, that the rate of postage on drop letters of the first class shall be 2 cents an ounce or fraction thereof. Postal cards and private mailing or post cards, when complying with the requirements of existing law, shall be transmitted through the mails at 1 cent each, in addition to the existing rate.

That letters written and mailed by soldiers, sailors, and marines assigned to duty in a foreign country engaged in the present war may be mailed free of postage, subject to such rules and regulations as may be prescribed by the Postmaster-General.

Sec. 1101. That on and after July 1 1918 the rates of postage on publications entered as second-class matter (including sample copies to the extent of 10 per centum of the weight of copies mailed to subscribers during the calendar year), when sent by the publisher thereof from the post office of publication or other post office, or when sent by a news agent to actual subscribers thereto, or to other news agents for the purpose of sale:

(a) In the case of the portion of such publication devoted to matter other than advertisements, shall be as follows: (1) On and after July 1 1918 and until July 1 1919, 1½ cents per pound or fraction thereof; (2) On and after July 1 1919, 1½ cents per pound or fraction thereof;

(b) In the case of the portion of such publication devoted to advertisements the rates per pound or fraction thereof for delivery within the several zones applicable to fourth-class matter shall be as follows (but where the space devoted to advertisements does not exceed 5 per centum of the total space, the rate of postage shall be the same as if the whole of such publication was devoted to matter other than advertisements):

(1) On and after July 1 1918 and until July 1 1919, for the first and second zones, 1½ cents; for the third zone, 1½ cents; for the fourth zone 2 cents; for the fifth zone 2½ cents; for the sixth zone 2½ cents; for the seventh zone 3 cents; for the eighth zone 3½ cents;

(2) On and after July 1 1919, and until July 1 1920, for the first and second zones 1½ cents; for the third zone 2 cents; for the fourth zone 3 cents; for the fifth zone 3½ cents; for the sixth zone 4 cents; for the seventh zone 5 cents; for the eighth zone 5½ cents;

(3) On and after July 1 1920 and until July 1 1921, for the first and second zones 1½ cents; for the third zone 2½ cents; for the fourth zone 4 cents; for the fifth zone 4½ cents; for the sixth zone 5½ cents; for the seventh zone 7 cents; for the eighth zone 7½ cents;

(4) On and after July 1 1921, for the first and second zones 2 cents; for the third zone 3 cents; for the fourth zone 5 cents; for the fifth zone 6 cents; for the sixth zone 7 cents; for the seventh zone 9 cents; for the eighth zone 10 cents;

(c) With the first mailing of each issue of each such publication the publisher shall file with the Postmaster a copy of such issue, together with a statement containing such information as the Postmaster-General may prescribe for determining the postage chargeable thereon.

Sec. 1102. That the rate of postage on daily newspapers, when the same are deposited in a letter carrier office for delivery by its carriers, shall be the same as now provided by law, and nothing in this title shall affect existing law as to free circulation and existing rates on second-class mail matter within the county of publication: Provided, that the Postmaster-General may hereafter require publishers to separate or make up to zones in such a manner as he may direct all mail matter of the second class when offered for mailing.

Sec. 1103. That in the case of newspapers and periodicals entitled to be entered as second-class matter and maintained by and in the interest of religious, educational, scientific, philanthropic, agricultural, labor, or fraternal organizations or associations, not organized for profit and none of the net income of which inures to the benefit of any private stockholder or individual, the second-class postage rates shall be, irrespective of the zone in which delivered (except when the same are deposited in a letter carrier office for delivery by its carriers, in which case the rates shall be

the same as now provided by law), 1½ cents a pound or fraction thereof on and after July 1 1918 and until July 1 1919, and on and after July 1 1919 1½ cents a pound or fraction thereof. The publishers of such newspapers or periodicals before being entitled to the foregoing rates shall furnish to the Postmaster-General, at such times and under such conditions as he may prescribe, satisfactory evidence that none of the net income of such organization inures to the benefit of any private stockholder or individual.

Sec. 1104. That where the total weight of any one edition or issue of any publication mailed to any one zone does not exceed one pound, the rate of postage shall be 1 cent.

Sec. 1105. The zone rates provided by this title shall relate to the entire bulk mailed to any one zone and not to individually addressed packages.

Sec. 1106. That where a newspaper or periodical is mailed by other than the publisher or his agent, or a news agent or dealer, the rate shall be the same as now provided by law.

Sec. 1107. That the Postmaster-General, on or before the tenth day of each month, shall pay into the general fund of the treasury an amount equal to the difference between the estimated amount received during the preceding month for the transportation of first-class matter through the mails and the estimated amount which would have been received under the provisions of the law in force at the time of the passage of this Act.

Sec. 1108. That the salaries of postmasters at offices of the first, second and third classes shall not be increased after July 1 1917 during the existence of the present war. The compensation of postmasters at offices of the fourth class shall continue to be computed on the basis of the present rates of postage.

Sec. 1109. That where postmasters at offices of the third class have been since May 1 1917 or hereafter are granted leave without pay for military purposes, the Postmaster-General may allow, in addition to the maximum amounts which may now be allowed such offices for clerk hire, in accordance with law, an amount not to exceed 50 per centum of the salary of the postmaster.

Sec. 1110. That Section 5 of the Act approved March 3 1917, entitled "An Act making appropriations for the Post Office Department for the year ending June 30 1918", shall not be construed to apply to ethyl alcohol for governmental, scientific, medicinal, mechanical, manufacturing and industrial purposes, and the Postmaster General shall prescribe suitable rules and regulations to carry into effect this section in connection with the Act of which it is amendatory; nor shall said Section be held to prohibit the use of the mails by regularly ordained ministers of religion or by officers of regularly established churches for ordering wines for sacramental uses or by manufacturers and dealers for quoting and billing such wines for such purposes only.

TITLE XII.—INCOME TAX AMENDMENTS.

Sec. 1200. That subdivision (a) of Section 2 of such Act of Sept. 8 1916 is hereby amended to read as follows:

"(a) That, subject only to such exemptions and deductions as are hereinafter allowed, the net income of a taxable person shall include gains, profits and income, derived from salaries, wages, or compensation for personal service of whatever kind and in whatever form paid, or from professions, vocations, businesses, trade, commerce, or sales, or dealings in property, whether real or personal, growing out of the ownership or use of or interest in real or personal property, also from interest, rent, dividends, securities or the transaction of any business carried on for gain or profit, or gains or profits and income derived from any source whatever.

Section 4 of such Act of Sept. 8 1916 is hereby amended to read as follows:

"Sec. 4. The following income shall be exempt from the provisions of this title:

"The proceeds of life insurance policies paid to individual beneficiaries upon the death of the insured; the amount received by the insured as a return of premium or premiums paid by him under life insurance, endowment or annuity contracts, either during the term or at the maturity of the term mentioned in the contract or upon surrender of the contract; the value of property acquired by gift, bequest, devise or descent (but the income from such property shall be included as income); interest upon the obligations of a State or any political subdivision thereof or upon the obligations of the United States (but in the case of obligations of the United States issued after Sept. 1 1917, only if and to the extent provided in the Act authorizing the issue thereof) or its possession or securities issued under the provisions of the Federal Farm Loan Act of July 17 1916; the compensation of the President of the United States during the term for which he has been elected and the judges of the Supreme and inferior courts of the United States now in office, and the compensation of all officers and employees of a State, or any political subdivision thereof, except when such compensation is paid by the United States Government."

Sec. 1201. (1) That paragraphs 2 and 3 of subdivision (a) of Section 5 of such Act of Sept. 8 1916 are hereby amended to read as follows:

"Second. All interest paid within the year on his indebtedness except on indebtedness incurred for the purchase of obligations or securities the interest upon which is exempt from taxation as income under this title;

"Third. Taxes paid within the year imposed by the authority of the United States (except income and excess profits taxes) or of its Territories, or possessions, or any foreign country, or by the authority of any State, county, school district, or municipality, or other taxing subdivision of any State, not including those assessed against local benefits."

(2) Section five of such Act of Sept. 8 1916 is hereby amended by adding at the end of subdivision (a) a further paragraph numbered 9, to read as follows:

"Ninth. Contributions or gifts actually made within the year to corporations or associations organized and operated exclusively for religious, charitable, scientific, or educational purposes, or to societies for the prevention of cruelty to children or animals, no part of the net income of which inures to the benefit of any private stockholder or individual, to an amount not in excess of 15 per centum of the taxpayer's taxable net income as computed without the benefit of this paragraph. Such contributions or gifts shall be allowable as deductions only if verified under rules and regulations prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury."

Sec. 1202. That (1) paragraphs 2 and 3 of subdivision (a) of Section 6 of such Act of Sept. 8 1916, are hereby amended to read as follows:

"Second. The proportion of all interest paid within the year by such person on his indebtedness (except on indebtedness incurred for the purchase of obligations or securities the interest upon which is exempt from taxation as income under this title) which the gross amount of his income for the year derived from sources within the United States bears to the gross amount of his income for the year derived from all sources within and without the United States, but this deduction shall be allowed only if such person includes in the return required by Section 8 all the information necessary for its calculation;

"Third. Taxes paid within the year imposed by the authority of the United States (except income and excess profits taxes), or of its Territories, or possessions, or by the authority of any State, county, school district, or municipality, or other taxing subdivision of any State, paid within the United States, not including those assessed against local benefits;"

(2) Section 6 of such Act of Sept. 8 1916 is also further amended by adding a new subdivision to read as follows:

"(c) A non-resident alien individual shall receive the benefit of the deductions and credits provided for in this section only by filing or causing to be filed with the Collector of Internal Revenue a true and accurate return of his total income, received from all sources, corporate or otherwise, in the United States, in the manner prescribed by this title; and in case of his failure to file such return the collector shall collect the tax on such income and all property belonging to such non-resident alien individual shall be liable to distraint for the tax."

Sec. 1203. (1) That Section 7 of such Act of Sept. 8 1916 is hereby amended to read as follows:

"Sec. 7. That for the purpose of the normal tax only, there shall be allowed as an exemption in the nature of a deduction from the amount of the net income of each citizen or resident of the United States, ascertained as provided herein, the sum of \$3,000, plus \$1,000 additional if the person making the return be a head of a family, or a married man with a wife living with him, or plus the sum of \$1,000 additional if the person making the return be a married woman with a husband living with her; but in no event shall this additional exemption of \$1,000 be deducted by both a husband and a wife: Provided, That only one deduction of \$4,000 shall be made from the aggregate income of both husband and wife when living together: Provided further, That if the person making the return is the head of a family there shall be an additional exemption of \$200 for each child dependent upon such person, if under eighteen years of age, or if incapable of self-support because mentally or physically defective, but this provision shall operate only in the case of one parent in the same family: Provided further, That guardians or trustees shall be allowed to make this personal exemption as to income derived from the property of which such guardian or trustee has charge in favor of each ward or cestui que trust: Provided further, That in no event shall a ward or cestui que trust be allowed a greater personal exemption than as provided in this section from the amount of net income received from all sources. There shall also be allowed an exemption from the amount of the net income of estates of deceased citizens or residents of the United States during the period of administration or settlement, and of trust or other estates of citizens or residents of the United States the income of which is not distributed annually or regularly under the provisions of subdivision (b) of section 2, the sum of \$3,000, including such deductions as are allowed under section 5."

(2) Subdivision (b) of section 7 of such Act of Sept. 8 1916 is hereby repealed.

Sec. 1204. (1) That subdivisions (c) and (e) of section 8 of such Act of Sept. 8 1916 are hereby amended to read as follows:

"(c) Guardians, trustees, executors, administrators, receivers, conservators, and all persons, corporations, or associations, acting in any fiduciary capacity, shall make and render a return of the income of the person, trust, or estate for whom or which they act, and be subject to all the provisions of this title which apply to individuals. Such fiduciary shall make oath that he has sufficient knowledge of the affairs of such person, trust, or estate to enable him to make such return and that the same is, to the best of his knowledge and belief, true and correct, and be subject to all the provisions of this title which apply to individuals: Provided, That a return made by one of two or more joint fiduciaries filed in the district where such fiduciary resides, under such regulations as the Secretary of the Treasury may prescribe, shall be a sufficient compliance with the requirements of this paragraph: Provided further, That no return of income not exceeding \$3,000 shall be required except as in this title otherwise provided."

"(e) Persons carrying on business in partnership shall be liable for income tax only in their individual capacity, and the share of the profits of the partnership to which any taxable partner would be entitled if the same were divided, whether divided or otherwise, shall be returned for taxation and the tax paid under the provisions of this title: Provided, That from the net distributive interests on which the individual members shall be liable for tax, normal and additional, there shall be excluded their proportionate shares received from interest on the obligations of a State or any political or taxing subdivision thereof, and upon the obligations of the United States (if and to the extent that it is provided in the Act authorizing the issue of such obligations of the United States that they are exempt from taxation) and its possessions, and that for the purpose of computing the normal tax there shall be allowed a credit, as provided by section 5, subdivision (b), for their proportionate share of the profits derived from dividends. Such partnership, when requested by the Commissioner of Internal Revenue or any district collector, shall render a correct return of the earnings, profits, and income of the partnership, except income exempt under section 4 of this Act, setting forth the item of the gross income and the deductions and credits allowed by this title, and the names and addresses of the individuals who would be entitled to the net earnings, profits, and income, if distributed. A partnership shall have the same privilege of fixing and making returns upon the basis of its own fiscal year as is accorded to corporations under this title. If a fiscal year ends during 1916, or a subsequent calendar year for which there is a rate of tax different from the rate for the preceding calendar year, then (1) the rate for such preceding calendar year shall apply to an amount of each partner's share of such partnership profits equal to the proportion which the part of such fiscal year falling within such calendar year bears to the full fiscal year, and (2) the rate for the calendar year during which such fiscal year ends shall apply to the remainder."

(2) Subdivision (d) of section 8 of such Act of Sept. 8 1916 is hereby repealed.

Sec. 1205. (1) That subdivisions (b), (c), (f) and (g) of section 9 of such Act of Sept. 8 1916 are hereby amended to read as follows:

"(b) All persons, corporations, partnerships, associations, and insurance companies, in whatever capacity acting, including lessees or mortgagors of real or personal property, trustees, acting in any trust capacity, executors, administrators, receivers, conservators, employers, and all officers and employees of the United States, having the control, receipt, custody, disposal, or payment of interest, rent, salaries, wages, premiums, annuities, compensation, remuneration, emoluments, or other fixed or determinable annual or periodical gains, profits, and income of any non-resident alien individual, other than income derived from dividends on capital stock, or from the net earnings of a corporation, joint-stock company or association, or insurance company, which is taxable upon its net income as provided in this title, are hereby authorized and required to deduct and withhold from such annual or periodical gains, profits, and income such sum as will be sufficient to pay the normal tax imposed thereon by this title, and shall make return thereof on or before March 1 of each year and, on or before the time fixed by law for the payment of the tax, shall pay the amount withheld to the officer of the United States Government authorized to receive the same; and they are each hereby made personally liable for such tax, and they are each hereby indemnified against every person, corporation, partnership, association, or insurance company, or demand whatsoever for all payments which they shall make in pursuance and by virtue of this title."

"(c) The amount of the normal tax hereinbefore imposed shall also be deducted and withheld from fixed or determinable annual or periodical gains, profits and income derived from interest upon bonds and mortgages,

or deeds of trust or other similar obligations of corporations, joint-stock companies, associations and insurance companies (if such bonds, mortgages or other obligations contain a contract or provision by which the obligor agrees to pay any portion of the tax imposed by this title upon the obligee or to reimburse the obligee for any portion of the tax or to pay the interest without deduction for any tax which the obligor may be required or permitted to pay thereon or to retain therefrom under any law of the United States), whether payable annually or at shorter or longer periods and whether such interest is payable to a non-resident alien individual or to an individual citizen or resident of the United States, subject to the provisions of the foregoing subdivision (b) of this section requiring the tax to be withheld at the source and deducted from annual income and returned and paid to the Government, unless the person entitled to receive such interest shall file with the withholding agent, on or before February 1, a signed notice in writing claiming the benefit of an exemption under section 7 of this title."

"(f) All persons, corporations, partnerships, or associations, undertaking as a matter of business or for profit the collection of foreign payments of interest or dividends by means of coupons, checks, or bills of exchange shall obtain a license from the Commissioner of Internal Revenue, and shall be subject to such regulations enabling the Government to obtain the information required under this title, as the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury, shall prescribe; and whoever knowingly undertakes to collect such payments as aforesaid without having obtained a license therefor, or without complying with such regulations, shall be deemed guilty of a misdemeanor and for each offense be fined in a sum not exceeding \$5,000, or imprisonment for a term not exceeding one year, or both, in the discretion of the court."

"(g) The tax herein imposed upon gains, profits, and incomes not falling under the foregoing and not returned and paid by virtue of the foregoing or as otherwise provided by law shall be assessed by personal return under rules and regulations to be prescribed by the Commissioner of Internal Revenue and approved by the Secretary of the Treasury. The intent and purpose of this title is that all gains, profits, and income of a taxable class, as defined by this title, shall be charged and assessed with the corresponding tax, normal and additional, prescribed by this title, and said tax shall be paid by the owner of such income, or the proper representative having the receipt, custody, control, or disposal of the same. For the purpose of this title ownership or liability shall be determined as of the year for which a return is required to be rendered."

"The provisions of this section except subdivision (c) relating to the deduction and payment of the tax at the source of income shall only apply to the normal tax hereinbefore imposed upon non-resident alien individuals."

(2) Subdivisions (d) and (e) of section 9 of such Act of Sept. 8 1916 are hereby repealed.

Sec. 1206. (1) That the first paragraph of section 10 of such Act of Sept. 8 1916 is hereby amended to read as follows:

"Sec. 10. (a) That there shall be levied, assessed, collected and paid annually upon the total net income received in the preceding calendar year from all sources by every corporation, joint-stock company or association, or insurance company, organized in the United States, no matter how created or organized, but not including partnerships, a tax of 2 per centum upon such income; and a like tax shall be levied, assessed, collected, and paid annually upon the total net income received in the preceding calendar year from all sources within the United States by every corporation, joint-stock company or association, or insurance company, organized, authorized, or existing under the laws of any foreign country, including interest on bonds, notes, or other interest-bearing obligations of residents, corporate or otherwise, and including the income derived from dividends on capital stock or from net earnings of resident corporations, joint-stock companies or associations, or insurance companies, whose net income is taxable under this title."

(2) Section 10 of such Act of Sept. 8 1916 is hereby further amended by adding a new subdivision as follows:

"(b) In addition to the income tax imposed by subdivision (a) of this section there shall be levied, assessed, collected, and paid annually an additional tax of 10 per centum upon the amount, remaining undistributed six months after the end of each calendar or fiscal year, of the total net income of every corporation, joint-stock company or association, or insurance company, received during the year, as determined for the purposes of the tax imposed by such subdivision (a), but not including the amount of any income taxes paid by it within the year imposed by the authority of the United States."

"The tax imposed by this subdivision shall not apply to that portion of such undistributed net income which is actually invested and employed in the business or is retained for employment in the reasonable requirements of the business or is invested in obligations of the United States issued after September 1 1917: Provided, That if the Secretary of the Treasury ascertains and finds that any portion of such amount so retained at any time for employment in the business is not so employed or is not reasonably required in the business a tax of 15 per centum shall be levied, assessed, collected, and paid thereon."

The foregoing tax rates shall apply to the undistributed net income received by every taxable corporation, joint-stock company, or association, or insurance company, in the calendar year 1917 and in each year thereafter, except that if it has fixed its own fiscal year under the provisions of existing law, the foregoing rates shall apply to the proportion of the taxable undistributed net income returned for the fiscal year ending prior to Dec. 31 1917, which the period between Jan. 1 1917 and the end of such fiscal year bears to the whole of such fiscal year."

Sec. 1207. (1) That paragraphs third and fourth of subdivision (a) of section 12 of such Act of Sept. 8 1916 are hereby amended to read as follows:

"Third. The amount of interest paid within the year on its indebtedness (except on indebtedness incurred for the purchase of obligations or securities the interest upon which is exempt from taxation as income under this title) to an amount of such indebtedness not in excess of the sum of (a) the entire amount of the paid-up capital stock outstanding at the close of the year, or, if no capital stock, the entire amount of capital employed in the business at the close of the year, and (b) one-half of its interest-bearing indebtedness then outstanding: Provided, That for the purpose of this title preferred capital stock shall not be considered interest-bearing indebtedness, and interest or dividends paid upon this stock shall not be deductible from gross income: Provided further, That in cases wherein shares of capital stock are issued without par or nominal value, the amount of paid-up capital stock, within the meaning of this section, as represented by such shares, will be the amount of cash, or its equivalent, paid or transferred to the corporation as a consideration for such shares: Provided further, That in the case of indebtedness wholly secured by property collateral, tangible or intangible, the subject of sale or hypothecation in the ordinary business of such corporation, joint-stock company or association as a dealer only in the property constituting such collateral, or in loaning the funds thereby procured, the total interest paid by such corporation, company, or association within the year on any such indebtedness may be deducted as a part of its expenses of doing business, but interest on such indebtedness shall only be deductible on an amount of such indebtedness not in excess of the

actual value of such property collateral: Provided further, That in the case of bonds or other indebtedness, which have been issued with a guaranty that the interest payable thereon shall be free from taxation, no deduction for the payment of the tax herein imposed, or any other tax paid pursuant to such guaranty, shall be allowed; and in the case of a bank, banking association, loan or trust company, interest paid within the year on deposits or on moneys received for investment and secured by interest-bearing certificates of indebtedness issued by such bank, banking association, loan or trust company shall be deducted;

"Fourth. Taxes paid within the year imposed by the authority of the United States (except income and excess profits taxes), or of its Territories, or possessions, or any foreign country, or by the authority of any State, county, school district, or municipality, or other taxing subdivision of any State, not including those assessed against local benefits."

(2) Paragraphs third and fourth of subdivision (b) of section 12 of such Act of Sept. 8 1916 are hereby amended to read as follows:

"Third. The amount of interest paid within the year on its indebtedness (except on indebtedness incurred for the purchase of obligations or securities the interest upon which is exempt from taxation as income under this title) to an amount of such indebtedness not in excess of the proportion of the sum of (a) the entire amount of the paid-up capital stock outstanding at the close of the year, or, if no capital stock, the entire amount of the capital employed in the business at the close of the year, and (b) one-half of its interest-bearing indebtedness then outstanding, which the gross amount of its income for the year from business transacted and capital invested within the United States bears to the gross amount of its income derived from all sources within and without the United States: Provided, That in the case of bonds or other indebtedness which have been issued with a guaranty that the interest payable thereon shall be free from taxation, no deduction for the payment of the tax herein imposed or any other tax paid pursuant to such guaranty shall be allowed; and in case of a bank, banking association, loan or trust company, or branch thereof, interest paid within the year on deposits by or on moneys received for investment from either citizens or residents of the United States and secured by interest-bearing certificates of indebtedness issued by such bank, banking association, loan or trust company, or branch thereof;

"Fourth. Taxes paid within the year imposed by the authority of the United States (except income and excess profits taxes) or of its Territories, or possessions, or by the authority of any State, county, school district, or municipality, or other taxing subdivision of any State, paid within the United States, not including those assessed against local benefits."

Sec. 1208. That subdivision (c) of Section 13 of such Act of Sept. 8 1916 is hereby amended to read as follows:

"(c) All the provisions of this title relating to the tax authorized and required to be deducted and withheld and paid to the officer of the United States Government authorized to receive the same from the income of non-resident alien individuals from sources within the United States shall be made applicable to the tax imposed by subdivision (a) of Section 10 upon incomes derived from interest upon bonds and mortgages or deeds of trust or similar obligations of domestic or other resident corporations, joint-stock companies or associations, and insurance companies by non-resident alien firms, copartnerships, companies, corporations, joint-stock companies or associations, and insurance companies, not engaged in business or trade within the United States and not having any office or place of business therein."

Sec. 1209. That Section 18 of such Act of Sept. 8 1916 is hereby amended to read as follows:

"Sec. 18. That any person, corporation, partnership, association, or insurance company, liable to pay the tax, to make a return or to supply information required under this title, who refuses or neglects to pay such tax, to make such return or to supply such information at the time or times herein specified in each year, shall be liable, except as otherwise specially provided in this title, to a penalty of not less than \$20 nor more than \$1,000. Any individual or any officer of any corporation, partnership, association, or insurance company, required by law to make, render, sign, or verify any return or to supply any information, who makes any false or fraudulent return or statement with intent to defeat or evade the assessment required by this title to be made, shall be guilty of a misdemeanor, and shall be fined not exceeding \$2,000 or be imprisoned not exceeding one year, or both, in the discretion of the court, with the costs of prosecution: Provided, That where any tax heretofore due and payable, has been duly paid by the taxpayer, it shall not be re-collected from any withholding agent required to retain it at its source, nor shall any penalty be imposed or collected in such cases from the taxpayer, or such withholding agent whose duty it was to retain it, for failure to return or pay the same, unless such failure was fraudulent and for the purpose of evading payment."

Sec. 1210. That Section 26 of such Act of Sept. 8 1916 as amended by the Act entitled "An Act to provide increased revenue to defray the expenses of the increased appropriations for the Army and Navy and the extensions of fortifications, and for other purposes," approved March 3 1917, is hereby amended to read as follows:

"Sec. 26. Every corporation, joint-stock company or association, or insurance company subject to the tax herein imposed, when required by the Commission of Internal Revenue, shall render a correct return, duly verified under oath, of its payments of dividends, whether made in cash or its equivalent or in stock, including the names and addresses of stockholders and the number of shares owned by each, and the tax years and the applicable amounts in which such dividends were earned, in such form and manner as may be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury."

Sec. 1211. That Title I of such Act of Sept. 8 1916 is hereby amended by adding to Part III six new sections, as follows:

"Sec. 27. That every person, corporation, partnership, or association, doing business as a broker on any Exchange or Board of Trade or other similar place of business shall, when required by the Commissioner of Internal Revenue, render a correct return duly verified under oath, under such rules and regulations as the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury, may prescribe, showing the names of customers for whom such person, corporation, partnership, or association has transacted any business, with such details as to the profits, losses, or other information which the Commissioner may require, as to each of such customers, as will enable the Commissioner of Internal Revenue to determine whether all income tax due on profits or gains of such customers has been paid.

"Sec. 28. That all persons, corporations, partnerships, associations, and insurance companies, in whatever capacity acting, including lessees or mortgagors of real or personal property, trustees acting in any trust capacity, executors, administrators, receivers, conservators, and employers, making payment to another person, corporation, partnership, association, or insurance company, of interest, rent, salaries, wages, premiums, annuities, compensation, remuneration, emoluments, or other fixed or determinable gains, profits, and income (other than payments described in sections 26 and 27), of \$800 or more in any taxable year, or, in the case of such payments made by the United States, the officers or employees of the

United States having information as to such payments and required to make returns in regard thereto by the regulations hereinafter provided for, are hereby authorized and required to render a true and accurate return to the Commissioner of Internal Revenue, under such rules and regulations and in such form and manner as may be prescribed by him, with the approval of the Secretary of the Treasury, setting forth the amount of such gains, profits, and income, and the name and address of the recipient of such payment: Provided, That such returns shall be required, regardless of amounts, in the case of payments of interest upon bonds and mortgages or deeds of trust or other similar obligations of corporations, joint-stock companies, associations, and insurance companies, and in the case of collections of items (not payable in the United States) of interest upon the bonds of foreign countries and interest from the bonds and dividends from the stock of foreign corporations by persons, corporations, partnerships, or associations, undertaking as a matter of business or for profit the collection of foreign payments of such interest or dividends by means of coupons, checks, or bills of exchange.

"When necessary to make effective the provisions of this section the name and address of the recipient of income shall be furnished upon demand of the person, corporation, partnership, association, or insurance company paying the income.

"The provisions of this section shall apply to the calendar year 1917 and each calendar year thereafter, but shall not apply to the payment of interest on obligations of the United States.

"Sec. 29. That in assessing income tax the net income embraced in the return shall also be credited with the amount of any excess profits tax imposed by Act of Congress and assessed for the same calendar or fiscal year upon the taxpayer and, in the case of a member of a partnership, with his proportionate share of such excess profits tax imposed upon the partnership.

"Sec. 30. That nothing in section II of the Act approved Oct. 3 1913, entitled 'An Act to reduce tariff duties and to provide revenue for the Government, and for other purposes,' or in this title, shall be construed as taxing the income of foreign governments received from investments in the United States in stocks, bonds, or other domestic securities, owned by such foreign governments or from interest on deposits in banks in the United States of moneys belonging to foreign governments.

"Sec. 31. (a) That the term 'dividends' as used in this title shall be held to mean any distribution made or ordered to be made by a corporation, joint-stock company, association, or insurance company, out of its earnings or profits accrued since March 1 1913, and payable to its shareholders, whether in cash or in stock of the corporation, joint-stock company, association, or insurance company which stock dividend shall be considered income, to the amount of the earnings or profits so distributed.

"(b) Any distribution made to the shareholders or members of a corporation, joint-stock company, or association, or insurance company, in the year 1917, or subsequent tax years, shall be deemed to have been made from the most recently accumulated undivided profits or surplus, and shall constitute a part of the annual income of the distributee for the year in which received, and shall be taxed to the distributee at the rates prescribed by law for the years in which such profits or surplus were accumulated by the corporation, joint-stock company, association, or insurance company, but nothing herein shall be construed as taxing any earnings or profits accrued prior to March 1 1913, but such earnings or profits may be distributed in stock dividends or otherwise, exempt from the tax, after the distribution of earnings and profits accrued since March 1 1913 has been made. This subdivision shall not apply to any distribution made prior to August 6 1917 out of earnings or profits accrued prior to March 1 1913.

"Sec. 32. That premiums paid on life insurance policies covering the lives of officers, employees, or those financially interested in any trade or business conducted by an individual, partnership, corporation, joint-stock company, or association, or insurance company, shall not be deducted in computing the net income of such individual, corporation, joint-stock company, or association, or insurance company, or in computing the profits of such partnership for the purposes of subdivision (e) of section 9."

Sec. 1212. That any amount heretofore withheld by any withholding agent as required by Title I of such Act of Sept. 8 1916, on account of the tax imposed upon the income of any individual, a citizen or resident of the United States, for the calendar year 1917, except in the cases covered by subdivision (c) of section 9 of such Act, as amended by this Act, shall be released and paid over to such individual, and the entire tax upon the income of such individual for such year shall be assessed and collected in the manner prescribed by such Act as amended by this Act.

TITLE XIII—GENERAL PROVISIONS.

Sec. 1300. That if any clause, sentence, paragraph, or part of this Act shall for any reason be adjudged by any court of competent jurisdiction to be invalid, such judgment shall not affect, impair, or invalidate the remainder of said Act, but shall be confined in its operation to the clause, sentence, paragraph, or part thereof directly involved in the controversy in which such judgment shall have been rendered.

Sec. 1301. That Title I of the Act entitled, "An Act to provide increased revenue to defray the expenses of the increased appropriations for the Army and Navy and the extension of fortifications, and for other purposes," approved March 3 1917, be, and the same is, hereby repealed.

Sec. 1302. That unless otherwise herein specially provided, this Act shall take effect on the day following its passage.

Approved, Oct. 3, 1917.

NEW YORK CITY'S RECEPTION TO THE JAPANESE WAR MISSION.

The Japanese War Mission to this country, headed by Viscount Kikijuro Ishii, arrived in this city on Sept. 27 for a five day visit and were given a reception by the city and citizens of New York, which for warmth and enthusiasm equalled, if it did not excel, the welcome accorded the other visiting commissions of our allies. In anticipation of the visit of the Japanese commissioners Mayor Mitchel on Sept. 26 issued the following announcement:

The island empire, whose seclusion of three centuries was broken by the bearer of a letter from the President of the United States, sends us to-day a return message, proclaiming its people as brothers in arms in the common cause of human freedom. One of the momentous events of the nineteenth century—the appearance of the fleet commanded by Commodore Perry in Japanese waters—finds thus its sequel in what will be reckoned not the least notable incident in the inspiring time in which we live. This visit of the representatives of our great Pacific neighbor and ally gives to the citizens of New York the occasion and opportunity to manifest that open-hearted and cordial appreciation they feel of the message that comes to them from the Far East, and to express in becoming form their sense of the nobility of spirit and purpose of the Government of which our distinguished guests are the selected representatives.

Wherefore I, John Purroy Mitchel, Mayor of the City of New York, do hereby direct that the flag of our ally, Japan, be flown upon the public buildings of the city throughout the visit of its guests, and I call upon the people of the city to celebrate this occasion for the closer cementing of the traditional friendship between this nation and Japan by a befitting decoration and illumination of their buildings, displaying therefrom beside the flag of the United States the national colors of Japan and the nations with whom both are allied.

JOHN PURROY MITCHEL, Mayor.

Viscount Ishii and his colleagues of the Japanese Mission arrived from Washington on Sept. 28 at Communipaw shortly before 3 o'clock in the afternoon, where they were met by the Mayor's Citizen Reception Committee, headed by Judge Elbert H. Gary, as Chairman, and including E. H. Outerbridge, President of the Chamber of Commerce, and William Fellowes Morgan, President of the Merchants Association. The United States Government was represented by Breckenbridge Long, Third Assistant Secretary of State, who presented the members of the Commission to the members of the reception committee. The commissioners were brought across the North River on the police boat Patrol, which arrived at the Battery amid the salutes of whistles and sirens of river craft and the cheers of a great crowd massed around Battery Park. The visitors entered motor cars and were driven up Broadway to City Hall Park, which had been converted into a court of honor for the occasion. They were then escorted to the Aldermanic Chamber of the City Hall, where Viscount Ishii and his colleagues listened to speeches by Mayor Mitchel and Judge Gary. Mayor Mitchel in welcoming the commissioners, alluded to the long-standing friendship of Japan and America and declared that America was proud of the fact that "her own enterprise, her own progress, her own science, crafts, and learning gave no small impetus" to the inspiration of modern Japanese development. The Mayor next introduced Judge Gary, who welcomed the visitors to the city, and, in the course of his address, took occasion to answer the oft-repeated allegation of the German Government that "Germany is fighting for her life" by declaring that Germany was fighting for her life in much the same way as a highwayman caught in the act of robbing and murdering a law-abiding citizen. Judge Gary's remarks, according to the "Journal of Commerce" of this city, were in part as follows:

Gentlemen of Japan, you appear among us under the most distressing international conditions. The god of war, for the moment, controls and is shaping the destinies of nations. The atmosphere of the world is charged with the currents of animosity, of strife, of destruction, of greed. The leading nations are engaged in the bloodiest and most destructive of all wars. Most of them have been forced into participation; they would have stood aloof if consistent with honor and with safety.

Both Japan and the United States have every reason to regret the commencement and the continuance of this horror of horrors. They ardently hope for the early establishment of peace on a basis honorable and lasting. Neither can obtain comfort from a consideration of the contest except in the thought that it is in no respect responsible for its precipitation and in the belief that it may be of substantial assistance in securing a speedy termination.

Your countrymen and ours are alike in respect to their love of peace, their abhorrence of war. They would endure much and they would suffer long before they would enter the arena of military conflict. But those who are possessed of this character and inclination are the most terrible when driven to the point of battle in defense of life, property, honor or other sacred right. When fully aroused to the necessity of physical combat they are superlatively stubborn, vigorous and effective.

We insist our ideas are the antitheses of those entertained by the Imperial Government of Germany. If we may rely upon the writings of leading men and the reported performances of the soldiers, apparently approved by the Government, the rulers of the German Empire advocate the doctrine that any aspiration may properly be realized by the exercise of physical power—that might makes right. On the contrary, we believe we are not justified in seeking to acquire anything we desire or need unless the same is supported by the fundamental principles of right and justice.

Germany proclaims that she is fighting for her life. This is true only in the sense that a bandit is fighting for his life when suddenly overtaken in the attempt to appropriate the property and destroy the life of a law-abiding citizen. Late developments furnish evidence that the Imperial Government of Germany for a considerable period preceding the war was conspiring to violate the rights of weak and inoffensive nations. The tyranny of this enemy of civilization is to be dreaded by the smaller nations; but we have no fear for we are right and we are strong.

We do not overlook nor minimize the fact that we are confronted by a long, stubborn, systematized struggle, supported by years of study and preparation. The enemy is in possession of territory and property and routes which, if retained, would be more than satisfactory; and with existing equipment and strength these positions, or a substantial part, may be for some time successfully defended against a powerful offensive. However, if each one of the Allies exerts itself to the utmost, patiently but persistently and continuously, the opposing armies will, in due course, be overwhelmed and conquered.

Of the full part the Japanese are intending to contribute to the present war they alone are competent to declare. It is certain they will do their duty in accordance with the traditions of their race; and it is equally sure they will fight to the last dollar and to the last available man before they will submit to the arbitrary and cruel dominance of the Prussians.

As to the United States of America, she is keenly alive to the situation. She was compelled to take up arms as a matter of principle. She demands the freedom and safety of the high seas, the right on the part of all unprovoked peoples and countries to live in peace, unmolested and unafraid, and the firm establishment of a basis for a comprehensive, certain and speedy settlement of all international disputes in accordance with the rules of exact justice.

And the United States will measure up to all her obligations in this international crisis. She is mobilizing all the resources of the country for war purposes. She can, within three or four years, furnish fifteen million men, well trained and fully equipped for battle; and she can within the same time provide one hundred billion dollars without crippling her financial strength or interrupting her industrial progress. If necessary, she will do both. Yes, and more.

And so, gentlemen of Japan, we hail you as envoys of a friendly nation whom we respect and admire, not alone because of what it has been and has done during the many centuries of the past; nor because it now stands in the front ranks of the greatest and most potential of all the nations; but more for the reason that it has in numberless ways demonstrated that it is the friend of the United States and in turn recognizes our friendship.

At the conclusion of Judge Gary's remarks, Viscount Ishii made a short address stating that the Commission was very thankful for the reception accorded it. He also dwelt on the wonders of American enterprise that he had viewed, spoke of the wonderful growth of New York City, and said finally, according to the New York "Sun":

All that is physical fades from me and I see here the spirit of the greatest city of the Western world meeting and giving a friend's greeting to the spirit of my beloved land on the open field of honest purpose. There is perhaps more in this welcome and in this response than in other greetings so recently exchanged in this historic place between the representatives of Western nations and of your city.

Your great Goddess of Liberty has given us the challenge and has passed us as friends. And now the city of our dreams, which has trained our youngsters into students and scientists or taught our men the wonders of finance and trade; the city which to-day is the very core of the created world, has paused for a precious hour to welcome us and do us honor.

Sir, we are very proud and deeply conscious of the meaning of this reception and welcome. We shall use the freedom you have given us with care, and we shall hope to hold its rights and privileges always to commemorate this day of great rejoicing and of vast importance in the history of the two nations. You, sir, and the people of your city, have our most sincere congratulations upon your wonderful achievements and our deepest gratitude for this reception.

After the City Hall reception, the distinguished visitors were escorted to Washington Square, where women employees of John Wanamaker presented to them a flag of the City of New York, an American flag and medals emblematic of the occasion. The commissioners then motored up Fifth Avenue, where the old "Fighting Sixty-Ninth" Regiment, now the 165th, were lined up on the east side of the Avenue from Twentieth Street to Thirty-fourth Street to do the visitors honor. The Commissioners proceeded to the Union League Club, where various well-known New Yorkers were waiting to greet them. The reception party and its guests reviewed the old "Sixty-ninth" from a reviewing stand, after which Viscount Ishii and other prominent members of the Japanese Mission were taken to Judge Gary's residence, where they resided during their visit in this city. On Friday evening, Sept. 28, Judge Gary gave a dinner at his residence in honor of the mission to about twenty guests. After dinner there was a reception and a musicale for about 200 persons.

On Friday morning, Sept. 28, the members of the Japanese Mission were taken on a sight-seeing trip around the city, including a short visit to the Stock Exchange, and afterward attended a luncheon and reception at the Chamber of Commerce, where several hundred of the foremost business men and financiers of the city gathered to greet the distinguished visitors. Mr. Outerbridge, President of the Chamber of Commerce, presided at the reception. Addressing the audience, Mr. Outerbridge explained that the reception was held to permit the representatives of the great financial and commercial interests to extend the hand of welcome and fellowship to the members of the commission and that the members of the Chamber appreciated the coming of a Japanese mission to bring about better co-operation in winning the war against Germany. He said in part:

We appreciate the courtesy and the honor that their nation has shown us in sending so distinguished a body of men on the long journey across the Pacific and the American Continent to confer with our Government at Washington in order that we may the better co-operate in our efforts to bring to a speedy and successful conclusion the great war in which we are now both engaged.

We believe that this visit which you have paid us will accomplish far more than merely a better co-operation in the prosecution of the war; we believe it will cement and perpetuate that ancient and long existing friendship; we believe that it will have demonstrated to all those, whether foes abroad, alien enemies at home or recreants masquerading, alas, under our own citizenship, who have tried to let loose poisonous gases of innuendo and suspicion to raise, as it were, a chilling mist between us, that their efforts have been brought to naught, and we believe that from this time forth the representative people of this nation and of your nation will see to it, no matter how drastic the measures may be that may have to be adopted to prevent those insidious evils, that it is the firm resolve of our people that this ancient friendship shall be kept ever true, warm and glowing.

In the great period of reconstruction and commercial expansion that must follow the close of this war, we realize that in the Far East your nation must play a most prominent part.

In the great Chinese Republic lying close at hand to you, where, notwithstanding its most ancient culture, philosophy, religion and art, nevertheless the masses of its people are but children in the knowledge of industrial art and production, as we of the Western world and as you have conceived and realized it, we see a great field and a great future for our mutual effort.

It is a field in which we must co-operate in the same spirit of mutual confidence and upon the same high ideals in which we propose to co-operate in the prosecution of the war.

Viscount Ishii, responding to President Outerbridge's remarks, said:

To but few men comes such opportunity. I can only hope that it may be in my power to impress you with some small sense of my own appreciation of the obligation under which you have placed my associates and my countrymen. I would be a proud man indeed if some power could give to me the gift of speech to make reply in kind to your gracious and eloquent words, but I am confronted by the thought that no words coined or strung together could in any language convey even a small sense of our appreciation.

Since our arrival in America we have not only been impressed but compressed by the gigantic measure of your resources and your preparations to stop the war by providing the only means by which it can be stopped—the complete, utter physical defeat and annihilation of Germany. But I assure you that we are with you as your allies, your comrades and your partners in the winning of this war which means so much to all the world.

You will be satisfied that Japan has done, is doing and will do her share in such manner as to justify her in claiming a place in the company of honest men.

We have been friends, sir, for some fifty years. We propose to strengthen that friendship. We have earned a right to it by the true history of the past and we propose to hold it through all the years that are to come, for we value it far too highly to risk its loss. In these fifty years of great development for you and for us we have met in the market place, and, as time went by, the understanding grew. We have tasted of your gracious hospitality on other occasions. We have learned from you the ways of the West and of the Street; but, sir, those were different times and different inducements. Hitherto we have come to you, as you have come to us, with something to sell or something to buy; something to give and something to take. Hitherto it has been the cry that trade and commerce exchange and mart would bring us to a better understanding, and it has; but to-day there is something more—East meets West on common ground. "That Royal Hawk, the sun, has flown from the Orient's hand and lighted in the West." The same sun glorifies the stars and is blazoned on the snow-white fields of "your flag and my flag as they fly to-day; on your land and my land half a world away." This is the day of the gathering of the clans of the East and of the West. The day has dawned in which the yesterday is forgotten; when old prejudices, old misunderstandings fade and you greet us as we greet you—old friends and new made brothers in the struggle for human liberty, human freedom and national existence.

At a dinner at the Ritz-Carlton Hotel on Friday evening, Sept. 28, where the Executive Committee of the Mayor's Reception Committee was the host, Mayor Mitchel presided, and Governor Whitman welcomed the mission in behalf of New York State. The ballroom of the Ritz-Carlton was very attractively decorated for the occasion, Japanese artists having transformed it into a garden of old Japan. Mayor Mitchel, who presided, after he had proposed the health of the President of the United States and of the Emperor of Japan, which were drunk while the orchestra played the national anthems, remarked:

When the Italian mission was here I told them New York was the greatest Italian city in the world, having 800,000 of the people of that nation in its population. We cannot speak in such numbers to our present visitors, as we only have about 1,500 Japanese in our city, but we can assure them they are among the most respected, law-abiding and substantial of our citizens.

Governor Whitman, after welcoming the members of the commission on behalf of the State, referred to the union of Japan and America in the war. Senator Robert L. Owen of Oklahoma also spoke at the dinner, declaring that the "enemies of Japan and the United States" had "sown the seeds of doubt and suspicion" in the two countries. After the dinner at the Ritz-Carlton the Japanese commissioners attended a reception and supper at the Hotel Astor, given by the Japan Society. One of the most brilliant bodies of notables ever assembled in New York City, it is said, attended the affair; included among them were State and city officials, generals and admirals of America and Japan, numerous diplomats and others of equal prominence in the official, political, literary and social world. Lindsay Russell, President of the Japan Society, acted as toastmaster at the supper and also made the address of welcome at the reception. He explained that the purpose of the Japan Society was to disseminate the truth about Japan. Governor Whitman and Dr. John H. Finley, Commissioner of Education, also spoke. Dr. Finley unfurled in the view of those in the banquet hall the flag which was presented to Commodore Perry by the Japanese Government upon the occasion of the visit of that famous naval officer to Japan. Viscount Ishii, in responding to the addresses of welcome, declared Germany had deliberately attempted to bring about misunderstanding between Japan and the United States. He said, according to the New York "Herald":

I bring to you from your branch organization and the people of Japan a message of greeting, together with the assurance that we have watched with deep interest the growth of this splendid organization and the ever increasing good work you are doing in the cause of good understanding between the people of our two countries.

I thank you on behalf of my associates and for myself for your most gracious words of welcome. Your allusion to what this mission has accomplished and may accomplish for the future relations of Japan and America naturally is most gratifying to me. If we have made new friends, if we have succeeded in exposing to the American people the main causes of our mutual misunderstandings in the past, and if, as a result of this visit, the two peoples will but see that the distrust, suspicion and doubt are the result of careful German culture throughout the last ten years, we will have done much for ourselves and for you.

The strange thing about all this muddle of misunderstanding in the past years is that we have discovered a common characteristic in both peoples.

We have both been too confiding and at the same time too suspicious and sensitive. We have harbored the German and we have received him as a mutual friend. His marvellous self-centred and ordered existence, his system, his organization and his all-pervading self-assertion, coupled with the insistence of the greatness of his Fatherland, have applied to us until in a state of hypnotic sleep we have allowed him to bring us almost to the verge of mutual destruction. The agent of Germany in this country and in ours has had as his one purpose the feeding of our passions, our prejudices and our distrust on a specially prepared German concoction, until, drugged and inflamed, we might have taken the irrevocable step over the edge, and at his leisure the vulture might fatten upon our remains.

This is not a picture overdrawn; it is true.

It is as easy for Americans to understand the Japanese as it is for the Japanese to understand the Americans. True, our languages differ, our standards are not quite the same and our lives are cast on different lines, but the human heart all the world over, is just the same, provided the great tenets of truth, honor and right justice have been instilled into a nation's or a people's mind through the centuries and the generations of time. The test of our relations comes in the sacrifices we are ready to make when interest and profit run counter to honor and right. That test has been applied in the past and as it must be applied in the future, and we of Japan have neither doubt nor fear but that when the sharpest test is put on this great country's friendship American honor will stand the heaviest strain.

Ladies and gentlemen, there are no differences between us save those differences which always arise and are easily settled between the best of friends, being without a thought of suspicion or distrust.

We shudder to look around us now at the menace we have so narrowly escaped. But in the ordering of this wonderful world in which we live a common need in a world holocaust of horror has brought us closer together, drawn by the swords of human sympathy, human love of justice and human love of liberty, and because of our mutual needs in the future there need be no fear of the loosening of the golden cord that now and forever holds Japan to America.

The members of the Japanese Mission, accompanied by the Executive Committee of the Mayor's Reception Committee, sailed up the Hudson on Sept. 29 to West Point, where as the guests of Colonel Samuel E. Tillman, the Superintendent, they reviewed the West Point cadets. An official dinner was given in honor of the Mission at the Waldorf-Astoria Hotel by Mayor Mitchel on Saturday evening, Sept. 29. The dinner was a brilliant one, and was attended by hundreds of representative New Yorkers and other well-known figures. Viscount Ishii in the address of the evening, declared that the doors of China and Japan are always open to the United States, that American trade is welcomed in those countries and that all stories of Japan's program for the absorption of China to the exclusion of the rest of the world were lies weaved by German conspirators. The Viscount also declared that Japan will not seek to assail the integrity or sovereignty of China, but eventually will be prepared to defend Chinese independence against any aggressor. Realizing that nature had given it an advantage in the matter of Chinese trade by means of which it was bound to succeed "unless we are very stupid or very inactive," Japan, he said, welcomed "fair and honest competition in the markets everywhere." Viscount Ishii said in part:

The door is always open. It has always been open; it always must remain open, not only to the guest who comes to trot around our little island for a round of pleasure but to the representative of these vast commercial interests represented so well in this great gathering of kings of commerce.

In spite of all the efforts to make you believe that Japan as she grew stronger was always trying to close the door, I tell you that there never has been an hour when our common sense or our sense of our own responsibility failed us. Why close our door in violation of our pledges or endeavor to close our neighbor's door, when we are in honor bound to protect it? The opportunity for you to trade in Japan or China has never been an equal opportunity in its literal sense.

As you went far afield and brought us knowledge of the West, taught us how to grow and how to trade so we, as we gained wisdom, knowledge and strength went into other fields to trade and to learn. We went to China, where the door was open to us as to you, and we have always realized that there nature gave us an advantage. There was no need, there is no need to close that door on you, because we welcome your fair and honest competition in the markets everywhere. We are trading there where we have a natural advantage and where, unless we are very stupid or very inactive, we are bound to succeed, and we are trading here where your advantage is equally and naturally as great.

The Pacific Ocean is our common highway. The highway has been swept by our ships of the pirates of the seas so that our countries' trade may continue and our intercourse be uninterrupted. We guard the Pacific Ocean together with our ships, but more than this and better than the ships or the men or the guns is the assurance of the notes exchanged between your Secretary of State Elihu Root and our Ambassador Takahira in 1908, in which it was mutually agreed and "formally resolved to respect the territorial possessions belonging to each other in the region of the Pacific Ocean."

Gentlemen, Japan is satisfied with this. Are you? If so, there is no Pacific Ocean question between us. We will co-operate. We will help and we will hold, each of us, what is guaranteed under that agreement.

Viscount Ishii and his colleagues on the Japanese Mission were guests of the Japanese of the city on Sunday, Sept. 30. The commissioners were entertained by the Nippon Club and the Japanese Association at the Nippon clubhouse and at Carnegie Hall, and on Sunday evening both the club and the association joined forces and gave a dinner at the Hotel Astor for the visiting commissioners. On Monday, Oct. 1, the Bankers' Club entertained the members of the Japanese Mission at luncheon in its rooms in the Equitable Building. About one hundred members and guests attended, and Judge Gary acted as toastmaster. On Monday evening Viscount Ishii and his associates were entertained at dinner by Oswald

Garrison Villard at the St. Regis Hotel. Editors and publishers of about sixty representative newspapers and magazines of the eastern section of the United States attended the dinner. Addresses were made by Viscount Ishii, Mr. Villard, Comptroller William A. Prendergast, John Dewey, a member of the faculty of Columbia University, Don C. Seitz of the New York "World" and Aimaro Sato, Japanese Ambassador to the United States. Viscount Ishii in the course of his address requested the press of the United States to correct the interpretation given to his speech at the Mayor's dinner at the Waldorf-Astoria that Japan, in pledging not to violate the political or territorial integrity of China, had established "a Monroe Doctrine in Asia." He said:

In a speech on Saturday night I made particular reference to the policy of Japan with regard to China. This reference took the form of a repetition of the pledge and promise that Japan would not violate the political independence or territorial integrity of China; would at all times regard the high principle of the open door and equal opportunity. Now I find that this utterance of mine is taken as the enunciation of a Monroe Doctrine in Asia.

I want to make it very clear to you that the application of the term Monroe Doctrine to this policy and principle, voluntarily outlined and pledged by me, is inaccurate. There is this fundamental difference between the Monroe Doctrine and the enunciation of Japan's attitude toward China. In the first, there is on the part of the United States no engagement or promise, while in the other Japan voluntarily announces that Japan will herself engage not to violate the political or territorial integrity of her neighbor.

Therefore, gentlemen, you will mark the wide difference and agree with me, I am sure, that the use of the term is somewhat loose and misleading. I ask you to note this with no suggestion that I can or any one else does question the policy or attitude of your country, which we well know will always deal fairly and honorably with other nations.

As you must have noticed, I have persistently struck one note every time I have spoken. It has been the note of warning against German intrigue in America and in Japan—intrigue which has extended over a period of more than ten years. I am not going to weary you with a repetition of this squalid story of plots, conceived and fostered by the agents of Germany, but I solemnly repeat the warning here.

Ambassador Sato told of the difficulties he had experienced because of the activity of the jingo press in this country. He said:

Time was—and it has been long and weary, too—when black intrigues and blatant propaganda against the American-Japanese amity lorded it over the popular sentiment of your people. But that time, thank Heaven, is no more.

Several of the members of the Japanese Mission on Oct. 3 visited Colonel Roosevelt at Oyster Bay. After a walk about the Colonel's estate the visitors took luncheon. Viscount Ishii went to Atlantic City on the 3d to recover from a severe cold, and was not present at the informal reception at Sagamore Hill. The rest of the Mission later joined the Viscount at Atlantic City, where they will rest for a few days before starting for Japan.

The Japanese Mission shortly before coming to New York City visited Philadelphia, Newport, R. I., and Boston, where they also received a hearty welcome. Secretary of State Lansing, on Sept. 24, when pressed to give some indication of the progress of the conferences with the Japanese Mission which had been in progress since the Mission's arrival in this country, made the following statement:

The conversations with Viscount Ishii have been of a most satisfactory character, and I think his visit to this country has been most helpful in benefiting relations between the two countries and in strengthening the bonds of friendship.

Viscount Ishii and other members of the Japanese Mission were received on the floor of the House of Representatives at Washington on Sept. 5. The Viscount, as special Ambassador from Japan, addressed the House pledging "the assurance of the comradeship and the co-operation of Japan" in the war against Germany. He also gave warning to the House to be on guard against the insidious treachery "that has found hiding places in our midst and which for the last ten years has sown the seeds of discord between us."

FURTHER EXPOSURE OF GERMAN DUPLICITY— CONGRESSIONAL ACTION.

The statement issued on Sept. 21 by Secretary of State Lansing revealing that Count von Bernstorff, while German Ambassador at Washington, had on Jan. 22 sent a message to the Berlin Foreign Office requesting authority to spend \$50,000 to influence Congress, through a certain organization, has led to Congressional investigation. Secretary Lansing's exposure added another chapter to the story of German duplicity begun with the publication of the Zimmermann note, in which Germany proposed an alliance between Mexico and Japan against the United States, and which has included the German-Swedish breaches of neutrality in Argentina and Mexico. A sensation was created in the House on Sept. 21 by Representative Thomas Heflin of Alabama, when he asserted that he could name thirteen or fourteen members

of the two branches of Congress who had acted suspiciously. Aroused over Mr. Heflin's assertion, the House on Oct. 5 ordered an investigation by a committee of his charges. The resolution was offered by Representative Stephens, of Mississippi and was adopted without a roll call. The resolution provides for a committee of five, which has been appointed by the Speaker, and which will report its findings before adjournment.

Secretary Lansing on Sept. 22 issued a short statement setting forth the view of the Administration that the exposure did not mean that members of Congress were held in suspicion by the Executive branch of the Government. The statement, which was taken in some circles as indicating that the Administration did not desire a Congressional investigation, read as follows:

If there is any misunderstanding, I wish to say emphatically I do not see how the Bernstorff message in any way reflects upon Congress or any member. Apparently it was the purpose to employ agencies to influence them, of which they would have no knowledge, and in case they were influenced would be entirely innocent. I do not know what the organization was. This expose is apropos of German methods of peace propaganda, and there is no intention of casting suspicion on members of Congress.

What purports to be additional proof of the nation-wide plots in which Germany violated the neutrality laws of this country prior to the entrance of the United States in the war, was given in a lengthy statement issued by the Committee on Public Information on Sept. 22. The statement included documents seized in April 1916 by the agents of the Department of Justice when they raided the "advertising" office at 60 Wall Street, this city, conducted by the German spy, Wolf von Igel. The documents revealed the names of various Americans who were alleged to be working in friendly relations with the German propagandists. Some of the more prominent men named in the documents were Justice Daniel F. Cohalan of the New York State Supreme Court, John Devoy, editor of the "Gaelic American"; Sylvester Viereck editor of "Viereck's Weekly," Jeremiah A. O'Leary, editor of the "Bull," President of the American Truth Society, and widely known agitator against England; Edwin Emerson, magazine writer and war correspondent; Marcus Braun, editor of "Fair Play;" Paul Koenig, formerly head of the secret service of the Hamburg-American Line, and now confined in an internment camp; and Carl Heyman of the Hamburg-American Line. A letter signed in cipher and marked "very secret," portrayed Judge Cohalan as the adviser of the German Government in the matter of the Irish revolution. The alleged Cohalan message found in the von Igel documents, and made public by the Committee on Public Information, read as follows:

No. 335-16.

Very secret.

New York, April 17 1916.

Judge Cohalan requests the transmission of the following remarks:

"The revolution in Ireland can only be successful if supported from Germany, otherwise England will be able to suppress it, even though it be only after hard struggles. Therefore help is necessary. This should consist, primarily, of aerial attacks in England and a diversion of the fleet simultaneously with Irish revolution. Then, if possible, a landing of troops, arms, and ammunition in Ireland, and possibly some officers from Zeppelins. This would enable the Irish ports to be closed against England and the establishment of stations for submarines on the Irish coast and the cutting off of the supply of food for England. The services of the revolution may therefore decide the war."

He asks that a telegram to this effect be sent to Berlin.

5132

8167

0230.

To his Excellency,

COUNT VON BERNSTORFF, Imperial Ambassador.
Washington, D. C.

Justice Cohalan on Sept. 23 issued a statement, according to the New York "Times," denying that he had suggested to the German Government that air attacks be made on England. He declared that he never met or knew of von Igel, the German spy, and had never made the remarks attributed to him. His statement read:

In May 1916 very shortly after the revolution in Ireland, I was warned by one who had the entree to the British Embassy that the British authorities were determined, if possible, to destroy me, as they would like to destroy every well-wisher of Ireland. I was later informed that about May 6 1917 it was stated in the British Embassy, in the presence of Chase Leslie, Lord Eustace Percy, Captain William J. Maloney, and one or two others, that what they had in mind to do against me would prove to be a boomerang and injure their interests in this country.

It is within the recollection of most of us that they attempted to kill Parnell by use of the forged Pigott letters and that they waited until they hanged Casement before they began to print his forged alleged diary.

How much England has had to do with the publication of the unsigned statement of an unnamed third party of my alleged views I do not know. But I do not know, and I cannot understand how my name was connected with any papers of Mr. von Igel, as I never met or knew him and never heard of his existence until the time of his arrest. I never sent or requested the sending of the remarks which are attributed to me.

There is little necessity of my saying that I heartily sympathize with those who fought for liberty in Ireland, and I hope that one of the results of the war may be that Ireland may be helped by America to take her place among the republics of the world.

In my opinion, as an American who yields to no man in devotion to this country of ours, a grave error of judgment is being made by those who

attack the loyalty of citizens of Irish blood. This is a time for unity and not for disruption.

I pointed out in Carnegie Hall on last Easter Sunday that the record of the Irish throughout the entire history of the country has been one of unconditional and unqualified loyalty, and that whatever their sympathies in the great world war had been before our entrance into the struggle, they are now, as they have always been, for America, first, last, and all the time.

Secretary Lansing on Sept. 23, without comment, made public another series of disclosures of German intrigue, this time revealing how Germany "shamefully abused and exploited" the protection of the United States by secreting in the German Legation at Bucharest, Rumania, after the American Government had taken charge of Germany's affairs at the Rumanian capital, quantities of powerful explosives for bomb plots, and deadly microbes, which they were to use in destroying horses and cattle. Secretary Lansing's exposure consisted of an official report by William Whiting Andrews, American Charge d'Affaires in Bucharest, and documents from various Rumanian officials, disclosing the fact that the German Government had smuggled into its Legation at Bucharest high explosives and microbes, which were discovered buried in the Legation grounds and hidden in the Legation building.

Following a heated debate over the assertion of Representative Heflin that he could name thirteen or fourteen members of the House who had been influenced by German propaganda, two resolutions of investigation were introduced in the House on Sept. 24 and were referred to the Rules Committee. One, proposing an inquiry of the Heflin remarks only, was introduced by Representative Fordney of Michigan. The other, providing an investigation of whatever information either Representative Heflin or Representative Howard of Georgia, who had also been quoted as stating that he could lay his hands on German-influenced members of the House, might have on the matter, was introduced by Representative Norton of North Dakota. Representative Heflin appeared before the Rules Committee on Sept. 27 and mentioned the names of five members of Congress whose attitude toward the American cause he questioned, and said he would like to have a thorough investigation of the organizations which had indorsed certain bills which they had introduced in Congress. The five members of the National Legislature mentioned by Mr. Heflin, were Senator La Follette of Wisconsin, and Representatives William E. Mason of Illinois, Fred. A. Britton of Illinois, Patrick D. Norton of North Dakota, and John M. Baer of North Dakota.

The House Rules Committee on Sept. 28 decided not to recommend that the House order an investigation into the alleged use of German money in influencing legislation in Congress. Chairman Pou, of the Rules Committee, issued the following statement:

In view of the information which the committee on rules has received of a nation-wide investigation of the use of the money furnished by the German Government now being conducted by the Department of Justice, the committee on rules has decided to take no action on the several resolutions now before it.

Following Mr. Pou's report, a bitter parliamentary debate ensued in the House, in which the Democratic leaders for the time being succeeded in quashing talk of an investigation. In the height of the debate a personal encounter took place between Representatives Heflin and Norton. Mr. Norton had invaded the Democratic side of the House to take Heflin to task for some statement about German-influenced Congressmen, and the latter tried to push him away. A scuffle ensued, but the belligerents were soon separated by their colleagues on the floor in the House. Careful management by House leaders prevented the wrangle over the German "slush fund" from getting beyond a threatening stage until Oct. 4 when the subject was again taken up. Representative Mason, of Illinois, on the 4th in a personal privilege speech defended himself against the aspersion cast upon him by Mr. Heflin. The resolution providing for the inquiry into Mr. Heflin's unproved reflections upon the honor and integrity of various members of the House, was, as heretofore stated, adopted on the 4th inst. Speaker Clark later appointed the following committee to make the investigation: Representatives Bardhart, of Indiana, Chairman; Venable, of Mississippi; DeWalt, of Pennsylvania; Longworth, of Ohio; and Walsh of Massachusetts. The committee began its inquiry yesterday (Oct. 5).

CARDINAL GASPARRI ON POPE'S VIEWS CONCERNING DISARMAMENT AND CONSCRIPTION.

The cables from Rome on Sept. 22 stated that following the receipt of the awaited reply of the Allies to Pope Benedict's

peace note the Pope would again address a note to all the belligerents. It was further added:

It is understood that the next Papal note will virtually embody views expressed by Cardinal Gasparri, the Papal Secretary of State, to The Associated Press to-day in commenting upon the situation after the publication of the reply of the Central Empires to the Pope's note.

"President Wilson's proposal to reduce armaments and impose international arbitration by force through a society of nations is a dream," said Cardinal Gasparri. "An international army to enforce the verdicts of the court of arbitration? In which country would it be located without being influenced by local politics and prejudices? The moon is the only place possible.

"All the other inconveniences and objections could be avoided by suppressing conscription, with the proviso that it could not be re-established without a law approved by the people, which in normal conditions would be improbable, indeed, morally impossible.

"To this some would object that certain governments first would declare war and then present a bill to Parliament for the adoption of conscription and the formation of a large standing army, which Parliament undoubtedly would pass from patriotic motives. All this would be possible, but it would be difficult as such a government first would have to violate a treaty signed in conjunction with all civilized nations. Then, it would not always be possible to induce Parliament to vote large military appropriations.

"Even Bismarck found this to be true several times, but especially when the party of the Centre succeeded in January 1887 in defeating an increase in the German Army of 41,000 men yearly, which so angered the Iron Chancellor that he dissolved the Reichstag.

"Under conditions we propose, the nation attempting to violate a treaty with the civilized world would be immediately threatened by a general economic, commercial and financial boycott. Thus, only a mad government would run such a risk. The suppression of conscription would lead automatically and without any disturbance of public order to disarmament, namely to the end of militarism, bringing beneficial consequences for international peace and also the restoration of economic and financial conditions in the countries exhausted by the present war.

"The Holy See always has opposed conscription. We always refused to introduce it in our own army when the Pope was a temporal sovereign. Besides, England and the United States are the most splendid examples of how great powers can exist without standing armies, but even these two countries, despite their colossal resources, once war was declared, required a long time before being able to form a large army.

"If all the states were in the same condition during the time necessary to prepare weapons, such a long period would elapse as to render it possible for friendly intervention with a view to avoiding conflict.

"Finally, the whole world in addition to the suppression of obligatory military service should proclaim the principle that no head of a State, emperor, or king, or president of a republic, should have the right to declare war without first consulting the people, preferably through a referendum or at least, through the Parliament.

"Conscription is one of the hideous burdens of a free people, both as regarding financial expenses and personal liberty, besides being an inevitable war breeder. Thus we saw Australia rejecting conscription by referendum although the feeling in Australia for the mother country was most loyal.

"Perhaps even England, the United States, and Canada would have refused conscription if the people had been consulted through a referendum. The law which introduced it for the duration of the war provided for its suppression immediately after the conclusion of peace.

"It is now evident that in the present conflagration there is no question of victor and vanquished, no question of absolute military success which no group of belligerents seems able to secure over the other, but the question is to find an equitable solution for satisfying the people of both sides with a view to avoiding graver catastrophes of a social and financial character.

"The war must end through our mediation or the good offices of other neutrals. The objection made by President Wilson is easily overcome, as the people of the Central Powers, as well as those of the Allies, are ready and willing to give all guarantees for the fulfillment of conditions leading to a just and lasting peace."

In reporting that doubt was expressed at the State Department at Washington as to the authenticity of the above statement of Cardinal Gasparri, the New York "Times" in a special dispatch from Washington on Sept. 24 said:

Doubt was expressed at the State Department to-day as to the authenticity of the statement attributed to Cardinal Gasparri, the Papal Secretary of State, in the interview printed on Sunday morning.

The Department does not hold that the interview had no basis, but believes that some mistake was made. The interview referred to is the one in which the Cardinal was quoted as saying that "President Wilson's proposal to reduce armaments and impose international arbitration by force through a society of nations is a dream."

According to Associated Press dispatches of the 1st inst. from Paris, the "Eclair" publishes a letter from Cardinal Gasparri, to Bishop de Gibergues of Valence, concerning the reception accorded to the Papal peace note, in which the Papal Secretary expresses the satisfaction of Pope Benedict at the sentiments of the Catholic clergy of France, which, the letter says, "is all the more agreeable to his Holiness since the contrary attitude of the French press in general is inexplicable. If there are nations specially favored in the Papal note, they are France and Belgium." In their account of the letter, the dispatches further say:

The letter, which is dated Sept. 10, remarks that France certainly cannot take exception to the first two points of the Papal note, concerning disarmament and obligatory arbitration, and continues:

The Pontifical note is couched in general terms, and does not exclude reparation for such damages. But, even setting aside the enormous difficulties of establishing with precision in all the sectors of the war the damages caused needlessly by the fault of military commanders, it is for France to judge if it is suitable for it, even in the hypothesis of victory, to prolong the war, were it only for one year, to require of the enemy reparation for these damages, with due account taken of the losses in money and men and the heaps of ruins in which the war would leave the Belgian and French territory now occupied.

Cardinal Gasparri's letter lays stress upon the fact that the Papal note desires that French territory be immediately evacuated completely. It then says that the Pope does not and could not propose any solution concerning Alsace-Lorraine. It adds that the Pope expresses hope that

France and Germany will examine in a conciliatory spirit the aspirations of peoples, taking into account what is just and possible. Finally, the letter contends that the Pope's note favors France in different points and offends it in none.

GEN. KORNILOFF NOT ABSOLVED FROM BLAME IN RECENT RUSSIAN UPRISING.

The statement that the Russian Provisional Government has not absolved Gen. Korniloff of all blame for the recent revolution, is made by the Committee on Public Information at Washington, the information imparted by the latter being based, it is stated, on official advices from Russia. We quote what the committee had to say in its daily publication, the "Official Bulletin," on Sept. 28:

Official advices from Russia make clear that the Provisional Government has not, as was recently reported in the press of this country, absolved Gen. Korniloff of all blame for the recent uprising. The Committee on Public Information is authorized to state that a judicial inquiry to fix responsibility for the attempt to overthrow the Provisional Government has been begun and that the authorities in Petrograd will be guided by the result of this investigation.

Dispatch from Foreign Minister.

Following is a dispatch, bearing on this subject, which has been received from the Russian Minister of Foreign Affairs:

"After the appointment of Gen. Korniloff to the post of Commander-in-Chief of the Russian Armies, a series of exchanges was begun between the new commander and the Government in Petrograd with a view to instituting measures for strengthening the fighting power of the Army. Gen. Korniloff formulated a series of measures which he considered essential. Substantially all of these were approved by the Government. Only three important questions were left open. These were (1) the revival of capital punishment at the Army bases, (2) the enlargement of the war zone, and (3) the adoption of certain military measures in Petrograd.

Had Reached Decision.

"These matters were finally adjusted on Aug. 26, when the Provisional Government was prepared to announce a decision, based on an agreement which had been reached a few days previously in a conference between the acting Minister of War, M. Savinkoff, and Gen. Korniloff.

"Before the agreed policy of the Provisional Government could be publicly announced, the Ministry was astounded by the receipt of a demand from Gen. Korniloff that he be clothed with the powers of a dictator. This message was transmitted to the members of the Government on that same evening, Aug. 26, by a member of the Duma, Lvoff.

"These are the essential facts. The circumstances leading up to this action of Gen. Korniloff will be brought out in the judicial investigation now under way. The attempt to overthrow the Government, as is well known, met with complete failure. Minister President Kerensky is taking all possible measures to the end that Korniloff's rebellion and the attendant disturbances shall not interfere with the work of swiftly reestablishing the military might of Russia.

Takes Sweeping Measures.

"Simultaneously Minister President Kerensky, in taking supreme command of the Army, put into force sweeping orders, backed by the threat of drastic punishment, forbidding action on the part of soldiers' committees or similar military organizations against officers of the Army suspected of complicity in the Korniloff plot. The occasional instances of the breakdown of discipline in the Army, due to interference of these extra military organizations with the authority of the regularly constituted military commanders, there is reason to believe, will now entirely cease. The swift and complete collapse of the Korniloff rebellion prevented any possibility of a general disorganization of the military forces. The troubles reported are sporadic and quickly checked.

"The Korniloff uprising will not in any way alter the determination of the Petrograd authorities to carry out those measures for the enforcement of discipline and the restoration of the full fighting power of the Army which had been definitely decided on as necessary before Gen. Korniloff's attempt to overthrow the Government.

"(Signed)

TERESTCHENKO."

PREMIER KERENSKY'S NEW COALITION CABINET FOR RUSSIA.

Despite the demand of the Russian Democratic Congress that no step be taken in furtherance of Premier Alexander Kerensky's plans for a coalition cabinet without the sanction of the Congress, announcement was made in delayed Associated Press dispatches of the 4th inst. that the following unofficial slate for a coalition cabinet had been agreed on late Thursday night, after a long session of the present Cabinet and the others scheduled to occupy portfolios in the new one:

Premier—A. F. Kerensky.
Minister of Foreign Affairs—M. I. Terestchenko.
Minister of the Interior—M. Nikitine.
Minister of Agriculture—M. Masloff.
Minister of Labor—M. Skobeleff.
Minister of Supplies—M. Prokopovitch.
Minister of Finance—M. Bernatzky.
Minister of Religion—M. Kortasheff.
Minister of Public Welfare—M. Kishkin.
Minister of Trade and Industry—M. Konovaloff.
State Controller—M. Smirnoff.
Minister of Justice—M. Malyantovitch.
Minister of Education—M. Salaskin.
President of the Ecumenical Council—M. Tretyakoff.
Minister of War—Gen. Verkhovsky.
Minister of Marine—Admiral Verdervski.

It is stated that the Constitutional Democratic party, against which the Democratic Congress has been in opposition, is represented by Kishkin, Konovaloff, and Smirnoff. The portfolios of Foreign Affairs, War, Marine, and Interior remain unchanged. The Associated Press dispatches of last night say:

The Democratic Congress by a vote of 839 to 106 passed a resolution declaring that it is indispensable to constitute a strong revolutionary authority, which would follow the program of the Moscow Conference of last August, as the Congress construed it, and would carry out an active policy tending to the realization of a general peace. The Congress directed the Main Committee to choose five of its members to draft a scheme for forming such authority. The resolution was prepared by the committee representing all the parties in the Congress, and sets forth the views and principles agreed to by a majority of the Conference. The resolution was submitted to the Congress by M. Tsereteli, former Cabinet Minister.

The evening newspapers say that the preliminary parliament which the Democratic Congress has decided to set up will be a provisional body of a consultative, not legislative, character. It will be empowered, however, to consider questions of foreign policy. It will consist of 231 members, of which 110 will represent the Zemstvos and towns. The Government is to supply it periodically with all information concerning the situation in the country.

At a combined meeting of the Social Revolutionaries and the Peasants' Soldiers' and Workmen's Delegates on Sept. 26, a resolution was passed to the effect that the pending Democratic Congress elect a committee of its own which henceforth would constitute the Cabinet, superseding the present Provisional Government. It was decided to submit this plan to the Congress for a vote. The Bolshevik members, who were present, insisted that all the Cabinet members must belong to their party. The conservative elements declared that the Cabinet must be a coalition one, while the Moderates suggested a compromise. Their proposition was that there be a coalition Cabinet but it be responsible only to the Congress.

The Democratic Congress held its first session on Sept. 27 at Petrograd, 1,200 delegates from all parts of Russia being in attendance. All the members of the Provisional Government, headed by Premier Kerensky, were present. Premier Kerensky's address was largely a defense of the acts of the Government under his premiership. On the 3rd inst. the Congress declared its opposition to a coalition Cabinet. It first voted, 766 to 688, in favor of the coalition idea, but this vote was offset by the adoption to the resolution of an amendment providing:

(1) Against inclusion in the coalition of the bourgeois elements, particularly of persons concerned in the revolutionary movement of General Korniloff.

(2) Against coalition with the entire Constitutional Democratic party.

This move led to a lively discussion, which terminated in the final vote against coalition, 813 to 180.

In indicating the insistence of Premier Kerensky for a coalition Cabinet, the following dispatches were received from Petrograd by the Associated Press on the 4th inst.:

The "Russkai Volya" says the Government will only recognize the formation of a coalition Government. Premier Kerensky is reported to have resumed pourparlers with politicians and representatives of the bourgeoisie party.

The "Vechnee Vremya" says the list of new Ministers already has been drawn up and that Premier Kerensky has so informed the Workmen's and Soldier's Delegates. The latter are said to have replied that they are opposed to any reconstruction of the Government until it has been authorized by the congress.

This was followed last night, as indicated above, by the announcement of the new slate.

DR. VON KUEHLMANN ASSERTS THAT GERMANY WILL HAVE TO CONTINUE TO SPEAK BY THE SWORD.

In stating that he could not venture to say what would be the immediate outcome of Pope Benedict's steps toward peace, Dr. Richard von Kuehlmann, the German Secretary for Foreign Affairs, speaking before the Main Committee of the Reichstag, was quoted to the following effect in Berlin dispatches of Sept. 29 (via London) to the Associated Press:

"This courageous initiative of the Pope," said the Secretary, "will mark an epoch in the history of this tremendous battle of nations and will appear as an unfading page in the annals of Vatican diplomacy. The Pope threw the word 'peace' into the turmoil of battle at a time when events threatened to transform Europe into a place of bloodstained ruins.

"The German people and the German Government, whose consciousness of their strength and internal security always made it easy for them to emphasize their willingness to conclude an honorable peace, have reason to welcome gratefully the initiative of the Curia, which made it possible for them to set forth again their national policy in a clear, unambiguous manner. I say intentionally 'national policy,' as I hope and believe the reply of the German Government, both as regards its form and contents, embodies the desires of an overwhelming majority of the Germans.

"For our purely German development, the note is also a landmark. It is the first result of the collaboration between all the factors of the Government and the representatives of the German Parliament. That has been attempted here for the first time and with a cordiality that has no precedent, so far as I can see, even in purely parliamentary States."

This collaboration, added the Secretary, both with regard to its principle and results, was of a kind which a statesman having the German foreign policy at heart might regard with perfect confidence. He denied that there was in Germany to-day one policy of the Government and another policy of the people, and said that this legend could be destroyed if the Reichstag stood behind the policy represented in the reply to the Pope.

Dr. von Kuehlmann also denied that there existed in the Government divergences of opinion and aim among the leading men or between the Imperial Administration and the Field Marshals. All were working in the closest and most complete harmony, he said, and he gained the best impressions for the future from the harmonious collaboration which revealed itself between the Parliament and the Government on the question of the Papal note.

"The principles of the reply to the Papal note as presented by the Government," continued the Secretary, "appear acceptable to the representatives of all the parties. Consequently I believe I can say with full right that all attempts of the enemy to drive a wedge between the German people and the German Government on the question of the basis of our foreign policy and by the propagation of the fiction that the German people do not stand behind the Kaiser and the Imperial Chancellor will be repulsed in the most crushing manner by the support given to this document."

Referring further to the German note Dr. von Kuehlmann said:

"It stands like a strongly constructed building in which each stone is so firmly fixed that any attempt to remove it could react only to the injury of those who engage in the task."

Dwelling on the Pope's words, "peace on earth," he said:

"In Europe those words to-day sound like an echo of long-forgotten times, yet they are no echo but are even to-day more than a geographical expression of mere sentiment. They are the outcome of a state of things which is the growth of a thousand years."

"A little, strongly-peopled peninsula on a mighty continent once held the domination of the world strongly in its hands. I am not saying too much when I maintain that in none of the States of this old Europe have conditions during the last forty years been so unbearable that any State would desire their abolition at the cost of self-destruction. To-day, in the middle of the war, it is to the mutual interest of every large State that Europe shall not go to pieces. A complete breakdown would leave every single State, no matter to what combination it belongs, weaker and poorer in outlook, and many States would be quite broken and without any hope for a great national future."

"When the young power, Germany, nearly fifty years ago entered the circle of old powers she was greeted by nobody with great enthusiasm; but these fifty years have proved more than abundantly that the new power brought strength to the whole of Europe. If to-day our enemies believe that they are able to turn back the course of history and bring into existence again a weak formation of federal States alongside a Prussia which has been subjected to deadly mutilation, these are only delusions, which are hardly pardonable in the case of political theorists, and must be ruinous in the case of responsible statesmen."

"The fundamental idea of the German reply was to be helpful to the Holy Father in creating an atmosphere in which alone would be possible a fertile exchange of thoughts upon concrete questions. A man of diplomatic experience knows that during this kind of negotiations the nature of the surrounding atmosphere is of primary importance."

"If one were to judge the psychological condition of our enemies by the statements of their newspapers and leading men, one must come to very unsatisfactory results. As long as our enemies base themselves on fiction—the more clever ones among them do not believe in it—the time may come in which the German nation, doing penance in sackcloth and ashes, and beating its breast in sorrow, may grovel under the yoke of despicable demands."

"We shall have to continue to speak by the sword. It may not be easy to show the truth plainly to the nations of the Entente, which have been incited by legends invented at the beginning of the war, but how otherwise is the new spirit to come into existence? This is an indispensable condition if we are to arrive at a termination of the present struggle of the nations."

"The German people are firmly convinced that they are conducting a just war. From this conviction they draw strength cheerfully to meet the great sacrifices which the times demand."

GERMAN CHANCELLOR DENIES RENOUNCING CLAIM TO BELGIUM.

On the subject of Germany's territorial war claims the Imperial Chancellor, Dr. Michaelis, is quoted by the Associated Press in dispatches from Copenhagen on Sept. 29 as having spoken as follows before the Reichstag in committee:

A Liberal Deputy correctly stated that the attitude of the Imperial Government as regards its war aims was clearly explained in my answer to the Papal note. The peace resolution of July 19 was expressly mentioned in this reply, and further explanation thereof is unnecessary.

Moreover, I declare the statement that the Imperial Government had already communicated with this or that hostile Government and that it had in advance renounced occupied territories, thus abandoning the most valuable advantages in peace negotiations, is untrue. I declare the Imperial Government has free hands for eventual peace negotiations. This also refers to Belgium.

RUSSIA VIEWS UNFAVORABLY GERMANY'S ANSWER TO POPE.

According to the Associated Press dispatches from Petrograd on Sept. 28, Russian Foreign Minister Terestchenko in a statement to representatives of the press on that day declared that the replies of the Central Powers to the peace note of Pope Benedict proved that Germany and Austria "persist in their refusal to make any sincere step whatsoever in the direction of peace." The dispatches further quote the Foreign Minister as saying:

M. Terestchenko added that the Central Empires repeat the worn out assurances of their love of peace and their eagerness to adopt the principle of the reduction of armaments, but do not make the least reference to the basis of a future peace.

Several expressions in the notes even lead one to believe that, contrary to the Reichstag resolution, the German Government has not renounced "German Peace," which is contrary to the principles of right and justice, and that Germany regards certain controversial questions as having been definitely settled. Another expression which mars the German note is the statement that the Berlin Government will consent to enter into peace negotiations only on the basis of what it calls "the war map."

The war aims of the Allied democracies already have been laid down in President Wilson's reply to Pope Benedict. Regenerated Russia, for her part, has made known the principles for which the free peoples of Russia have been fighting.

In reply to all this Germany has made no open, frank statement, but still continues her enigmatic role, proclaiming that might is greater than right, and only awaiting the time when she may be able to consolidate the conquests that she has made by force.

M. Terestchenko, in concluding, said that the Russian Government affirms its determination to carry out the proclamation of March 30 last to the Poles, especially in regard to the reconstruction of a free Polish people.

He announced that the Provisional Government had proposed to the Entente Allies that they issue a joint decree ratifying that proclamation. "At the same time Russia will take care that the future independent Polish kingdom shall enjoy the necessary conditions for its economic and financial regeneration," the Foreign Minister declared, "while leaving open the question of indemnities for its losses caused by the enemy's invasion."

DEATH OF ISAAC N. SELIGMAN.

The untimely death on Sunday of last week of Isaac Newton Seligman, head of the international banking house of J. & W. Seligman & Co. of this city was received with sincere regret in financial circles, where he had held a commanding position, both as a financier and philanthropist. Mr. Seligman died at Mount Sinai Hospital, this city, from injuries sustained when he fell or was thrown from a horse while riding near Willow Brook, his summer home at Irvington-on-the-Hudson, N. Y. Mr. Seligman was born in New York July 10 1855. His father was Joseph Seligman, a native of Bavaria, and founder of the banking house of J. & W. Seligman & Co. Mr. Seligman received his early education in the Columbia Grammar School, and in 1872 entered Columbia University from which he was graduated with honors four years later, 1876. His first banking experience was obtained in the New Orleans branch of the Seligman firm, which he entered after his graduation from college. He spent two years in New Orleans, and then entered the New York firm, of which he became the head in 1895, since which he has been a figure of prominence in the country's financial world. Mr. Seligman took a prominent part in the civic betterment of New York City, and was one of the active workers for the reorganization of the State Tax department, and in 1915 represented the New York Chamber of Commerce at Albany on questions of taxation. Mr. Seligman was also an earnest worker in behalf of the betterment of the Jewish race, and believed that nothing should be done to differentiate between his and other races as Americans. In addition to his connection with the Seligman banking house, Mr. Seligman had numerous other business affiliations. He was a trustee of the United States Savings Bank, a trustee in the United States of the Munich Reinsurance Company, and the Russia Reinsurance Company of Petrograd, a director of the Lincoln Trust Company, a member of the advisory committee of the Audit Company of New York, Treasurer and a director of the City and Suburban Homes Company, a director of the Wawbeek Land Company and Treasurer of The American Hebrew. Mr. Seligman was identified with many charities, among them St. John's Guild, of which he was Treasurer, the United Hebrew Charities, of which he was Vice-President, and the National Child Labor Committee, of which he was Chairman of the Finance Committee. He was also a trustee of Columbia University, a member of the Executive Committee of the New York Chamber of Commerce, a trustee of the People's Institute, Chairman of the Financial Committee of the Legal Aid Society, and was connected with several other civic organizations. Mr. Seligman was a liberal patron of art and was known as a collector of manuscripts, possessing, it is said, the most complete collection of Washington Irving manuscripts. He was a son-in-law of Solomon Loeb of the banking house of Kuhn, Loeb & Co., having married Miss Greta Loeb in 1883. He was also a brother-in-law of Jacob H. Schiff and Paul M. Warburg.

BANKING AND LEGISLATIVE NEWS.

The public sales of bank stocks this week aggregate 38 shares and were all made at the Stock Exchange. No sales of trust company stocks were made at auction. Extensive tables reporting bid and asked quotations, deposits, surplus, &c., of banks and trust companies in all important cities in the United States are published monthly in the "Bank and Quotation" Section, the October issue of which accompanies to-day's "Chronicle." Bid and asked quotations for all New York City bank and trust company stocks are also published weekly in another department of this paper, and will be found to-day on page 1408.

Shares. BANK.—New York. Low. High. Close. Last Previous Sale.
38 Nat. Bank of Commerce... 164½ 164½ 164½ Sept. 1917—165

The members of the New York Cotton Exchange and the New York Coffee and Sugar Exchange have voted to close

on Oct. 13, next Saturday. As Friday, Oct. 12, is Columbus Day, the members and employees of the exchanges will have a three-day week-end holiday.

Chicago was chosen as the 1918 convention city at the concluding session at Atlantic City last week of the present year's convention of the American Bankers' Association. At their final session the bankers adopted a resolution pledging the support of the organization to the Government in its every effort toward winning the war, and especially in the sale of the Liberty Loan bonds. Another resolution adopted urged members to co-operate for collective action in impressing upon legislative and regulatory bodies the necessity of taking under serious consideration the questions surrounding the railroads to the end that railroad credit may be strengthened and railroad expansion encouraged so that business and the Government in the prosecution of the war shall be provided with adequate transportation services and facilities. In still another resolution the Association requested the Secretary of War to reconsider his decision prohibiting banks from establishing branches at the various army cantonments. The resolution set forth the need for promoting thrift and economy among the soldiers as well as among the people at home. A resolution calling upon bankers to urge that all new Government war loans be made tax free failed of adoption. Charles A. Hinsch, President of the Fifth-Third National Bank of Cincinnati, is the newly elected President of the Association. Following our usual custom, we will present a full report of the meeting in our annual publication—The American Bankers' Convention Section—which will go to all subscribers of the "Chronicle" with the issue of Saturday next, Oct. 13.

Considerable development in the Morris Plan of industrial loans and investments in the first nine months of 1917 has been witnessed. The number of operating companies has increased from 59 to 91, the amount of capital invested from \$7,063,700 to \$11,250,000, the total number of borrowers from 206,000 to 337,000, and the amount loaned in small sums from less than \$27,000,000 to over \$45,000,000, exclusive of loans made to borrowers desiring to purchase Liberty Loan bonds.

A. F. Maxwell, Assistant Cashier of the National Bank of Commerce of New York, who was recently installed as President of New York Chapter of the American Institute of Banking for the year 1917-18, has been compelled to resign that office because of his removal from the city to Dallas, Texas, where he will make his headquarters while acting as southwestern representative for the Commerce. Mr. Maxwell has been actively identified with the Chapter since he came to New York in 1913. For the last several years he has conducted its course in credits and has also served on the Finance Committee and the Board of Governors. No one has been selected to fill Mr. Maxwell's place as President as yet.

The National Bank of Commerce of this city has published for distribution to its customers the official text of the War Credits Act, as approved by President Wilson on Sept. 24. The booklet is bound in convenient form, making the text readily available for desk use. The publication of the War Credits Act is one of a series of official texts of war measures issued by the National Bank of Commerce for the convenience of its customers.

The National Bank of Commerce of New York has prepared a pamphlet summarizing the history of our exports of raw cotton to the leading European neutrals, both preceding the war and for the years during which the great conflict has been in progress. The problem of our exports to neutrals is a complicated one. The data presented in this pamphlet will be of assistance for right thinking, both to those interested in the exportation of raw cotton and for the general industrial, commercial and financial community, whose affairs are intimately correlated and concerned with exports in general.

The National Bank of Commerce in New York announced yesterday (Oct. 5) that extra compensation will be paid to its employees "in recognition of the prevailing high cost of living and loyal services rendered." The extra compensation amounts to 20% of their annual salary for employees receiving less than \$2,000 a year, and 16% of their annual salary for employees receiving up to \$4,000 a year. The first payment will be made on Nov. 5 and the entire extra

compensation will be made in six equal installments. Approximately, 600 employees of the bank will receive a share of the money.

The growing business of the Bankers Trust Company has made necessary a corresponding growth in its office space and changes in the location of some of its principal departments. To make room for the recently formed bond department, which now occupies quarters on the third floor of the Trust Company's forty-one story building, the bookkeeping department has been moved to the fourth floor, while the transfer department has moved to the basement of the building. The personal trust division will now be found in the space vacated by the securities department which has been merged into the bond department, while the loan and other divisions have been further enlarged. All of these and other departments of the Trust Company are not only connected by interior telephones, but by a system of pneumatic tubes, as well, while telautographs are also used between the office at 16 Wall Street and the uptown office at Fifth Avenue and 42nd Street. The last statement of the Trust Company showed total resources well in excess of \$300,000,000.

The War Tax Law is so framed as to make the assessment for war purposes additional to taxes which are already effective under the existing law. The analysis of this law, which is contained in a booklet just issued by the Guaranty Trust Company of this city makes clear this separation of the old and new taxes. Wherever similar assessments have been made under former laws, both the existing tax and the war tax are given. This booklet also contains an income tax chart and a clear explanation of the new excess profits tax.

Roswell C. Tripp of the firm of William Morris Imbrie & Co., bankers of 61 Broadway, has been elected a director of the West Side Bank, of this city.

George H. Burritt, manager of the bond department of Brown Brothers & Co., of this city, has resigned. Mr. Burritt after a brief holiday will return to active duties in the financial district.

Arthur F. Luke, head of the banking firm of Luke, Banks & Weeks of 14 Wall Street, this city, and a director of the Liberty National Bank of New York, died in Boston on Sept. 29. Mr. Luke was born in Cambridge, Mass., in 1853. At an early age he entered the employ of a Cambridge banking institution, and later became connected with the National Bank of the Commonwealth in Boston. In 1878 he was appointed Assistant National Bank Examiner for the city of Boston, and subsequently was elected Cashier of the National Bank of North America of that city. He left this position to become Treasurer of the National Tube Works, and in 1901, when the U. S. Steel Corporation was formed, he became its Treasurer. He retired from that position the next year, 1902, to become a member of the banking and brokerage firm of Darr, Luke & Moore of New York, and Pittsburgh, with which firm he remained until 1908, when he became the head of the present firm of Luke, Banks & Weeks.

The directors of the National City Bank of Brooklyn, at a meeting on Sept. 25, declared a quarterly dividend of $3\frac{1}{2}\%$, payable Oct. 15, to stockholders of record at the close of business Oct. 1. The directors' action was taken in furtherance of the decision reached at a meeting on June 12, when it was resolved to place the stock on a quarterly basis, beginning Oct. 15. Heretofore the dividend payments have been 7% semi-annually.

The death is announced of John Newton Scatcherd, formerly President of the Bank of Buffalo, and at one time a director of the Market Bank, the Third National and the Buffalo Loan, Trust & Safe Deposit Co. of Buffalo. Mr. Scatcherd served at one time as President of the Batavia & New York Woodworking Co., and the Buffalo Lumber Exchange, and was connected with the National Wholesale Lumber Association and the Buffalo Merchants Exchange. He was born in Buffalo on Sept. 12 1857.

The Safe Deposit & Trust Co. and the Peoples Savings Bank, two of the largest banking institutions in Pittsburgh, Pa., have consolidated. Announcement to this effect was made on Sept. 29. The continuing institution will be known as the Peoples Savings & Trust Co. Both the Safe Deposit & Trust and the Peoples Savings Bank have enjoyed con-

tinuous existence for over fifty years, and both have been closely affiliated for some time, their officers and directors being practically the same. A. C. Robinson, President of the Safe Deposit & Trust Co., will be President of the enlarged institution, and D. McK. Lloyd, President of the Peoples Savings Bank, will serve as Vice-President of the new Peoples Savings & Trust. J. O. Miller, who served as Secretary and Treasurer of both the merged institutions, will also be a Vice-President of the new bank. J. Boyd McKown, Assistant Secretary and Assistant Treasurer of the old Peoples Savings Bank, has been chosen Secretary and Treasurer of the enlarged institution. The Safe Deposit & Trust Co. had a capital of \$3,000,000 and on Aug. 21 reported surplus and profits of \$6,729,519 and deposits of \$142,980. The amount of trust funds invested was \$38,205,055. The Peoples Savings Bank had a capital of \$1,000,000, and on Aug. 27 reported surplus and undivided profits of \$1,092,864 and deposits of \$11,311,484. The consolidated institution has a capital of \$3,000,000, surplus of \$6,000,000, and undivided profits of \$220,000. The directors of the new institution are: W. K. Shiras, D. McK. Lloyd, J. D. Lyon, George E. Painter, Robert Wardrop, George W. Crawford, John H. Ricketson Jr., T. H. B. McKnight, W. D. George, Benjamin Thaw, Henry Chalfant, Frederick C. Perkins, J. M. Shields, William A. Way, Alexander C. Robinson, W. L. Clause, F. H. Lloyd, W. C. Robinson and J. O. Miller.

R. Vinton Lansdale, Cashier of the National Exchange Bank of Baltimore died on Sept. 22. Mr. Lansdale had been connected with the National Exchange since 1882, becoming Assistant Cashier of the institution in 1896 and the following year advancing to the Cashiership.

A. M. Tierney has been made Cashier of the Market Trust & Savings Bank of Chicago. The other officers of the institution are: F. S. Fulton, President; F. A. Hecht, Vice-President; W. T. Larsen, Assistant Cashier.

O. M. Clark, President of the Clark & Wilson Lumber Co. and President of the Portland Chamber of Commerce last year and director this year, has been elected a director of the Citizens Bank of Portland, Ore., succeeding the late David Johnston. Mr. Clark is President and a director of the Oregon Surety & Casualty Company, and was a member of the Foreign Trade Commission. It is reported that Mr. Clark acquired a substantial block of stock prior to his election.

THE ENGLISH GOLD AND SILVER MARKETS.

We reprint the following from the weekly circular of Samuel Montagu & Co. of London, written under date of Sept 6 1917:

GOLD.

The Bank of England gold reserve against its note issue shows a trifling increase as compared with last week's return.

It is reported from New York that \$5,720,000 has been engaged for, or shipped abroad. The bulk is destined for Japan.

The Federal Reserve Board reported on Aug. 6th that the import of gold into the United States amounted to \$518,569,000 between Jan. 1 and July 13 of this year, as compared with \$220,037,000 during the same period last year. On the other hand, the exports during the former period amounted to \$220,361,000 as compared with \$72,826,000 during the latter. The Reserve Board states that the imports of gold subsequent to Aug. 1 1914 exceeded the exports by \$1,166,970,000.

SILVER.

The price remained at 46d. until the 1st inst., after which the advance was resumed to 47d. followed by rises on successive days of ½d. and 1d. carrying the quotation yesterday to 48½d.

This constitutes a record since January 1891.

There continues to be a stream of orders, emanating from this country and abroad, for the legitimate purposes of coinage and trade.

The most important fact, however, bearing upon the strength of the market, is the remarkable firmness of the Shanghai exchanges, which yesterday was dealt in as high as 4s. 10½d. At the parity of this figure, silver could be bought at much higher prices than those yet quoted here, with profit.

On Sept. 3rd the Indian Government issued an order prohibiting the export of silver coin or bullion from India. Imports of silver are also prohibited. Hitherto the Government permitted imports, but acquired them all for coinage.

This enactment coincides with a further increase in the reserves of precious metal held by the Indian Treasury. The details given below show that the gold in India and London combined, now amounts to 1467 lacs—the largest total since May 31st last. Whilst the present holding of silver is the most substantial recorded since the close of 1915.

(In lacs of Rupees.)—

	Aug. 15.	Aug. 22.	Aug. 31.
Notes in circulation	101.51	102.84	105.15
Reserve in silver coin and bullion	27.47	28.40	29.00
Gold coin and bullion in India	10.01	10.41	12.12
Gold in England	2.55	2.55	2.55

The stock in Shanghai on Sept. 1 1917 consisted of about 21,700,000 ounces in sycee and 15,400,000 dollars, as compared with about 21,000,000 ounces in sycee and 15,600,000 dollars on Aug. 25 1917.

Statistics for the month of August are appended:

Highest price for cash	46d.
Lowest " " "	40½d.
Average " " "	43.418

Quotations for bar silver per ounce standard:

Aug. 31	46d.	cash	Sept. 6	48½ cash
Sept. 1	46	"	Average	47.25d.
Sept. 3	47	"	Bank rate	5%
Sept. 4	47½	"	Bar gold per oz. standard	77s. 9d.
Sept. 5	48½	"		

No quotation fixed for forward delivery.

The quotation to-day for cash delivery is 2½d. above that fixed a week ago.

ENGLISH FINANCIAL MARKETS—PER CABLE.

The daily closing quotations for securities, &c., at London, as reported by cable, have been as follows the past week:

London,	Sept. 29.	Oct. 1.	Oct. 2.	Oct. 3.	Oct. 4.	Oct. 5.
Week ending Oct. 5—	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.

IMPORTS AND EXPORTS FOR AUGUST

The Bureau of Statistics at Washington has issued the statement of the country's foreign trade for August and from it and previous statements we have prepared the following interesting summaries:

FOREIGN TRADE MOVEMENT OF THE UNITED STATES.

(In the following tables three ciphers (000) are in all cases omitted.)

MERCHANDISE.

	1917.	1916.	1915.	1917.	1916.	1915.

* All reports from Treasury offices received before 11 a. m. are proved on the same day. All reports from depository banks are proved on the day of receipt or the day following.

a The amount to the credit of disbursing officers to-day was \$374,001,747.93. This is a book credit and represents the maximum amount for which disbursing officers are authorized to draw on the Treasurer of the United States to pay Government obligations as they become due. The net balance stated is the amount available to pay Treasury warrants, disbursing officers' checks and matured public debt obligations.

Under the Acts of July 14 1890 and Dec. 23 1913 deposits of lawful money for the retirement of outstanding national bank and Federal Reserve bank notes are paid into the Treasury as miscellaneous receipts, and these obligations are made under the Acts mentioned a part of the public debt. The amount of such obligations to-day was \$41,843,894.50.

TREASURY CURRENCY HOLDINGS.—The following compilation, made up from the daily Government statements, shows the currency holdings of the Treasury at the beginning of business on the first of July, August, September and October 1917.

The Federal Reserve Banks.—Following is the weekly statement issued by the Federal Reserve Board on Sept. 29.

The Federal Reserve Board made public to-day its weekly statement showing condition of the Federal Reserve banks as at close of business on Sept. 28, except of the San Francisco bank. For the latter figures of the week before are given, no telegraphic data for Sept. 28 having been received by the Board in time to be consolidated with the figures for the other banks.

Higher money rates prevailing during the week apparently caused a larger demand for accommodation at the New York bank, which reports large increases in member banks' collateral notes on hand secured mainly by Liberty Loan bonds and United States certificates of indebtedness, besides considerable purchases of acceptances in the open market. The bank disbursed during the week 112.5 millions of funds advanced to the Allied Governments, 40 millions going to the French, 35 millions to the British, 15 millions each to the Italian and Russian Governments and 7.5 millions to the Belgian Government. These operations called for heavy withdrawals of funds from local depository institutions in addition to transfers to New York in some volume from other Reserve banks. The bank reports a decrease of 49.6 millions in total reserves together with increases of 62 millions in total investments, of 5 millions in net deposits and of 7.3 millions in note circulation.

A decrease of about 24 millions is shown in the banks' combined deposit reserves. Aggregate note reserves increased about 19.6 millions during the week, while total cash reserves show a decline of 4.4 millions. Of the total of 29.1 millions of Federal Reserve notes placed in circulation during the week, 19.2 millions are secured by gold, the remainder having been issued against commercial paper. As a result the banks' note reserve shows a decline from 81.4 to 80.8%. Their deposit reserve shows an even larger decline from 78.6 to 74.5%.

Discounted paper on hand shows an increase for the week of 49.6 millions, practically all at the New York bank. Of the total discounts, over one-half, or 122.5 millions, is represented by member banks' collateral notes. About 64.7 millions of these notes had as their collateral Liberty Loan bonds or United States certificates. Large open-market purchases by the Boston and New York banks are mainly responsible for the increase of 15.7 millions in the amount of acceptances on hand. No substantial changes in other investments are shown.

Total earning assets increased 65.3 millions for the week and constitute at present 851% of the bank's paid-in capital, compared with 741% shown the week before. Of the total, discounts constitute 46.2%, acceptances 35% and United States securities 18.8%.

Owing to the heavy withdrawals of Government funds from depository banks, Government deposits show an increase of 38.6 millions, the New York and Chicago banks reporting the largest gains for the week. Member banks' reserve deposits fell off 14.2 millions, while non-member banks' clearing deposits gained 15.9 millions. Nearly all the larger local State banks and trust companies, not in the system, have opened clearing accounts with the New York Reserve Bank.

Federal Reserve agents report a total of \$754,088,000 of Federal Reserve notes outstanding, secured by \$555,239,000 of gold and \$204,467,000 of paper. All the banks report additional issues of notes during the week. Federal Reserve notes in actual circulation total \$699,343,000, as against \$670,246,000 the week before.

The figures of the consolidated statement for the system as a whole are given in the following table, and in addition we present the results for each of the seven preceding weeks, together with those of the corresponding week of last year, thus furnishing a useful comparison. The earlier figures have been revised in order to conform with new form adopted by the Federal Reserve Board as of June 22. In the second table we show the resources and liabilities separately for each of the twelve Federal Reserve banks. The statement of Federal Reserve Agents' Accounts (the third table following) gives details regarding the transactions in Federal Reserve notes between the Comptroller and the Reserve Agents and between the latter and the Federal Reserve banks.

COMBINED RESOURCES AND LIABILITIES OF THE FEDERAL RESERVE BANKS AT THE CLOSE OF BUSINESS SEPTEMBER 28 1917.

Statement of New York City Clearing House Banks and Trust Companies.—The following detailed statement shows the condition of the New York City Clearing House members for the week ending Sept. 29. The figures for the separate banks are the averages of the daily results. In the case of the totals, actual figures at end of the week are also given. The surplus reserves are calculated on the basis of new reserve requirements as fully explained in "Chronicle," Volume 105, pages 229 and 127.

Sept. 29.....	4,739,736.5	4,376,818.1	197,019.8	44,260.0	241,279.8	574,456.3

† Included with "Legal Tenders" are national bank notes and Fed. Reserve notes held by State banks and trust cos. but not those held by Fed. Reserve members.

In addition to the returns of "State banks and trust companies in New York City not in the Clearing House," furnished by the State Banking Department, the Department also presents a statement covering all the institutions of this class in the whole State. The figures are compiled so as to distinguish between the results for New York City (Greater New York) and those for the rest of the State, as per the following:

For definitions and rules under which the various items are made up, see "Chronicle," V. 98, p. 1661.

The provisions of the law governing the reserve requirements of State banking institutions as amended May 22 1917 were published in the "Chronicle" May 19 1917 (V. 104, p. 1975). The regulations relating to calculating the amount of deposits and what deductions are permitted in the computation of the reserves were given in the "Chronicle" April 4 1914 (V. 98, p. 1045).

STATE BANKS AND TRUST COMPANIES.

Reserve excess in bank and Federal Reserve Bank.....	18,498,000	Dec. 754,000	19,252,000	18,070,000

Philadelphia Banks.—Beginning with July 21 the Philadelphia Clearing House returns have been issued in altered form, and excess reserves are now calculated on the

basis of 10% reserve for demand deposits and 3% for time deposits. Previously the basis was 15% against demand deposits alone. Reserve requirements of trust companies remain on old basis of 15%. See volume 105 page 333.

Two ciphers (00) omitted.	Week ending Sept. 29 1917.			Sept. 22 1917.	Sept. 15 1917.

Bankers' Gazette.

Wall Street, Friday Night, Oct. 5 1917.

The Money Market and Financial Situation.—Continued liquidation has substantially increased the volume of business at the Stock Exchange this week and carried the prices of practically all grades of securities to a new low level. This persistent liquidation is easily traceable to two causes. The first, most important and widespread of these causes was publication of the new income and excess profits Tax Bill as it had been agreed upon by the conferees of both houses of Congress and as it has since become a law. The second cause referred to was additional railway traffic reports for August which showed that although gross earnings had substantially increased net results were greatly reduced. An excellent and representative illustration of the present railway situation and its problems is found in the Pennsylvania's report for the first eight months of the calendar year. This shows that the gross receipts were \$32,725,000 in excess of those for the corresponding period in 1916, but, owing to increased operating expenses, the net income is \$10,611,000 less. In view of these facts is it any wonder that railway shares have declined to the lowest quotations reported in recent years?

An interesting fact about international trade is that while the exports from this country during the month of August were of less value by \$20,000,000 than in 1916 the value of our imports was \$70,000,000 larger than in the same month last year. Reports from the iron district show that the daily production of that metal in September was about 2,280 tons smaller than last year. These are a few examples of the changes in business and finance as a result of our entry into the world war.

Great interest is shown in the impending new War Loan and extensive plans are being made by some of the most prominent financiers of the country to insure its complete success. Of the latter there seems little room for doubt.

Foreign Exchange.—Sterling Exchange has ruled quiet. Rates for cable transfers have been maintained, but otherwise there have been slight recessions in quotations. The Continental exchanges have been easier so far as the belligerents are concerned, but the neutral exchanges have ruled strong as a result of the reduction in the offerings of bills against exports due to the embargo.

To-day's (Friday's) actual rates for sterling exchange were 4 71½ @ 4 71½ for sixty days, 4 75½ @ 4 75 5-16 for checks and 4 76 7-16 for cables. Commercial on banks, sight, 4 75 @ 4 75 3-16; sixty days, 4 70½ @ 4 70½; ninety days, 4 69½ @ 4 69½, and documents for payment (sixty days), 4 70½ @ 4 70½. Cotton for payment, 4 75 @ 4 75 3-16, and grain for payment, 4 75 @ 4 75 3-16.

To-day's (Friday's) actual rates for Paris bankers' francs were 5 85½ for long and 5 80 @ 5 80½ for short. Germany bankers' marks were not quoted for sight, nominal for long and nominal for short. Amsterdam bankers' guilders were 42 1-16 for long and 42 3-16 for short.

Exchange at Paris on London, 27.18 fr.; week's range, 27.18 fr. high and 27.18 fr. low.

Exchange at Berlin on London, not quotable.

The range for foreign exchange for the week follows:

Sterling Actual—Sixty Days.		Checks.		Cables.	
High for the week...	4 71½	4 7535		4 76 7-16	
Low for the week...	4 71½	4 75½		4 76 7-16	
Paris Bankers' Francs—					
High for the week...	5 84½	5 79		5 77½	
Low for the week...	5 85½	5 79½		5 78	
Germany Bankers' Marks—					
High for the week...	-----	-----		-----	
Low for the week...	-----	-----		-----	
Amsterdam Bankers' Guilders—					
High for the week...	42 1-16	42¼		42 3-16	
Low for the week...	41½	42		42¼	
Domestic Exchange. —Chicago, 10c. per \$1,000 discount. Boston, par. St. Louis, 15c. per \$1,000 discount bid and 5c. discount asked. San Francisco, par. Montreal, \$1.25 per \$1,000 discount. Minneapolis, 10c. per \$1,000 premium. Cincinnati, par.					

State and Railroad Bonds.—No sales of State bonds have been reported at the Board this week.

The market for railway and industrial bonds has been steady to firm on a day-by-day increasing volume of business. The latter was not large, however, owing, presumably, to the absorbing interest now centred in the approaching Liberty Loan 4s and to heavy dealings in foreign Government and city issues. Some of the French city bonds declined quite unusually this week, for which there is no known cause except that mentioned above. A list of the active domestic issues includes Amer. Tel. & Tel., Balt. & Ohio, Ches. & Ohio, St. Paul, Burlington, Erie, Mo. Pac., N. Y. Cent., St. L. & San Fr., Sou. Pac. and U. S. Steel issues.

United States Bonds.—Sales of Government bonds at the Board include an enormous aggregate of Liberty Loan 3s at 99.72 to 100.30, \$2,000 3s coup. at 99½ and \$1,000 4s coup. at 105½. For to-day's prices of all the different issues and for weekly range see third page following.

Railroad and Miscellaneous Stocks.—Some of the reasons are mentioned above for the present unfortunate conditions existing in the stock market. Owing to persistent selling the transactions on Thursday were larger in the aggregate than for some time past, the lowest prices of the week were then recorded and these were, in several important cases, the lowest in recent years.

The railway list was led in this movement by St. Paul and Balt. & Ohio which declined within the week 5¼ and 5½ points respectively. Delaware & Hudson fell 4½ and New York Cent. 3½, while New Haven recovered 1½ of its recent depression.

As usual a wider range was covered by some of the industrials. Texas Company dropped 11 points, Bethlehem

Steel "B" 7¼, Ind. Alco. 7½, Utah Copper 6½ and other issues from 4 to 5.

To-day's market, however, took a turn for the better. Apparently the downward movement had spent its force and during the last hour or two to-day many active issues, both railway and industrial, recovered from 1 to 3 points of the previous decline. A list of these includes Balt. & Ohio, Can. Pac., St. Paul, Del. & Hud., Mo. Pacific, N. Y. Cent., New Haven, No. Pac., Penn., and Union Pac., also a longer list of miscellaneous stocks.

For daily volume of business see page 1407.

The following sales have occurred this week of shares not represented in our detailed list on the pages which follow:

Outside Market.—Trading on the "curb" this week dwindled to small proportions with the undertone of the market weak though losses generally are of small proportions. Wright-Martin Aircraft com. was an exception to the rule, and on heavy trading advanced from 8½ to 11½, with a final reaction to 10½. United Motors was fairly active, and after an early advance from 23½ to 24½, weakened steadily and closed to-day at 21. Chevrolet Motor rose from 78 to 83, dropped to 75 and ends the week at 80. Bethlehem Steel pref. w. i., was a weak feature and sold below par, for the first time since trading in it began on the "curb." It sold down from 100½ to 92½ and at 94 finally, with subsequent transactions transferred to the Stock Exchange. Air Reduction was conspicuous for an upward movement from 84 to 94, the final figure to-day being 90. Curtiss Aeroplane & M. was irregular, fluctuating between 38 and 36½, with the close to-day at 37¼. Smith Motor Truck was off from 2½ to 1½, the closing figure to-day being 1½. Submarine Boat, after a gain of a point to 17½, sank to 16 and finished to-day at 16¾. Oil shares quiet and generally lower. Merritt Oil moved down from 34 to 30½ and up subsequently to 31½. Midwest Oil com. declined from 1.56 to 1.33 and closed to-day at 1.41. Midwest Refining lost 16 points to 138 but recovered to 145. Mining stocks also quiet with small fluctuations. Bonds moderately active and little changed.

A complete record of "curb" market transactions this week will be found on page 1407.

New York Stock Exchange—Stock Record, Daily, Weekly and Yearly 1399

OCCUPYING TWO PAGES.

New York Stock Exchange—Bond Record, Friday, Weekly and Yearly 1401

In Jan. 1909 the Exchange method of quoting bonds was changed and prices are now—"and interest"—except for income and defaulted bonds.

New York "Curb" Market.—Below we give a record of the transactions in the outside security market from Sept. 29 to Oct. 5, both inclusive. It covers the week ending Friday afternoon:

It should be understood that no such reliability attaches to transactions on the "Curb" as to those on the regularly organized stock exchanges.

On the New York Stock Exchange, for instance, only members of the Exchange can engage in business, and they are permitted to deal only in securities regularly listed—that is, securities where the companies responsible for them have complied with certain stringent requirements before being admitted to dealings. Every precaution, too, is taken to insure that quotations coming over the "tape," or reported in the official list at the end of the day, are authentic.

On the "Curb," on the other hand, there are no restrictions whatever. Any security may be dealt in and any one can meet there and make prices and have them included in the lists of those who make it a business to furnish daily records of the transactions. The possibility that fictitious transactions may creep in, or even that dealings in spurious securities may be included, should, hence, always be kept in mind, particularly as regards mining shares. In the circumstances, it is out of the question for any one to vouch for the absolute trustworthiness of this record of "Curb" transactions, and we give it for what it may be worth.

CURRENT NOTICE.

—William R. Compton Co. has prepared for distribution from its various offices throughout the country a revised schedule of the new Federal income tax showing exactly what the individual will have to pay under its provisions. The salient features of the tax are carefully explained. A typical example is given which enables the lay reader to understand the working of this law. The New York address is 14 Wall St. and the St. Louis office is 408 Olive St.

—Moody's Manual for 1918 will be published in three volumes following the same general plan as the 1917 edition—Steam Railroads—Public Utilities—Industrials. The publishing schedule has been changed somewhat in that the Steam Railroad section will be published in January instead of March 1, as heretofore.

—Louis B. Wade of Wade, Templeton & Co., has been elected a member of the New York Stock Exchange. The firm will do a regular Stock Exchange business, also continue its curb and unlisted departments. The firm is composed of Louis B. Wade and Clarence R. Templeton.

—Glen Ralph Wortman, recently Secretary of Howard, Simmons & Co., investment bankers, of Chicago, for the past ten years, has gone into partnership with W. W. Armstrong, at Aurora, Ill., under the firm name of W. W. Armstrong & Co.

—Ross Young, for many years Vice-President of the Loton H. Slawson Co., has resigned to become associated with the investment securities house of Chas. W. Hill, Guaranty Trust Building, 66 Liberty St., this city.

—John S. Manley, formerly Manager of the Kansas City office of Otis & Co., investment bankers, is now associated with the sales department of Stern Brothers & Co., dealers in investment bonds, Kansas City, Mo.

—William B. Troth of New York has issued a special circular on the affairs of Edmunds & Jones Corp.

Investment and Railroad Intelligence.

RAILROAD GROSS EARNINGS.

The following table shows the gross earnings of various STEAM roads from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from Jan. 1 to and including the latest week or month. We add a supplementary statement to show fiscal year totals of those roads whose fiscal year does not begin with January, but covers some other period.

It should be noted that our running totals (or year-to-date figures) are now all made to begin with the first of January instead of with the 1st of July. This is because the Inter-State Commerce Commission, which previously required returns for the 12 months ending June 30, now requires reports for the calendar year. In accordance with this new order of the Commission, practically all the leading steam roads have changed their fiscal year to correspond with the calendar year. Our own totals have accordingly also been altered to conform to the new practice. The returns of the electric railways are brought together separately on a subsequent page.

ROADS.	Latest Gross Earnings.			Jan. 1 to Latest Date.			Latest Gross Earnings.			Jan. 1 to Latest Date.

ANNUAL REPORTS

Annual Reports.—An index to annual reports of steam railroads, street railways and miscellaneous companies which have been published during the preceding month will be given on the last Saturday of each month. This index will not include reports in the issue of the "Chronicle" in which it is published. The latest index will be found in the issue of Sept. 29. The next will appear in that of Oct. 27.

New York New Haven & Hartford Railroad

(Preferred Stock Plan—Its Importance and Advantages.)

An official circular, dated at New Haven, Conn., Oct. 1 1917, accompanies the call for the special meeting on Oct. 24 to authorize the proposed issue of \$45,000,000 7% cumulative preferred stock for which the shareholders will be asked to subscribe in order to discharge the burdensome note issue. The circular sets forth clearly the importance and advantages of the plan, and the outlook for earnings to meet the preferred dividends, saying in substance:

Plan to Authorize \$45,000,000 Pref. Stock, Proceeds to Pay the Floating Debt.
This debt at one time was over \$56,000,000, but during the last four years has been gradually reduced to \$45,000,000 out of earnings, and the sale of miscellaneous pieces of property.

From year to year this debt has been carried with the help of the banking houses of J. P. Morgan & Co., First National Bank of N. Y., National City Bank of N. Y., Messrs. Kidder, Peabody & Co., of Boston, and Lee Higginson & Co., of Boston, and their associates.

Because of the unusual conditions created by the war and the very great demands of all Governments for funds it is the belief of the Board that some plan of financing must be adopted other than the renewal of the notes maturing April 15 1918. It is of the greatest importance that the burden, expense and embarrassment of extending the floating debt once a year should be avoided. Its frequent renewal has become a menace to the credit of the company.

Disadvantages of Other Plans for Paying the Floating Debt.

1. To make a mortgage and issue bonds.

If a mortgage were made it would be required by the laws of Massachusetts and Connecticut to secure not only bonds to pay off the \$45,000,000 floating debt, but in addition to provide for the future issue of bonds to take up \$187,810,791 of obligations now outstanding, or a total of \$232,810,791. Bonds so secured could not now be sold except at a very high rate of interest; and the size of the mortgage would injure the current credit of the property.

2. To force a sale of the Boston & Maine, the trolleys and any other property not necessary for the operation of the railroad and its supplementary steamboat lines. (See Note A.)

A forced sale of these properties, with a total book value of \$150,933,981, would involve a large sacrifice if they could be sold at all between now and April 1918. These properties have a large future value which should be realized in due time. At any rate they ought not to be sold in the present war market. Such a sale would mean a large loss which would postpone indefinitely the date when dividends could be paid because the losses resulting from such forced sale would have to be made good from earnings over a period of years.

Preferred Stock Issue Offers the Soundest Method of Finance.

This plan allows every stockholder to subscribe, but compels no one to do so. It will make the stock and indebtedness substantially equal in amount and so strengthen the company's credit. (See Note B.) It will lift the burden of short term notes which each year has meant refunding and substitute a preferred stock which can be called when the company is able to sell some of its assets.

The company is now paying more than 7% in interest and discounts on its short term notes; it can as easily earn and pay 7% dividends on \$45,000,000 of preferred stock, with the great advantage of not being required to make renewals every year.

Greatly Increased Earnings in Spite of Adverse Conditions.

[All earnings shown are for New Haven and Central New Eng. combined.]

During the last four years the company has had to face the great depression in business of 1914, the dissolution suit, many investigations by Federal and State authorities, the severe winter of 1915-16, the sudden increase in business caused by the war, resulting in congestion, higher wages and extreme prices for materials. In spite of these adverse conditions the company has not only earned and paid all of its fixed charges including the interest on its floating debt, but also a surplus besides, as follows:

Net Income After Paying Taxes, Rentals, Interest and Guaranties.

June 30 Years— 1913-14. 1914-15. 1915-16. 1916-17.
Net after all charges— \$349,204 \$2,397,141 \$4,974,052 \$6,233,003

Improvement in Operating Results as Compared With Four Years Ago.

Eight Months to Aug. 31— 1917. 1913 (not 1916).
Railway operating revenues— \$59,680,157 \$47,532,852
Oper. exps., uncollectible ry. revs. and taxes— 44,521,805 36,919,487

Railway operating income— \$15,158,352 \$10,663,365
Ry. operat. per cent. of operative revenues— 25.4% 22.4%

These figures show a substantial growth in volume of business and an increase in amount saved from each dollar of revenue. The per cent. of operating income to operating revenues in 1917 was 25.4% and in 1913, 22.4%, an improvement of 3%.

Latest Annual Earnings Years ending June 30

1917. 1916 (not 1913).
Railway operating revenues— \$88,624,400 \$81,182,586
Oper. exps., uncollectible ry. revs. and taxes— 63,336,758 56,746,522

Railway operating income— 25,287,642 24,436,064
Non-operating income— 6,679,480 6,345,969

Gross income— 31,967,122 30,782,034
Deductions—interest, rentals, &c.— *25,734,119 25,807,982

Net corporate income— \$6,233,003 \$4,974,052

* Includes interest and discount on the present \$45,000,000 floating debt (which is now more than a 7% dividend on the proposed preferred stock) as well as all other charges and guaranties.

Higher Rates Obtained and Sought Promise Increasing Income.

In the "15% Rate Case" the I.-S. C. Comm. authorized some increases in freight rates which will bring in beginning with September new revenue estimated at \$1,500,000 per year.

Plans are being perfected now to ask the authorities to permit a charge of 2½ cents per mile for local tickets and 2½ cents per mile for mileage tickets, an increase of only ¼ cent per mile. If granted this will mean about \$3,000,000 additional new revenue per year.

There is also a movement to increase fares on the trolley lines and if these increases are granted it will improve the value of the trolley properties.

The Physical Condition of the Property is Good.

On June 30 1917, 6.2% of locomotives and 5.2% of freight cars were held for repairs, compared with an average of 14.2% and 6% respectively for the Eastern railroads as a whole. Rail and tie renewals have been kept up, and a large proportion of all buildings at stations have been overhauled and painted. Many of the bridges, have also been strengthened.

The improvements made and the equipment added to the property in the last four years have enabled the company to improve its methods, so that its results have compared favorably with other Eastern roads except the coal carrying roads.

Serious Loss Must Result if Collateral for Notes is Sold.

From slightly increased rates, better operation and sales of miscellaneous property more than \$12,000,000 floating debt has been paid off in the last four years and at the same time about \$17,000,000 has been spent for improvements, betterments and equipment. These expenditures and others now being made increase the permanent value of the property but will not enable it to pay the \$45,000,000 due April 15 1918.

If the \$45,000,000 is not paid next April the Trustee may be forced to sell the collateral securing the notes. If this should not bring the face of the notes the company must pay the difference and the future value of the collateral will have been sacrificed.

This collateral stands on the books of the company at \$96,512,516 and includes some of the most substantial and valuable railroad securities in New England. (See Note C.)

Stockholders should Protect Property and Profit From So Doing.

The shareholders as owners of the property should protect it and prevent the loss to themselves which will affect for a number of years the growth of your property and the development of its earning power.

The directors believe that the stockholders should, can and will prevent the sacrifice of this collateral, but the problem is one for the stockholders to determine. Two-thirds of the entire stock must assent to the issue of a preferred stock before it can be issued.—1,047,453 shares out of 1,571,179. The Public Service Commissions of Connecticut, Rhode Island and Massachusetts must also approve the terms upon which the issue is made.

The authorities and the public are now recognizing that a great transportation company like the New Haven must have its rates adjusted so that it can meet increased wages, costs and changing conditions.

The First Step Toward the Restoration of Credit is Discharge of Floating Debt.

Restoration of credit can at present be accomplished best by a preferred stock issue, the dividend upon which will be substituted for the interest on the debt. By this issue no additional charge or burden will be placed ahead of the common stock. On the contrary the stockholders can look forward to the time when the sales of securities now in its treasury will enable the company to call and retire the preferred stock and leave the common the only stock outstanding.

The Directors Unanimously Recommend the Authorization of Preferred Stock.

We most earnestly ask you to authorize this issue of preferred stock, both in your own interest and in the interest of New England, which must be served by the New Haven road. Signed by all of the directors, viz.: T. DeWitt Cuyler, Edward Milligan, Francis T. Maxwell, John T. Pratt, Howard Elliott, Arthur T. Hadley, James L. Richards, Augustus S. May, J. Horace Harding, Benjamin Campbell, Frank W. Matteson, Joseph B. Russell, Eli Whitney, Harris Whittemore, and Edward J. Pearson.

Boston & Maine Railroad.

(84th Annual Report—Year ended June 30 1917.)

Temporary Receiver J. H. Hustis, Sept. 12, wrote in subst.:

Receivership.—On Aug. 29 1916 the U. S. District Court appointed James H. Hustis temporary receiver of the road, with authority to do such acts as might be necessary to prevent a forfeiture of any lease or operating contract, without prejudice, however, to his right thereafter to abandon such lease or contract as the court should direct. Up to the present time the system has been kept intact.

Many holders of bonds or notes of the company have inquired why interest on them has not been paid. The answer is that the great bulk of these bonds and notes are not secured by mortgage, and it is not the practice of the courts to confer authority to prefer holders of unsecured bonds or notes over other general creditors by paying their debts in part, either principal or interest, before the final liquidation.

At a recent meeting the directors authorized the following statement.

Digest of Statement of Board of Directors.

The primary object of this board, in August 1916, was to secure a protective receivership, and they still believe that no one who really has the interests of the stockholders or creditors at heart will urge the immediate appointment of a permanent receiver, which would bring the proceedings one step nearer to liquidation.

It is said that there are three possible ways for ending a receivership: (1) by sufficient improvement in its earnings, (2) by liquidation or (3) by a voluntary reorganization.

The possibility has seemed rather remote that the road could avail itself of the first of these methods within any reasonable time, and the great increases in the prices of labor and supplies, particularly coal and iron, during the present calendar year has greatly strengthened the conviction that this method is impracticable. Liquidation would mean a sale of the assets to pay creditors, leaving to the stockholders only the right to share in the surplus (if there is any) of the selling price, after the debts are paid in full.

Voluntary reorganization is a matter of barter between lessors and lessee, and the B. & M. stockholders must choose between the best terms open and the uncertainties of the receivership; the lessors must choose between reorganization and the probabilities of a cancellation of their leases by the receiver, and the resulting necessity of operating their own lines. Thus the directors of the B. & M. and of its directly leased lines have come very close to agreeing upon a plan (see details, V. 104, p. 2009) which they are willing to recommend to their stockholders, involving the following features:

Leading Features of Proposed Plan (Shown on p. 14 of "Ry. & Ind. Section").
(1) The leased lines shall give up their leases and turn over all their property to a consolidated company, their present stock to be exchanged for a first pref. stock in amounts equal to \$30 per share upon all the outstanding common stock and \$15 per share upon the pref. stock of the B. & M. The common stockholder may meet his obligation to purchase such new stock either by (a) Himself subscribing at par; or (b) Providing a substitute who shall buy this new stock in his stead, the underwriters guaranteeing that this substitute shall not cost him over \$5 per share; or (c) Surrendering 20% of his present stock; or (d) Borrowing from the underwriters for one year at 6% the \$30 per share to pay his subscription, giving his old and new stock as collateral security for the loan.

(2) The stockholders of the B. & M. RR. shall furnish new money to nearly the amount of its present floating debt by subscribing for \$12,324,000 new 6% pref. stock in amounts equal to \$30 per share upon all the outstanding common stock and \$15 per share upon the pref. stock of the B. & M. The common stockholder may meet his obligation to purchase such new stock either by (a) Himself subscribing at par; or (b) Providing a substitute who shall buy this new stock in his stead, the underwriters guaranteeing that this substitute shall not cost him over \$5 per share; or (c) Surrendering 20% of his present stock; or (d) Borrowing from the underwriters for one year at 6% the \$30 per share to pay his subscription, giving his old and new stock as collateral security for the loan.

Of the new stock placed by this compulsory subscription, 60% is to be a first pref. stock, equal in priority to the stock given to the leased line stockholders, and 40% a convertible preferred, inferior in priority only to said first preferred.

(3) An issue of \$12,500,000 of 5% bonds to be created to fund floating debts and for needed additions and improvements.

(4) The purchase by the consolidated company of the Hampden RR. for \$1,660,000 First Preferred 5% stock and \$1,400,000 5% pref. stock, or a total in stock of \$3,060,000.

This plan must be approved by the directors of all the companies parties to it; also by their stockholders, in each instance by a two-thirds vote; by the Federal trustees of the B. & M. with the approval of the court which appointed them. (This means that the plan must be submitted to the U. S. District Court) and by the P. S. Commissions of Maine, New Hampshire and Massachusetts and by the courts in the receivership proceedings against the B. & M. and Conn. River RR. It is unlikely that any plan that contains in it any seriously objectionable elements will successfully run this gauntlet.

Year's Results.—Operating revenues, which increased \$4,916,612, or 9.4% over the previous year, were the largest in the history of the road. However, the operating expenses increased \$6,250,118, or 17.3%, so that the net operating revenue decreased \$1,333,506, or 8.4%. After the inclusion of income from sources other than operation and the deduction of all charges the net income was \$1,880,449, as compared with \$4,065,691 for the previous year. The operating ratio (percentage of operating revenues taken by operating expenses) for the year was 74.5%, as compared with 69.5%.

Transportation expenses took 41.8% of operating revenues in 1916 and 45.8% in 1917. Price of fuel caused an increased outlay of \$1,900,000, and increases in wage rates added more than \$1,500,000. Of this latter amount, \$549,895 was paid during the six months period to June 30 1917 on account of the "eight-hour" law which became operative Jan. 1. Based on the best information at hand, it is estimated that the "eight-hour" law as applied to men affected, which number but 22% of the total employees of the railroad, will add \$1,200,000 to the annual pay-roll.

General.—The European war, now in its fourth year, has naturally produced unusual economic conditions, and the entrance of the United States into this conflict on April 6 last has so drained the skilled and unskilled labor market of surplus men that to-day only such work is being undertaken as is necessary to maintain the property and its equipment. Wage increases granted since June 1 1916 and before July 31 1917, largely effective during the last half of the fiscal year covered by this report, will amount to \$3,000,000 or more per annum, wage fixing being now largely a governmental function. Railroads, unlike commercial or manufacturing interests, have thus far been unable to obtain the necessary relief in the way of increased rates for fares and freight to offset the increased expenses. Steel bars, castings and plates are quoted at from 87% to 119% higher than last year, and other metal or metal parts at from 22% to 40% advance. Lumber has increased more than 70% locomotives, &c., over 100% in excess of the amount paid last winter. No new equipment is being ordered. It is estimated that of the increased per diem balance against the company for year covered by this report about \$625,000 is due to the new rates, now fixed at 60 cents a day.

Capital Stock.—In Massachusetts, 4,741 stockholders own 382,457 shares; in New Hampshire, 1,236 own 15,104; in Maine, 549 own 15,565; and elsewhere 683 own 13,423.

Debt.—The funded debt remains unchanged at \$43,338,000, and the notes of the company outstanding June 30 1917 aggregate \$13,306,060, viz.: Extended to Aug. 31 1916, \$13,120,060; extended to July 1 1916, \$160,600; extended to June 2 1916, \$24,400; extended to March 2 1916, \$1,000.

Cash.—The cash on hand June 30 1917, including agents' remittances in transit and time deposits, was \$7,963,757. This sum, however, includes overdue interest, &c., amounting to \$2,087,575, which, had it been paid as it matured would have left a cash balance of \$5,876,182. Included in the cash balance is the profit and loss credit balance of \$1,862,967.

Additions and Betterments.—These expenditures during the year aggregated (gross) \$3,738,777, notably: Grading, \$240,087; bridges, trestles and culverts, \$124,316; ties, rails and other track material, \$454,517; shops and enginehouses, \$294,625; equipment (60 locomotives, \$1,415,893, &c.), \$1,820,833. Credit items, namely equipment retired (including 18 locomotives, 52 passenger cars, 735 other cars, &c.), \$575,041, and land sold, \$50,775, reduced the net amount of property additions to \$3,112,960, which was charged as follows: To investment in road and equipment, \$1,714,771; to leased roads, \$1,279,587; as additional rental of leased roads, \$118,602. During the year there was charged to operating expenses for depreciation and retirements of equipment the sum of \$1,018,624, and profit and loss was charged with \$77,855 for depreciation which accrued prior to July 1 1907.

New Fiscal Year.—Future reports will be made for the calendar year.

Increased Rates.—In view of the financial burdens suddenly thrust on the railroads, your representatives, in conjunction with those of all other railroads, appeared before the I. S. C. Commission last May requesting a 15% increase in the freight rates. If granted, this would have netted your railroad, based on last calendar year's business, an increase of about \$4,600,000. Commercial and financial interests of New England favored the advance, appreciating that the proposed additional burdens would be small in comparison with the losses to which the public had been and would be subjected by inadequate service.

The application was denied with the right to renew. Certain increases which, as nearly as can be estimated, will approximate 4% on the total freight revenue, were granted. In denying the application the Commission recognized that "Among the Eastern carriers those located in New England appear to present the most serious condition."

Need of Increased Facilities.—The increasing business and the inability at all times to handle the business with expedition and economy again emphasizes the need of increased facilities. The 60 new locomotives delivered last winter have been of material assistance, and the improvements now being completed at East Deerfield will directly aid in facilitating freight movement. Although the necessity is urgent for a constructive program of improvements, under the existing circumstances little can be undertaken.

Increase in Operating Efficiency.—During the fiscal year 1912 the average revenue freight train load was 264.9 tons. In 1917 it was 374.2, an increase of 41.3% over 1912. The carload (tons per loaded freight car mile) has also increased from 14.9 tons in 1912 to 18.2 tons in 1917, a gain of 22.1%.

Equipment Owned and Acquired from Leased Roads as at June 30.

	1917.	1916.	1915.	1914.
Locomotives	1,133	1,091	1,176	1,220
Passenger cars	1,848	1,925	1,953	1,958

Government Aid to Grand Trunk Railway System.

The report of the Royal Railway Inquiry Commission shows the roads, comprising the Grand Trunk Ry. System undertaking, to have received aid as follows:

(1) \$28,145,693 of Government Aid to Grand Trunk Ry.
(a) Subsidies—Dominion Government, \$3,423,699; Provinces, \$4,077,233; municipalities, \$5,502,128.
(b) Loan—The Dominion Government made to the Grand Trunk Ry. Co. many years ago, a loan (interest on which has never been asked for or paid) amounting to \$15,142,633.

(2) \$114,470,884 of Government Aid to Grand Trunk Pacific.

(a) Subsidies—Provincial, \$376,320; municipal, \$350,000; total \$726,320.

(b) Other Cash Aid—being direct investment of Dominion Govt. \$70,311,716.

Under the "implementing clause" the Dominion Government has paid to the Grand Trunk Pacific, \$6,263,716.

It has also lent upon or bought securities as follows—

May 1909 4% Prairie section bonds bought at par. 10,000,000

Aug. 1913 4% bds. due in 1923 bought at par. 15,000,000

Loan of '14, sec. by pledge of \$7,500,000 of 4% bds. 6,000,000

1913-14 3% 1st mtge. bonds (bought from co.) 33,048,000

Loans to the amount of \$8,000,000 were authorized by Parliament in 1916. [V. 102, p. 1811.]

(c) Guarantees by Dominion Government of outstanding bonds, in addition to those actually held by Government—

Guarantees by the Dominion Government: 1st Mtge. 3% bonds, \$34,992,000; 4% sterling bonds of 1962, \$8,440,848; total \$43,432,848.

(3) Grand Trunk Pacific Branch Lines Co. Provincial guarantees on bonds outstanding

The Grand Trunk Ry. Co. stands as guarantor of the following outstanding debentures and bonds issued and loans made to the Grand Trunk Pacific Ry. Co.—

Grand Trunk Liability for Grand Trunk Pacific (Total Guarantees \$97,301,252)

The G. T. Ry. Co. stands guarantor of 4% series A Prairie division, \$10,206,000; 4% series B Mountain division, \$9,963,000; 4% Lake Superior division, \$7,533,000; total \$27,702,000.

4% Perpetual Debentures 34,879,252

5% secured notes (secured by pledges of 4% debentures) 9,720,000

Canadian Government Loan of 1913, \$15,000,000; of 1909, \$10,000,000; total 25,000,000

Amount Advanced by Grand Trunk Ry. Co.—Feb. 29 1916 (total, \$26,179,728.)

Advanced to—

Grand Trunk Pacific Ry. Co. \$801,784

Grand Trunk Pacific Branch Lines Co. 13,369,538

Grand Trunk Pacific Saskatchewan Ry. 214,500

Grand Trunk Pacific Development Co., Ltd. 11,793,907

The total commitment of Grand Trunk Ry. Co. was \$123,280,980

In respect of these advances the Grand Trunk Ry. holds the companies' \$24,334,017 notes.

The present annual liability of the Grand Trunk in connection with the Grand Trunk Pacific system is estimated to be considerably over \$5,000,000 per annum; and after Jan. 1923, it will increase to over \$7,000,000.

Letter to Inquiry Commission from E. J. Chamberlin, Then President of the Grand Trunk Ry. Co., Jan. 30 1917.

In replying to the first question asked in your letter "as to the effect on the Grand Trunk proper of the loss of the \$25,000,000 investment," it is perhaps necessary to repeat to some extent what has already been said from time to time on the subject.

The advance to the Branch Lines Company—every dollar of it—represents money paid by the Grand Trunk in order to complete the lines, the bond issues having been found insufficient for the purpose, together with interest accruing. These branch lines were intended to be, and have been, important feeders to the parent company, the present financial position of which would have been much worse than it is had they not been constructed.

The Grand Trunk Railway Co. having furnished the money necessary to complete these lines would naturally look upon the confiscation of its investment as a crime. The money was put into it in good faith, in the belief that the Grand Trunk Pacific was largely a national undertaking. That the railway has turned out so far not to be a success is no fault of theirs, but can be attributed directly to the action of the Government in subsidizing competing lines and in many ways enormously adding to the cost of construction. There is not a shadow of doubt that had the course subsequently followed by the Government been known when application for

the Grand Trunk Pacific charter was made, that road would never have been built.

These are the facts as understood by the Grand Trunk directors and shareholders.

The repudiation of this legitimate indebtedness in any arrangement made with the Government would not only injure the Grand Trunk Company's credit, but might induce a spirit of hostile criticism on the part of investors in Grand Trunk securities in London and New York that might easily react upon the credit of the country.

The foregoing remarks apply also to the advances to the Saskatchewan Ry. The Grand Trunk Pacific Development Co. was organized with a view to obtaining, for the Grand Trunk Pacific Railway, terminals and town-sites, in order to induce settlers to take up land on the line of the railway. The whole of the common stock was owned by the Grand Trunk Pacific Ry. Co. The enterprise was an endeavor to do at our own expense exactly what in the case of the Canadian Pacific and Canadian Northern companies had been provided by the Government by giving land subsidies. The money advanced by the Grand Trunk Pacific Ry. Co. would have been repaid had it not been for the collapse of land values in the west, owing to the culmination of the boom in real estate. The assets of the company are owned by the Grand Trunk Pacific Railway Co. and the operations of the Development Company accrue entirely to its benefit.

To the second question asked as to the effect on the Grand Trunk proper should the operation of the Grand Trunk Pacific be left as it is and the former not be relieved from its guarantees, there can be only one answer: it would mean a receivership for the Grand Trunk Company, carrying with it the destruction of its credit for some time to come and the impairment of the credit of the whole Dominion.

I can hardly add anything to lend additional force to the remarks already made in order to indicate the justice of our claim. If we have been guilty of too much optimism in the inception of the scheme, does not the same criticism apply to the Government which subsidized a railway system to compete with us, its success being dependent entirely upon a large influx of settlers in the west? While this expectation has not yet been fulfilled, it is not unreasonable to hope that it has only been deferred, and that eventually the Grand Trunk Pacific Railway system will prove an excellent national asset.

Views of an English Stockholder, "Financial Times", Mont., Sept. 29.

The majority of the Commission recommended the taking over of the Grand Trunk, and the Grand Trunk Pacific, by the Canadian Government, and, if a suitable price be paid, the shareholders no doubt would be very pleased that they should do so.

This year the Grand Trunk Railway has petitioned the Canadian Government to be allowed to raise its freight rates 15% on account of the hugely enhanced expenditure caused by the war conditions, the enhanced cost of labor and coal alone far more than justifying this increase, but so far this increase has not been granted.

Here in England railway passenger fares in all railways in the Kingdom since the war began have been advanced 50% and freight rates have also been raised.

We now hear from Canada that the Government has decided to take over the Canadian Northern Ry., and to deal apparently generously with that company, and that the Government has decided to lend the Grand Trunk Pacific \$7,500,000 at 6% to enable them to carry their business on until the Government decides what further steps they will take in connection with that railway. The speech of Sir Thomas White in introducing those measures into the Dominion Parliament would give the impression that the Government intend treating the Grand Trunk fairly, and not as the Drayton Commission advised, and this is what might be expected.

It seems to me that there are only two ways of dealing with the matter.

(1) By taking over the Grand Trunk Pacific from the Grand Trunk in the way suggested by Mr. Smithers, and thus leaving the Grand Trunk a compact railway, only making it obligatory that it should establish a working board in Canada and that the London Board should confine itself to the general direction and the finance of the company, or

(2) That the Government should acquire the Grand Trunk Railway from the shareholders, and with it, of course, their interest in the Grand Trunk Pacific, paying them suitably.—V. 105, p. 997, 909.

California Railway & Power Company.

(Fourth Annual Report—Year ended June 30 1917.)

Pres. Mason B. Starring, Aug. 25, wrote in substance:

Notes Canceled, &c.—The United Railways Investment Co. has procured, canceled and delivered to the California Railway & Power Co. said California Company's \$1,000,000 5% gold notes due Feb. 1 1917, which have been cremated and the co. relieved of liability thereon (V. 105, p. 717).

Dividends.—The quarterly dividend of 1% on the cumulative prior preference stock was paid July 1 1916, and a dividend of 1% was paid Oct. 1 1916; since that date, owing to the pending reorganization of United Railroads of San Francisco and its inability to pay either interest or dividends to this company, we have discontinued dividends; also, for the same reason, no accrual of interest on United Railroads' notes has been made since Dec. 15 1916.

United Railroads of San Francisco.—The amended plan of reorganization of April 26 1917, as promulgated by the reorganization committee and declared operative June 2 1917, but which has not yet been carried into effect, contemplates important changes and disposition of capitalization of that company. (See V. 104, p. 1703, 2012, 2344.)

During the year additions and betterments were made to a total of \$180,735, \$138,701 of which was spent on track and roadway; this amount was charged to reserve for depreciation. There was appropriated from surplus for depreciation reserve \$550,000, and items aggregating \$193,085, including the aforesaid \$180,735 were charged against the same.

Up to June 30 1917 an aggregate amount of \$2,435,000 par value of mortgage securities had been retired and canceled from investment made with sinking fund moneys, comprising bonds as follows:

United Railroads 4%—\$1,505,000 Park & Ocean RR. 6%—\$170,000
Park & Cliff House Ry. Ferries & Cliff House 6%—167,000
Co. 6%—350,000 Market Street Ry. 5%—243,000

Sierra & San Francisco Power Co.—Railway Power Contract.—On June 30 1917 the connected load was 59,872 k. w., equivalent to 80,252 h. p., with 4,752 electric and 1,204 water customers, while at June 30 1916 the connected load was 52,303 k. w., equivalent to 70,111 h. p., with 4,137 electric and 1,172 water customers.

During the year the total number of kilowatt-hours of electrical energy delivered into the system from all sources was 206,681,464 k. w. h., of which 172,470,250 k. w. h. were generated in the company's own plant and 34,211,214 k. w. h. were received from other companies in which there is included 32,054,100 k. w. h. received under City Electric Co. contract.

The company's second large storage development, known as Strawberry Dam, with capacity of 5,832,000,000 gal., has proven successful and satisfactory. The company's nine reservoirs have a total capacity of 12,416,000,000 gallons.

Sundry additions and betterments during the year cost \$244,261.

On Nov. 15 next the contract will terminate between United Railroads of San Francisco and the City Electric Co., under which for a number of years the railroads has purchased from City Electric Co. a part of the electrical energy used in the operation of its cars, for which it paid an average of about \$350,000 per annum; thereafter the railroads under its contract with the Sierra & San Francisco Power Co., is to purchase such energy from the latter company at a saving to the railroads estimated to be about \$100,000 per annum, which should be reflected in railroads' net earnings; also, by taking on this additional load, the gross earnings of the power company should increase about \$240,000 p.a., and its net earnings \$140,000.

Prospective large increases in its business, together with the aforesaid increased demand from United Railroads, has caused the power company to purchase, and it is now installing at its North Beach power station, a 9,000 k. w. turbo-generator. When such additional installation is completed, the steam generating capacity of that station will equal 27,000 k. w.

To provide funds with which to pay for the additional generating capacity and the extension of its business, the Sierra & San Francisco Power Co., with the sanction of the Calif. R.R. Commission, in Oct. 1916 sold an additional \$1,000,000 First Mtge. bonds. Proceeds are being or will be applied not only to the foregoing addition and betterment, but to such others as may seem profitable or desirable (V. 103, p. 1691).

Coast Valleys Gas & Electric Co.—The connected load on June 30 1917 was 8,054 k. w., with 4,038 electric, 2,141 gas and 1,273 water customers, against a connected load of 6,687 k. w., with 3,771 electric, 1,995 gas and 1,227 water customers at June 30 1916. During the year electric sales amounted to 6,311,133 k. w. h. and gas sales to 39,915,800 cubic feet, against 5,769,368 k. w. h. and 37,127,700 cu. ft., respectively, for 1916.

For some time past the high price of oil used in the manufacture of gas and in generating electricity has militated, among other things, against accomplishing the best results which the company was justified in expecting. The company has paid all of its \$40,000 outstanding notes and is gradually extending its business, but has been hampered by difficulties which for the time being prevent the issuance of additional bonds for the purpose of providing new money for betterments and extensions.

The Pacific Coast Company.

(20th Annual Report—Year ending June 30 1917.)

Pres. William M. Barnum, N.Y., Oct. 1, says in substance:

Pacific Steamship Co.—This company has been organized to operate, for a period of ten years from Nov. 1 1916, the steamships of the Pacific Coast Co. and the Pacific-Alaska Navigation Co., under identical charters, and its capital stock is owned in equal amounts by the two companies named. Each of these two last named companies receives, payable monthly, from the operating company, as charter hire or rental, for each of the first two years of the term, 10 %, for each of the following three years, 11 %, and for each of the remaining five years, 12 %, on the valuation of the ships upon the company's books, and, in addition, through ownership of one-half of the stock of the operating company, has a one-half interest in the further earnings of that company.

As compared with the previous year, the return to the company from its steamships decreased \$93,566, the decrease being due to the loss of revenue of SS. Congress and the loss occasioned by the longshoremen's strike which continued from June 1 to the first week in October. A conservative estimate places the loss in net earnings due to these two causes at \$360,000.

Pacific Coast Coal Co.—The net earnings of this subsidiary, including lumber sales, increased \$79,781. The depression in recent years in the coal operations was due to the large available quantity and low price of fuel oil. Advancing oil prices have resulted in better prices and greater demand for the company's coal.

Railroad Earnings.—The gross earnings of the Pacific Coast RR., formerly Columbia & Puget Sound RR., increased \$125,046 and the net earnings increased \$62,496. Payments made during the year by the Chicago Milwaukee & St. Paul Ry. for the rental of tracks of the Pacific Coast RR., amounted to \$51,444. This item is credited under miscellaneous income, but in determining the value of the last named company as a contributor to the earnings of the Pacific Coast Co., this item, that is, \$51,444, should be added to the net earnings of the Pacific Coast RR.

The net earnings of the Pacific Coast Ry. increased \$20,778.

Other Income.—Rentals, dividends, grain warehouses and Port San Luis Wharf earnings increased \$11,445.

Outlook.—While wages and cost of material and supplies have, as in other parts of the country, greatly increased, the outlook for business during the coming year is favorable, subject in some measure to Government regulation of the coal industry. It is hoped that a policy will be adopted which will yield a fair return, and sufficient to stimulate the increased production needed by the communities dependent for fuel supply upon the coal mines of western Washington.

Report of V.-Pres. & Gen. Mgr. E. C. Ward, Seattle, Wash., Aug. 28 '17.

Pacific Coast Steamship Co.—The gross earnings decreased \$2,621,867, and net earnings \$397,661. These figures include the operations of the steamers for the period July 1 to Oct. 31, inclusive, on which date they were released to the Pacific Steamship Co. (see above). The substantial decreases shown above are occasioned by a comparison of four months of operation this year with twelve months of operation last year. Earnings were also seriously affected by the longshore strike, which was in progress from June 1 until early in October of last year, and by the disaster to the SS. Congress.

The steamers *City of Puebla*, *Meteor*, *Montara* and *Tampico* have been sold at favorable prices, it having been considered advisable to take advantage of existing market conditions to realize on these older vessels. Settlement was made with the hull underwriters of the Congress for approximately the face value of the policies. Subsequently, a favorable offer having been received for the vessel in her damaged condition, it was considered advisable to dispose of her rather than to rebuild her. The profit resulting is held in suspense pending settlement of various outstanding accounts.

Property Account during the year decreased (net), \$417,639, notably as to \$345,235 through the sale of SS. *Queen* and SS. *Homer* to the Pacific Coast Co., and as to \$71,717 through sale of furniture and wharf equipment, sold to Pacific SS. Co.

Pacific Steamship Co.—This company, in whose capital stock the Pacific Coast Co. has a 50 % interest, began operations on Nov. 1 1916. The earnings for the period July 1 to Oct. 31 1916, inclusive, and the rentals received by the Pacific Coast Co. for the charter hire of its steamers, added to its 50 % interest in the net income of the Pacific Steamship Co., for the period Nov. 1 1916 to June 30 1917, inclusive, determine the net revenue from the Pacific Coast Co.'s floating property for the fiscal year to have been \$93,566 less than for the previous year. To this less favorable showing, the longshore strike of 1916, and the loss of the net earnings of the Congress, are the large contributing factors.

The year as a whole has not been a favorable one for passenger business, and the earnings in this department show a substantial decrease. Cargo business has been generally satisfactory. As in other enterprises, the steamship company has had to meet heavy increases in cost of labor, fuel

and supplies. It has thus far been possible to largely offset these by increases in rates.

Pacific Coast Coal Co. (coal dept.)—The gross earnings increased \$670,408; and net earnings \$73,973. The total output of the mines was 657,619 tons, an increase of 135,032 tons. The amount of coal sold at all depots from company's mines was 581,971 tons; other domestic coal, 37,814 tons; and foreign coal, 14,706 tons; a total of 634,491 tons, an increase of 122,747 tons against last year. During the year 94,385 tons of briquets were manufactured and 91,835 tons sold, an increase of 49,517 tons and 43,215 tons respectively.

During the early portion of the year the business of the company was moderate in extent, but during the winter and spring months the volume of its business was favorably influenced by the substantial increase in the cost of fuel oil. The wages of coal mine employees were advanced on Sept. 1, and to meet rapidly changing conditions, again on June 1. This, together with heavy increases in the cost of material and supplies, has substantially increased the costs of mining coal. These increases in costs have been met in part by advance in coal prices and to as great an extent as market conditions have permitted.

In order to place the company in better position to supply the demand for this class of fuel there has been acquired, since the close of the fiscal year, the Issaquah Mine, at a cost of about \$300,000. This mine produces coal similar in quality to that of the Newcastle Mine, and it is anticipated that it will prove a valuable acquisition.

The Pacific Coast Co.—A new wharf and two warehouses at Pier No. 11, Seattle, are being constructed to replace the structures destroyed by fire in June 1916. These improvements are nearly completed, and satisfactory leases have been entered into which will yield a fair return on the investment.

Improvements made during the year were as follows: Steamships *Homer* and *Queen* bought, \$345,234; other additions, \$221,032; total \$566,266. Steamships sold (namely *Congress*, *City of Puebla*, *Tampico*, *Montara*, *Meteor*, *Aurelia* and *Curacao*), total cash value, \$2,034,889; and other deductions, \$7,595; net deductions from property, \$1,476,219.

INCREASES IN GROSS AND NET EARNINGS, YEAR END, JUNE 30 1917.

—V. 104, p. 1903, 367.

GENERAL INVESTMENT NEWS**RAILROADS, INCLUDING ELECTRIC ROADS.****Boston Elevated Ry.—Fiscal Year Now Ends Dec. 31.**

We are advised that this company issued no report for year ending June 30 1917, inasmuch as the Legislature has ordered that the fiscal year of street railway companies in Massachusetts shall end with Dec. 31.—V. 105, p. 908, 715.

Boston & Lowell RR.—Loan—Bonds Paid.

We are informed that the company recently borrowed \$200,000 on its notes (dated Sept. 18 1917) to provide funds for the payment of a like amount of bonds which matured Oct. 1 1917.—V. 104, p. 255.

Brooklyn Marginal RR.—Railroad Companies Unable to Undertake Construction.—Regarding the plan for a railroad along the water front in Brooklyn, a project for which the City Board of Estimate several years ago voted to appropriate \$6,000,000 (no part of which has yet been expended), President Samuel Rea of the Pennsylvania RR. in a letter sent to Mayor Mitchell on Sept. 26 says in part:

In the pre-war period the estimated cost of this railroad, as based on the specifications of the city, was \$12,000,000. Now similar plans would cost at least \$15,000,000. A careful estimate was made of the revenues, expenses and fixed charges, and the result was an aggregate deficit to be distributed among the various railroads, based on their contribution of tonnage of over \$700,000 per annum. This annual loss to the railroads on the business was more than any one of them could bear. Feeling my own responsibility in the matter, I had an investigation made to ascertain whether the Pennsylvania and Long Island railroads together might assume it, in order to meet the views of the authorities of the City of New York; but under the narrow margin of our earnings as a whole we were unable to undertake the project.

We prepared a modified plan whereby the city should share in the outlay, first, by materially lowering the cost of construction in the first instance, believing that lines laid on the surface of the streets would be effective and sufficient at the outset, and that as the tonnage grew the elevated railroad might be built. Even on that basis, as against the lighterage system of deliveries free at the respective piers, the use of the facilities of the marginal railroad, and the difficulty and expense of suitable yards on the Brooklyn

shores, the railroads would be involved in a greatly increased expense without a corresponding saving or improved efficiency.

You may have noticed that while the railroads of the Eastern section of the United States have increased their gross revenues for the first seven months of this year by \$78,584,186, as compared with the same period of last year, their net revenues have decreased \$39,986,123, notwithstanding their larger capital assessment and the partial increases in rates allowed by the I.-S. C. Commission, which will only to a moderate extent offset the increased expenses.

The outlook for the net revenues of these Eastern railroads—which really are the terminals for the whole United States—is not encouraging; they cannot undertake large terminal projects like this, which create a large deficit.

If the City of New York builds this railroad and undertakes to operate it itself, it must, I feel sure, make a large deficit, unless with the superior advantages offered it is able to collect an additional charge from the consignees, or increases its taxable values. Even then I question whether such fair charge as would be admissible would recoup the city for the loss. If this be true, the railroads cannot be expected to assume that loss. Compare "State & City Department" V. 100, p. 1850, and V. 98, p. 1391.

California Ry. & Power Co.—Board Increased—Report.

The directorate has been increased to 12 members, with the addition of Lyman P. Hammond, of Bonbright & Co.

See "Annual Reports" on a preceding page.—V. 105, p. 1308.

Central Argentine Ry.—Results.—The London "Statist" of Sept. 8 1917, in an article on the property, reports:

A press despatch on Sept. 24 said: "A general strike on eleven Argentinian railroads began at midnight last night. Traffic has been absolutely paralyzed on all railroads except some small Government lines in the interior."

A later report states that the privately owned railways of the Rosario district of Argentina, in conjunction with other lines, have given notice to the Federal Railway Commission of a contemplated increase of 22% in all their tariffs, to take effect Dec. 15 1917. An increase of 10% in rates went into effect Oct. 1 1915. It is understood that freight rates in the district average between 1.4 and 1.8 cents per ton mile.—V. 105, p. 605.

Central of Georgia Ry.—New Equipment.

Vice-Pres. L. W. Baldwin on Sept. 27 announced that this company is preparing an order for rolling stock to cost approximately \$2,500,000, viz.: 13 locomotives (10 Mallet type and 3 passenger), \$100,000 each—\$1,300,000 14 passenger cars (12 day coaches, 2 parlor cars), \$20,000 each—280,000 700 freight cars (200 stock and 500 ventilation), \$1,200 each—840,000—V. 105, p. 997, 385.

Chesapeake & Ohio Ry.—Annual Meeting.

The shareholders will vote Oct. 23 on changing the date of the annual meeting to the Tuesday preceding the last Tuesday in April.—V. 105, p. 1208, 997.

Chicago & Alton RR.—New Fiscal Year—Earnings.

As the fiscal year of the company has been changed to end Dec. 31, no June 30 1917 annual report will be issued.

The surplus after deducting all charges, for the year ended June 30 1917 was \$495,035 against a deficit of \$171,078 for 1915-16.—V. 105, p. 605.

Chic. Burl. & Quincy RR.—Stricken from List—Officers.

This company's Southwestern Division 4s of 1921 have been stricken from the list on the New York Stock Exchange.

Claude G. Burnham, Vice-President in charge of traffic, has been elected Executive Vice-President, assisting the President in all departments of the road. E. P. Bracken, General Manager, succeeds H. E. Byram, who resigned as Vice-President in charge of operation to become President of the Chicago Milwaukee & St. Paul (announced last week, V. 105, p. 1308). Conrad E. Spens has been elected Vice-President in charge of traffic, and L. B. Allen has been chosen General Manager.—V. 105, p. 1308, 715.

Chicago & Eastern Illinois RR.—Status—Sub. Co.

See Evansville & Indianapolis RR. below.—V. 105, p. 1103, 997.

Chicago Rock Island & Pacific Ry.—Statement by Directors.

A circular sent out Sept. 26 over the signature of Secretary George H. Crosby says in substance:

The unwarranted communication recently sent to the stockholders by a Boston director is designed to create in the minds of the stockholders a dissatisfaction with the conduct of the affairs of your company, which in the opinion of the board the facts do not justify.

No member of the present board of directors is representative of any former controlling interests, nor have any former interests asked or requested representation on the board. Your board is a particularly representative one, largely made up of the men who have put the company in its present improved condition through the recent reorganization and who have a large financial interest in the property and are striving to work out its future.

The director refers to the money which he has recently returned to the shareholders. This was not his money, but was paid to him out of the funds of the Reorganization Committee, and had it not thus been paid it would be in the treasury of the Rock Island Railway.

The present plan of electing the full board of directors each year was the unanimous vote of the Reorganization Committee on which there was no diversity of opinion. The new directors were all elected to fill vacancies in the board in accordance with the by laws—i. e., by the remaining directors, the only way in which they could have been lawfully elected. All of these directors were elected for the balance of the term expiring Oct. 11, at which time the stockholders themselves will elect a full board of directors.

The sending out of a form of proxy by the officers was in accordance with the custom of many large corporations, and one that has been followed by this company for more than 40 years. To obviate any question as to the selection of these names, a blank space was left in the proxy so that any stockholder might insert, as his representative, the name of any director or other stockholder.

In the interest of economy the directors passed a resolution that no salaries be paid to the Chairman of the executive committee, the Chairman of the finance committee and the Chairman of board, the director as Chairman of the executive committee alone voting against this resolution.

The company has passed through many trials and vicissitudes and it has been hoped by the officers and members of the board that these were all past and that a united effort for the success of the company could now be had. No shareholder can possibly regret more than the members of the board an undignified controversy. Each stockholder must determine for himself whether he prefers to have his proxies voted for men as yet unnamed or by sending proxies to the Secretary or proxy committee to have them voted for the following as directors [all except Mr. Rearick being members of the present board—Ed.]:

J. E. Gorman, President of the company, Chicago; John G. Shedd, Pres. Marshall Field & Co., Chicago; Nathaniel French, Davenport, Ia.; Beman

G. Dawes, Pres. Ohio Cities Gas Co., Columbus, O.; James A. Patten, Bartlett, Frazier & Co., Chicago; Frederick W. Scott, Scott & Stringfellow, Richmond, Va.; Charles Hayden, Hayden, Stone & Co., N. Y.; James N. Wallace, Pres. Central Trust Co., N. Y.; E. K. Boisot, Pres. First Trust & Savings Bank, Chicago; James Speyer, Speyer & Co., N. Y.; A. C. Rearick, N. Y. (representing the Holland ownership of 114,000 shares); John R. Morron, Pres. Atlas-Portland Cement Co., N. Y.; J. W. Burdick, Pres. West Penn Steel Co., Brackenridge, Pa.

The foregoing statement is sent to the stockholders by order of the board adopted at a meeting held Sept. 26 1917, at which were present John G. Shedd, Chas. Hayden, James A. Patten, James Speyer, Frederick W. Scott, James E. Gorman, James N. Wallace, Beman G. Dawes, N. L. Amster. All the foregoing, except Mr. Amster, voted in favor of sending the statement to the stockholders. Compare V. 105, p. 1308.

Cleveland & Youngstown RR.—New Terminal.

This company has awarded a contract for the construction of a freight terminal at Orange Ave. and East 12th St., Cleveland, to cost about \$675,000.—V. 103, p. 144.

Columbus Delaware & Marion Electric RR.—Cash Offer for Bonds.

In circular of Oct. 4 addressed to holders of 1st 5s of 1901, Rudolph Kleybolte of Cincinnati says in brief:

With the abandonment of the foreclosure action by the Cleveland Trust Co., the trustee, the previous offer of Fincke, Bangert & Co. [of Phila.] to bid \$850 per \$1,000 bond at the foreclosure sale became inapplicable to the situation. They have, therefore, made a new offer in writing to pay \$850 for each \$1,000 bond, conditioned only upon the acceptance of this offer by holders of \$501,000 bonds out of the \$1,000,000 outstanding, in order to enable them to remove the Cleveland Trust Co. as trustee. I still feel sure that you can get par for your bonds if you will stand pat.

[An offer, it is stated, has also been made through the Cleveland Trust Co. to exchange these bonds for new mortgage bonds.]

An assessment is payable at the Cleveland Trust Co. before Oct. 10. The majority of the bondholders' committee, it is understood, approve the assessment and the exchange of bonds, while Mr. Kleybolte and John F. Tyler of Philadelphia dissent and claim that \$250,000 of the bonds have been withdrawn from the plan.—V. 105, p. 180, 72.

Connecticut Company.—Fare Litigation.

In connection with the increase in the fare on this company's lines from five to six cents, Judge Howard J. Curtis, in the Superior Court in Bridgeport, Conn., on Sept. 28 avoided passing directly upon the application of the City of Bridgeport for an injunction against the company from increasing its fares, by suggesting that the new books of tickets contain a refund clause by which the cover is worth 15 cents in the event of a final adjudication that the 6-cent fare is unreasonable. By adopting this device the company will avoid injunction proceedings and can collect a 6-cent fare until the P. U. Commission passes on the question.—V. 105, p. 1309, 1208.

Dallas (Tex.) Electric Co.—New Franchises Formally Accepted Subject to War Proviso—New Companies—Rate Reductions.

On Sept. 27 C. W. Hobson and J. F. Strickland filed their formal acceptances of the new street railway and light and power franchises with the City Commission. Mr. Hobson at the same time stipulated as regards the railway franchise that while he would proceed to expend the required \$1,000,000 for improvements and additions, he must be excused from building the proposed interurban lines, as planned, unless the delay be accepted as being covered by the clause in the franchises reading "unless prevented by war, strikes, riots, acts of God, casualty or other causes which could not reasonably have been anticipated."

The City Commission, after a short deliberation, replied: "Messrs. C. W. Hobson and associates: We want to be perfectly frank with you gentlemen, as you have been with us. We intend to see that the franchise, as granted by the people, and the contract, as ratified by the people, are faithfully carried out in every particular as written, and without alteration; and we sincerely believe that you gentlemen in good faith intend to do this. Therefore, we can see no reason for any disagreement between us. We think that your statement of present existing conditions is correct, but we are unwilling to undertake to construe the contract at this time. We will not attempt to construe it until it becomes our duty to do so officially. We will then construe it in the light of conditions existing at that time."

The new companies operating under these franchises and enjoying, it is understood, the advantages of a close alliance with the Electric Bond & Share Co. of N. Y., are:

Dallas Railway Co.—Officers: C. W. Hobson, Pres.; H. M. Hughes, Vice-Pres., and Henry Lange Jr., Sec.-Treas. Directors: J. C. Duke, H. A. Olmsted, W. A. Green, W. R. Ellis, John H. McDonald, Judge M. L. Morris, J. K. Hexter, H. M. Hughes, H. E. and C. W. Hobson.

Dallas Power & Light Co.—Officers: J. F. Strickland, Pres.; W. B. Head, Vice-Pres.; Fred M. Lege Jr., Vice-Pres.; C. E. Calder, Sec. & Treas.; J. C. Thompson, Asst. Sec. & Asst. Treas.; and C. L. Cox, Asst. Sec. & Asst. Treas. Directors: J. F. Strickland, W. B. Head, A. A. Jackson, Frank E. Austin, E. L. Filppen, C. L. Sanger, W. H. Gaston, Fred M. Lege Jr., T. E. Jackson, George W. Loudermilk, A. S. Grenier, C. E. Calder, Harry L. Seay, C. L. Cox, S. I. Munger, Edward Titche and C. R. Jones.

The "Dallas News" of Sept. 28 says:

Prior to the filing of the acceptances, the Commission passed to first reading an ordinance confirming and re-enacting the ordinance granting a franchise to the Northern Texas Traction Co., passed Jan. 8 1917 [which will result in a lease of its property in Oak Cliff to the Dallas Ry. Co.] and the execution of an interurban operating contract with the Dallas Ry. Co. under the direction of the city.

A second ordinance giving the city the right to grant leases over all lines in Dallas was passed as an emergency order.

A statement was also filed which shows that charter proceedings have been had that form the Dallas Ry. Co. out of the Dallas Consolidated Electric Street Ry. Co., Metropolitan Street Ry. Co., Rapid Transit Ry. Co. and the Dallas Interurban Terminal Association.

Statement by Mr. Strickland—New Lighting and Power Co.

Acceptance of Franchises.—The filing of the acceptance of the franchises by Mr. Hobson and myself, we trust, is the final act in the solution of the street railway and lighting problems of the city of Dallas. We realized at the time the Mayor, in April 1916, suggested that we organize local companies to take over these properties and operate then under the "service-at-cost" plan of franchises, that the undertaking was a very large one, but, being citizens of Dallas, we were interested in bringing about an equitable solution of the complicated problems.

A few days after the election last April, at which the franchises were ratified by the people of Dallas, thereby making it possible for us to take over the properties, the United States entered the war against Germany. This declaration of war made it exceedingly difficult to raise the large sums of money called for in the franchises, but one by one we have surmounted all difficulties, and our acceptance of the franchises to-day means, of course, that we are prepared to carry out every commitment in them.

The acceptances of these franchises completes the undertaking of Mr. Hobson and myself as a joint enterprise. Henceforth the management of the two companies will be entirely separate. Mr. Hobson and his associates will control the street railway properties, while myself and associates will control the power and light properties.

Dallas Power & Light Co.—Speaking for the lighting company, the name of the new corporation as just organized is Dallas Power & Light Co.

New Rates, &c.—The new schedule of lighting rates will be put into effect as of Oct. 1. The franchise fixes the maximum rate at 8c. net. On Nov. 1 next the rate called for in the franchise is 7c. net. I am glad to say to the public that on Oct. 1 we will put into immediate effect the 7c. rate, thus giving to the patrons of the lighting company at that time a reduction of more than 22% upon the rates now being charged.

Notwithstanding the fact that the price of materials required for improvements and extensions has been practically doubled on account of war orders of the Government the lighting company is prepared to begin spending the \$1,000,000 for improvements and extensions called for in the franchise, and work will begin as soon as plans can be drawn and approved by the city.

Important Provisions of New Franchises.

Railway.—The new railway company by the terms as drawn is required:

(a) To build an interurban not less than 30 miles in length, from some outside point into Dallas, work to be begun within six months from the time of operation under the ordinance passed, the interurban to be put in actual service within 18 months from that date, unless prevented by war, strikes, riots, acts of God or casualty or other cause which could not have been reasonably anticipated.

(b) To begin an interurban not less than 30 miles in length from some outside point into Dallas, work to be begun within six months from the time when the gross earnings of the lines east of the Trinity River exclusive of the interurbans shall bear the same proportion to the then property value as the gross earnings for the calendar year of 1913.

(c) To expend the sum of \$1,000,000 in altering, reconstructing, rearranging and improving the properties originally put in operation by the new company, the city to receive \$200,000 as liquidated damages for failure to comply with the agreement.

Schedule of Fares.

- (a) Cash fare 5 cents; twenty-two tickets for one dollar.
- (b) Cash fare 5 cents; six tickets for 25 cents.
- (c) Cash fare 5 cents; seven tickets for 25 cents.
- (d) Cash fare 5 cents; eight tickets for 25 cents.

Said schedules to be applied as follows: Whenever after paying or providing for the return on property value, the repair, maintenance and depreciation reserve and the accident reserve are not less than normal and the surplus reserve exceeds normal by 50%, the fares shall be reduced to the next lower schedule than the one then in force, and if after operating six months the surplus reserve exceeds normal by 30%, the fares shall again be reduced to the next lower schedule, and further reductions shall be made at six months intervals until the surplus reserve shall amount to less than 10% in excess of normal. Whenever the surplus reserve is reduced to one-half of normal, the grantee may at six months intervals put in force the next higher schedule than the one then in force until the surplus reserve equals 90% of normal.

Grantee may make such rates for special and chartered cars as the Board of Commissioners approves. Children under 12 and students under 17 years of age are entitled to reduced rates.

Each of the foregoing rates of fares when in force shall be the rate of fare for a continuous single ride within the present limits of the city of Dallas in one direction, over any route of said company.

Children of 12 years of age or less, and students of not more than 17 years of age, shall be carried on the company's lines for one-half of the regular fare collected for transportation of adult persons as now required by law.

Light Agreement.—Concurrently with the final passage of the ordinance granting an electric light and power franchise, J. P. Strickland, in writing, agrees to expend the sum of \$2,000,000 in altering, reconstructing and rearranging and improving the distributing system, power plants and properties and in making additions and extensions, viz., \$1,000,000 to be expended within 18 months after grantee of franchise begins to operate under the ordinance, and \$1,000,000 within 42 months after the expiration of the first 18 months.

The reduction in the light rate also is on a graduating scale, and there will be an immediate reduction to the following rates: For the first 800, k. w. h. per month, 8c.; for the next 1,200, 6c.; for the next 3,000, 3.6c. For power the rates range from 5c. for the first 300 k. w. h. per month down to 1.2c. for more than 90,000 k. w. h. per month.

The above schedule of rates will continue in force for one year, and thereafter are to be changed from time to time as follows: Whenever the amount credited to the interest fund, less the proportionate accrued payments to be made therefrom shall be less than \$150,000 by the amount of \$40,000, it shall be prima facie evidence of the necessity of raising the rates, and the Board of Commissioners shall immediately adopt a newer and higher schedule of rates. Whenever the balance in the interest fund, less the proportionate accrued payments to be made therefrom, shall be more than \$150,000 by the amount of \$40,000, it shall be prima facie evidence of the necessity of lowering the rates, and the Board of Commissioners shall immediately adopt a newer and lower schedule of rates.

Compare also V. 192, p. 1896; V. 103, p. 2238; V. 104, p. 1489; and page 35 of "Electric Railway Section."—V. 104, p. 1800.

Dallas (Tex.) Railway.—Merger.—Rates.

See Dallas (Tex.) Electric Co. above.

Dallas Southwestern Traction Co.—Construction, etc.

This company has received a franchise running for 35 years and has commenced construction of its interurban line, which will extend eventually from Dallas to Irving, Eagle Ford, Cleburne, Mansfield, Alvarado and Glen Rose, and possibly to Stephenville, at a cost of about \$2,500,000. The company has issued bonds to the amount of \$2,500,000.

Under the terms of the franchise just granted a five-cent fare is guaranteed for local traffic in Dallas.—V. 105, p. 909.

Denver & Rio Grande RR.—Proxy Committee.—Proposed Board.

The committee formed for the protection of the interest of the holders of preferred and common stock announces that it has named three of its members, viz., John W. Platten, J. Horace Harding and Harrison Williams, to act as a proxy committee at the stockholders' meeting to be held Oct. 16, and that this proxy committee and large stockholders of the company have reached an agreement by which substantial representation upon the board of directors will be accorded to the stockholders' committee (V. 104, p. 2116). The new board, they state, will probably include:

B. F. Bush, Harry Bronner, Arthur Coppell, George J. Gould, J. Horace Harding, George G. Haven, Edward T. Jeffery, John W. Platten, Finley J. Shepard, Harrison Williams. [The new names are those of Messrs. Bronner, Harding and Platten, replacing E. D. Adams, Kingdon Gould and Benj. McAlpin. So far as is known, there is no likelihood of a contest between the Gould, Missouri Pacific and Coppell interests with reference to the election.] On the contrary, the election, it is understood, will re-establish to a certain extent the community of interests formerly existing between the Denver & Rio Grande, the Missouri Pacific and the Western Pacific. Nothing further than this, it is said, is likely to come out of the matter, at least until the litigation regarding the guaranty of the Western Pacific Railway bonds by the D. & R. G. and the \$34,000,000 judgment against the last named company has been concluded. The Denver "News" states that, "according to reliable information received there on Sept. 27, George J. Gould had yielded to a proposition that will put the D. & R. G. under the complete domination of the Missouri Pacific group, with the elimination of the Gould interests except as minority members of the board."

New President.—At the regular monthly meeting of the directors on Thursday, H. U. Mudge resigned as a director and President and was succeeded in both positions by E. L. Brown, formerly Vice-President of the company.

Kingdon Gould, who is now in military service, resigned as a director and was succeeded by S. N. Rice. At least two other changes in the list of directors, it is stated, will be made at the annual meetings this month. J. Horace Harding and J. W. Platten will then enter the board. The retirement of President Mudge was predicted last week by the "Denver News" as practically certain to follow the proposed closer relations of the road with the Missouri Pacific.—V. 105, p. 1309, 1103, 1098.

Denver & Salt Lake RR.—Denied.—Rates Advanced.

Touching the press dispatch from Denver, that plans are under consideration for reorganizing this company and for financing the proposed 6-mile tunnel through James Peak, we learn from the bondholders' protective committee (E. R. Tinker, N. Y., Chairman) that the statement is misleading and incorrect, reorganization matters being still quite indefinite and the matter of new financing having received no attention as yet.

The Colorado P. U. Commission has granted this company permission to advance passenger rates from 4½ cents to 5 cents on one-way tickets. The Commission, however, refused to authorize a raise in round-trip rates and the price of mileage books asked by the railroad.—V. 105, p. 818.

Evansville & Indianapolis RR.—Statement by Bondholders' Committee.—The bondholders' committee representing both 1st Mtge. 6s and consols deposited under agreement

dated July 9 1914, in their circular of Sept. 21 explaining the necessity for modifying said agreement, say in subst.:

As you know, the above bonds bear the guaranty of Evansville & Terre Haute RR. which Co., in 1911, was consolidated with the Chicago & Eastern Illinois RR. Co. In May 1913, the last named company was placed in receivers' hands and foreclosure suits, including one under a mortgage covering all the Evansville & Terre Haute property, have resulted in a decree in accordance with which it is expected that the Chicago & Eastern Illinois system will in due time be sold and reorganized. In that reorganization we expect to obtain for you a settlement of the above guaranty-claims advantageous as conditions permit.

The Evansville & Indianapolis road itself, however, is not, we understand, to be included in the reorganization of the Chicago & Eastern Illinois system as now proposed. The Court, because of the large annual deficit, dropped the road from said system and on March 1 1916 a separate receivership was obtained for the line in connection with a foreclosure bill filed under both mortgages in the U. S. District Court in Indiana.

The receivers' task has been a difficult one. The road had always been operated without organization, motive power or rolling stock, and its road-bed, bridges and terminal facilities were in depleted condition. In the expectation that it might be made to earn its own living, orders were entered by the Court renouncing certain burdensome contracts, including a contract which had prevented the road from the free operation of its own terminal properties at Terre Haute; and \$600,000 Receiver's Certificates, with a first lien on the property, were authorized and sold, for the acquisition of rolling stock and locomotives and for rehabilitation, betterment and repair to roadbed, bridges and terminals. The receiver has largely completed the work and purchases for which these certificates were issued, and the road has begun to have the benefit of those improvements.

But disturbing general conditions with which you are familiar have crowded into the situation in recent months, including embargoes, congestion of traffic, shortage of freight cars, increased per diem charges, the Adamson law with its increases in wages, the European war and the enormous increases in the cost of fuel, labor and supplies, &c. Inadequate tariffs on coal (the main tonnage of the road) and unfair divisions of through coal rates were also inherited from the former management.

The receivers' reports show that the road has not yet been able to earn the cost of operation. Efforts are being made to improve the coal tariffs and divisions, but while the committee is not without hope that conditions may develop which will afford a basis for reorganization and the financing involved, it is obvious that if the road continues to run behind, it might be better if possible to sell the property promptly to, say, some one or more of the powerful connecting lines if indeed the Court does not insist on a prompt judicial sale.

In order therefore to vest your committee not only with further time to prepare a plan of reorganization, if deemed desirable, and also with full power and discretion, with or without a plan, to adjust the above mentioned guaranty-claims, and the sale of the railroad property or of the bonds deposited, certain modifications of the deposit agreement, have been filed.

Committee: Frederick H. Shipman, Chairman; William B. Cardozo, Ellis W. Gladwin, Edward H. Ladd, Jr., Raymond M. Smith, and G. T. Townsend, with Geller, Rolston & Horan as Counsel, 22 Exchange Place, N. Y., Edwin Gibbs as Secretary, 22 William St., N. Y., and The Farmers' Loan & Trust Co. as Depositary.—V. 105, p. 1309.

Ft. Wayne & Northern Indiana Traction Co.—Protective Committees.

The following committee has been appointed to protect interests of common & pref. stockholders:

William A. Tucker, temporary Chairman; Thomas E. Murray, New York; J. Levering Jones, Jay Cooke, Randall Morgan and Henry Sanderson, Phila. A circular will be issued another week giving full particulars. See Ft. Wayne & Wab. Vall. Trac. Co. below.—V. 105, p. 1103, 909.

Ft. Wayne & Wabash Valley Traction Co.—Deposits Requested.—Committee.

The committee named below gives notice to holders of First Consolidated Mortgage 30-year 5% gold bonds due March 1 1934, that in view of the default made in the payment of the interest due on the bonds Sept. 1 1917, the holders of these bonds are requested to deposit the same on or before Nov. 15 1917 with the Commercial Trust Co., Phila., depositary, or the Fidelity Title & Trust Co., Pittsburgh, Pa. (See adv. on another page.)

Committee.—P. M. Chandler (Chairman), E. W. Clark, Cyrus S. Gray, A. A. Jackson, John H. Mason, C. S. W. Packard, R. Lancaster Williams, J. K. Trimble, Sec., Franklin Bank Bldg., Phila. Henry C. Boyer and Joseph S. Clark, counsel. See V. 105, p. 1104.

Grand Trunk Pacific Branch Lines Co.—Bonds, &c.

See Grand Trunk Pacific Ry. under "Reports" above.—V. 105, p. 997.

Grand Trunk Railway Co.—Status of Western Extensions.—Subsidies, &c.

See Grand Trunk Pacific Ry. Co. and Grand Trunk Pacific Branch Lines under "Annual Reports" on a preceding page.—V. 105, p. 997, 818.

Great Northern Ry.—Holdings of Hill Estate.

See Editorial columns in this issue.—V. 105, p. 715, 606.

Leavenworth & Topeka Ry.—Sale.

This road has been sold by the Atchison Topeka & Santa Fe and Union Pacific RRs. to interests headed by F. L. Wells of Chicago. Mr. Wells has become President, succeeding C. T. McClelland, and Albert J. Isherwood has been elected Secretary and Treasurer, succeeding E. L. Copeland. An executive committee has been formed to work out a plan for permanent operation of the road. Until Judge John C. Pollock of the Federal Court lifts the receivership and approves the new ownership, W. A. Austin, Leavenworth, Kan., the receiver, will continue to operate the property. Electrification has been talked of for some time past. The road extends from Leavenworth to Topeka, 56 miles, including 1 mile trackage in Leavenworth and 10 miles trackage from Meriden Jct. to Topeka over the Atchison Top. & S. Fe.

The present company succeeded the property of the Leavenworth Topeka & Southwestern (foreclosed) in 1900. Compare V. 70, p. 76.

Louisville Ry.—Exchange of Stock.

See Louisville Traction Co. below.—V. 104, p. 1702.

Louisville (Ky.) Traction Co.—Dissolution Plan.

In view of the added expenses incident to the war, involving increased taxes, &c., the continued existence of the traction company is considered a needless expense. Company says: "It is therefore proposed to dissolve the Louisville Traction Co. and to have that company distribute the stock it owns in the Louisville Railway Co. to the stockholders of the Louisville Traction Co. This will be accomplished by giving share for share of preferred stock and by giving seven-tenths of a share of common stock in the Railway company for every one share of common stock in the Traction company." This procedure, it is stated, would in no way decrease the amount of dividends to be received by the stockholders.

The Louisville "Courier-Journal" of Oct. 2 adds: "It is pointed out that the company's only asset consists of its ownership of the stock of the Louisville Railway Co. It owns all of the stock except five shares. The stock of the Railway company consists of \$2,500,000 preferred stock and \$5,456,600 common stock. The letter says it is believed that a stock dividend could be declared by the Railway company to the Traction company so that the latter would own \$3,500,000 preferred stock and \$8,322,790 common stock. The stock of the Traction company is \$3,500,000 preferred and \$11,889,790 common. This would permit of the exchange of the stock on the basis planned. Compare V. 104, p. 1702, 1387.

Maryland Electric Rys.—New Director.

John P. Baer, of Hambleton & Co., has been elected a director to succeed C. Iredell Iglehart, also of Hambleton & Co., who is now in the second officers' camp at Fort Myer.—V. 98, p. 1767.

Minneapolis & St. Louis RR.—Directors.

At the annual meeting, Oct. 2, the following directors were elected: New directors: F. C. Letts, Pres. National Grocer Co., Chicago; F. A. Chamberlain, Chairman of the Board, First and Security National Bank,

Minneapolis, Minn.; and F. E. Kenaston, Pres. of the Minneapolis Threshing Machine Co.

Directors re-elected: Charles Hayden, F. H. Davis, J. S. Bache, W. H. Bremner, H. E. Huntington, F. P. Frazier, S. B. November, and Eugene V. R. Thayer.—V. 105, p. 1104.

Minneapolis St. Paul Rochester & Dubuque Electric Traction Co.—Again Ordered Sold.—

Judge Wilbur F. Booth in the United States District Court at Minneapolis on Sept. 28 handed down a decision prohibiting the abandonment or dismantling of this company's line (except as below indicated), and ordered that the property be again offered for sale, the time and place to be fixed. The Court orders that: (1) The property be first offered as one parcel, upset price \$400,000. (2) In default of bids for the property so offered it shall be offered as follows, as a whole, but with the privilege to the purchaser to abandon the operation of and to dismantle that part of the line extending from Auto Junction to Luce Line Junction. Upset price, \$450,000. (3) In default of bids as aforesaid the property shall again be offered in two parcels: (a) That portion from Auto Junction to Luce Line Junction, without equipment, with the privilege of dismantling; upset price, \$100,000. (b) That portion extending from 54th St. Minneapolis, to North field, with equipment, and other property, not included in parcel "a"; upset price, \$350,000. (4) In case parcel "a" is not sold, parcel "b" shall nevertheless be offered as above provided and if not sold purchasers thereof shall have the option of purchasing parcel "a" above mentioned for \$100,000. If said option is not exercised, then parcel "a" shall again be offered for sale without upset price.—V. 105, p. 73.

Missouri Kansas & Texas Ry.—Interest Payment.—

Judge Hook in the U. S. Circuit Court at St. Louis on Sept. 28 ordered Receiver Charles E. Schaaf to pay the interest on a note for \$425,000 held by the National City Bank of New York, and obtain an extension of six months' time on the note, which is due Oct. 1.

The note is secured by \$874,500 General Mortgage bonds of the West Lumber Co. and \$867,000 Consolidated Mortgage bonds of the M. K. & T. Ry. Co. V. 105, p. 1209.

Missouri Pacific Ry.—Closer Relations.—

See Denver & Rio Grande RR. above.—V. 105, p. 716, 498.

National Railways of Mexico.—New Director.—

Henry Bruere has been elected a director and a member of the New York local board, to succeed Ramon P. Denegri, resigned.—V. 105, p. 716.

New Bedford (Mass.) & Onset Street Ry.—Rates.—

The Massachusetts P. S. Commission has decided that reduced rate tickets be eliminated and a straight six-cent fare authorized on this company's line. During 1915 the company was permitted to increase its unit cash fare from 5 to 6 cents and sell tickets at the rate of 20 for \$1. On June 25 last the company sought withdrawal of these tickets.—V. 101, p. 923.

New York New Haven & Hartford RR.—Plan to Place Company on its Feet by Sale of Preferred Stock to Shareholders, Proceeds to retire \$45,000,000 Notes.—The shareholders will be asked to vote Oct. 24 at a special meeting, following the annual meeting, on a plan for relieving the company from the handicap of its outstanding \$45,000,000 notes which must of necessity be renewed at short intervals at greater or less cost. For this purpose it is proposed to create an issue of \$45,000,000 7% cumulative preferred stock, par \$100 a share, for which the shareholders will be permitted to subscribe.

An official statement setting forth the advantages of the plan will be found under "Reports" above. This statement furnishes recent statements as to earnings to prove the strong position which the preferred shares should enjoy. It is understood that the Pennsylvania RR., owning on Dec. 31 1916 \$5,312,500 of the stock, and other of the leading shareholders, approve the plan. The average number of shares held by stockholders is only 60.9.

Annual Meeting.—The fiscal year having been changed to end Dec. 31, the shareholders will also vote Oct. 24 on holding the annual meeting in future years on the third Wednesday in April. See also advertisement on another page.

Increased Efficiency.—The work of the directors and officers and employees for the last four years in trying to increase the efficiency of the property is now beginning to bear fruit. For example, in the months of March, April, May, June and July, there was an increase over 1916 in the number of tons handled one mile (which is the unit of freight service given to the public) and a decrease in freight train miles brought about by an increase in loading, viz.:

Month—	Increase in No. Tons One Mile.	Decrease in Freight Train Miles.	Increased Tons per Train.
March.....	54,805,127 42.92%	9,711 1.51%	110.49 40.72%
April.....	39,304,184 17.83%	24,845 3.72%	74.56 22.45%
May.....	55,698,826 23.77%	28,821 4.19%	99.87 29.14%
June.....	37,267,576 16.08%	76,693 11.84%	115.26 32.10%
July.....	33,212,673 14.97%	115,647 17.44%	134.53 40.05%

Resulting in Earnings per Freight Train Mile—

March.....	\$5.42, an increase of \$.796 or 17.21%
April.....	5.44, an increase of .492 or 9.94%
May.....	5.65, an increase of .61 or 12.11%
June.....	6.42, an increase of 1.09 or 20.53%
July.....	6.25, an increase of 1.35 or 27.53%

The average train load in June was 474.38 tons and in July 470.43 tons. The co-operation of shippers and commercial organizations, public authorities and of the Railroad War Board in Washington have all helped to bring about these results. See also "Annual Reports" above.—V. 105, p. 1209, 1104.

Northern Electric Ry., California.—Bankruptcy Proceedings Against Indorsers.—The majority of the creditors having refused to accept the offer of \$1,000,000 or about 16% of the face value of all the claims, the creditors' committee has been compelled to bring involuntary bankruptcy proceedings against the directors who were chiefly responsible for financing the enterprise. The creditors' committee, however, expresses the view that this offer of settlement is as advantageous to the creditors as any which may be had.

"Upon an examination of the facts and figures presented, the committee believes that the sums offered are largely in excess of any recovery available to the creditors from a distribution of the assets of the debtors, and are advised that such offers were made possible only through the co-operation of friends, who desired to assist the debtors, and believe that these offers represent a substantial recovery, that should not be lightly disregarded. Creditors at the meeting referred to, holding claims aggregating fully \$2,000,000, expressed their desire and willingness to accept the offers if again made.

Under the advice of counsel, the committee has instituted involuntary proceedings in bankruptcy against the above-named debtors, and is confident that they can be induced to renew their offers, as 'compositions' under the Bankruptcy Act, if the committee can secure a previous assurance from a large percentage of creditors, that such offers of composition will be accepted. Your consent will, of course, be upon the condition that a thorough investigation of the debtors' affairs in the Bankruptcy Court shall prove that the facts and figures submitted to the committee are correct.

If they are found incorrect it is the purpose of this committee to proceed with the bankruptcy proceedings to a finality."

The committee signing this statement is composed of Philip L. Mason, A. E. Sbarboro and A. L. Reed. The defendants in the bankruptcy proceedings are Leon Sloss, Louis Sloss, W. P. Hammon, Eugene J. de Sabla Jr. and E. R. Lillenthal. In the attempted settlement these five endorsers of the \$5,000,000 note issue offered \$1,000,000 jointly as follows: The Slosses, \$500,000 (in lieu of any rights accruing under the Sloss trust and security agreement of Jan. 31 1914); W. P. Hammon, \$250,000; E. J. de Sabla Jr., \$150,000, and E. R. Lillenthal, \$100,000. The pending modification of the reorganization plan, it appears, does not provide for the adjustment of their liability.—V. 104, p. 1703, 1489.

Pennsylvania RR.—Assistant to President.—

J. G. Rodgers has been appointed an assistant to the President.—V. 105, p. 1310, 1105.

Penn Yan (N. Y.) & Lake Shore Ry.—Fare Increase.—

This company has been granted permission to increase its rates of fare as follows: A 6-cent fare between points in Penn Yan and Holmes Inn, now 5 cents; 5 cents within city limits, but nearby points just outside the city will be in the 6-cent zone; round-trip fare between Branchport and Penn Yan from 40 cents to 48 cents. There will be four fare zones on the line and an increase of 1 cent will be charged in each zone.—V. 99, p. 49.

Pere Marquette Ry.—Second Dividend on 5% Cum. Prior Pref. Stock.—A quarterly dividend of \$1 25 per share (1 1/4%) has been declared on the \$11,200,000 Prior Preference stock, payable Nov. 1 to holders of record Oct. 15. The initial dividend on the stock paid Aug. 1 amounted to \$1 66 2-3 and covered the months of April, May, June and July.

Final Distribution of Profits to Underwriting Syndicate.—

The Reorganization Syndicate Managers, J. & W. Seligman & Co., Robert Winthrop & Co. and Kidder, Peabody & Co., have sent out checks in final settlement of profits to the participants in the syndicate. This profit, together with that previously distributed, represents, it is said, a total profit of 6.7% to the underwriters.—V. 105, p. 73, 910, 1310.

Puget Sound Traction, Light & Power Co.—Writ.—

The Superior Court of Thurston County at Olympia, Wash., on Sept. 19 granted a writ of review ordering a rehearing of the evidence in the case of the company's petition for the rescinding of the 4-cent fare in Seattle.

It is contended "That: The order signed by the commission [granting the company a straight 5-cent fare] was and is unreasonable and unlawful, especially in that it assumes that \$15,000,000 is the value of the railway properties, when, in truth and in fact, the commission has never determined the valuation of the system in Seattle, and had before it at the time of accepting said valuation as the basis of its order that the 4-cent ticket was an unreasonably low rate no competent evidence of the value of the company's property upon which it should be permitted to figure a reasonable return." Compare V. 105, p. 1209, 820.

Reading Transit & Light Co.—New Fare Schedule.—

This company has filed with the Pennsylvania P. S. Commission a new schedule of fares providing for an increase from 5 to 6 cents on the suburban lines of Reading, Norristown and Lebanon, to go into effect Nov. 1.—V. 105, p. 1210, 607.

St. Louis Southwestern Ry.—New President.—

J. M. Herbert has been elected President to succeed Edwin Gould, who remains Chairman of the Board.—V. 105, p. 998, 384.

St. Paul Southern Electric Ry.—Default—Committee.—

Pres. Irving Todd is quoted as saying in substance:

"The St. Paul Southern is just about breaking even on operating expenses. There is no money to pay interest on bonds. It is reported that owners of first mortgage bonds, with interest in default, have taken steps to foreclose. Officers of the road have done the best they could, but there simply is not enough business to pay for the operation of the road and leave anything over for mortgage interest. In fact, there is not enough business to warrant the road. I do not know what to advise."

[The second mortgage bondholders, it is reported, have appointed a committee headed by W. W. Cutler to investigate and make a report upon the status of the road.]—V. 100, p. 2168.

San Joaquin Light & Power Corp.—Bonds Offered.—

Girvin & Miller, San Francisco, are recommending an additional amount of this company's First and Refunding Mtge. 6% bonds of 1910 due Aug. 1 1950 but callable at 105 and int. Int. F. & A. without deduction of normal Federal income tax.

The territory served covers seven of the principal counties of the San Joaquin Valley: i. e., Mariposa, Merced, Madera, Fresno, Tulare, Kings, and Kern Counties, a territory about 195 miles in length by 78 miles in width, with a population amounting, according to census of 1910, to 192,514, which is increasing rapidly.

Capital Outstanding as of Sept. 1917.

Divisional bonds (closed).....	\$2,786,000	Conv. Ser. A 6% gold Deb.....	\$1,000,000

Compare V. 101, p. 2149; V. 104, p. 1903.—V. 105, p. 1001, 915.

Staten Island Rapid Transit Ry.—Reduced Service.—

As a tentative regulation, revocable if the P. S. Commission finds the service furnished not adequate, this company will be permitted to reduce its train service between 9 a. m. and 4 p. m., to a forty-minute interval on its Arlington and South Beach lines and may reduce to one train per hour each on these lines, its service between 9 p. m. and 5 a. m. The company applied at first to eliminate 88 trains in all. Compare V. 105, p. 608.

Twin City Rapid Transit Co.—Wage Advance.—

This company has advanced the wages of its employees 10%, effective Oct. 1, following a conference with a committee representing the men, who had threatened to strike.—V. 104, p. 447.

United Railroads of San Francisco.—Suggested Purchase of Company's Lines by the Municipality Looked Upon with Favor.—Recommending that the city of San Francisco purchase the properties of the United Railroads Co. and thus solve the city's transportation difficulties, the Public Utilities Committee of the San Francisco Board of Supervisors on Sept. 25 adopted the following resolution:

Resolved, That it is for the best interests of the people of the city and county of San Francisco that the city and county acquire all of the properties of the United Railroads if said properties can be purchased upon equitable terms; and be it further

Resolved, That the City Engineer be and is hereby authorized to confer at once with a representative of the United Railroads for the purpose of arriving at a basis of valuation and that he report at an early date to this Board.

Adoption of the resolution, it is stated, does not commit the city to the purchase of the properties, or to any plan of valuation to arrive at a price to be paid, should the purchase be decided upon, but only appoints the City Engineer to confer with United Railroads representatives, to attempt to arrive at a basis upon which the value of the properties might be ascertained. No plan is officially before the committee or the Supervisors. Whatever plan is adopted, any scheme of purchase and any price to be paid must be ratified by the people of the city at an election, which could not be held before next July.

Mayor Rolph of San Francisco, following the conference at which the above resolutions were adopted, addressed a letter to the Board of Supervisors in which he stated:

It was the consensus of opinion, without difference or division, of these many representative men [those attending the conference] that circumstances demand immediate action. The reorganization committee is unanimously of the opinion that it would be appropriate for the company to sell to the city, and would use all of its influence to bring about that result. The committee has not given any consideration to the details, but is willing to co-operate to bring about a sale on equitable terms.

Jesse W. Lilienthal, President of the company, is quoted:

I am heartily in favor of the suggestion [the sale to the city], as it has been reported to me by those who attended this morning's conference. It has been my hope from the beginning of my administration that I might precipitate negotiations for the acquisition by the city of the United Railroads properties at a price that should be fair and equitable to both parties. A man does not have to be an enthusiast for municipal ownership to realize that this is the solution of the situation which otherwise means needless waste in duplicating lines.

And further in a statement made to the employees he says:

A negotiation has been started by the city looking to the acquisition of the United Railroads. If any such agreement should ever be arrived at it will take many months, under the most favorable circumstances, to consummate such a matter. As we have stated before, we wish you to understand that we will not entertain any such overtures except upon the indispensable condition that the employees who have remained loyal to the service shall, in any event, permanently retain their present positions.

The conference at which the foregoing resolutions were adopted followed, it is said a meeting held on Sept. 24, the Mayor, a committee of citizens and the members of the reorganization committee being present, at which it was proposed to appraise the physical property now and buy on the installment plan, and also to agree with the United Railroads on a year determined to be a fair measure of its net earnings or take an average of five years' net earnings as the price to be paid by the city each year for every year of the franchises. The method proposed contemplates no bond issue, but would be carried into effect through a charter amendment which on adoption by a vote of the people not earlier than July 19 1918 and ratification by the Legislature, would give the city possession of the system.

At the request of the Supervisors, the Calif. R.R. Commission has started on its investigation of the financial condition of the company to determine whether it is in a position to pay the wage demands of the platform men.

Appeal to U. S. Supreme Court to Prevent Parallel Line.—

The Company on Sept. 26 appealed to the U. S. Supreme Court from the decision of the State Court at San Francisco denying the injunction against the four tracks on Market St. This action was taken to protect the rights of the company in the event of the purchase negotiations failing or being defeated by vote. Compare V. 105, p. 1310, 910.

Income Account and Balance Sheet.—

[See California Ry. & Power Co. under "Annual Reports" on a preceding page.]—V. 105, p. 1310, 910.

United Ry. & Electric Co. of Balto.—Wage Advance.—

This company has increased the pay of conductors, motormen and shopmen by two cents per hour, making approximately \$250,000 yearly added to the payroll. About 3,700 employees will benefit.—V. 105, p. 1105, 910

United Light & Rys. Co.—Results for Aug. 31 Years.—

United Rys. of St. Louis.—Objections to Proposed Plan.—

At a meeting of the Public Utilities Committee of the St. Louis Board of Aldermen on Sept. 17 last, a committee of the Chamber of Commerce entered opposition to certain features of the proposed ordinances looking toward the settlement of the differences between the city and the company. It is thought likely that these measures although approved in general will be in part redrafted.—V. 105, p. 1105, 717.

United Railways Investment Co.—Earnings.—

June 30 Yrs.	1916-17.	1915-16.	1916-17.	1915-16.
Total income	\$1,891,583	\$1,766,226	Prov. toward

—V. 92, p. 1180.

INDUSTRIAL AND MISCELLANEOUS.

Acme Wire Co., New Haven, Conn.—Earnings.—An exchange journal says:

We are informed that the net earnings for June last were about \$20,000, for July about \$25,000 and for August probably \$30,000. At the present time the business, we understand, is running at the rate of \$3,500,000 a year gross, as against a total of \$2,000,000 for 1916. The stock was sold less than a year ago at \$35 a share, but the present market is 18 to 23, although these quotations are merely nominal.

The company has a large and growing business, and has paid dividends since Dec. 31 1908, totaling over \$350,000 in cash and \$300,000 in stock. The dividend due Sept. 1, however, was passed. The company in its circular to stockholders report that the dividend has been more than twice earned, but that owing to the increased cost of raw materials it has thought it best to conserve its cash resources and make payment of this dividend some time in the not distant future. [Capital stock auth. \$1,500,000; issued \$1,000,000, par \$25.] Compare V. 105, p. 1210; V. 103, p. 2343.

Aetna Explosives Co., Inc.—Deposit of Stock.—The stockholders' protective committee is calling for deposit of stock, both common and preferred, with the Columbia Trust Co., as depositary, not later than Oct. 15. In circular of Sept. 29 they say in brief:

The report of the receivers, dated Aug. 20 1917, shows the profits realized during the brief period from April 19 1917 to July 31 1917 are in a large

measure the result of war orders and war conditions, and while, therefore, those earnings cannot be taken as representing normal operations in times of peace, the fact is that the company is doing a large and profitable commercial business which should be increased and, under proper management, insure the future success of the company. In our opinion, the war and the commercial plants, co-operating with each other, should be kept intact and conserved as a going concern. It is reasonable to expect that, so long as the war lasts, the profits from war orders will continue and in that case the amounts realized will make possible a substantial reduction in the outstanding indebtedness and a partial amortization of the war plants.

The improved conditions since the receivers took charge have attracted the attention of outsiders and inspired in them a desire to gain control of the business either by purchase or through a reorganization of the company. Some of those who have thus been active were connected with the former management of the company and their renewed intervention in its affairs would hardly be calculated to inspire the confidence of the stockholders. Up to this time we have been able to frustrate all such plans, but as the financial condition of the company improves this danger will increase. Another danger appearing even more imminent is the action recently taken by the committee of bondholders. That committee has, through the trustee under the mortgage, served certain notices upon the receivers which evidence an intent to institute foreclosure proceedings.

Any dissenting depositor of stock will be allowed 20 days in which to withdraw on payment of his share of expenses, &c. Howard Bayne, a Vice-President of Columbia Trust Co., has been added to the committee, which includes also Henry Auchu (formerly Pres. Keystone National Powder Co.), Asa K. De Witt (State Senator), Justus Von Lengerke (formerly Pres. National Powder Co.), F. E. Baldwin (State Senator), John Rice (formerly Pres. Pluto Powder Co.), with Thos. H. Hammond, Secretary, room 1631, 120 Broadway, N. Y. City. Compare V. 105, p. 1311, 999.

American Can Co., N. Y.—Dividends.—

Current press reports which we have been unable to substantiate state that an interest identified with the company says that remaining back dividends on the preferred stock amounting to 3.71% will probably be paid in December. It is not likely that the common stock will be placed on a dividend basis this year.—V. 105, p. 999.

American Pipe & Construction Co., Philadelphia.—

Receivership.—The shareholders on October 1 declined to approve the appointment of Robert Wetherill, now temporary receiver, as permanent receiver for the company and selected the following committee to protect the interests of the stockholders:

Walter George Smith, Chairman ex-officio; S. Price Stevenson, Francis M. Brooke, Horace F. Weeks, Francis X. Quinn, Alexander Henry Carver, Secretary.—V. 105, p. 1311, 74.

Amer. Smelting & Refining Co.—Bonds Tax Exempt.—

The mortgage securing the issue of 1st Mtge. provides that the 30-year 5% Series "A" bonds which include all the bonds recently listed on the N. Y. Stock Exchange, being those issued in exchange for the Series "A" and Series "B" pref. stock of the American Smelter Securities Co., shall be payable both principal and interest "without deduction for any tax, assessment or Governmental charge (including Federal income taxes but excepting inheritance taxes and State income taxes), which the company or the Trustee shall be required to pay or retain therefrom under any present or future law of the United States of America or of any State, county, municipality or other taxing authority therein."—V. 105, p. 1099, 608.

American Spirits Mfg. Co.—Decision.—

See Distillers' Securities Corp. below.—V. 103, p. 62.

American Sugar Refining Co.—Case Dismissed.—

The ouster suit brought by the State of Louisiana against this company has been dismissed on the motion of the State Attorney-General, who, in giving the reason for the action, stated that "the company satisfactorily compromised cases with the sugar planters, handled last year's crop fairly, and has shown a disposition to continue to treat the industry fairly."

The dismissal of this suit was foreshadowed by the settlement in April last (V. 105, p. 1492) of 185 so-called "planters' damage suits," asking treble damages under the Sherman Anti-Trust Law, amounting to \$159,000,000.—V. 105, p. 1311.

American Sumatra Tobacco Co.—New Directors.—

F. de C. Sullivan has been elected a director of this company. Charles Sobey, formerly a director, and M. L. Floyd, formerly Pres. of the Connecticut Tobacco Co. (recently acquired—V. 105, p. 182), were also elected directors.—V. 105, p. 1311, 815.

American Woolen Co.—Wage Increase.—

This company announces an increase of 10% in the wages of its mill employees effective Oct. 8.—V. 104, p. 949, 756.

The capital stock as of June 2 1917 consists of 172,800 shares of common stock and 115,200 shares of pref., both with no par value.—V. 103, p. 1304.

Anaconda Copper Mining Co.—Copper Production lbs.

1917—September—1916	Decrease.	1917—9 Months—1916	Decrease.
2,800,000	29,400,000	26,600,000	189,025,000
			250,900,000

A heavy decrease in production for September 1917 was expected in view of the shutting down of the mines for the greater part of the month. Partial operations were resumed on Sept. 24 and at last advices were being conducted on a 55% of capacity basis.—V. 105, p. 999, 1211, 1311.

Associated Dry Goods Co.—Subsidiary Co. Stock.—

See James McCreery & Co. below.—V. 104, p. 1492.

Atlantic Gulf & West Indies S.S. Co.—Tonnage Subject

to Government Charter.—The following published statement, has been revised for the "Chronicle":

Under the new steamship rate arrangement it is probable that by Oct. 15 about 90% of the company's 300,000 tons of steamers will be under Government charter rates. This does not mean that on that date the Government will take 90% of the tonnage and immediately divert it to transatlantic service. But the new rates when they go into effect will amount to the Government taking over the boats.

If not needed for war purposes the owners may continue to operate them in regular lines of business but at the new schedule of rates prescribed by the Government. In case the company kept 60% or 70% of its tonnage for

a time for coastwise service this new rate arrangement would therefore practically mean an increase in coastwise rates.

It is settled that as plans stand now the Government agrees to pay charters ranging from \$5.75 per ton up to \$7 based on size of boats. Under this charter the Government pays for all coal consumed, pays the war risk insurance and certain minor items of expense. The owner of the boats pays for hire of the crew and their board and for ordinary marine insurance. The war risk insurance is of course the big factor and this is borne entirely by the Government.

In the case of this company with its 90 steamers the bulk of these boats classify between 2,500 and 4,000 tons and it seems likely that their charter party rate will average around \$6.50 per ton. It is also to be remembered that the company has 20,000 tons of steamers not under the American flag. This tonnage will not be subject to the new rates or to war use.

In addition to its steamers the company has 165 tugs and lighters. They represent several thousands of tons and several millions of property. If the Government uses them it will naturally pay for their use. This will be in addition to what is earned from regular charter rates for steamers. Of the company's 90 steamers there are 11 or 12 which are less than 2,500 tons. These boats will not be disturbed at present.—V. 105, p. 1211, 911.

Atlantic Steel Co.—Extra Common Dividend.—

An extra dividend of 1% was paid Oct. 2 on the common stock in addition to the regular quarterly 1½%. In July and August last 5% extra was paid.—V. 105, p. 292.

Baltimore Tube Co.—New Directors.—

John M. Dennis and Robert D. Hopkins have been elected directors to fill vacancies caused by the resignations of Henry M. Keith and Edward S. Hyde of New York.—V. 104, p. 666.

Bethlehem Steel Corp.—Orders; etc.—

According to "The Wall Street Journal," this company has now a total of more than \$400,000,000 of new business on its books which is understood to be a new high record. The directors are expected at their next meeting to declare the regular dividends on all the stock issues. Capacity of the company's plants is being increased and the company is expected to be in a stronger financial position in 1918 than during current year. V. 105, p. 1311.

Bon Air Coal & Iron Corp.—Second Payment.—

In addition to the recent payment of more than a half million dollars on this property by the successor corporation interests, which payment was distributed among the various holders of the bonds of the old company (V. 105, p. 1211), a second payment of \$220,000 has just been made, applying to the land property of the company.—V. 105, p. 1211.

Borden's Condensed Milk Co.—Milk Price Announcement—Necessity for Increase.—This company's subsidiary the Borden's Farm Products Co., Inc., makes an announcement in our advertising columns which we cite in part as follows (compare V. 103, p. 1592):

The price of milk at the farm is again increased, effective Oct. 1 1917. It naturally follows that our selling prices must also be increased.

The producers have named a price of \$3.10 per cwt. for milk containing 3% butter-fat, with an additional 4c. for each one-tenth of 1% of butter-fat.

Judged by the fat content of the milk purchased this month and the record of October milk of former years, the quality of the milk purchased by this company in October will average at least 3.9% butter fat. These 9 points over 3% add 36c. to the base price of \$3.10, making a total cost of \$3.46 per cwt., or approximately 7½c. per quart. This is an increase of 1½c. per quart over the present prices to the producer. This makes necessary an increase of at least 1½c. per quart in our selling prices.

We fear that in view of the present very large decrease in sales, this price increase will not be sufficient to cover the increased cost of milk and the greater fixed expense per unit, resulting from decreased volume of business, and leave a profit of ½c. per quart. However, in view of the present trying conditions under which we are all living, we have decided to defer any increase beyond the 1½c. forced upon us, until such time as we have an opportunity to learn from our records and accounts of the extent to which the disposition of surplus milk and our decreased volume of sales under present prices have increased costs, as well as to observe the extent of any further decrease in sales following Oct. 1 price adjustments.

A study of the latest costs under present reduced volume and particularly the effect of a further decrease in sales, if experienced, may make a further advance necessary in the near future. However, under present conditions we prefer to forego reasonable profits temporarily and to make sure of the necessities of the situation rather than possibly to add unnecessarily to an already burdensome situation.

Effective Oct. 1 1917, and until further notice, selling prices will be:

Home Service.—In metropolitan district, delivered at your home, in properly protected packages and at a proper temperature:

Half-pints condensed milk.....13 cts. Quarts fluid milk, Grade B.....14 cts.
Half-pints route cream.....16 cts. Qts. selected milk, past., Gr. A 15 cts.
Half-pints extra heavy cream.....21 cts. Quarts certified milk, Grade A 20 cts.

Store Bottle Service.—In New York City, bottled milk and cream delivered at stores for distribution by them, you taking delivery at the store:

Grade A milk, quarts, 13½c. each; Grade B milk, quarts, 12½c. each; plus bottle deposit of 5c.

Bulk Service.—Grade B milk in cans will be delivered to stores for 10 cts. per quart and cream, buttermilk and pot cheese at proportionate prices.

The Dairymen's League, representing 42,000 members, claim that the 500,000 dairymen's cows on their farms are in danger of being slaughtered on account of the scarcity of labor, high prices of feed and low prices for milk, unless more milk is used.

Several public inquiries into the rise in the cost of milk are proposed.—V. 105, p. 292.

Breitung Iron Co.—First Lien Secured Notes.—This company has made an issue of \$1,500,000 First Lien 10-year convertible 7% secured notes, dated Aug. 1 1917, due Aug. 1 1927, but redeemable at 105 and int. Denom. \$1,000 and \$500. Auth. \$3,000,000. A circular shows:

The notes are convertible until Aug. 1 1922 into common stock on basis of one share stock for each \$100 notes. If called for redemption may be converted (until Aug. 1 1922) up to 30 days prior to redemption date. Int. F. & A. at the office of the trustee, The Guardian Sav. & Trust Co., Cleveland; also at Guaranty Trust Co. of N. Y., or Continental & Commercial Nat. Bank, Chicago. In so far as may be permitted by law, the company agrees to pay the interest on these notes without deduction for the amount of the normal Federal income tax, in force on Aug. 1 1917. The company has no mortgage indebtedness. Subsidiary companies have outstanding \$1,200,000 bonds and long time notes. A special fund is to be created from 50% of the earnings after note interest and pref. dividends in each year, up to July 1 1920, to be maintained at an amount equal to that existing on that date, either in property or otherwise, so long as any of this note issue is outstanding. After July 1 1920, 25% of all earnings, after interest and pref. dividends shall be applied to the redemption of notes.

Pres. E. N. Breitung, Aug. 31 1917, reports in substance:

The principal mines controlled by the company are located in the Negaunee District of the Marquette Iron Range, and with the other mining lands controlled in this one district alone, comprise over 1,300 acres, of which 1,000 acres are known to be within the iron formation. With the aforesaid properties have been consolidated several iron mining properties in other districts and development of all the properties is proposed. The company has facilities for the transportation of ores in the boats of a subsidiary and has arrangements (which have extended over a long period) with affiliated interests in Cleveland for the sale of the product of its subsidiaries.

The notes are the direct and only obligation of the company and are secured by the deposit with the trustee of all the capital stock of the subsidiary companies owned. Payment of principal and interest is further secured by an assignment by the owners of the fee of the principal properties in the Negaunee District, of all ground rents, royalties and other payments due and to become due to such fee owners, as additional security for the payment of the principal and interest of this issue. This virtually ties the notes to the fee. The company agrees that any additional stock or property belonging to its present subsidiaries which may be acquired shall be subjected to these notes.

The total net assets of the company and its subsidiaries, exclusive of good will and going value, are \$9,428,743. The subsidiaries have quick assets and readily convertible outside investments of more than \$1,200,000.

The notes will provide the company with funds for corporate requirements and over \$1,000,000 new cash working capital.

Net earnings for the year ending July 1 1918, based on actual sales to date, are estimated at \$800,000. After interest and pref. dividend, an earning capacity of nearly \$7 per share on the common stock is indicated. In two years' time the annual net earnings (based on pre-war prices) should approximate \$1,500,000.

Assets as Appraised Giving Effect as of April 1 1917 to New Note Issue.

Property Assets.—Permanent equipment and development, \$1,227,563; mineral lands and leases, \$7,078,250; investment in ships, \$325,260; total.....\$8,631,073

Current Assets.—Cash, new capital, \$1,000,000; in subsidiary companies (B. I. Co.'s proportion), \$51,131; total.....\$1,051,131

Accounts receivable, \$842,752; deferred prepaid insurance and bond discount, \$91,908; sinking fund for retirement of above bonds, \$95,950; inventories, ore on hand, &c., \$338,907; total.....2,420,648

Less current liabilities, \$422,978; bonds and long-time notes of two subsidiaries, \$1,200,000; total.....\$1,622,978;

Total Net Assets, exclusive of good will, going value, &c.....\$9,428,743

[An offering of these notes, it is expected, will be made at some future date by Breitung & Co. and Childs & Co., of N. Y.—Ed.]—V. 105, p. 999.

Retail Prices for Coal and Coke.—

See Editorial columns on a previous page.—V. 105, p. 609, 501.

Butte & Superior Mining Co.—Concession—Litigation.—

In connection with the recent decision of Judge Bourquin in the U. S. District Court at Butte, Mont., in the case of Minerals Separation vs. Butte & Superior, the latter company was ordered to file a bond of \$2,500,000 and deposit all earnings with the Court pending the decision of the U. S. Court of Appeals at San Francisco, for alleged misuse of the plaintiff company's processes. The defendant company, however, has obtained a concession agreed to by all parties whereby it will be able to continue operations. Under the original Court order the closing down of the company's mine was understood to be inevitable. Under the concession agreement it is believed that the company will still have to deposit with the Court its monthly net profits and withhold dividends until final decision is reached. Compare V. 105, p. 1211, 1106.

Calgary Power Co., Ltd.—New Director.—

R. W. Killam has been elected a director.—V. 103, p. 576.

California Petroleum Corp.—Common Stock to be Listed.

The N. Y. Stock Exchange has authorized the listing on and after Oct. 1 1917 of \$14,844,400 common stock on official notice of issuance in exchange for outstanding voting trust certificates therefor, with authority to add (1) \$32,600 common stock on official notice of issuance in exchange for outstanding scrip, and (2) \$123,000 common stock from time to time on official notice of issuance and payment in full, making total amount to be listed \$15,000,000.

Consol. Earnings.—6 mos. end. June 30 1917 and cal. yr. '16.

Charcoal Iron Co. of America.—Preferred and Common

Stocks.—Webb, Lee & Co., Detroit, are specializing in the preferred and common stocks of this Michigan enterprise described as one of the largest producers in the world of charcoal pig iron. The bankers report:

Capitalization Authorized and Issued (See Balance Sheet).

	par \$10.	Divs. J. & D.	Tax ex'pt in Mich.	\$5,217,250
Cumulative pref. 6%				
Common 6%	par \$10.	Divs. payable Q-M		2,839,350
Timber Pur. 6%	bonds dated May 15 1917 (see also bal. sheet)			325,000
The \$325,000 6% Timber Purchase bonds will be retired in full, three years from date.				

Both stock issues are listed on Detroit Stock Exchange and dealt in Chicago, Toronto, Montreal and on New York Curb.

Properties.—The plants and furnaces have recently had several hundred thousand dollars expended on them to maintain the modern physical equipment located at Newberry, Manistique and Boyne City, in Mich., and Ashland, Wis.; the Yale Mine on the Gogebic Range at Bessemer, Mich. The company is believed to be the largest producer in the world of charcoal pig iron, wood alcohol and acetate of lime (manufacturing cost of charcoal pig iron \$15 per ton). Manufacturing cost of alcohol 20c. per gal., selling price now 70c. per gal. 1917 output estimated 1,400,000 gals. Acetone, used in explosives; hardwood lumber, iron ore, &c.

Supplies.—The company is building and equipping a new shaft with capacity of 500,000 tons of ore per year. A contract has been made to deliver 200,000 tons per annum for the next ten years. The company recently purchased 55,000 acres of hardwood timber in Gogebic County adjacent to the Ashland furnaces, and in Luce and Schoolcraft Counties adjacent to the Newberry furnace. [See balance sheet below.]

Business Prospects.—The company has sold approximately all its 1917 supply at excellent prices and has contracted to deliver more than half of its 1918 output at an average price of more than \$45 per ton. Charcoal pig iron sells for \$1 to \$4 more per ton than coke pig iron. On account of the great shortage, charcoal pig iron is in great demand and the company is having no difficulty in contracting for their output at \$60 per ton. Similar conditions prevail in the demand for acetate of lime and acetone.

6% 3-year notes	2,000,000	**1,200,000

* In addition \$1,600,000 bonds have been deposited to secure the note issue. ** Additional notes can be issued, (a) only when secured by the 5% bonds at 75% of their par value, (b) not in excess of 60% of improvements.

Combined Earnings of Subsidiary Companies for Calendar Years and Year Ending June 30 1917 (With in this Year Present Interest Charge):

	1916-17.	1916.	1914.	1912.
Gross earnings	\$1,185,423	\$714,203	\$550,330	\$264,708
Net earnings	358,174	234,662	191,672	101,683
Int. on bonds (incl. note issue)	167,775	88,630	64,525	35,750

Summary of Letter of Pres. C. S. Eaton, Addressed to Bankers. Organization.—Organized in 1912, and through its subsidiaries it serves 76 adjacent communities in the developed sections of Western Iowa and Eastern Neb. The service supplied, without competition, consists of electric light, power, heat, ice and gas—one or all; its principal business being to furnish electric light and power through high tension transmission lines from central stations; also owns all the bonds and stocks of the Canada Gas & Electric Corp. serving, without competition, the City of Brandon, Manitoba. The total population served is 145,000.

The proceeds of this issue provide funds for extensions and improvements and furnish about 60% of the purchase price of Canada Gas & Electric Corp. Valuation.—The properties have been valued on a basis of replacement cost, using 1914 prices at \$6,000,000. The total outstanding indebtedness, including this issue, is \$3,115,000, or less than 60% of the net value of the physical properties.

Earnings.—For five years, 1912 to 1916, inclusive, the average net earnings of the corporation have been 2-8-10 times the interest on bonds outstanding. During the same period the corporation has paid annually 6% dividends on its preferred stock and 2% on its common stock.

Franchises.—Franchises of constituent companies are very satisfactory.—V. 105, p. 1312.

Continental Zinc Co.—Capital Distribution.

This company on Oct. 1 paid \$1 per share on account of capital distribution. This distribution is made from reserve account for depletion, and is not subject either to the Federal normal or additional tax nor to Massachusetts income tax.—V. 103, p. 2240.

Corn Products Refining Co.—Bonds Called.

One hundred and fourteen (\$114,000) 25-year 5% Sinking Fund gold bonds of 1906 (\$963,000 outstanding) have been called for payment Nov. 1 at par and int. at Title Guarantee & Trust Co., N. Y.—V. 105, p. 1312, 1212.

Cressidan Apartments, Chicago, Ill.—Serial Bonds Offered.

S. W. Straus & Co., Inc., are offering at par and int., to net 6%, \$175,000 First Mtge. 6% Serial bonds dated June 8 1917 due serially. Int. J. & D. 8 at any office of S. W. Straus & Co., Inc. Circular shows:

These bonds may be redeemed at 103 and int. in reverse of numerical order at the end of the second year or on any int. date thereafter upon 60 days' notice. Present normal Federal income tax paid. Trustee, S. J. T. Straus. Denom. \$100, \$500, \$1,000*. Maturities, \$7,500, June 8 1919; \$8,000, 1920; \$8,500, 1921; \$9,000, 1922-23-24; \$9,500, 1925-26, and \$105,000, 1927. Mortgagees, William N. Dunning and Roy F. France. The building is now in course of construction, and its completion, free and clear of all mechanics' liens, is unconditionally guaranteed to the bondholders of S. W. Straus & Co.

Building.—The bonds are a direct closed first mortgage on the land in fee and on the Cressidan, an apartment building of the small suite type. It will be a six-story concrete frame, fireproof building, completely furnished and supplying hotel service to tenants. The building will contain 70 furnished apartments, 55 of two rooms each and 15 of one room. The land fronts 65 ft. on Sheridan Road and is 193 ft. deep. The land and building are appraised at \$250,000. Fire insurance of \$175,000 is carried.

Earnings.—These based on rentals obtained in this vicinity are: Gross annual rental income (estimated).....\$39,600 Estimated net after expenses, incl. taxes, insurance and operating cost, with a liberal allowance for repairs.....26,600

Dallas (Tex.) Power & Light Co.—Franchise—Rates.

See Dallas (Tex.) Electric Co. under "Railroads" above.

Davis Coal & Coke Co.—Merger.

See Monongalia Coal Lands Co. below.—V. 105, p. 719, 392.

Distillers Securities Corp.—Favorable Verdict.

This company's subsidiary, the American Spirits Mfg. Co., has been awarded a verdict for \$250,000 in a suit brought against it by The Western Oil Co. in the Peoria, Ill., courts.

A number of years ago the American Spirits Co. made a contract with the oil company for the delivery to the latter of corn germs, which were to

be extracted from corn used by the American Spirits Co. in the distillation of spirits and alcohol. The latter company charged in the suit that in addition to the corn germs, a certain kind of starch had been for many years utilized for the benefit of the oil company in the manufacture of oil cake.—V. 105, p. 719.

Dominion Park Co., Ltd., Montreal.—Divs. Resumed.

A dividend of 5% was paid Sept. 30 on the \$400,000 stock to holders of record Sept. 20. This is the first distribution since 1915.—V. 103, p. 581.

Downey Shipbuilding Corp.—Successor Company.

See Milliken Bros., Inc., below.—V. 105, p. 392, 292.

Everett (Wash.) Gas Co.—New Co. In Possession.

See Puget Sound Gas Co. below. See plan, V. 105, p. 1212.

Federal Dyestuff & Chemical Corp.—Temporary Receivers Appointed—Suit to Prevent Carrying Out of Plan.

Judge Hough in the Federal District Court at New York on Oct. 2 appointed John W. Herbert and Frank H. Platt as temporary receivers of this company. The application was made on behalf of the Central Foundry Co., whose claim amounts to \$14,277, and which is the basis of an equity suit now pending in the courts.

In an effort to prevent the carrying out of the proposed reorganization plan, Morton, Lachenbruch & Co. have brought suit against the corp.—V. 105, p. 1213.

Fort Shelby Hotel Co., Detroit.—Bonds Offered.

Bolger, Mosser & Willaman, Chicago and Detroit, and Watling, Lerchen & Co., Detroit, recently offered, at par and int., \$600,000 First Mtge. 6% gold bonds of this company, incorporated in Michigan. A circular shows:

The bonds are dated May 1 1917, due serially. Int. M. & N. at the Union Trust Co., Detroit, trustee. Denom. \$1,000, \$500, \$100 c*. Red. on any int. date at 102 and int., upon 60 days' notice. Maturities, \$7,500 M. & N. 1919 to 1923; \$10,000 1924 to 1928; \$12,500 1929-1933, and \$300,000 May 1 1934.

Data from Letter of John C. Thomson, Pres. & Gen. Mgr., June 15

Capitalization.—This consists of these bonds, \$600,000 auth. and outstanding, \$250,000 7% cum. pref. stock and \$350,000 common stock. The amount of bonds to be issued is limited to 50% of the value of the land (\$200,000) and 50% of the cost of the building, equipment and furnishings. The entire amounts of both pref. and com. stock have been subscribed at par.

Security.—A first and closed mtge. on the entire property, incl. land, building, equipment and furnishings, having a value estimated at \$1,200,000. The land (owned by the company) was appraised at \$200,000.

Building.—The building favorably located will be ten stories in height and of fireproof construction. The exterior will be tapestry brick and cut stone and the interior will be designed with proper regard for art, comfort and convenience. There will be 410 rooms.

Earnings.—Net earnings are estimated, after all expenses, including depreciation, taxes and insurance, to provide a sum nearly three times the requirements of the bond issue, including both int. and principal payments.

Officers.—John C. Thomson, Pres. & Gen. Mgr.; Chas. A. Bray, V.-P.; G. Brewster Loud, Sec.-Treas.

General Gas & Electric Co.—Sub. Co. Control.

See Pa. Utilities Co. below.—V. 104, p. 2643.

General Motors Corp.—Old Co. Dissolved.

Directors after a recent meeting announced that the dissolution of the General Motors Co. had been accomplished, and that there is now but one company, namely the General Motors Corp.—V. 105, p. 1312, 812.

General Petroleum Corp., San Francisco.—Combined

Earnings for Year ending June 30 1917.

Gross profits	\$4,884,889	Depreciation on equipmt.	\$647,794

Other income	94,143	Other deductions	407,691
Gross income	4,372,185	Preferred dividends	(7%) 224,851
Int. on funded debt	314,870	Balance surplus	\$2,118,816

As to new \$1,650,000 secured notes offered see V. 105, p. 75, 1213.

General Refining & Producing Co.—Notes Sold.

Frederick S. Dudley & Co., N. Y., have placed privately \$150,000 6% Car Equipment notes, dated Sept. 15 1917, due \$50,000 Sept. 15 1918 and \$75,000 Sept. 15 1919. Interest payable M. & S. at the Columbia Trust Co., N. Y. Denom. \$1,000. An approved statement says:

The proceeds are to be used to purchase 25 additional tank cars to take care of increased production, &c.

The company was incorporated Sept. 2 1916 in Del. and consolidated oil interests located in the Allen County field of Southern Kentucky and Northern Tennessee, viz., Cumberland Refinery, Good Luck Oil Co. and the J. P. Hynes holdings in Davidson and Sumner counties. Company leases and operates approximately 5,000 acres of oil lands, on which are 17 producing wells. Refining capacity of 800 (not 500) barrels a day, is located at Nashville, Tenn.

Capital stock, authorized, \$1,250,000; outstanding, \$980,000; par, \$1. No bonds. Directors (and officers): Pres., John A. Dix, former Governor of N. Y. State; Sec. & Treas., Howard Hendrickson; Gen. Mgr., Thomson Douglas; Supervising Engineer, Samuel Baer; Gen. Counsel, W. Bernard Vause. General office, 4th & 1st Nat. Bank Bldg., Nashville, Tenn.

Gila Copper Sulphide Co.—Bonds Called.

Seventy-eight First Mtge. 6% convertible gold bonds, due April 1 1918, of \$1,000 each, and 20 bonds of \$100 each, aggregating \$80,000, were called for payment Oct. 1 at par and int. at the Union & New Haven Trust Co., New Haven, Conn.

Gillette Safety Razor Co.—Sub. Co. Dividend.

The Gillette Safety Razor Co. of Canada, Ltd., a subsidiary of this company, has declared an annual dividend of 8% on its \$500,000 capital stock, payable Oct. 15 to holders of record Oct. 1 1917. This dividend compares with 6% for the years 1915 and 1916, and 5% for 1913 and 1914.—V. 105, p. 1213, 1108.

Granby Consol. Mining, Smelting & Power Co., Ltd.

	1916-17.	1915-16.		1916-17.	1915-16.

Net (after int.)	5,025,251	3,819,295	Tot. sur. June 30	9,434,038	6,587,470
Divs. received	197,225				
Other income	230,320				

During the year the company produced 41,878,568 lbs. of copper, 599,349 ozs. of silver and 29,821 ozs. of gold. The average price of copper at New York received was 27.4c. per lb., and for silver 71c. per oz. In 1916-17 the average cost at the Hidden Creek mine was 11.5c. per lb. for copper, against 10.09c. per lb. in 1915-16, while the average cost for the Phoenix mine mounted rapidly and was 20.8c. per lb., against 14.25c.

The directorate has been reduced from 13 to 11. Northrup Fowler has resigned, and M. K. Rodgers died in July.—V. 104, p. 1595.

Grass Creek Petroleum Co.—Extra Dividend.

An extra dividend of \$7 per share has been declared on the stock in addition to the regular quarterly \$3 per share both payable Nov. 15 to holders of record Oct. 15. A like amount was paid in Aug.—V. 105, p. 802.

Great Lakes Transit Corp.—Freight Service Discontinued.

A press dispatch from Milwaukee says that part of this company's fleet of ships having been taken over by the Government, it would cease accepting freight on Oct. 2.—V. 104, p. 167.

Great Northern Iron Ore Properties.—Hill Holdings.

See Editorial columns in this issue.—V. 105, p. 184.

Hoover Steel Ball Co., Ann Arbor, Mich.—Stock—Divs.
Holt & McWilliam, who are recommending this company's stock, of which there is \$1,800,000 authorized and \$1,219,580 outstanding (no bonds and no preferred stock), report as follows the dividends paid by this company, which was organized Mar. 1 1913 to manufacture ball bearings of various sizes:

Dividends—	1914	1915	1916	1917
Cash—	9%	42%	60%	(to Oct. 1) 45%
Stock—		100%		130%

No dividends were paid during 1913, as there was a very small paid-in capital account, the company practically paying for plants out of the first year's earnings. See offering V. 104, p. 1902, 2015.

Hudson Telephone Co., Jersey City, N. J.—Sale.
This company's property is advertised to be sold at public auction at Jersey City, N. J., on Oct. 19 1917, subject to the lien, so far as it extends, of a certain mortgage dated Dec. 1 1896, and given to the State Trust Co., trustee, to secure the issue of \$300,000 First Mtge. bonds (\$200,000 of which are now outstanding). Incorp. in N. J. in 1884. Stock increased from \$6,000 to \$300,000 in Feb. 1896. Thomas F. Tumulty, receiver.—V. 69, p. 1150.

Indiana Pipe Line Co.—Extra Dividend.
An extra dividend of 2% has been declared on the \$5,000,000 stock in addition to the regular quarterly 4% both payable Nov. 15 to holders of record Oct. 23. Previous dividends in 1917 were Feb. 4% regular and 2% extra; May and Aug. 4% each.—V. 104, p. 1148.

Island Oil & Transport Co.—Note Offering.—A. B. Leach & Co. are offering privately at a price said to be 99 and int. this company's new issue of \$1,000,000 First Lien Collateral 7% gold notes dated Sept. 1 1917 due Sept. 1 1920. An exchange journal reports:

These notes are part of an authorized issue of \$3,000,000, secured by deposit of \$5,000,000 of the company's 10-yr. 6% debentures, the indenture securing which prohibits the company from mortgaging, pledging or otherwise disposing of the stocks of its subsidiary companies, except as security for these notes. Funds provided are for construction of a pipe line from the Tepetate oil district to the Gulf of Mexico, construction of loading station, tanks, &c., to take care of oil from the company's 70,000-bbl. well on the Tepetate hacienda.

The company has beside the two note issues a capital stock of \$30,000,000, \$22,500,000 of which is issued. It owns or controls the Capuchinas Oil Co., Esfuerzo Tampiqueno, S. A., Compania Petrolera Nayari, S. A., Compania Metropolitana De Oleoductos, S. A., and Compania Mexicana de Petroleo La Libertad, S. A., all with holdings in Mexico; the Antillan Corp., operating in Cuba, and the Colombia Petroleum Syndicate, Ltd., with concession in Colombia, South America. (See last week's item on Metropolitan Petroleum Corp. through which company the Island Co. controls certain oil properties.)—V. 105, p. 1313.

Jersey City Water Supply Co.—Cannot Reopen Suit.
The "Engineering News Record" of Sept. 20 says:

Jersey City has no legal grounds for an application to reopen the lawsuit in which the Court of Chancery and the Court of Errors and Appeals held that the hypochlorite plant at Boonton, N. J., fulfilled the contract of the company to furnish pure and wholesome water, says Marshall A. Von Winkle, special counsel, in an opinion submitted to the Jersey City Commission. Mr. Von Winkle holds that newly discovered evidence, in existence when the case was tried, would be necessary to reopen the case, and that none such exists. Even though the Court of Chancery did make a mistake in its decision, which was confirmed by the Court of Errors and Appeals, says Mr. Von Winkle, there is now no relief.—V. 93, p. 1107.

Kathodian Bronze Works.—Status.—The "Financial World" Sept. 29 published the following:

A holder of Kathodian Bronze stock made an effort this week to sell 100 shares of stock and all he could secure for it on the curb market was \$1 per share, according to the official quotation. Once the stock sold as high as \$60 a share and over, but that was in the days when the curb brokers wildly speculated in the stock, believing that the stories they heard about exceptionally profitable contracts for the manufacture of cartridges meant that the company had real orders. However, they turned out to be simply tentative bids for such work which did not materialize. On a lesser scale speculators were hit as badly by Kathodian Bronze as by Submarine Boat. Looking back upon the rapid rise and equally fast descent of Kathodian Bronze, the lesson is again impressed upon investors that it is dangerous to be credulous.—V. 104, p. 2556.

Kerr Lake Mining Co. of New York.—Earnings.

Aug. 31	Total	Expenses,	Dividends	Balance,	Total

Total Inc.	Exp.	Dep. &c.	Divs.	Surplus.	Tot. Surp.
1916-17	\$1,909,465	\$565,990	\$672,000	\$677,475	\$1,711,045
1915-16	1,286,209	472,508	666,000	141,701	1,033,569

a After deducting \$15,000 amount written off. The capital stock of the operating co. consists of 400 shares of par value (\$40,000) and the holding co. of 600,000 shares of \$5 each (\$3,000,000).—V. 104, p. 2556.

Lake Superior Corporation.—New Director.
The directorate has been increased to 12 members with the addition of R. Home Smith of Toronto.—V. 105, p. 1313, 994.

Lehigh Valley Coal Sales Co.—Dividend.
A dividend of 4% has been declared on the stock payable Oct. 13 to holders of record Oct. 4. A like amount was paid in July last comparing with 2½% quarterly since Oct. 1912.—V. 104, p. 2557.

Linde Air Products Co.—Amalgamation.
See Union Carbide & Carbon Corp. below.—V. 105, p. 914.

Lindsay Light Co.—Extra Dividend.
An extra dividend of 17% has been declared on the common stock, in addition to the regular quarterly 3% on the common stock and 1¼% on the preferred stock, all payable Nov. 30 to holders of record Nov. 1. A like amount was paid in August last.—V. 105, p. 75.

Long Bell Lumber Co., Kansas City, Mo.—Called.
Seventy (\$70,000) First and Ref. Mtge. 6% gold bonds, Series "A," dated May 1 1907, have been called for payment Nov. 1 at 101½ and int. at Central Trust Co. of Illinois, Chicago.—V. 97, p. 54.

(James) McCreery & Co.—Stock Increase.
This company, all of whose stock is owned by the Associated Dry Goods Co., has filed a certificate with the Secretary of State increasing its capital stock from \$100,000 to \$4,100,000. Treasurer Louis Stewart Jr. is quoted as saying that this does not mean an expansion of business, but is merely a "bookkeeping matter."

Maple Leaf Milling Co.—Extra Dividend.
An extra dividend of 1½% has been declared on the common stock in addition to the regular quarterly 2½%, both payable Oct. 18 to holders of record Oct. 3. In April last the dividend was increased from 2% to 2½% quarterly.—V. 104, p. 2456.

Marlin-Rockwell Corporation.—Notes Called.
Two hundred and twelve (\$212,000) 2-year conv. 6% notes of the Marlin Arms Corp. (old name) (outstanding \$1,500,000) have been called for payment Nov. 7 at 105 & int. at Bankers Tr. Co., N. Y.—V. 105, p. 1108, 1002.

Merchants' & Miners' Transp. Co.—Bonds Called.
This company has called for payment on Jan. 1 next, at 103½ and int., all the outstanding 25-year 1st M. sinking fund 6% gold bonds, due Jan. 1 1941. The original issue of \$3,600,000 was placed in Feb. 1916 by a syndicate headed by the Mercantile Trust & Deposit Co., Baltimore (see V. 102, p. 613). Approximately \$2,000,000 have thus far been retired, leaving about \$1,600,000 now outstanding. The bonds will be retired out of proceeds from the sale of steamers. The company still operates 16 vessels.—V. 105, p. 393.

Metropolitan Edison Co.—Subsidiary Company Control.
See Pennsylvania Utilities Co. below.—V. 105, p. 1313, 1214.

Miami Copper Co.—Copper Production (in lbs.)—Divs.

1917—September—1916	Decrease.	1917—9 Months—1916	Decrease.
1,900,000	4,381,367	2,481,367	32,061,611
			38,645,998
			6,584,387

A regular quarterly dividend of \$1 50 per share has been declared on the stock payable Nov. 15 to holders of record Nov. 1. In August last an extra of \$1 per share was declared along with the regular \$1 50. And in connection with the omission of the extra dividend at this time Vice-Pres. J. Park Channing is quoted as saying: "On account of the strike which we had during August and September we thought it only fair to omit the extra dividend."

The August copper production was about 250,000 lbs. and the September production 1,900,000 lbs.—V. 105, p. 1214, 1109.

Milliken Brothers (Inc. N. Y.)—Initial Distribution of \$10 to Shareholders under Dissolution Plan.—Secretary C. T. Clark, 111 Broadway, N. Y., announces in substance:

The proceedings for the dissolution of this corporation have been consummated. The directors anticipate that the completion by the Downey Shipbuilding Corp. of all the uncompleted contracts of the corporation under the agreement and the liquidation of the other assets of the corporation, will extend over a period of between 12 and 18 months. After providing for all the outstanding indebtedness and obligations of the corporation, the directors have determined to make a first distribution on or after Oct. 25 to the pref. shareholders of record Oct. 20 amounting to \$10 per share. Such distribution to be made at the Farmers' Loan & Trust Co., 22 William St., N. Y. City.—V. 105, p. 502, 288.

Milwaukee & Chicago Breweries Co.—Dividend.
A dividend of 3% less income tax has been declared on the stock payable Oct. 15 to holders of record Oct. 1.—V. 102, p. 1064.

Minerals Separation North American Co.—Litigation.
See Butte & Superior Mining Co. above.—V. 105, p. 1214, 1109.

Missouri Plate Glass Co. (Valley Park, Mo.)—Offering of Pref. Stock.—The F. J. Stuart Investment Co., St. Louis, Mo., is offering at \$10 per share, with a bonus of 20% in common stock, a block of this company's 7% Cumulative preferred stock. Tax free in Mo. Pref. stock \$2,000,000, common, \$3,500,000. An adv. says:

The preferred stock is redeemable at \$11 per share. Sinking Fund provided at 5 cents per sq. ft. on all glass manufactured and sold. The company owns and operates (at Valley Park, Mo.) the second largest independent plate glass plant in the U. S.; also 200 comfortable homes for workmen; the city water works; modern Valley Park Hotel and an inexhaustible supply of high-grade silica sand—the most important ingredient in the manufacture of plate glass. At full operation of present equipment earnings are estimated at five times preferred dividend requirements. Introduction of new capital will increase present possible output, provide new equipment and bring plant to greatest capacity. Contracts accepted require the entire output of the plant for more than seven months at present rate of production; and the company has declined more orders than could be filled within two years. Compare V. 105, p. 503.

Monongalia Coal Lands Co.—Exchange—Sale to Davis Coal & Coke Co.—V. Pres. M. D. Kirk in circular dated at Baltimore Oct. 1, says in substance:

At a meeting of the stockholders of the Monongalia Coal Lands Co., held on July 16 1917, the sale of the property and assets to the Davis Coal & Coke Co. for \$1,500,000 of the stock of that company was authorized and directed. This sale has been completed, and each stockholder of the Monongalia Coal Lands Co. will accordingly receive one share of stock of the Davis Coal & Coke Co. for each three shares of stock of the Monongalia Coal Lands Co. upon surrender of the same for cancellation to the trustee, the Equitable Trust Co. of New York, 37 Wall St., N. Y. City. [The outstanding stock of the Davis Coal & Coke Co. was at last accounts \$3,960,000.] See that co., V. 105, p. 719.—V. 105, p. 393.

National Carbon Co., Inc.—Amalgamation Proposed—Exchange of Common Stock. President James Parmelee in circular dated at Cleveland, O., Oct. 1 1917, announces that the directors have decided to accept and transmit to the stockholders an offer made on behalf of the proposed Union Carbide & Carbon Corp. (see that company below) to exchange shares of its capital stock for the common capital stock of National Carbon Co., Inc., share for share. The circular further says in substance:

Please send your common stock certificates, properly endorsed, as promptly as possible to Bonbright & Co., Inc., 25 Nassau St., N. Y. City. Stock will be received for exchange up to the close of business on Oct. 31 1917. The deposit of stock will not affect the payment of the usual dividend payable on Nov. 1 1917. Nothing is being done to interfere with the preferred stock of the National Carbon Co. and the unification of strong varied interests will strengthen it.—V. 105, p. 1314, 914.

Nevada-California Electric Corp.—Payment of all Accumulated Dividends.—A dividend of \$1 50 per share has been declared on the outstanding preferred stock, payable Oct. 30 to holders of record at noon, Sept. 30 1917, covering the accumulated dividend on the preferred stock to Oct. 1 1917. Compare map, etc., in "Railway & Industrial Section."—V. 105, p. 1314, 1202.

Nevada Consolidated Copper Co.—Production (in Lbs.).

1917—Aug.—1916	Decrease.	1917—8 mos.—1916	Decrease.
6,439,984	7,688,014	1,248,030	53,362,998
			59,573,099
			6,210,101

—V. 105, p. 914, 720.

New England Cotton Yarn Co.—New Companies.
A press dispatch from New Bedford, Mass., on Oct. 3 reports the incorporation of the following companies to take over the remaining plants of this company, viz.: Nobska Spinning Co. of Taunton, \$100,000 7% cum. pref. and \$240,000 common stock; the Cohannet Co. of Taunton; the Globe Yarn Co. of Fall River and the Sanford Spinning Co. of Fall River all with \$500,000 7% cum. pref. and \$500,000 common stock.—V. 105, p. 914.

Ohio Cities Gas Co.—Production.—The following has been officially revised and corrected:

The two new wells in the Cabin Creek field of this company in West Virginia were recently brought in with an initial daily flow of 430 bbls. and 200 bbls., respectively. The Cabin Creek field, which the Ohio Cities Gas Co. practically monopolizes, produces oil of such a high grade that it sells at a premium over Pennsylvania crude, now quoted at \$3 50 a barrel. The company will use this production at its new refinery in the Cabin Creek field, with a capacity of 2,500 bbls. a day, thus adding approximately \$2 50 a barrel profit over the crude price.—V. 105, p. 824, 294.

Onomea Sugar Co.—Extra Dividend.
An extra dividend of 60 cents (3%) per share has been declared on the stock in addition to the regular monthly 40 cents (2%) per share payable Oct. 20. In July last an extra of 3% was paid in addition to the regular quarterly 2%.—V. 105, p. 185.

Palmolive Co. (Soap Mfrs.), Milwaukee, Wis.—Stock Offering.—A syndicate composed of Edgar, Ricker & Co., and Morris F. Fox & Co., Milwaukee, and Bosworth, Chanute & Co., Denver, Colo., is offering at 97½ and divs.

to yield 7.18%, this company's issue of 7% Cumulative pref. (a. & d.) stock par \$100. A circular shows:

The pref. stock is redeemable all or part upon 30 days' notice on any div. date at 105 and divs. Divs. Q-J. No mortgage without consent of 75% of pref. outstanding. Net quick assets to be maintained equal to pref. outstanding. A sinking fund of \$2,500 plus 5% of the maximum pref. stock at any time issued, together with an amount equal to all dividends paid upon common stock in excess of 12% during the calendar year then ending, must be credited annually out of earnings beginning on Dec. 31 1918, to a special surplus account for the retirement of pref. stock by purchase at 105 and divs. or less, or called by lot at 105.

Upon a default for 30 days as to two consecutive divs., or for 60 days as to sinking fund or net quick assets requirement, the pref. stock may elect a majority of directors.

Data from Pres. Caleb E. Johnson: Milwaukee, Sept. 21 1917.

Purpose of Issue.—This new issue of pref. stock will provide cash to pay for the new Toronto plant, additional working capital to take care of our rapid growth, and also provide for the retirement through exchange of an existing issue of \$375,161 of pref. stock.

Organization.—Originally started in Milwaukee in 1864 as a partnership and was incorporated in Wis. Dec. 31 1894, as the B. J. Johnson Soap Co. Recently the name was changed to The Palmolive Co. The principal products are Palmolive soap, cold cream, shaving soap, washing powder, talcum powder, galvanic laundry soap, &c.

Properties.—The main plant is at Milwaukee, Wis. Also owns all of the capital stock of the Palmolive Co. of Canada, Ltd., with plant at Toronto. The principal buildings in Milwaukee are six stories high, and the floor area is over 229,000 sq. ft., protected by sprinkler system. A reinforced concrete warehouse contains 16 tanks for the storage of olive oil, coconut oil, palm oil, cotton seed oil, &c.; total capacity over 2,500,000 pounds. The company employs about 450 in the Milwaukee plant and 55 at Toronto. The new plant at Toronto is expected to be occupied in Dec. 1917 and the company will then dispose of the present plant in Toronto.

Capitalization.—Authorized: To Be Outstanding.
Preferred stock \$1,000,000 \$1,000,000
Common stock (see balance sheet) 2,000,000 1,721,800

We have had various amounts of pref. stock outstanding since 1897 and the company has never passed a dividend on its pref. stock. The company has no funded debt or obligations of any kind other than current accounts payable and current bank accommodations and the latter will be largely liquidated through the funds received by the sale of pref. stock, the auth. amount of which we have just increased from \$400,000 to \$1,000,000.

Net Earnings Available for Dividends, Including Palmolive Co. of Can., Ltd., After All Expenses, Taxes, Interest, Depreciation, &c.:

Calendar Year 1914 \$245,411 | Calendar Year 1916 \$358,918
Calendar Year 1915 350,688 | Six mos. ending June 30 '17 *274,028

* After deducting reserve of \$110,000 for estimated excess profits tax.

A quarterly dividend of 2 1/4% has been declared on the stock, payable Oct. 15 to holders of record Sept. 29. A like amount was paid in July comparing with 2% quarterly since Jan. 1915.—V. 104, p. 2115

Pennsylvania Utilities Co.—Change in Control.

We are advised that as a result of the formation of the Metropolitan Edison Co. (see full particulars in V. 105, p. 1214, 1313) the common stock of Pa. Utilities Co. is now controlled by that company, although the pref. stock ownership remains as heretofore with the General Gas & Electric Co.—V. 105, p. 613.

Philadelphia Electric Co. (of N. J.).—Plan for Exchange

of Stock \$ for \$ for Stock Phila. Electric Co. (of Penn.).—Regarding the meeting to be held Oct. 17 to authorize an exchange of the capital stock for a like amount of stock of the Phila. Electric Co. (of Penn.), Pres. Jos. B. McCall in a circular dated Sept. 25 says in subst.:

As stated at the annual meeting on April 11 1917, our plan called for simplifying the corporate organization of your company covering the transfer of all the plants, systems and franchises of all the electric light companies originally operating in the City of Philadelphia to The Phila. Electric Co. (of Penn.); the retirement of the trust certificates secured by the stocks of the district companies; and provision for financial requirements of the system by the authorization of an issue of \$60,000,000 of 5% bonds, of which bonds \$35,335,000 have been issued. [V. 103, p. 326, 1416; V. 104, p. 261, 565, 2113; V. 105, p. 294.]

In our judgment the time has arrived for the final exchange of your stock in the N. J. company for the stock of your Penn. company, in order to complete the plan of unification and reorganization. This final action will eliminate the operation of these properties through the medium of a holding company, involving as it does, a complicated system of accounting, considerable duplication of taxes and much unnecessary expense, which is becoming increasingly cumbersome and burdensome.

Philadelphia Electric Co., whose stock you own, is a holding company organized under the laws of New Jersey. There are now issued and outstanding 999,510 full paid shares of stock of the par value of \$25 each, aggregating \$24,987,750. Its property includes all the shares of stock of The Philadelphia Electric Co. (of Penn.) Delaware County Electric Co. Beacon Light Co. of Chester, Penn. Bala & Merion Electric Co.

The Cheltenham Electric Light, Heat & Power Co. and other shares of stock of subsidiary companies no longer engaged in business or about to be dissolved.

The authorized capital stock of The Philadelphia Electric Co. (of Penn.) is \$50,000,000. There are now issued and outstanding 999,510 full paid shares of stock of the par value of \$25 each, aggregating \$24,987,750. All these shares are owned by Phila. Elec. Co. (of N. J.) (V. 104, p. 868.)

Plan Now to Go Into Effect.

1. To close the accounts and pay the debts of Phila. Elec. Co. (of N. J.).

2. To transfer to The Philadelphia Electric Co. (of Penn.), subject to the approval of the P. S. Commission of Penn., all shares of stock of other companies, and to transfer also to the Penn. Corp. whatever miscellaneous assets then remain, leaving in the treasury of Philadelphia Electric Co. (of N. J.) only the shares of stock of The Phila. Elec. Co. (of Penn.).

3. To dissolve Phila. Elec. Co. (of N. J.) under the New Jersey statutes.

4. To effect an exchange by the stockholders of Phila. Elec. Co. (of N. J.) of their shares of stock for an equal number of shares of stock of The Phila. Elec. Co. (of Penn.) of like par value.

The result will be that you will own the same number of shares of a like par value of The Phila. Elec. Co. (of Penn.) as you now own shares of Phila. Elec. Co. (of N. J.).

All expense incurred in carrying out the plan will be borne by the companies respectively, including any taxes that may be imposed on any transaction incident to the proceeding.—V. 105, p. 1314.

The company has increased its dividend from 8% to 12% per annum, having declared a regular quarterly dividend of 3%, payable Oct. 20 to holders of record Oct. 1.—Compare V. 105, p. 1314, 825.

Plymouth Rubber Co.—New Officers, etc.

Following the change in control of the common stock, the new officers elected are: James J. Clifford, President; Chas. W. McDermott, Vice-Pres.; and J. E. Stone, Treas. The foregoing and A. Sydemann, J. C. Haartz, W. G. Thomas and Marshal Cutting have been elected directors. The company is said to have done a gross business "of some \$3,000,000 last year."—V. 98, p. 1772.

Premier Motor Corp., Ind.—Government Order.

A press dispatch from Indianapolis, Ind., on Oct. 1 says that this corporation has obtained a \$15,000,000 contract to build motor trucks for the U. S. Government, work to begin within 30 days if proper tools and machinery can be obtained.—V. 103, p. 2160.

Prest-O-Lite Co., Inc.—Exchange of Stock.

The directors recommend that the stockholders deposit their stock with the Central Trust Co., N. Y., on or before Oct. 31 in exchange for the shares of the new Union Carbide & Carbon Corp. (which see below), on a basis of 2 shares of the latter stock for each share of Prest-O-Lite Co.

The deposit of stock will not effect the payment of the usual dividend on Oct. 31 1917.—V. 105, p. 915.

Procter & Gamble Co.—Suit Dismissed.

Judge Hand of the U. S. District Court at New York has dismissed that company's suit against the Berlin Mills Co., in which the complainant company alleged infringement of its patent, the manufacture of a food product known as "Crisco", consisting principally of cottonseed oil and used as a hard substitute. Judge Hand ruled that the patent is void for lack of invention.—V. 105, p. 1215, 825.

Puget Sound Gas Company.—Successor Co.

This company is the successor of the Everett (Wash.) Gas Co., the Everett company having passed out of a friendly receivership about Sept. 1. H. M. Bylesby & Co. will continue to operate the property.

Ray Consolidated Copper Co.—Production (in Lbs.).

Rio Grande Light, Heat & Power Co.—Offering of

\$1,000,000 Pref. Stock.—Caraher & Co., Inc., N. Y. & Phila., are offering at \$285 each, blocks of stock of this new company, each block consisting of \$300 7% Cumulative pref. (a. & d.) stock and \$100 common stock issued on account of the new hydroelectric development at White Rock Canyon, Sandoval County, New Mexico. A circular shows:

Capitalization, Par, Both Classes \$100.

7% Cum. pref. stock \$1,000,000; Common stock \$2,000,000

Digest of Letter of Pres. Charles G. Wilfong, Phila., Sept. 20 1917.

Organization.—Organized in New Mexico to acquire, construct and operate hydroelectric developments; the company has acquired necessary real estate and water rights and franchises to develop hydroelectric power on the Rio Grande, at the mouth of White Rock Canyon, about 20 miles west of Santa Fe and 45 miles north of Albuquerque.

Territory.—Albuquerque, N. M., which will be supplied, is the largest city in the State, having a population of upwards of 50,000 directly contiguous. The city of Santa Fe will also be supplied and in addition the growing cities of Las Vegas and Belen. The Atchinson Topeka & Santa Fe RR. with shops at Albuquerque and Belen will be supplied with illumination and power. The University of New Mexico, at Albuquerque, has already contracted for service for pump irrigation upwards of 60,000 acres. The company will supply among others the Senorito Mine and the Sandoval Consolidated Mines, the Santa Fe Dredging Co., and El Oro Dredging Co., in the San Pedro gold district.

Property.—A reinforced concrete dam and power house will be constructed. The dam will raise the present water level 140 ft., thus storing about 25 billion gallons. The power station will contain five turbines of 5,000 h. p. each. Electrical energy will be generated at 6,600 volts and stepped up to 66,000 volts by transformers.

The company will have in operation 150 miles of transmission lines. This development will have a total capacity of 25,000 h. p. with an annual output of about 100,000,000 k.w. hrs. Contracts and commitments for power and light from consumers call for upwards of 34,000,000 k.w. hrs. yearly. Contracts now held cover rates varying from 1 1/4 to 3c. per k.w. hr.

Earnings.—Estimated operating results are expected on the basis of the estimated income from full operation. Gross income from full operation (100,000,000 k.w. hrs. at average 1c. rate), \$1,000,000; net, after operating expenses, \$950,000.

Officers and Directors.—Charles G. Wilfong, Pres., Phila.; Augustus W. Dotterer, Vice-Pres., Director Fairmount Savings Trust Co., Phila.; Daniel L. Evans, Esq., Secy & Treas., Counselor-at-Law, Phila. and Pottstown, Pa.; Joseph A. Buckwalter, M. D., Treas. Buckwalter Stove Co., Royersford, Pa.; Elwood Rhoades, Phila., Director Phila., Norristown & Germantown RR.; S. S. B. Campbell, Lancaster, Pa., Capitalist; Hon. William H. Musser, Harrisburg, Pa.; Hon. J. H. Vaughan, City Treas. of Santa Fe; Harry J. Bahr, Pottstown, Pa.; C. A. G. Hillberg, N. Y., Chief Engineer.

(K. E. Van Kuren, District Manager of the Westinghouse Electric & Mfg. Co. of Texas, reports favorably on the need for a development of this kind in this particular field.)

Scranton Electric Co.—Three-Year Notes Sold.—The

offering of this company's Three-Year notes referred to in last week's issue was made jointly by Edward B. Smith & Co. and Harper & Turner, Phila., at a subscription price of 97 1/4 and int. to net over 7%. The notes have all been sold. See offering V. 105, p. 1315, 825.

Sears, Roebuck & Co.—Sales.

1917—September—1916	Increase.	1917—9 Months—1916	Increase
\$11,231,442	\$9,716,339	\$1,515,103	\$119,155,827
			\$94,706,203

—V. 105, p. 1004, 503.

Shawinigan Water & Power Co.—Stock Increase.

The shareholders will vote Oct. 31 on authorizing an increase in the outstanding capital stock from \$15,000,000 to \$20,000,000, the total authorized amount. It is understood that none of new stock will be issued at present.

Pres. J. E. Aldred was quoted on Sept. 26 as saying that before the end of the year 18,000 h.p. of new business would go into effect on the system, 15,000 h.p. at Shawinigan Falls alone. This amount is in addition to the 6,000 h.p. connected up as new load so far this year.—V. 105, p. 185.

Sierra & San Francisco Power Co.—Report.—

See California Ry. & Power Co. under "Annual Reports" on a preceding page.—V. 105, p. 1110, 1004.

Spanish River Pulp & Paper Mills, Ltd., Toronto.—

Status as to Interest Payments—Maturing Instalments Fully Paid Since Funding of 1915-16.—In reply to an inquiry J. G. Gibson, Asst. Sec., says in substance:

The postponed interest is represented (a) in case of Spanish Co. and Ontario P. & P. Co. by the coupons due the first days of January and July in the years 1915 and 1916. (b) In the case of Lake Superior Paper Co. by those due Sept. 1914, and March and Sept. 1915 and March 1916.

In connection with the Spanish Second Mortgage Notes, these were practically canceled, and in exchange therefor the holders received what are now described as "A-Debentures," representing the principal of the old notes, maturing March 1 1924, and bearing interest from March 1 1916. Then a promissory note was issued in lieu of all accrued interest on the old second Mortgage Notes. These promissory notes are payable June 1 1922, without interest.

No further interest has been postponed since the above arrangements were made, and all interest on all of the bonds and debentures of the companies since the above dates has been paid.

The time for the payment of the postponed interest, I may state that the time for this in the case of the Spanish River and Ontario Pulp first mortgage bonds is Oct. 1 1922. In case of the Lake Superior Paper Co.'s first mortgage bonds the time is June 1 1922.

The sinking fund provisions with respect to the Spanish River first mortgage bonds were postponed for five years from the year 1914. In the case of the Lake Superior Paper first mortgage bonds the sinking fund provisions were postponed for five years from 1915, and in the case of the Ontario Pulp & Paper Co. bonds these provisions were canceled for the years 1915 to 1919. See annual report in V. 105, p. 1205.

Stanley Motor Carriage Co., Newton, Mass.—Divs.—

A quarterly dividend of 1 1/4% was paid on preferred stock on Oct. 1 to holders of record Sept. 25. Since the new management assumed charge May 5, earnings, it is stated, have been seven times 1st preferred dividend requirements.—V. 105, p. 295; V. 104, p. 2348.

Struthers Furnace Co., Cleveland.—Bonds Called.—

This company called for payment on Oct. 1 at Guardian Savings & Trust Co. of Cleveland, \$75,000 of its 1st Mtge. Collateral Trust 6% bonds which mature April 1918, Oct. 1918 and April 1919. This leaves outstanding \$375,000 of a total of \$750,000 offered by the Tillotson & Wolcott Co., Cleveland, in Oct. 1911. See offering in V. 93, p. 1026.

Sullivan Machinery Co., Chicago.—Extra Dividend.—

An extra dividend of 1% has been declared on the stock in addition to the regular quarterly 1 1/4%, both payable Oct. 15 to holders of record Oct. 1. A like amount was paid in April and July last.—V. 105, p. 816.

Swift & Co., Chicago.—Dividends.—

In connection with the declaration last week of an extra dividend of 2%, the directors, it is said, discussed the policy of investing a large part of the company's surplus in Liberty bonds, and using them for a Christmas dividend to stockholders of around 25%. See V. 105, p. 1315.

Swinehart Tire & Rubber Co.—New Directors, etc.—

Lyman H. Treadway, Sigmund Korach and P. A. Snyder have been elected directors. Andrew Dis has been elected Vice-Pres. and a director.—V. 104, p. 1904.

Temple Coal Co., Scranton, Pa.—Pref. Stock Retired.—

The entire outstanding issue of 8% Cum. Pref. stock (\$1,200,000) was called for payment Oct. 1 at 105 and div. The original issue of \$2,000,000 was offered in July 1914 by Brown Bros. & Co. (see V. 99, p. 203). In May 1916, \$800,000 was retired.—V. 105, p. 1216.

Tide Water Oil Co.—Status, &c.—

The "Oil Trade Journal" for October publishes a five-page article setting forth with numerous illustrations the growth and development of this company since its incorporation in 1888.—V. 105, p. 1004, 503.

Trumbull Steel Co., Warren, Ohio.—Acquisition, &c.—

The company, we learn, has acquired one-half interest in the Pitt Gas Coal Co., Washington County, Pa., the output of which will be used to supply the company's requirements of gas coal. An open-hearth plant is now being built consisting of seven 100-ton furnaces, part of which is expected to be in operation the latter part of November. The blooming mill and bar mill will not be ready, however, until some time in February. At the present time there is \$6,000,000 common and \$6,000,000 pref. stock outstanding, with no bonds.—V. 105, p. 1216, 296.

Union Carbide Co., N. Y.—Exchange of Stock.—

President George O. Knapp in circular of Oct. 1 announces that the new Union Carbide & Carbon Corporation (see that caption below) will offer to stockholders of Union Carbide Co. 2 1/2 shares of its stock for each share of Union Carbide stock, and that the directors of Union Carbide Co. recommend accepting same. Assenting shareholders should send their stock certificates, properly endorsed, to the Central Trust Co., 54 Wall St., N. Y. City. Stock will be received for deposit and exchange up to the close of business on Oct. 31 1917. Compare V. 105, p. 916, 722.

Union Carbide & Carbon Corporation.—Amalgamation.—

This company, it is announced, will be formed under the laws of N. Y. with an authorized issue of 3,000,000 shares of stock, all of one class, without nominal or par value; and will exchange shares of its capital stock for shares of the capital stock of Union Carbide Co. (V. 105, p. 916, 722), the Prest-O-Lite Co., Inc. (V. 104, p. 458), and the Linde Air Products Co. (V. 104, p. 668), and also for the common stock of National Carbon Co., Inc. (V. 105, p. 914, 1314).

Companies and Stock Included in Plan—Terms of Exchange.

Existing Companies—	Stock.	Par.	For 1 Share.	Tot. New Shrs.
Union Carbide Co. stock.	\$39,807,754	\$100	2 1/2 new shrs.	990,194 shrs.
Nat. Carb. Co., Inc., com.	419,250 shs.	None	1 do	419,250 shrs.
Prest-O-Lite Co., Inc., stk.	100,000 shs.	None	2 do	200,000 shrs.
Linde Air Prod., common	\$11,912,300	\$100	3 1/4 do	See below

The outstanding stock of Linde Air Products is owned to a considerable extent by Union Carbide Co.; there is also \$750,000 preferred stock.

Officers and Directors of the New Corporation.

Directors.—C. K. G. Billings and Nicholas F. Brady, Union Carbide Co., N. Y.; Charles A. Coffin, General Electric Co., N. Y.; G. W. Davison; Myron T. Herrick and Andrew Squire, Nat. Carbon Co., Cleve.; Conrad Hubert and James Parmelee, Nat. Carbon Co., N. Y.; and Washington, D. C., respec.; Roger C. Sullivan, Chicago; F. C. Walcott, Nat. Carbon Co., Englewood, N. J.; George O. Knapp and James N. Wallace, Union Carbide Co., N. Y.; and Jesse J. Ricks.

Officers.—Myron T. Herrick, Chairman of the Board; George O. Knapp, President; Edgar F. Price, Giles W. Mead, M. J. Carney and J. S. Orider, Vice-Presidents; H. E. Hackenberg, Secretary, and Giles W. Mead, Treas.

Union Oil Co. of Calif.—Extra Dividend.—

An extra dividend of 1% has been declared on the \$34,904,400 stock in addition to the regular quarterly 1 1/4%, both payable Oct. 20 to holders of record Oct. 10. Like amounts were paid in April and July last, comparing with 1 1/4% quarterly since Jan. 1916.—V. 105, p. 1315, 826.

Union Power & Light Co., Omaha.—Offering of Pref. Stock.—

Burns, Brinker & Co., Omaha, Neb., are offering at par and div. an issue of \$500,000 7% Participating Cumulative Pref. (a. & d.) stock of this company, which operates 12 light, power and gas plants in Neb., Ia. and So. Dak.

The company reserves the right to retire any part of the pref. issue at 107 1/2 and div. on 90 days' notice, but agrees to redeem \$25,000 pref. stock annually, Jan. 1 1921-1935, incl., at \$100; 1936-1940, incl., at \$102. An annual sinking fund, beginning Jan. 1 1920, provides an amount to retire the stock due the year following. No additional pref. stock may be sold except for the purchase of new properties or for extensions and betterments; and then only in case the earnings are 2 1/2 times the dividend requirements on all pref. stock, incl. the new issue. The pref. stock cannot be increased without 3/4 consenting vote of the pref. stockholders.

No mortgage without consent of at least 3/4 of the stockholders present at a duly called meeting. After the pref. dividends have been paid, an amount equal to 10% of the net remaining earnings must be placed annually to surplus fund until said surplus account is equal in amount to the pref. stock. No common stock dividend can be paid out of said surplus. The pref. stock will receive an extra dividend of 1% in any fiscal year that the common stock dividends exceed 8%.

The pref. stock has full voting rights; if default is made in payment of interest or redemption of the pref. stock for one year, the entire voting power is to be vested in the pref. stock until default is remedied.

Data from Letter of Pres. W. B. Roberts, Omaha, Neb., Sept. 8 1917.

The Company.—Organized in Neb.; the company owns and operates, without competition, service stations and transmission lines, furnishing either electric light, power or gas to 10,000 customers in the following cities and towns: North Platte, Columbus, Neb.; Aberdeen, Watertown, Yankton, So. Dak.; Chariton, Lucas, Woodburn, Lacona, Russell, Osceola, Murray, Ia.

Property.—The plants are modern and in excellent condition.

The company, through ownership of stock of the companies cited above, represents a total value in excess of \$2,550,000. The aggregate of bonds outstanding is \$1,044,500. After issuance of \$500,000 of pref. stock there still remains an equity in excess of \$1,000,000.

Purpose of Issue.—This stock is sold to reimburse the company for new property investments, extensions and betterments which have been made and are in course of construction.

Westchester Fire Insurance Co., N. Y.—Stock Increase.

The shareholders will vote Oct. 25 on a proposition to increase the capital stock from \$500,000 to \$1,000,000.

Westinghouse Elec. & Mfg. Co.—Sale of Meriden Plant.

This company's subsidiary, the New England Westinghouse Co., organized for the purpose of manufacturing an order of 1,800,000 rifles for the Russian Govt., has sold its plant at Meriden, Conn., to the Colt's Patent Firearms Co.

The Boston "News Bureau" of Oct. 3 says:

By the sale of its Meriden, Conn., rifle plant to the Colt's Patent Firearms Co., Westinghouse Electric has made an advantageous transfer of fixed assets into liquid capital. The transfer will give Westinghouse about \$1,000,000 cash. The Russian rifle contract has been filled at three different plants. The main rifle producer was at Chicopee Falls, Mass. The Meriden plant, however, was a complete rifle maker in and of itself. It has been turning out about 1,000 rifles daily for the last four or five months. Present expectation is that productive capacity of the Chicopee Falls plant in connection with the rifle work at Pittsburgh can be so increased as to make up for the decreased production due to sale of the Meriden plant.

At present Westinghouse is making 5,000 rifles daily. The Meriden plant represents 20% of this output. There is every reason to believe that this 20% can be retrieved by increased output in the Chicopee Falls and Pittsburgh works and the company have the cash advantage of this sale. Incidentally, this sale is of interest because it shows how important are becoming the machine-gun requirements of this country. The Colt's people had to have more plant facilities and this purchase was the quickest method of securing them.—V. 105, p. 1319, 1216.

West Porto Rico Sugar Co.—Stock Increase.—

We are advised that the capital stock has been increased from \$3,000,000 to \$15,000,000, of which \$10,000,000 is 8% cum. pref., and \$5,000,000 common.—V. 105, p. 614.

White Star Refining Co., Detroit.—Notes Offered.—

The Union Trust Co., Detroit, is offering an issue of this company's \$125,000 gold notes dated July 1 1917, due in five equal semi-annual installments commencing Jan. 1 1918, but redeemable at par and int. on any interest date. Denom. \$500, \$1,000.

The company, incorporated in Mich., conducts a general oil distributing business. Earnings for period 1910-June 1 1917 show substantial increases.

(F. W.) Woolworth Co.—September Sales.—

1917—Sept.—1916.	Increase.	1917—9 mos.—1916.	Increase.
\$8,246,860	\$7,348,691	\$898,169	\$64,815,163
			\$57,777,900

—V. 105, p. 1110, 614.

Wright-Martin Aircraft Corp.—New President, &c.

General George W. Goethals has been elected President of this company, succeeding J. F. Alford, and also a director. Marshall J. Dodge of Bertron, Grismco & Co. has also been elected a director, to fill a vacancy.

[The loss on the French motor contract now nearly completed will, it is said, aggregate between \$400,000 and \$500,000. The United States Government contract is expected to show a substantial profit, probably larger than the loss on the French order.—V. 105, p. 614.]

Reports and Documents.

MAXWELL MOTOR COMPANY INCORPORATED

FOURTH ANNUAL REPORT—FOR THE YEAR ENDED JULY 31 1917.

Detroit, Michigan, September 15 1917.

To the Stockholders:

The fourth annual report of the Maxwell Motor Company, Inc., for the year ended July 31 1917, is herewith submitted.

The net earnings of the company, as shown by the accompanying statement of West & Flint, certified public accountants of New York, amount to \$5,507,697 01 after deducting a corporation income tax of 2% and without any deduction for an excess profits tax.

Regular quarterly dividends of 1¾% have been paid on the First Preferred Stock during the past fiscal year. Four quarterly dividends of 1½% each were paid on the Second Preferred Stock on October 2 1916, January 2 1917, April 2 1917, and July 2 1917. Four quarterly dividends of 2½% each were paid on the Common Stock on October 2 1916, January 2 1917, April 2 1917, and July 2 1917.

Because of the uncertainty of the excess profits tax which is still undetermined by Congress, and to conserve the company's cash assets and provide the proper quantity of raw materials for future manufacturing operations, it was deemed advisable at the directors' meeting of August 14 1917 to pass the dividend on the Second Preferred and Common Stock.

The number of cars sold by us during the past fiscal year shows an increase of 39% over sales the previous year.

The net working assets of the company and its subsidiaries at the close of its fourth fiscal year are \$12,280,977 05. The inventories have been taken at actual cost; we have no obsolete materials of any kind in our factories. The present market price of the inventory is considerably larger than the amount shown on the books.

The American Appraisal Company has just completed an appraisal of our real estate, plants and machinery in which it states that these items as carried on our books are conservative and substantially correct. (A copy of the report of the American Appraisal Company is printed in this annual statement.)

The American Appraisal Company in a special report, which is on file in our office, advise us that the net sound or present day values of these properties (after deducting depreciation reserve of \$2,215,296 00) is \$8,305,389 46 or \$2,909,650 39 more than the net figures at which we carry them on our books.

Sales contracts with distributors have been signed for 32% more automobiles of all models than had been contracted for at the same period last year. Sales contracts received to date also indicate that we will find a ready market for all of the one-ton trucks that we will be able to manufacture during the next fiscal year.

Following this report are the Profit and Loss Account, containing additional information as to the results of the year's operations, and the Balance Sheet.

50 Pine Street, New York

William H. West, A.C.A., C.P.A. (N. Y.)
John Flint, C.P.A. (N. J.)

September 11 1917.

To the Board of Directors, Maxwell Motor Company, Incorporated, New York.

Gentlemen:

We have made an audit for the fiscal year ended July 31 1917 of the books and records of—

Maxwell Motor Company, Incorporated,
Maxwell Motor Sales Corporation,
Maxwell Motor Company of Canada, Ltd.

the Maxwell Motor Sales Corporation being the selling agent in the United States, and the Canadian Company being the Canadian Branch of the Maxwell Motor Company, Incorporated.

The treasury stock, the notes receivable, the cash in hand and on deposit and the sight drafts on dealers, with bills of lading attached, have been verified by examination or by proper certificates of deposit.

The notes and accounts receivable have been examined and the collectibility thereof inquired into; in our opinion the reserve as set up is adequate.

The inventories at the factories and at the branch selling companies have been taken by the Company at values stated by the management to be the actual cost or less and free from obsolete materials; current market prices of the raw materials are considerably in excess of those at which same were purchased and as included in the inventories.

The inventories include approximately \$8,500,000 of raw stock, finished and partially finished materials at the factories; \$1,000,000 cars in hands of selling companies, and \$1,300,000 parts for service.

During the year the costs of production have been charged with the sum of \$407,207 54 and a corresponding credit added to the reserve for depreciation of buildings, machinery and tools, this sum being additional to all charges for general repairs and replacements.

The \$1,259,867 45 shown on the Balance Sheet for investments represent the Maxwell Motor Company's interest in the Briscoe Manufacturing Company (Detroit) and the New-castle Realty Company (Newcastle, Indiana).

The Sinking Fund provisions in connection with the retirement of First Preferred Stock have been observed; cash to the amount of \$139,151 42 has been paid to the Trustee, and has resulted in a reduction of the goodwill account of \$179,805 61 and the acquisition of First Preferred Voting Trust Certificates during the year of the par value of \$165,500, making a total of such certificates held by the Trustee of \$329,106.

A re-appraisal of the real estate, buildings, machinery and equipment owned by the Company at Detroit (Michigan), Dayton (Ohio), and Newcastle (Indiana), has been made by the American Appraisal Company, and the books adjusted to the increased values shown thereby, \$553,300 72. A corresponding credit of equal amount has been applied in reduction of the goodwill account. The appraisal noted above does not include the Company's properties in Minneapolis, Kansas City and Windsor, Canada, which properties are devoted to the assembling of cars.

In arriving at the income for the year no provision has been made for the contemplated Excess Profits Tax. The Corporation Income Tax has been accrued on the basis of 2%.

The Company has no liability, contingent or otherwise, on outstanding notes or drafts of any character other than sight drafts, with bills of lading attached, discounted to the amount of \$1,071,319 60, which are promptly taken up by the dealers as cars reach destination.

The Company has no outstanding bonded indebtedness whatsoever.

Respectfully submitted,

(Signed) WEST & FLINT.

THE AMERICAN APPRAISAL COMPANY, MILWAUKEE

August 31 1917.

Mr. Walter M. Anthony, Comptroller, Maxwell Motor Co., Inc., Detroit, Michigan.

Gentlemen:

In compliance with your request we have caused to be made an examination of your plant account records and a personal inspection of your properties for the purpose of determining the accuracy of the plant values as carried on your books.

The properties covered in our investigation comprise:

Oakland Avenue Plant	Detroit, Michigan
Highland Park Property	" "
General Office Furniture	" "
Plant No. 1 and 4	Dayton, Ohio
Plant No. 2 and 3	" "
New Castle Plant	New Castle, Indiana

The capital investment in the land, buildings, machinery and equipment based upon the appraisals made by you in 1914, plus the actual cost of additions to properties to July 31 1917, is carried on your books at \$6,750,880 02.

Our investigation revealed minor differences at some of the plants, which after being adjusted prove the above total values as carried on your books to be conservative and substantially correct.

The depreciation reserve carried against capital investment is set up on your books at \$1,798,793 73. This is the result of bringing forward a reserve established at the date of organization, supplemented by monthly charges based upon fair, liberal annual rates of depreciation. From our examination of the condition of these properties we are of the opinion that a reserve to cover the loss in value from depreciation at this time could be consistently carried at \$1,355,140 95.

Your records of capital investment are conservatively established upon a substantial basis and maintained by means of a very systematic and comprehensive system of plant records and we find that the results as shown by your plant account records, conform very accurately to present conditions of your plant properties.

Your plants are of good design, substantially built, well arranged and equipped with modern machinery and tools for the manufacture of automobiles. The buildings and equipment are well maintained and in good condition. Your manufacturing methods appear to be efficient and well organized.

Our investigation herein reported upon did not include the property of the Briscoe Manufacturing Company, Detroit, Michigan, the New Castle Realty Company, New Castle, Indiana, or the Maxwell Motor Sales Corporation.

Respectfully submitted,

THE AMERICAN APPRAISAL COMPANY.

Per (signed) L. H. OLSON,
General Manager.

The Commercial Times

COMMERCIAL EPITOME

Friday Night, Oct. 5 1917.

Though conservatism is still very noticeable, business is gradually increasing. All the big industries are active, though in some cases they are hampered by the scarcity and dearth of coal and the scarcity also of labor. The Government is still a big buyer of all sorts of merchandise. This gives a fillip to business all over the country. At the big cantonments, consumption of goods is enormous. There are some sixteen of them and they are supposed to hold about 40,000 men each. They have been equipped with lighting and power systems, water, sewerage, &c. They are said to have taken already something like 500,000,000 feet of lumber. Thousands of men have been at work on these temporary cities. It took nearly 25,000 freight cars, it seems, to transport the lumber. Vast quantities of paper roofing, nails and carpentry of all sorts have been used. The streets are paved and have telephones as well as electric lights, water, &c. Evidently the plan is to provide comfortable cities of preparation for vast armies of men before they are transported to Europe to engage in the great war. All this has imparted a striking impetus to American trade. And now the country is astir in marketing the new bond issue of \$3,000,000,000 and upward. Meanwhile, there is very little speculation. Cotton advanced some \$12 50 a bale on larger speculative trading than has been seen for some time past. But as a rule speculation has been relegated to the background in this country. The people are in grim earnest about the war and are in no mood to tolerate anything but conservative trading, with the United States Government coming first and the population everywhere cheerfully acquiescing in this or any other plan looking to the efficiency of the American army and navy. In various parts of the country there are plans for a wheatless, meatless and a fireless day. Women are also taking action in the campaign of economy and conservation. Meanwhile, the record of business failures is so favorable as to excite comment. The total is very small compared with recent periods and also compared with the last four years. The crops are big and are selling at good prices. It is regrettable that the wheat crop is not coming more freely to market at the very high prices now ruling. Possibly novel measures may yet be taken by the Government to bring it out. Wages are so high that from Philadelphia comes the suggestion that as the Government has been fixing prices of various commodities, it may yet have to consider the stabilizing of rates for labor. On the other hand, as already intimated, there are some drawbacks. These are well known. They include the scarcity and dearth of many raw materials, as well as labor, shortage of cars in various parts of the country and the high cost of living. The raising of vast armies in this country tends more or less to dislocate trade. And money rates have been stronger. But, on the whole, the business situation in this country is not unfavorable; quite the contrary.

STOCKS OF MERCHANDISE IN NEW YORK.

* Not published during war.

LARD lower; prime Western, 24.52@24.72c.; refined to the Continent, 26.25c.; South America, 26.50c.; Brazil, 27.50c. Futures declined at one time and then rallied. Fluctuations on the whole have been in rather narrow limits. There has been less support. Sentiment has been less aggressively bullish. At times there has been heavy liquidation. Packers have sold moderately. On declines, however, new buying appeared. Hogs advanced at one time. Last week's hog packing was only 289,000, against 585,000 last year. Since March 1 the total is 14,610,000, against 16,772,000 for the same time last year, a decrease of 2,162,000, or something over 12%. Deliveries of 1,500,000 lbs. of lard on October contracts on Thursday caused a decline. To-day prices advanced. The Belgian Relief Committee has purchased lard and meats, it is stated, to the amount of 20,000,000 lbs. This caused a sharp demand for lard and meats for nearby delivery. Distant months are not much changed. Hogs to-day were 5 cents lower at Chicago. For the week there is a net decline in lard.

DAILY CLOSING PRICES OF LARD FUTURES IN CHICAGO.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
October delivery.....	cts. 24.65	24.50	24.60	24.60	24.02	24.40
January delivery.....	23.95	23.82	23.92	23.92	23.55	23.10

PORK higher; mess, \$48 50@\$49; clear, \$47@\$49 50; beef products higher; mess \$30@\$31; extra India mess, \$49@\$51. Cut meats higher; pickled hams, 10 to 20 lbs., 25@27 1/2c.; pickled bellies, 33@35c. Liverpool reports the general market strong with prices advancing, owing to scarcity of export offerings and light supplies. It adds that American holders continue reserved and their offerings limited. A fair business, it states, is noted in lard at firm prices. Owing to the British embargo against Scandinavian countries, it is believed that exports from there of meats will cease. Argentina shipments are moderate. Butter, creamery, 46@46 3/4c. Cheese, State, 26 1/2c. Eggs, fresh, 45@46c.

COFFEE lower; No. 7 Rio, 8½¢; No. 4 Santos, 9¼¢. fair to good Cuetia, 10¼@10½¢. Futures have declined to new low levels on this move following lower prices in Brazil. Rio exchange has also fallen of late after advancing earlier in the week. Receipts continue large. Stocks at the ports are 436,000 bags larger than a year ago and 625,000 bags larger than at this time in 1915. It is stated that some 11,000 bags mostly mild grades have been sold of late for export, supposedly to France. In general, however, spot business has been light. Lower prices do not stimulate it. To-day prices closed 1 to 3 points higher. There is a net decline for the week, however. Closing prices follow:

October	cts 7.07@7.10	February	cts 7.39@7.40	June	cts 7.75@7.76
November	7.15@7.17	March	7.47@7.48	July	7.84@7.85
December	7.25@7.25	April	7.56@7.58	Aug.	7.88@7.90
January	7.31@7.32	May	7.66@7.67	September	7.92@7.94

SUGAR higher for granulated; centrifugal steady with 96-degrees test, 6.90¢; molasses, 89-degrees test, 6.02¢; granulated 8.35@8.50¢. Raw sugar has been in moderate demand. Canadian refiners have bought to some extent. Offerings on the other hand have not been very large. The total stock at Atlantic ports is 56,028 tons against 64,669 tons last week, 133,961 last year and 243,700 in 1915; receipts for the week 22,359 tons against 28,156 last week, 27,111 last year and 12,621 in 1915. It may be added that meltings for the week were 31,000 tons only against 41,000 last week, 60,000 last year and 46,000 in 1915. California refiners are pushing their markets in the West. Chicago and other markets between the Rocky Mts. and the Mississippi River are receiving new beet sugar sold on the basis of 7.25¢. on the Pacific Coast. The Food Administration at Washington announces that brokers, jobbers and other buyers do not as yet require licenses and refiners and beet sugar producers should sell to their usual trade. It is added that, "Within a short time the President will make a proclamation requiring the distributing trade to secure licenses far enough ahead so that the entire trade will have ample time to procure licenses."

TOBACCO has been in moderate demand and firm. Frost damage, it is believed, has reduced the yield. That of itself accounts largely for the firmness of prices. The consumption of Sumatra tobacco is liberal. That fact is very manifest. The latest weekly Government weather report said that the tobacco harvest was practically finished in the Central States under favorable weather conditions and the crop was ripening in Wisconsin. Havana leaf has been firm without, however, being at all active. In fact, as a rule the trading has been light.

OILS.—Linseed lower; city, raw American seed, \$1 17@ \$1 20; city boiled American seed, \$1 19@ \$1 22; Calcutta, \$1 40. Lard, prime, \$2 05@ \$2 10. Cocoanut, Cochin, 21@22¢; Ceylon, 16@16½¢; Palm, Lagos, 20@21¢; Soya bean, 15½@16¢; corn, 14¢. Cod, domestic, 88@90¢. Spirits of turpentine, 48½@49½¢. Strained rosin, common to good, \$6 75@ \$6 85.

PETROLEUM firm; refined in barrels, \$10.35@ \$11.35; bulk, \$5.50@ \$6 50; cases, \$15 50@ \$16 50. Naphtha, 73 to 76 degrees, in 100-gallon drums and over, 47¼¢. Gasoline, firm; motor gasoline, in steel barrels, to garages, 24¢; to consumers, 26¢; gasoline gas machine, steel, 41¢; 72 to 76 degrees, 28@32¢. Local fuel oil has advanced half a cent, based on the higher course of crude oil and an increased demand. Crude prices remained unchanged. As regards the September production of new oil wells east of the Rockies it was 9,399 bbls. less than in August, but the completions gained 199. Kansas was the most remarkable as regards new production, although completions were less. Its new production total was the heaviest on record. The gain was largely due to Butler Co. Gulf Coast returns show a heavy loss in new production, although completions were much greater. Interest in the eastern fields centres in Kentucky, where the new production for September increased. Closing quotations were as follows:

Pennsylvania dark	\$3 50	North Lima	\$2 08	Illinois, above 30	
Cabell	2 57	South Lima	2 08	degrees	\$2 12
Mercer black	2 23	Indiana	1 98	Kansas and Okla-	
Crichton	1 50	Princeton	2 12	homa	2 00
Corning	2 60	Somerset, 32 deg	2 40	Caddo, La., light	2 00
Wootter	2 38	Ragland	1 10	Caddo, La., heavy	1 00
Thrall	2 00	Electra	2 00	Canada	2 48
Strawn	2 00	Moran	2 00	Healdton	1 20
De Soto	1 90	Plymouth	2 03	Henrietta	2 00

COPPER steady; electrolytic, 23½¢; for fourth quarter electrolytic, 23½¢. Some manufacturing plants have closed down for the want of raw material. Lead higher on the spot at 8@8¼¢, but latterly has been quiet, in sympathy with position of copper. Supplies are more than ample. Tin higher on the spot at 63¼¢, in sympathy with a higher London market. Total arrivals, 175 tons; afloat, 9,000 tons. Spelter firm on the spot at 8¼@8½¢, with a weaker technical position.

PIG IRON has been quiet, awaiting the settlement of differentials, which it is hoped will be fixed by the end of this week. Furnaces are not quoting prices on new contracts. They are busy on old orders. Prices in general are largely nominal, aside from basic and No. 2 foundry at \$33. It is said that some Southern producers will continue to quote at \$33, Birmingham basis, regardless of the freight of \$4 to the North. Some think that the demand will outrun the supply. It remains to be seen how this kind of figuring will turn

out. There was a sale reported of a couple of thousand tons of No. 3 iron at \$32 at an Eastern Pennsylvania furnace.

STEEL has been quiet, awaiting the working out of prices on the recent basis decided upon by the Government. Committees of manufacturers have been trying to fix upon a schedule conforming to prices already announced. A conference in Washington will soon take place. Next week President Wilson, it is stated, will announce prices on semi-finished steel, rolled products and various grades of pig iron. The United States Government has again bought finished material heavily. England wants 400,000 tons of shell steel and our Government wants large quantities of machine tools. In buying plates unusual extras have been paid for. This is considered a significant circumstance.

COTTON

Friday Night, Oct. 5 1917.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 208,398 bales, against 185,430 bales last week and 160,421 bales the previous week, making the total receipts since Aug. 1 1917 1,103,756 bales, against 1,574,596 bales for the same period of 1916, showing a decrease since Aug. 1 1917 of 470,840 bales.

Speculation in cotton for future delivery, which had been quiet for some time, became more active last Tuesday at an advance on that day of 105 to 124 points. That was due to two very bullish Government reports, first on the ginning at 10 o'clock and the next on the crop condition at 11 o'clock. The ginning, which had been generally expected to be something like 3,000,000 bales up to Sept. 25, turned out to be only 2,498,381 bales, as against 4,062,991 bales for the same time last year and 2,904,063 for the like period two years ago. This of itself caused a noticeable advance. But the condition figures were so surprising that they occasioned a veritable stampede of the shorts. They were 60.4%, against 67.8 on Aug. 25, 56.3 last year, 60.8 in 1915 and 73.5 in 1914, with a ten-year average of 65.7%. The average decrease in condition for September, it will be seen, was 7.4%, as against 4.9 last year, 8.4 in 1915 and a ten-year average of 5.2%. Oklahoma lost 22 points, Tennessee 15, Mississippi 12, Arkansas 11, Alabama 10, South Carolina 7, Georgia Louisiana and North Carolina 6, Florida 4 and Texas 2. The Government estimated the crop on the strength of the above figures as 12,047,000 bales, exclusive of linters, against 11,449,930 bales last year, 11,191,820 in 1915, 16,134,930 in 1914 and 14,156,486 in 1913. Spot markets advanced sharply. At a New Orleans cotton convention on the day of the issuance of the two reports, a minimum price of 30 cents was agreed upon as the price justified by present quotations of manufactured cotton products. At the same time resolutions were adopted declaring against price regulations by Congress or the delegating of authority to regulate to any person or body. A disposition to hold back cotton has been manifest at the South. Hedge selling has not been a really depressing factor this season, owing to the lateness of the crop, which is said to be two to three weeks behind that of last year.

The generality of private crop reports issued previous to that of the Government on the 2d inst. were about 62.5%, and ranged from 60.6 to 64.5%. Nearly 100 members of the Exchange, in endeavoring to guess the Government report, gave an average estimate of 62.2%, so that when the Government figures proved to be 60.4, prices advanced by leaps and bounds. Moreover, exports have been larger than expected. On the 1st inst. they were stated at 49,235 bales, and on the 2d inst. 48,537 bales, a total in two days of 97,772 bales. Also, the temperatures at the South have been low enough to excite more or less apprehension. Killing frost has happened over wide areas of the belt at times in the past in the early part of October. Of late there have been temperatures of 40 and thereabouts over a large area of the belt. In fact, on the 2d inst. as low as 33 degrees was reported in one section of Alabama. Weather reports will be watched with unusual interest from now on. More than ever it is true that the size of the crop depends on the average date of killing frost. This is clear from the fact that the plant is two to three weeks late. And it is recognized that if this should prove the third short crop in succession, the effect on prices might be very marked. Meanwhile, too, print cloths have been more active at Fall River and also here, at some advance in prices. Cotton yarns have been firmer. The Liverpool market resumed trading on Oct. 1 on the basis of good middling. The trading there is in single months instead of double, as previously, and will be permitted only for five months ahead, and the first month to be January 1918. Fluctuation on any one day may not vary more than 1d. from the previous closing. No orders will be accepted from persons resident outside of the British Empire or countries allied with Great Britain. The day following the Government report Liverpool advanced 120 American points on the spot and 145 to 170 points on futures. Of course the bullish effect of the Government report on Liverpool prices was intensified by the unusual smallness of the Liverpool stocks. On the 3d inst. prices advanced roughly 123 to 130 points here on heavy covering of shorts and trade buying. Besides the action of the New Orleans convention representing ten cotton-growing States, in naming 30 cents per pound for the farmer as the minimum price, had no little effect. Liverpool cabled that the Continent was a free buyer, while it was understood that Italy was purchasing in this market. On the other hand, it remains to be seen how the price will be affected when the crop movement begins in earnest. That cannot be put off much longer. It is inferred that the present high prices will stimulate picking, ginning and marketing to an unwonted degree. Last year the ginning up to Sept. 24 was, as we have seen, 4,062,991 bales under the spur of relatively high

prices, for the total was larger by over 600,000 bales than in the big crop year of 1914-15, when prices were low. And now prices are, roughly, 10 cents more than they were a year ago. A difference of \$50 a bale, it is believed, will prove a strong incentive to market the crop with unusual celerity, whatever may be said by conventions here and there about cotton being worth a minimum of 30 cents a pound. Then, again, an open fall could increase the crop materially. This, of course, is universally recognized. It is believed, too, that before long the hedge selling here must increase materially, as a reflex of the buying of actual cotton at the South. Furthermore, it is said, that on the rise offerings at the South were increasing. Many have held aloof, it seems, until the Government reports appeared on Oct. 2. Then they began to sell at the tempting prices which those reports caused. It was said that on the 2d inst. in some parts of the South the basis had fallen 25 to 50 points. The textile industries, too, were very much disappointed by the Government reports. It remains to be seen whether they will follow present prices. Some think the spinners have been caught napping; others that they are fairly well supplied for some months to come, and may, in some cases, try the policy of buying from hand to mouth until the effect can be seen of an increased movement of the crop. To-day prices advanced 39 to 41 points, but lost about three-quarters of this later on profit-taking. Liverpool bought on balance and trade interests bought more or less. The forecast was for cooler weather on both sides of the Mississippi, and some bought fearing possible frost over Sunday. Japan and Great Britain are said to be buying quite freely at the South. The market here is long. Spot cotton closed at 26.75c., an advance of 145 points for the week.

The official quotation for middling upland cotton in the New York market each day for the past week has been:

* Estimated. a Revised.

Continental imports for past week have been 16,000 bales.

The above figures for 1917 show an increase over last week of 154,052 bales, a loss of 752,491 bales from 1916, a decrease of 1,547,807 bales from 1915 and a decline of 156,204 bales from 1914.

AT THE INTERIOR TOWNS the movement—that is, the receipts for the week and since Aug. 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period of the previous year—is set out in detail below.

WEATHER REPORTS BY TELEGRAPH.—Advices to us by telegraph from the South this evening indicate that with favoring weather picking has progressed very well and in some localities of Texas is reported to be about completed. Little or no rain has fallen except in Alabama and Florida. Damage by rain and high winds is reported from portions of Alabama, and it is stated that little top crop is expected in Texas.

Galveston,

Longview, Tex.—We have had no rain the past week. The thermometer has ranged from 50 to 90, averaging 70.

Luling, Tex.—No rain. Average thermometer 74, highest 94 and lowest 53.

Nacogdoches, Tex.—We have had no rain during the week. The thermometer has averaged 70, ranging from 47 to 92.

Palestine, Tex.—No rain. Average thermometer 74, highest 90, lowest 58.

Paris, Tex.—There has been no rain the past week. The thermometer has averaged 71, ranging from 50 to 92.

San Antonio, Tex.—There has been no rain the past week. The thermometer has averaged 75, ranging from 56 to 94.

Weatherford, Tex.—We have had no rain during the week. The thermometer has averaged 68, ranging from 48 to 89.

Muskogee, Okla.—There has been no rain during the week. The thermometer has ranged from 44 to 95, averaging 70.

Ardmore, Okla.—Dry all the week. Average thermometer 72, highest 96 and lowest 49.

Eldorado, Ark.—There has been no rain during the week. The thermometer has averaged 65, the highest being 89 and the lowest 42.

Little Rock, Ark.—There has been rain on one day the past week, to the extent of two hundredths of an inch. The thermometer has averaged 70, ranging from 54 to 85.

New Orleans, La.—Dry all the week. The thermometer has averaged 73.

Shreveport, La.—There has been no rain during the week. Average thermometer 68, highest 86, lowest 51.

Columbus, Miss.—There has been no rain the past week. The thermometer has averaged 68, the highest being 91 and the lowest 45.

Vicksburg, Miss.—There has been rain on one day during the week, the rainfall reaching one hundredth of an inch. The thermometer has averaged 69, ranging from 53 to 85.

Mobile, Ala.—Some localities report considerable loss of cotton in the field as a result of heavy wind and rain. We have had rain on two days of the past week, the rainfall reaching three inches and ninety-nine hundredths. The thermometer has ranged from 55 to 81, averaging 69.

Selma, Ala.—Rain has fallen on three days during the week, the rainfall being three inches and sixty-five hundredths. Highest thermometer 78, lowest 49, average 63.

Madison, Fla.—There has been rain on two days of the past week, the rainfall being two inches and seventy-two hundredths. The thermometer has averaged 67, the highest being 85 and the lowest 50.

Albany, Ga.—There has been rain on two days the past week, the rainfall reaching one inch and sixty-two hundredths. The thermometer has averaged 70, ranging from 50 to 90.

Savannah, Ga.—We have had rain on three days during the week, the rainfall being eighteen hundredths of an inch. The thermometer has ranged from 55 to 87, averaging 72.

Charleston, S. C.—We have had rain on three days of the week, the precipitation being sixty-nine hundredths of an inch. Average thermometer 71, highest 86, lowest 56.

Greenville, S. C.—There has been rain on two days of the past week, the rainfall being eighty-two hundredths of an inch. The thermometer has averaged 61, the highest being 82 and the lowest 41.

Charlotte, N. C.—There has been rain on three days during the week, the rainfall reaching eighty-six hundredths of an inch. Thermometer has averaged 62, ranging from 46 to 78.

Memphis, Tenn.—Favorable weather for gathering the crop, which is now making better progress. There has been no rain the past week. The thermometer has ranged from 53 to 81, average 66.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 8 a. m. of the dates given:

	Oct. 5 1917.	Oct. 6 1916.
	Feet.	Feet.
New Orleans.....	Above zero of gauge..... 4.8	5.2
Memphis.....	Above zero of gauge..... 5.8	6.4
Nashville.....	Above zero of gauge..... 8.8	7.4
Shreveport.....	Below zero of gauge..... 4.2	5.1
Vicksburg.....	Above zero of gauge..... 5.1	6.4

CENSUS BUREAU REPORT ON COTTON GINNING TO SEPT. 25.—The Census Bureau issued on Oct. 2 its report on the amount of cotton ginned up to Sept. 25 from the growth of 1917 as follows, round bales counted as half bales, and excluding linters, comparison being made with the returns for the like period of 1916, 1915 and 1914:

	1917.	1916.	1915.	1914.
Alabama.....	94,857	137,478	310,756	392,217
Arizona.....	35	112	60	---

United States.....	2,498,381	4,081,989	2,903,829	3,393,752

*Included in all other States.

The number of round bales included this year is 60,904, contrasted with 84,855 bales in 1916 and 32,412 bales in 1915.

The number of Sea Island bales included is 18,731, against 31,261 bales in 1916 and 19,091 bales in 1915. The distribution of Sea Island cotton for 1917 by States is: Florida, 9,282 bales; Georgia, 9,382 bales, and South Carolina, 67 bales.

The corrected statistics of the quantity of cotton ginned this season prior to Sept. 1 are 615,597 bales.

THE AGRICULTURAL DEPARTMENT'S SEPTEMBER REPORT.—The following statement, showing the condition of cotton on Sept. 25, was issued by the Department of Agriculture on Oct. 2:

The Crop Reporting Board of the Bureau of Crop Estimates of the United States Department of Agriculture estimates, from the reports of the correspondents and agents of the Bureau, that the condition of the cotton crop on Sept. 25 was 60.4% of a normal, compared with 67.8% on Aug. 25 1917, 56.3% on Sept. 25 1916, 60.8% on Sept. 25 1915, and 65.7% the average on Sept. 25 for the past ten years:

A condition of 60.4% on Sept. 25 forecasts a yield per acre of 168.3 lbs. and a total production (allowing 1% from planted area for abandonment) of about 12,047,000 bales. Last year the production was 11,449,930 bales; two years ago, 11,191,820 bales; three years ago, 16,134,930 bales, and four years ago, 14,156,486 bales.

Comparisons of conditions, by States, follow:

States—	Sept. 25 1917.	Aug. 25 1917.	Sept. 25 1916.	Ten-year Average.

*Seven-year average.

RECEIPTS FROM THE PLANTATIONS.—The following table indicates the actual movement each week from the plantations. The figures do not include overland receipts nor Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports.

Week ending	Receipts at Ports.			Stock at Interior Towns.			Receipts from Plantations		
	1917.	1916.	1915.	1917.	1916.	1915.	1917.	1916.	1915.
Aug. 17	60,808	58,481	28,735	256,517	281,900	438,889	19,919	39,499	21,259
24	75,216	79,181	24,070	244,073	267,293	433,353	62,772	64,574	18,534
31	99,115	139,059	72,493	247,888	266,271	428,150	102,930	136,037	67,290
Sept. 7	112,138	187,016	100,526	253,166	325,618	454,818	117,416	248,363	127,194
14	142,060	182,381	176,839	261,941	411,183	497,366	150,836	267,946	219,387
21	160,421	230,375	284,998	287,143	542,558	575,202	185,622	361,750	362,834
28	185,430	285,561	306,456	355,449	693,690	650,579	253,736	436,693	381,833
Oct. 5	208,398	324,221	282,775	439,165	830,921	736,530	292,114	461,452	368,756

The above statement shows: 1.—That the total receipts from the plantations since Aug. 1 1917 are 1,187,979 bales; in 1916 were 2,051,783 bales, and in 1915 were 1,574,166 bales. 2.—That although the receipts at the outports the past week were 208,398 bales, the actual movement from plantations was 292,114 bales, the balance going to increase stocks at interior towns. Last year receipts from the plantations for the week were bales 461,452, and for 1915 they were 368,756 bales.

WORLD'S SUPPLY AND TAKINGS OF COTTON.—

The following brief but comprehensive statement indicates at a glance the world's supply of cotton for the week and since Aug. 1 for the last two seasons, from all sources from which statistics are obtainable; also the takings, or amounts gone out of sight, for the like period.

Cotton Takings. Week and Season.	1917.		1916.	
	Week.	Season.	Week.	Season.
Visible supply Sept. 28.....	2,789,041	---	3,351,164	---
Visible supply Aug. 1.....	---	2,814,776	---	3,198,251
American in sight to Oct. 5.....	395,041	2,159,454	585,230	2,936,525
Bombay receipts to Oct. 4.....	610,000	212,000	10,000	109,000
Other Indian shipm'ts to Oct. 4.....	62,000	21,000	4,000	51,000
Alexandria receipts to Oct. 3.....	610,000	26,000	32,000	82,000
Other supply to Oct. 3.....	61,000	24,000	2,000	27,000
Total supply.....	3,207,082	5,257,230	3,984,394	6,403,776
Deduct—				
Visible supply Oct. 5.....	2,943,093	2,943,093	3,695,584	3,695,584
Total takings to Oct. 5.....	263,989	2,314,137	288,810	2,708,192
Of which American.....	218,989	1,835,137	246,810	2,060,192
Of which other.....	45,000	479,000	42,000	648,000

* Embraces receipts in Europe from Brazil, Smyrna, West Indies, &c.

a This embraces the total estimated consumption by Southern mills, 839,000 bales in 1917 and 753,000 bales in 1916—takings not being available and the aggregate amounts taken by Northern and foreign spinners, 1,475,137 bales in 1917 and 1,955,192 bales in 1916, of which 996,137 bales and 1,307,192 bales American. b Estimated.

—We have received a copy of a chart showing the course of cotton prices during the past three seasons, issued by the Shepperson Publishing Co., who have it on sale as a hanger or on bond paper.

EGYPTIAN COTTON CROP.—The Alexandria Cotton Co., Ltd., of Boston, have the following, under date of Alexandria, Aug. 24th.:

Humidity in the interior has continued to be excessive, and has thus again favored the development of the pink boll worm. There is a marked tendency for a delay in the maturity of the bolls, due to weaker vegetative vigor of the plant, brought about by the prolonged cool weather of June and July; this constitutes a great danger, owing to the rapid propagation of the pink boll worm and increases the probability of boll-shedding. The percentage of bolls attacked by the pink boll worm has now increased, and may be estimated at from 15 to 35%. Morning fogs are not reported, so far, to have caused any damage.

BOMBAY COTTON MOVEMENT.—The receipts of India cotton at Bombay for the week ending Sept. 13 and for the season from Aug. 1 for three years have been as follows:

Sept. 13. Receipts at—	1917.		1916.		1915.	
	Week.	Since Aug. 1.	Week.	Since Aug. 1.	Week.	Since Aug. 1.
Bombay	12,000	132,000	10,000	78,000	31,000	149,000

ALEXANDRIA RECEIPTS AND SHIPMENTS OF COTTON.—The following are the receipts and shipments for the week ending Sept. 12 and for the corresponding week of the two previous years:

Alexandria, Egypt, September 12.	1917.	1916.	1915.
Receipts (cantars)—			
This week	44,959	61,955	53,700
Since Aug. 1	119,379	142,270	96,896

Exports (bales)—	1917.		1916.		1915.	
	Week.	Since Aug. 1.	Week.	Since Aug. 1.	Week.	Since Aug. 1.
To Liverpool	---	8,147	---	9,824	5,717	15,010
To Manchester	---	4,882	3,290	3,290	---	5,354
To Continent and India	1,996	5,993	335	3,376	2,434	15,411
To America	---	---	---	1,133	1,920	12,749
Total exports	1,996	19,022	3,625	17,623	10,071	48,524

Note.—A cantar is 99 lbs. Egyptian bales weigh about 750 lbs. This statement shows that the receipts for the week ending Sept. 12 were 44,959 cantars and the foreign shipments 1,996 bales.

MANCHESTER MARKET.—Our report received by cable to-night from Manchester states that the market has been disturbed by the advance, but there is a moderate trade in printing and dyeing cloth. We give prices for today below and leave those for previous weeks of this and last year for comparison:

		1917.						1916.

BREADSTUFFS

Friday Night, Oct. 5 1917.

Flour has been firm with an active demand. The supply continues to be small, in spite of some increase in the receipts. Mills are offering on a very restricted scale. The production at the West is large, but the demand to all appearances is larger. Gradually, it is believed, the equilibrium will be restored. Just now, however, there is a good deal of dissatisfaction among buyers at their inability to get adequate supplies. Prices on the spot show very noticeable premiums over those for flour to arrive: Profits obtained here by dealers are so high that it is intimated that the question is being considered by the Food Administration. It is not believed that unreasonable profits will be tolerated for any great length of time. Many are disappointed that prices have not declined since the Government took hold. It is believed that for a time at least the flour trade will have to be conducted on a different scale from what is seen in peace times. That is to say, that buyers will have to content themselves with temporary supplies at least for a time. In Liverpool prices have been firm, with only moderate offerings by local mills and smaller export offerings. The spot demand there has been good and foreign arrivals are going into immediate consumption. In Liverpool they think American clearances will continue liberal according to the Food Comptroller's plan. Australia is grinding freely for foreign account. The total output of flour last week at Minneapolis, Duluth and Milwaukee was 452,000 barrels, against 476,000 last week and 325,000 for the same week in 1916. The total from Sept. 1 to Sept. 29 was 1,808,000 barrels, against 1,525,000 barrels for the same time last year.

Wheat has declined on No. 2 red, while other grades showed no change. The private estimates of the crop exceed the last Government figures. Two of these estimates put the total at 680,000,000 to 682,000,000 bushels, against the Government estimate a month ago of 668,000,000 bushels and 640,000,000 bushels harvested last year. But receipts at the terminal points continue small. This is one of the great drawbacks of the situation from the economic standpoint. Australian wheat, however, has arrived at Pacific Coast ports. Some think that these receipts will ultimately reach something like 25,000,000 bushels, as the grain is coming in returning lumber boats. Stocks in Canada are rapidly increasing. In Oklahoma farm stocks are said to be 12,000,000 bushels, against 7,500,000 bushels a year ago. The total American visible supply increased last week 6,082,000 bushels, as against an increase in the same week last year of 3,371,000 bushels. In Canada the increase was 5,162,000 bushels, or more than double the increase in the same week last year when, to be exact, it was 2,470,000 bushels. But the trouble is that even so the total North American visible supply is only 32,082,000 bushels, against 93,580,000 a year ago and 43,227,000 at this time in 1915. At the same time it is said that the winter wheat acreage this season is likely to be far the largest ever known. That does not sound unreasonable with No. 2 red quoted here f. o. b. at \$2 26. It is said that some sections of the West which have not hitherto engaged in wheat raising will go into it now. In parts of Kansas it is said that the increase in area will be 25%. At the same time supplies on the Continent of Europe are light. That means, of course, that big importations are necessary. It looks as though all that America and Canada can spare will be needed. Last week the world's exports were only 6,382,000 bushels, as against 12,832,000 in the same week last year. Argentina, owing to the strike, shipped only 52,000 bushels, against 264,000 in the previous week and 672,000 last year; India 462,000, against 1,792,000 last year; North America, 4,828,000 bushels, against 9,184,000 bushels. In India heavy rains have delayed the movement and shipments are lighter on account of the scarcity and dearthness of ocean freights. In Argentina the strike has spread to the ports and this seriously affects shipping. In France the weather has been cool and wet, and therefore not favorable to late crops and harvesting. Stocks there are small and new wheat is moving slowly. To make matters worse, foreign arrivals are lighter. Advices from the United Kingdom state that the percentage of the world's shipments to the United Kingdom is less than the requirements. The weather, moreover, is wet in England and native crops are moving slowly. Crop accounts from Russia are gloomy. This applies both to quantity and quality.

The weather has been generally cold and wet. Harvesting there was delayed by the lack of labor and poor economic conditions. It is said that the food situation in Russia is critical, especially in the cities, owing to poor railroad facilities and the difficulty of replenishing supplies. It is added that both civil and military conditions are very unsettled. In Italy the yield and quality are alike unsatisfactory and that country will have to import on a large scale. Things are in such a state in Italy that economy in the use of wheat is being urgently recommended. From Scandinavian countries continue to come reports of great scarcity after poor crops, both as regards quantity and the quality of the grain. In this country the great trouble, as already intimated, is the slowness with which the crop is being moved. Farmers are evidently holding out against the Government. It remains to be seen what the Government will do. Receipts are increasing slowly, but that does not help matters much. It may be of interest to recall that in considering possible action by the Government sooner or later that Food Controller Herbert C. Hoover in addressing a conference of members of the Food Supply Commission in Philadelphia recently said that if the United States could not prosecute the war successfully as a democracy, an autocratic government in the production, distribution and consumption of food, at least, will be adopted. There is a big profit in wheat raising at present prices, according to the common understanding. To-day there was some increase in the receipts at Chicago and the Northwest, but there is a good demand from mills, especially for hard winter and spring wheat.

DAILY CLOSING PRICES OF WHEAT IN NEW YORK.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
No. 2 red.....cts.	226	226	226	226	226	226
No. 1 spring.....	229	229	229	229	229	229

Indian corn has advanced with a good demand and some private crop estimates smaller than that of the Government. Two of them have ranged from 3,115,000,000 bush. to 3,182,000,000 bush., as against the Government estimate a month ago of 3,248,000,000 bush. And stocks are not increasing rapidly. There was a decrease last week in the North American visible supply of 1,544,000 bush., against an increase in the same week last year of 611,000 bush. This leaves the total at only 1,561,000 bush., against 6,667,000 bush. a year ago and 4,159,000 at this time in 1915. In Liverpool prices have been firm, partly owing to the continuance of the strike in Argentina and light American offerings. In Liverpool the spot demand has been good and general offerings small. On the other hand the weather has of late been on the whole better, though early in the week frost was reported in Illinois, Indiana, Iowa and Missouri. But it is believed it did no serious harm. Cutting in early planted fields is under way, though very little new corn is expected for several months. The bulk of the corn according to the latest weekly Government report is safe in Kansas, Missouri and Nebraska and also in much of Illinois. In Iowa 80% will be safe by Oct. 15. Receipts of old corn have been very moderate. But the tendency of prices for old corn is towards a lower basis in gradually readjusting the scale of values to the new crop. To-day prices were higher. Frost was predicted for overnight in Wisconsin, Minnesota, Iowa and Illinois. Country offerings are increasing. Receipts are small, but for the moment they seem sufficient to supply the current demand. Prices are higher for the week.

DAILY CLOSING PRICES OF CORN FUTURES IN CHICAGO.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
December delivery in elevator.....cts.	118½	118½	119½	120	118½	119½
May delivery in elevator.....	115½	115½	116½	116½	115½	116

Oats advanced slightly with corn and it is clear enough that the country is not anxious to sell. Certainly receipts are small. The North American visible supply increased last week only 297,000 bushels against an increase in the same week last year of 2,251,000 bushels. This leaves the total only 20,922,000 bushels against 55,858,000 bushels a year ago. In Liverpool prices have been steadier owing to lighter export offerings and some demand from consumers. Of late the December position here has been noticeably strong, owing to the lightness of the receipts and nervousness of shorts. Western farmers are evidently holding back their supplies. It is feared that the visible stocks will increase only moderately at least for a time. Though the crop is admittedly large farmers, it is quite as clear, are not selling at all freely. Under the circumstances there is not much hedge selling. On the other hand, the export demand has latterly decreased sharply. So re estimates of the crop are 1,615,000,000 to 1,621,000,000 bushels against the Government estimate a month ago of 1,533,000,000 bushels and the harvested crop last year of 1,251,992,000 bushels in 1916. This year's crop will be far the largest ever known. Meanwhile however there are big withdrawals of oats from storage at Chicago. This of itself has tended to strengthen prices, yet latterly both the export and domestic demand has been light and prices are firm but have not moved decisively upward. To-day prices were irregular, closing slightly higher. Premiums on spot oats declined at Chicago. A small net advance is noted for the week.

WEATHER BULLETIN FOR THE WEEK ENDING OCT. 2.—The influences of weather on the crops as summarized in the weather bulletin issued by the Department of Agriculture for the week ending Oct. 2 were as follows:

COTTON.—The weather conditions were favorable for picking cotton in Louisiana, Texas and Oklahoma and this work progressed rapidly. In the central and eastern parts of the cotton district, however, the rainy weather delayed picking and lower temperatures, insufficient sunshine and heavy rains produced conditions unfavorable for the development of the crop. The damage by wind to cotton in connection with the tropical storm was confined to a comparatively small area in western Florida, southwestern Georgia, southern Alabama and southeastern Mississippi, and in these sections most of the crop had been gathered, except in southwestern Georgia and southern Alabama, where some cotton was beaten from the bolls and soiled. The picking of cotton is about completed in Texas, except in the northern counties; the crop is not promising in this State. Cotton is making very little progress in Arkansas also, where picking is general in the central counties, and just beginning in the north. The bolls are dropping considerably in parts of Oklahoma, Arkansas and Tennessee. Cotton is opening rapidly on loam land in the delta region in Mississippi, but slowly on the heavy soils.

WINTER GRAINS.—Plowing and seeding of winter grains progressed in a very satisfactory manner in practically all sections of the country, except in a few localities where the soil is still too dry. The soil for the most part, however, is in excellent condition for seeding and germination and the early-sown grains are coming up well. It is estimated that one-half of the winter wheat land has been seeded in Kansas and the remainder is being planted as rapidly as possible. In Missouri 70% of the wheat land has been prepared and probably 20% sown. The acreage of winter wheat has been increased in many districts. The heavy rains in southeastern States have put the ground in good condition for seeding winter oats.

SPRING GRAINS, &c.—The threshing of spring grains is well under way in the upper Rocky Mountain region and is nearly finished in some localities; the threshing of flax continues. The weather was favorable for rice harvesting in Texas and Arkansas, but this crop was seriously damaged in southeastern Louisiana by the tropical storm. The buckwheat harvest was becoming general, with generally satisfactory yields.

Heavy rain fell during the week in northeastern Kansas and much in Missouri and moderately large amounts in northern and central Illinois, eastern Kentucky and eastern and central Tennessee. Practically no rain occurred in most of Nebraska and South Dakota, while in the large part of the principal corn-growing States the rainfall was mostly light. The temperature averaged 2 to 4 degrees a day below the normal in the Ohio, lower Missouri and central and upper Mississippi valleys. As a result corn matured rather slowly in the central and eastern corn States. In the northern part of the country the temperature was somewhat higher and corn matured more rapidly.

CORN.—Nearly all of the corn is safe from serious frost damage in the northern tier of States and cutting is under way. The crop is beyond frost damage in Nebraska, except in some very late fields. In Kansas also the bulk of the crop is free from frost, although the late planted, as well as the grain sorghums, require at least ten days to fully mature. The bulk of the crop is also safe in Missouri, while 50% of the replanted river lowlands are beyond danger from frost damage. In Iowa very good progress was made in the maturing of corn, but fully one-third of the crop is not yet safe from ordinary killing frost and much more would be seriously damaged by a freeze. It is estimated that not more than 88% will be safe by Oct. 15 in Iowa, and that from 5 to 10% will require practically all of the month. Frosts on Oct. 1 in Indiana and Illinois did not appreciably damage the corn crop. Corn is hardening well in Illinois and much is now safe from frost damage. The balance of the crop in this State will require 10 to 15 days to fully mature. About two-thirds of the crop is safe in Indiana and the remainder needs from one week to ten days. Corn matured rather rapidly in Ohio on account of the dry winds, and good progress was made in cutting. The bulk of the crop is now safe from frost damage in that State. Cutting is well advanced in Pennsylvania and in practically all of the southern part of the country. The crop matured slowly in Kentucky, but the greater part is beyond frost damage.

The statement of the movement of breadstuffs to market indicated below are prepared by us from figures collected by the New York Produce Exchange. The receipts at Western lake and river ports for the week ending last Saturday and since Aug. 1 for each of the last three years have been:

Receipts at—	Flour.	Wheat.	Corn.	Oats.	Barley.	Rye.

THE DRY GOODS TRADE

New York, Friday Night, Oct. 5 1917.

The sharp advance in cotton, due to the unfavorable Government crop condition report and forecast for a disappointing yield, stimulated renewed activity in the markets for dry goods during the week. There is also increase anxiety on the part of manufacturers as regards supplies of raw material. Never before have mills been compelled to pay such high prices for raw material at the beginning of the season as those now prevailing, and the fear is that they will have to pay still higher as the season progresses. There is considerable talk of concerted holding movements throughout the South with many advocating 30 cents per pound and higher. Although exports from this country continue of moderate proportions, the prediction of a yield slightly in excess of 12,000,000 bales has brought to light the possibilities of an acute supply situation, and especially so as cotton is being used as a substitute for wool, flax and jute on an increasing scale. Former users of linens are taking cotton more extensively, while bagging interests have been liberal buyers of heavy cotton goods to replace burlaps. The firmness of the raw material market has again upset mill calculations as to prices for the manufactured product, and as a result many classes of goods have been withdrawn from sale, with others readjusted to much higher levels. Merchants who had been holding off in hope that the early movement of new cotton would bring about lower prices have been badly disappointed, and are now finding it difficult to place orders. Mills continue reluctant about accepting large business, owing to the uncertainty surrounding the raw material situation. Further reports of labor difficulties have been received from producing centers; not only is skilled labor growing scarce, but demands are continually being made for higher wages and mills having large orders on their books are reported to be falling behind with deliveries. Quite a good inquiry for export account continues to be noted from Central and South American countries with fair sales of dress gingham reported. Adverse shipping facilities, however, are still an unfavorable factor in the situation.

DOMESTIC COTTON GOODS.—In sympathy with the strength of raw material, markets for staple cotton goods have developed a much firmer undertone and while many upward revisions in prices have been made it is believed that additional advances are pending. Manufacturers point out that operating costs are steadily climbing with raw material advancing and more difficult to obtain. Notwithstanding the fact, however, that the high prices for goods and increased cost of living in other directions will no doubt result in decreased consumption, buyers appear to be becoming greatly concerned over their ability to provide for future requirements. Jobbers have been more active in the market for spring goods and there have been no offerings on the part of second hands at concessions under mill prices. The improved inquiry for finished goods has resulted in higher prices, and fine goods, which have ruled comparatively dull of late, are reported to be selling more freely. There has been a good inquiry for denims from Government agents, who have also purchased liberal quantities of blankets. There continues to be an active demand for wash goods, with novelty effects in printed cottons readily taken. Gingham are likewise selling well, particularly the newer large plaid dress gingham. Print cloth markets have displayed more activity with fair sales reported. Gray goods, 38½-inch standard, are quoted at 10½c.

WOOLEN GOODS.—Comparatively quiet conditions have prevailed in markets for woollens and worsteds. The high prices are having their effect in curtailing consumption, and some action on the part of the Government in conserving the supply of wool is expected within the near future. There is considerable talk of regulating styles to save yardage, such as eliminating patch pockets, belts and turn-up cuffs. While mills in most cases have sold their entire output of goods for next spring, according to reports, the yardage has been far below normal with many orders materially cut down. Dress goods markets are quiet, as retail trade is not as active as had been expected. Jobbers who still hold stocks of goods which they purchased at comparatively lower prices, however, are said to be doing a good business.

FOREIGN DRY GOODS.—Trade in linens is very satisfactory, though the situation as regards supplies is growing more acute. Prices are also advancing, but when goods are obtainable the price question appears to be a secondary consideration. Buyers in all cases though are not willing to meet the higher prices asked and are turning their attention to cotton substitutes. The latter are selling well and likewise display a very firm undertone. The situation abroad shows no signs of improvement as spinners continue to find it difficult to secure sufficient raw material for their requirements as the British Government controls the flax situation. Arrivals of linens from abroad continue light and in most cases importers have disposed of the entire shipment before it arrives, thus keeping stocks down to a minimum. Quietness has prevailed in markets for burlaps, but in view of the smallness of supplies, prices have ruled firm. Light weights are quoted at 11.50c. and heavy weights at 15.25c.

WILLIAM B. DANA COMPANY, Publishers,
Front, Pine and Depeyster Sts., New York.

Statement of the Ownership, Management, &c., required by the Act of Congress of Aug. 24 1912, of Commercial & Financial Chronicle, published weekly at New York, N. Y., for October 1 1917.

State of New York, County of New York, ss.: Before me, a notary public, in and for the State and county aforesaid, personally appeared Jacob Selbert Jr., who, having been duly sworn according to law, deposes and says that he is the editor of the Commercial & Financial Chronicle and that the following is, to the best of his knowledge and belief, a true statement of the ownership, management, etc., of the aforesaid publication for the date shown in the above caption, required by the Act of August 24 1912, embodied in Section 443, Postal Laws and Regulations, printed on the reverse of this form, to wit:

(1.) That the names and addresses of the publisher, editor, managing editor, and business managers are:

Publisher, William B. Dana Company, 138 Front St., New York.

Editor, Jacob Selbert Jr., 138 Front St., New York.

Managing Editor, Jacob Selbert Jr., 138 Front St., New York.

Business Managers, George B. Shepherd and W. D. Riggs, 138 Front St., N. Y.

(2.) That the owners are (Give names and addresses of individual owners, or if a corporation, give its name and the names and addresses of stockholders holding 1% or more of total amount of stock): Owner, William B. Dana Company, 138 Front St., New York. Stockholders: Estate of William B. Dana (beneficiaries, Maria T. Dana and W. S. Dana), Jacob Selbert Jr., Arnold G. Dana, Grace Newton Dana, and Albro J. Newton; address of all, 138 Front St., New York.

(3.) That the known bondholders, mortgagees and other security holders, holding 1% or more of total amount of bonds, mortgages, or other securities are: (If there are none, so state.) No bonds or mortgages on property, and therefore no "bondholders, mortgagees and other security holders."

(4.) That the two paragraphs next above, giving the names of the owners, stockholders, and security holders, if any, contain not only the list of stockholders and security holders as they appear upon the books of the company, but also, in cases where the stockholder or security holder appears upon the books of the company as trustee or in any other fiduciary relation, the name of the person or corporation for whom such trustee is acting, is given; also that the said two paragraphs contain statements embracing affiant's full knowledge and belief as to the circumstances and conditions under which stockholders and security holders who do not appear upon the books of the company as trustees, hold stock and securities in a capacity other than that of a bona fide owner; and this affiant has no reason to believe that any other person, association, or corporation has any interest, direct or indirect, in the said stock, bonds, or other securities than as so stated by him.

(Signed) Jacob Selbert Jr., Editor. Sworn to and subscribed before me this 28th day of Sept., 1917. Thomas A. Creagan, Notary Public, Kings County. Certificate filed in N. Y. Co. No. 37. (My commission expires March 30 1919.)

MUNICIPAL BOND SALES IN SEPTEMBER.

Dealings in permanent long-term municipal bonds during the month of September reached a total of \$24,432,579. This compares with \$29,993,473 in August, \$85,435,665 in July (including \$55,000,000 4½% put out by New York City) and \$25,053,873 in June. The aggregate amount disposed of in September 1916 was \$22,174,179. Last month's total would doubtless have been larger but for the announcement that a second "Liberty Loan" would be offered to the public in October.

The largest disposal of long-term bonds in September was by the city of Philadelphia, which received subscriptions at par beginning Sept. 17 and closing Sept. 21 for \$7,275,700 4% 30-year bonds. The issue was all placed with local investors. Other large sales made last month were: Knoxville, Tenn., \$800,000 5s at 100.14; Milwaukee, Wis., \$400,000 4½% at 100; Omaha, Neb., \$400,000 5s at 101.75; State of Oregon, \$500,000 4s at 94.426; Portland, Ore., \$1,500,000 4½% at 95.29; St. Francis County, Ark., \$450,000 6s at 103.50 and State of Tennessee, \$1,000,000 4½% at 100 and int.

Among the unsuccessful offerings of long-term securities in September, aggregating over \$3,500,000 and consisting mostly of bonds carrying 4½ and 5% interest, were \$650,000 4½% 20-year bonds of Kansas City, Mo., for which only one bid of 98 was received. It is stated that \$500,000 of the bonds would be taken by the city's own sinking fund. The remainder, it is said, would not be sold until par was bid. In January last this city received 107.929 for an issue of 20-year bonds bearing the same rate of interest. Bergen County, N. J., offered two issues of 4½% bonds on Sept. 17, aggregating \$582,000, but failed to attract any bids. The city of Seattle offered without success on Sept. 15, two issues of bonds amounting to \$740,000.

In addition to the sales of long-term obligations referred to above, there were also negotiated during September \$28,181,368 temporary loans, including \$22,730,000 short-term securities (revenue bonds, revenue bills, tax deficiency notes and corporate stock notes) of New York City. Of these latter, \$15,000,000 revenue bills, maturing Dec. 5 1917, were awarded at public sale by the city on Sept. 24 as follows: J. P. Morgan & Co., \$5,000,000 at 3¾%, \$5,000,000 at 3.85% and \$4,500,000 at 3.95%; and to Hallgarten & Co., \$500,000 at 3¾%. A description of New York City's disposals last month is given on a subsequent page of this Department.

Our record shows that Canadian long-term obligations floated in September amounted to only \$362,900.

A comparison is given in the table below of all the various forms of securities placed in September of the last five years:

	1917.	1916.	1915.	1914.	1913.
Permanent loans (U.S.)	\$24,432,579	\$22,174,179	\$26,707,493	\$13,378,480	\$26,025,969
*Temporary loans (U.S.)	\$28,181,368	\$18,541,199	\$22,247,495	\$107,865,574	\$45,398,533
Canadian loans (perm't)	\$362,900	\$101,099,015	\$6,889,930	\$1,907,883	\$17,256,464
Bonds of U. S. Possessions	None	None	None	None	None
Gen. Fund bds. (N. Y. C.)	None	None	None	\$3,000,000	None
Total.....	\$52,976,847	\$141,814,393	\$55,844,918	\$126,151,937	\$88,680,966

*Including temporary securities issued by New York City in September, \$22,730,000 in 1917, \$14,085,479 in 1916, \$16,597,700 in 1915, \$102,127,500 in 1914 and \$42,493,908 in 1913. x Includes \$100,000,000 Dominion Government loan.

The number of municipalities emitting permanent bonds and the number of separate issues made during September 1917 were 232 and 315, respectively. This contrasts with 427 and 569 for August 1917 and with 509 and 703 for September 1916.

For comparative purposes we add the following table showing the aggregates, excluding temporary loans and also Canadian issues, for September and the nine months for a series of years:

	Month of September.	For the Nine Mos.		Month of September.	For the Nine Mos.
1917.....	\$24,432,579	\$349,571,926	1904.....	\$10,694,671	\$197,921,657
1916.....	\$22,174,179	\$368,388,101	1903.....	\$8,762,079	\$111,745,993
1915.....	\$26,707,493	\$406,496,817	1902.....	\$9,179,654	\$117,678,555
1914.....	\$13,378,480	\$408,044,823	1901.....	\$14,408,056	\$99,324,001
1913.....	\$26,025,969	\$288,204,714	1900.....	\$4,033,899	\$97,194,441
1912.....	\$25,469,643	\$317,912,921	1899.....	\$7,201,593	\$95,026,437
1911.....	\$26,487,290	\$314,503,570	1898.....	\$6,173,665	\$83,150,559
1910.....	\$18,364,021	\$231,921,042	1897.....	\$9,272,691	\$106,387,463
1909.....	\$23,001,771	\$272,389,451	1896.....	\$3,693,457	\$66,229,416
1908.....	\$34,531,814	\$243,241,117	1895.....	\$11,423,212	\$92,253,916
1907.....	\$47,947,077	\$199,722,964	1894.....	\$8,249,347	\$90,454,836
1906.....	\$8,980,418	\$153,152,345	1893.....	\$3,885,137	\$40,974,566
1905.....	\$9,825,200	\$141,021,727	1892.....	\$6,242,952	\$63,583,834

Owing to the crowded condition of our columns we are obliged to omit this week the customary table showing the month's bond sales in detail. It will be given later.

News Items.

Argentina (Republic of).—Discount Notes Redeemed.—See reference in our editorial columns this week.

Benton County (P. O. Prosser), Wash.—Court-House Bonds Illegal.—The sale to Denver bankers of the \$125,000 court-house bonds authorized by the Board of County Commissioners in December last—V. 104, p. 85—was nullified, according to local papers, by a decision of the State Supreme Court on Sept. 19, making the injunction restraining the issuance of the bonds permanent, and thereby reversing the lower court, which ruled that the restraining order be set aside and the sale of the bonds executed. In declaring the bonds illegal the Supreme Court said:

The record in this case is reeking with bad faith. By jugglery and secretive procedure a bond issue is to be foisted upon the taxpayers of Benton County. Issuance and attempted sale of bonds is nothing more than the individual acts of Clements and McNeil, deliberately concealed from all those entitled to knowledge of the contemplated action. The action of these two Commissioners was so arbitrary, fraudulent and in such bad faith as to merit the censure of the law.

It appears that J. B. Clements and A. G. McNeil, the two Commissioners cited in the ruling, accompanied by E. A. Davis of Paseo, conferred with Zent & Powell, attorneys of Spokane, and decided secretly to authorize a bond issue to build a new court house, on the ground that publicity would cause litigation. Mr. Zent, it is said, appeared later with bonds drawn, which Mr. Clement signed as County Commissioner, had the County Treasurer countersign at his home on Sunday (Dec. 3) and on the same day informed the County Auditor that the necessary bond sale resolution would be passed the next day, which was done, both Commissioner Clements and McNeil voting to accept an offer of Denver bankers to take the bonds at 5½%.

The Supreme Court's opinion was written by Judge Morris and was on an appeal by H. A. Bier of Kennewick on behalf of taxpayers of Benton County.

Canada (Dominion of).—Proposed Issuance of War Savings Stamps.—We referred in our editorial columns last week to the proposed issuance by the Canadian Government of war savings stamps in denomination of 25 cents. These stamps are to be offered to investors in connection with the war savings certificates, full particulars of which were published by us on Sept. 1, page 859.

Business Profits War Tax Act 1916 Amended.—In last week's issue of our paper (pages 1250 and 1251) we published in part "The Business Profits War Tax Act 1916" of Canada as amended in 1917.

British Government Obtains New Credits in Canada—Munitions Production.—Reference to this was also made in our editorial columns last week.

France (Republic of).—Payment of Second Dollar Commercial Credit.—See reference to this in last week's issue of our paper, page 1250.

Maine (State of).—Official Vote Cast on All Proposals at Special Election.—The official vote cast "for" and "against" the five proposed constitutional amendments submitted to the voters at a special election on Sept. 10—V. 105, p. 1329—was as follows:

Suffrage to women upon equal terms with men. Vote, 20,604 "for" to 38,838 "against."
Tenure of the office of Sheriff. Vote, 29,584 "for" to 25,416 "against."
Division of towns into polling places. Vote, 22,588 "for" to 24,593 "against."

Relating to military. Vote, 20,585 "for" to 23,912 "against."
Apportionment of representatives. Vote, 22,013 "for" to 21,719 "against."

Nebraska (State of).—Governor to Enter Army.—Keith Neville, millionaire Governor of Nebraska, will, it is said, resign and enter the army. He has been appointed Colonel of the 7th Nebraska Regiment and will begin his new duties as soon as the regiment is Federalized. Concerning the same the Governor said: "I cannot go on urging the people of my State to enlist unless I enlist also."

New York City.—Tentative Values of Real Estate and Personal Property for 1918.—The Department of Taxes and Assessments on Oct. 1 opened the assessment books for the year 1918. The tentative assessed value of ordinary real estate and real estate of corporations for 1918 is announced to be \$7,930,351,113, an increase of \$96,475,577 compared with the tentative figures for 1917. The final figures for 1917 were \$7,792,981,355. We give below the estimated figures for 1918, comparison being made with both the estimated and the final figures for 1917:

Boroughs.	Tentative Figures—		Final Rolls—	
	1918.	1917.	1917.	1917.
Manhattan	Ordinary real estate.....\$4,719,682,756	\$4,693,178,646	\$4,679,692,596	
	Real est. of corporations.....106,383,650	109,149,640	106,156,940	
Bronx	Ordinary real estate.....648,241,931	634,570,101	630,882,481	
	Real est. of corporations.....49,785,250	48,820,430	47,405,500	
Brooklyn	Ordinary real estate.....1,709,922,351	1,673,189,196	1,666,307,845	
	Real est. of corporations.....32,942,840	36,518,995	30,061,045	
Queens	Ordinary real estate.....530,404,210	512,867,098	510,032,993	
	Real est. of corporations.....36,232,900	36,555,790	35,395,640	
Richmond	Ordinary real estate.....92,300,925	85,409,560	83,451,435	
	Real est. of corporations.....4,454,300	3,616,080	3,594,880	
Total of ordinary real estate.....\$7,700,552,173				
Total real estate of corporations.....229,798,940				
Grand total of real estate.....\$7,930,351,113				

The above does not include special franchises. The assessments for these are made by the State Board of Tax Commissioners and returned to the Tax Department of the city in January each year. They were reported as follows for 1917: Manhattan, \$302,494,867; The Bronx, \$35,939,013; Brooklyn, \$94,532,547; Queens, \$24,436,374; Richmond, \$4,164,844; total, \$461,567,645.

The total of the tentative personal assessment list for 1918 is \$795,541,695, or \$305,431,520 less than the tentative figures for 1917. Enormous reductions are always made in these figures by the "swearing off" process. For instance, the estimated figures of \$1,100,973,215 for 1917 being reduced more than 680 millions, the final figures amounting to only \$419,156,315. In 1916 over 3¼ billions were deducted from the estimated figures.

The following table shows the amounts for the various classes of personal property on the 1918 list, compared with the tentative and final lists for 1917; the final figures for 1917 being designated by means of an asterisk (*):

Boroughs.	Resident Personal.	Personal of Estates.	Corporation.		Non-Resident Personal.	
			Resident.	Non-Resident.	Section 7, Sub. 1.	Size Law Section 7, Sub. 2.
Manhattan						
1918	\$276,956,400	\$169,993,500	\$70,002,000	\$11,430,500	\$30,220,200	\$3,280,300
1917	\$19,204,900	\$208,325,700	\$261,609,500	\$39,656,500	\$28,499,800	\$3,499,800
1917*	\$115,304,800	\$27,104,100	\$149,104,100	\$30,190,200	\$14,233,200	\$3,168,300

St. Clair County (P. O. Osceola), Mo.—To Vote on Bond Issue to Liquidate Old Debt.—A special election will be held on Oct. 9 to vote upon the proposed issuance of \$550,000 coupon bonds to be used for the purpose of liquidating an old debt incurred by this county in 1870 when \$250,000 bonds were issued for the construction of the Clinton and Memphis branch of the Tebo & Neosho R.R., which line was never built, and only \$19,000 of the issue has ever been paid. The new bonds, if authorized, will be dated Nov. 1 1917 and bear interest at not to exceed 5%. A similar proposition was defeated at an election held Dec. 12 1916.—V. 103, p. 2257.

Texas (State of).—Special Session of Legislature Adjourns.—Moratorium Law Enacted.—The third called session of the 35th Texas Legislature adjourned sine die on Sept. 29. In addition to the impeachment of Governor Ferguson, to which we referred in these columns last week, a number of bills of

importance, it is said, were passed, including the enactment of a law preventing the foreclosure of deeds of trust and other chattel mortgages against soliders and sailors without due and ample process. Other important measures approved were:

Creating the Home Guard of Texas.
A bill to regulate emigrant agents in Texas and to regulate employment bureaus, to prevent exodus of Texas labor.
Creating an express lien on public lands so as to permit loans on school lands by Federal Farm Loan bank.
Validating charters and amendments to charters to cities of over 5,000 inhabitants.
Permitting wholesale druggists in local option territory to sell alcohol to retail druggists.
The transfer of funds accruing to the State from oil lands from the Fish, Game and Oyster Commission to the General Fund.
Amending the law appropriating \$750,000 for Texas National Guard expenses and reducing that appropriation to \$400,000.
Providing that the House may be called to consider impeachment charges either by petition of a majority of the members or by the Speaker and thirty members signing the call. If impeachment charges are preferred and the Governor fails or refuses to call the Senate then the Lieutenant-Governor may issue such call; if he does not act within fifteen days after the charges are preferred then the President pro tem of the Senate may issue the call; if he refuses or fails to do so within twenty days after preferment of charges the Senate may be convened on majority vote of the members.

United States.—Second Liberty Loan.—The details of the second Liberty Loan offering, made public by Secretary of the Treasury McAdoo on Sept. 27, were published by us last week in our editorial columns and further particulars appear in the same department the present week.

Bond Proposals and Negotiations this week have been as follows:

ALLEN COUNTY (P. O. Fort Wayne), Ind.—BOND SALE.—An increase of \$14,000 5% road bonds was awarded on Aug. 18 to Sidney Spitzer & Co. of Toledo at 100.03. Denom. \$1,400. Date Sept. 1 1917. Int. M. & S.

ASHTABULA, Ashtabula County, Ohio.—BOND ELECTION.—It is stated that an election will be held Nov. 6 to vote on the question of issuing \$140,000 subway bonds.

ASSUMPTION SCHOOL DISTRICT (P. O. Assumption), Christian County, Ills.—BOND SALE.—On Sept. 25 the \$20,700 5% school bonds—V. 105, p. 1122—were awarded to the Illinois State Bank of Assumption at 101.

ATHENS, Limestone County, Ala.—BOND OFFERING.—Sealed bids will be received until 8 p. m. Oct. 12 by Ernest Hine, Mayor, for approximately \$135,000 6% gold coupon street-impt. bonds. Denom. \$1,000. Date "when sold." Int. annually. Due one-tenth of the issue yearly. Cert. check for \$5,000, payable to the Mayor, required. Authority, Chap. 32, Art. 28, Secs. 1410-1411, Code of Ala., 1907. Bonded debt, excluding this issue (Oct. 1), \$88,500. Floating debt, \$2,000. No sinking fund. Assess. val. 1916, \$1,368,728. Total tax rate (per \$1,000), \$20.

AUBURN, Cayuga County, N. Y.—BOND SALE.—On Oct. 2 the \$200,000 4¼% coupon or registered water-filtration bonds (V. 105, p. 1224) were awarded to E. H. Rollins & Sons of N. Y. at 102.273. Other bids were:
Geo. B. Gibbons & Co., N. Y. 102.01 | M. M. Freeman & Co., Phila. 101.168
Harris, Forbes & Co., N. Y. 101.691 | Edmunds Bros., Boston, 101.09
Hornblower & Weeks, N. Y. 101.333 | Equitable Trust Co., N. Y. 101.01
Remick, Hodges & Co., N. Y. 101.293 | Redmond & Co., N. Y. 100.639
H. A. Kahler & Co., N. Y. 101.19
M. P. Conway of Auburn bid 101.70 for \$5,000.

AUBURN TOWNSHIP (P. O. Tiro), Crawford County, Ohio.—BONDS VOTED.—By a vote of 199 to 157 the question of issuing school bonds carried, it is stated, at an election held Sept. 26.

BARRE (Town), Orleans County, N. Y.—BOND SALE.—On Sept. 29 the \$8,000 5½% drainage bonds—V. 105, p. 1330—were awarded to H. A. Kahler & Co. of N. Y. at par.

BEMIDJI INDEPENDENT SCHOOL DISTRICT (P. O. Bemidji), Beltrami County, Minn.—BOND OFFERING.—Sealed bids will be received until 7:30 p. m. Oct. 9 by J. T. Tuomy, Clerk Bd. of Ed., for \$8,000 5% 15-yr. school equipt. bonds voted Sept. 22. Denom. \$1,000. Date "when issued." Int. semi-ann. Cert. check for \$75 required. Bonded debt, incl. this issue, \$80,000. Assessed val., \$1,816,033.

BENTON COUNTY (P. O. Vinton), Iowa.—BOND OFFERING.—Sealed bids will be received until 12 m. Oct. 17 by W. A. Koster, County Treasurer, for \$18,000 5% coupon voting machine purchase. Auth. NEW LOANS

\$380,000

CITY OF DURHAM, N. C.

BONDS

Sealed proposals will be received until 2 o'clock P. M., OCTOBER 16, 1917, by the undersigned at the Council Chamber of the Board of Aldermen of the City of Durham, N. C., for the purchase of all or any part of the following bonds:

\$250,000 Water 5s, dated January 1st, 1917, maturing January 1st, as follows:

\$3,000--1920	\$8,000--1929	\$13,000--1938
3,000--1921	8,000--1930	13,000--1939
5,000--1922	8,000--1931	13,000--1940
5,000--1923	9,000--1932	15,000--1941
5,000--1924	9,000--1933	15,000--1942
6,000--1925	10,000--1934	16,000--1943
6,000--1926	11,000--1935	16,000--1944
7,000--1927	11,000--1936	17,000--1945
7,000--1928	11,000--1937	

\$80,000 Funding 5s, dated August 1st, 1917, maturing in numerical order, eight bonds on August 1st of each of the years 1918 to 1927, both inclusive.

\$50,000 Sewerage 5s, dated August 1st, 1917, maturing August 1st, as follows:

\$2,000 1920 to 1926
3,000 1927 to 1938

Denomination, \$1,000. Principal and semi-annual interest payable at United States Mortgage & Trust Company, New York.

An annual and unlimited tax upon all taxable property for the payment of principal and interest is provided by the enabling acts and by proceedings of the Board of Aldermen.

The bonds will be prepared under the supervision of the United States Mortgage & Trust Company, New York City, which will certify as to the genuineness of the signatures of the officials and the seal impressed thereon. Legality will be approved by Messrs. Caldwell & Masslich, New York City, whose approving opinion will be furnished to the purchaser without charge.

All proposals must be on blank forms which will be furnished by the undersigned or said Trust Company, and must be enclosed in a sealed envelope marked "Proposal for Bonds," and addressed to the undersigned, and be accompanied by certified check, drawn to the order of Jos. H. Allen, Treasurer, upon an incorporated bank or trust company, or a sum of money for or in an amount equal to two per centum of the face amount of bonds bid for, to secure the City against any loss resulting from the failure of the bidder to comply with the terms of his bid.

Bonds will be delivered to purchaser at the office of said Trust Company in New York City, October 23rd, 1917, and must then be paid for.

The right to reject any or all bids is reserved. No bid of less than par will be considered.

Dated, Durham, N. C., October 1st, 1917.

B. S. SKINNER,

Mayor.

GEO. W. WOODWARD,
Clerk Board of Aldermen.

NEW LOANS.

\$49,500

Sidney, Spitzer & Co.		25,057 50			29,911 66	
Seasongood & Mayer		25,000 00				
Prov. S. B. & Tr. Co.		25,051 00				

Estabrook & Co. of Boston and J. C. Mayer & Co., of Cincinnati bid 100.03 for all issues.

*Successful bids.

The above bonds are not new issues, but securities which were held in the Sinking Fund as investments.

TRUST COMPANIES.

ATLANTIC MUTUAL INSURANCE COMPANY

New York, January 25th, 1917.
The Trustees, in conformity with the Charter of the Company, submit the following statement of its affairs on the 31st of December, 1916.

The Company's business has been confined to marine and inland transportation insurance.

Premiums on such risks from the 1st January, 1916, to the 31st December, 1916.....\$8,087,174.02

Premiums on Policies not marked off 1st January, 1916.....903,703.66

Total Premiums.....\$8,990,877.68

Premiums marked off from 1st January, 1916, to 31st December, 1916.....\$7,855,092.25

Interest on the investments of the Company received during the year \$337,271.78

Interest on Deposits in Banks and Trust Companies, etc.....103,475.76

Net received less Taxes and Expenses.....109,638.08 \$ 550,385.62

Losses paid during the year.....\$3,360,156.87

Less Salvages.....\$322,138.57

Re-insurances.....586,832.53 \$ 908,971.10

Re-insurance Premiums and Returns of Premiums.....\$2,451,185.77

Expenses, including compensation of officers and clerks, taxes, stationery, advertisements, etc.....\$1,389,298.73

.....\$ 740,899.72

A dividend of interest of Six per cent. on the outstanding certificates of profits will be paid to the holders thereof, or their legal representatives, on and after Tuesday the sixth of February next.

The outstanding certificates of the issue of 1911 will be redeemed and paid to the holders thereof, or their legal representatives, on and after Tuesday the sixth of February next, from which date all interest thereon will cease. The certificates to be produced at the time of payment and canceled.

A dividend of Forty per cent. is declared on the earned premiums of the Company for the year ending 31st December, 1916, which are entitled to participate in dividend, for which, upon application, certificates will be issued on and after Tuesday the first of May next.

By order of the Board. G. STANTON FLOYD-JONES, Secretary.

EDMUND L. BAYLIES, ANSON W. HARD, ANTON A. RAVEN.

JOHN N. BEACH, SAMUEL T. HUBBARD, JOHN J. RIKER.

Canada, Its Provinces and Municipalities.

ALBERTA SCHOOL DISTRICTS.—DEBENTURE SALE.—On Sept. 19 three of the four issues of school debentures, aggregating \$20,100—V. 105, p. 1020—were awarded as follows:

\$400 7% 5-yr. Finn's Lake School Dist. No. 2089 debentures to Manufacturers' Life Insurance Co. at 98.

2,500 7% 10-yr. Wayne Sch. Dist. No. 3467 debentures to the Bond & Debenture Corporation at 98.

12,700 7% 10-yr. (9 issues) debentures to Geo. A. Stimson & Co. of Toronto at 100.03. The sale of these bonds was reported in last week's "Chronicle," page 1335.

No award was made of the \$4,500 6½% 15-yr. Lamont Sch. Dist. No. 641 debentures offered on same date.

CHAPLEAU TOWNSHIP, Ont.—DEBENTURE ELECTION.—On election will be held Oct. 9, it is stated, to vote on the question of issuing \$6,000 electric pumping station debentures.

GRIMSBY, Ont.—DEBENTURE SALE.—On Sept. 15, \$17,500 6% 20-yr. debentures were awarded, it is stated, to W. F. Morgan Dean & Co., of Hamilton.

LANARK, Ont.—DEBENTURE SALE.—An issue of \$50,000 6% 20-yr. debentures was awarded, it is stated, to C. H. Burgess & Co., of Toronto.

LUMSDEN, Sask.—DEBENTURES VOTED.—By a vote of 52 to 14 the question of issuing \$7,000 6% 10-yr. electric-light and power debentures carried at the election held Sept. 13—V. 105, p. 1020.

MARGO, Sask.—DEBENTURE SALE.—W. L. McKinnon & Co., of Regina, have been awarded an issue of \$1,500 debentures.

OTTAWA, Ont.—DEBENTURES AUTHORIZED.—By-laws were passed by the City Council on Sept. 4 providing for the issuance of \$19,957 sewer, \$38,335 sidewalk and pavements, \$101,016 street widenings, \$229,565 for pavements, \$2,226 paving Dalhousie Street, \$120,984 local impt., and \$231,791 by-law debentures.

OUTREMENT, Que.—DEBENTURE ELECTION.—An election will be held Oct. 15 to vote on the question of issuing \$1,000,000 refunding and \$500,000 municipal improvement 6% 5-year debentures. Interest semi-annual. E. T. Sampson is City Clerk.

SMITH FALLS, Ont.—OPTION TO PURCHASE DEBENTURES GRANTED.—An option has been granted to Brent, Noxon & Co. of Toronto to purchase at 97.50 \$135,000 6% 20-installment hydro-electric debentures offered on Sept. 17.

TISDALE TOWNSHIP, Ont.—DEBENTURE OFFERING.—W. H. Wilson, Twp. Treas. (P. O. South Porcupine), will receive bids until 12 m. to-day (Oct. 6) for \$23,000 School District No. 1 and \$10,000 School District No. 2 6% 15-yr. registered school debentures. Date Oct. 15 1917. Prin. and int. payable in So. Porcupine or N. Y. at option of holder.

WINSLOW (Rural Municipality), Sask.—DEBENTURE SALE.—An issue of \$5,000 debentures has been purchased by W. L. McKinnon & Co., of Regina.

BANK AND QUOTATION

SECTION

OF THE

COMMERCIAL & FINANCIAL CHRONICLE.

Copyrighted in 1917, according to Act of Congress, by WILLIAM B. DANA COMPANY, in office of Librarian of Congress, Washington, D. C.

VOL. 105.

NEW YORK, OCTOBER 6 1917.

NO. 2728.

BANK AND QUOTATION SECTION

The Bank and Quotation Section, issued monthly, is furnished without extra charge to every annual subscriber of the Commercial and Financial Chronicle.

The Railway and Industrial Section, issued three times a year on the last Saturday of February, June and October, is likewise furnished without extra charge to every annual subscriber of the Chronicle.

The Railway Earnings Section, issued monthly, containing the sworn returns of earnings and expenses filed each month with the Inter-State Commerce Commission, is also furnished without extra charge to every annual Chronicle subscriber.

The Electric Railway Section, issued three times a year, in January, May and September, is likewise furnished without extra charge to every Chronicle subscriber.

The State and City Section, issued semi-annually on the last Saturday of May and November, is also furnished without extra charge to every subscriber of the Chronicle.

The Bankers' Convention Section, issued yearly, giving the detailed proceedings of the annual convention of the American Bankers' Association, is also furnished without extra charge to Chronicle subscribers.

Terms for the Chronicle, including the six Supplements above named, are Ten Dollars per annum within the United States, Thirteen Dollars (which includes postage) in Europe, and \$11.50 in Canada.

File covers for the Chronicle are sold at 60 cents each (which includes postage). File covers for Supplements can be had at same price.

REVIEW OF SEPTEMBER.

Many steps forward were taken during September in the plans for financing the war and in the carrying out of the scheme of Government price fixing and the regulation and control of the industries upon the prudent management of which depends the success of the war. Both Congress and the different governmental agencies through which the President acts in executing the economic measures devised for the conduct of the war completed and perfected measures of great importance as part of the work to that end. A definite price was fixed for copper, prices were also named for iron, for ore, and for certain steel products, while the U.S. Shipping Board undertook to lower ocean freight rates and announced its determination to commandeer American merchant ships. The President also issued a proclamation calling for the licensing of the sugar industry. Other restrictive measures of various kinds were likewise announced. Congress passed an Act for the issue of \$11,500,000,000 of war bonds and certificates and nearly carried to completion the War Revenue Bill, providing for the levying of huge income taxes, the \$7,000,000,000 war deficiency appropriation bill and the Administration's Trading With the Enemy Bill.

Regulations for the more effective control of the money market, in view of the enormous financial operations impending by the Government, were also among the events of the month. These included the carrying out of the President's proclamation of the preceding month, placing an embargo upon the exports of gold, and numerous incidental steps by the Federal Reserve Board connected therewith. The President's proclamation, supplementing and extending his general export embargo proclamation of Aug. 27, was issued Sept. 7 and became effective Sept. 10. It placed an embargo on exports of coin, bullion and currency. It was made to apply to all nations, both neutral and enemy, and the effect is to place absolute control over gold exports in the hands of Secretary of the Treasury McAdoo and the Federal Reserve Board. The regulations, orders, limitations and exceptions to the embargo, the President stated in his proclamation, would be administered by and under the authority of the Secretary of the Treasury, from whom licenses will issue. In an executive order following the issuance of the proclamation, President Wilson announced the regulations which apply in the matter. With respect to applications for permission to export coin, bullion and currency, the order states that "the Federal Reserve

Board, subject to the approval of the Secretary of the Treasury, is hereby authorized and empowered upon receipt of such application and the recommendation of the Federal Reserve Bank to make such ruling as it may deem proper in the circumstances, and if in its opinion the exportation in question be compatible with the public interest, to permit said exportation to be made; otherwise to refuse it."

The limitation which is to prevail in the exports of gold under the Federal Reserve Board's policy in carrying out the embargo was made known by the Board in an announcement on Sept. 25. The announcement stated it would be the general policy of the Board not to authorize the exportation of gold unless the shipment applied for was shown to be connected in a direct and definite way with a corresponding importation of merchandise for consumption in the United States, but in any case authorization would be granted only where the exportation of gold in payment for such merchandise was found to be compatible with the public interest. In reaching its conclusions, the Board would consider all attending circumstances in each particular case. It was stated, however, that until further notice the Board would approve all applications for the exportation of Canadian silver coin and currency without limitation. The Treasury Department had instructed collectors of customs, it was stated, to pass such shipments into Canada when approved by the Federal Reserve bank of the district from which the shipments are made. Continuous permits for shipments of Canadian silver coin and currency without requiring an application in each case, would be granted by Federal Reserve banks upon condition that each transaction be reported to it without delay. The Federal Reserve banks, in turn, must transmit to the Board weekly reports of all applications of every kind passed upon by them, showing the amount of each shipment.

It was also stated that applications for the exportation of silver bullion and silver coin of foreign mintage would in general be approved by the Federal Reserve Board upon recommendation of the Federal Reserve bank with which the application is filed. Applications for the exportation of United States notes, national bank notes and Federal Reserve notes would also as a rule be approved by the Federal Reserve Board, but each application must come before the Board for its determination before shipment is made.

As part of the embargo the following restrictions were placed upon the amounts travelers leaving the country would be permitted to carry on their persons or in their baggage: (a) United States notes, national bank notes and Federal Reserve notes, not to exceed \$5,000 for each adult; (b) American silver dollars, subsidiary silver coins and silver certificates, not to exceed \$200 for each adult; (c) gold coin or gold certificates not to exceed \$200 for each adult. The Reserve Board's announcement also stated that shipments of coin or currency which appear to be or are suspected of being for enemy account or for the benefit of the enemy would not be permitted.

On Sept. 27 the officers of the Federal Reserve Bank of New York announced that in accordance with directions received from the Federal Reserve Board, a circular letter was being sent out to all financial institutions in the district, as well as private bankers and others, requesting them not to earmark gold in their vaults for foreign account, except with the approval of the Federal Reserve Board, such earmarking being considered as tantamount to the exportation of gold. The Bank also requested them to report for the confidential use of the Federal Reserve Board all amounts of gold which they already held earmarked for foreign account. The letter of the Reserve Board said it must be distinctly understood that any restrictions upon the exportation or earmarking of gold must in no way affect the payment in gold whenever required, of any obligations payable in gold within the United States, whether

due to domestic or foreign holders, excepting enemy holders, the regulations affecting only gold which is to be shipped outside of the United States or to be earmarked for foreign account, as stated above. On Sept. 26 Frederick I. Kent, Vice-President of the Bankers Trust Co. of this city, was elected an Acting Deputy Governor of the Federal Reserve Bank of New York, for the purpose of handling the applications for permission to export coin, bullion and currency under the President's proclamation. It was stated that Mr. Kent would devote a large part of his time to the work at the Federal Reserve Bank, but would not give up his position as Vice-President of the trust company.

On Sept. 24 announcement from Washington stated that in furtherance of the Government's policy governing the conservation of gold, the Treasury officials had virtually decided upon a policy prohibiting the export of gold to Spain. No gold, it was stated, had been licensed for export to Spain since the President's proclamation became effective, except several small shipments already loaded aboard steamships. Exportations of gold to Spain, it was pointed out, had been growing steadily up to the time of the President's proclamation. Between Jan. 1 and Sept. 1 the amount had approximated \$88,000,000, the largest recorded in any similar period of time. It was also noted that the movement was counter to the trade balance, which was in favor of the United States on Sept. 1, to the extent of \$50,000,000.

In explanation of the large outflow of gold to Spain, it was declared by bankers that the movement was the result of trade balances rolled up against the Allied countries, particularly Great Britain. In coping with the problem of stabilizing the foreign exchanges, Great Britain has centred her efforts almost entirely on sterling exchange in New York, and has allowed sterling in Spain practically to shift for itself, with the result that it has declined to a far greater discount than sterling in New York. Accordingly, Spanish exporters, who have been paid in sterling bills, have resorted to New York to market their exchange, and either have sold New York exchange in Spain against the proceeds or purchased Spanish exchange in New York. The consequence has been that dollars have fallen to an abnormal discount in Spain, while pesetas have risen to a corresponding premium in New York.

It appeared that Japan was also engaged in protecting itself against a possible gold outflow. The daily papers on Sept. 18 stated an order prohibiting the export from Japan of gold and bullion had been issued by the Financial Minister at Tokio, and these advices were confirmed by Akira Den, Financial Commissioner of Japan, who had then just arrived in New York from London. In discussing the action, Mr. Den declared that his Government from now on would regulate all outward shipments of gold in the same way as the United States. Banking interests desirous of exporting gold from Japan would as a result be required to obtain licenses for such shipments from the Treasury authorities in Tokio. Apparently the Japanese Finance Department feared a large loss in the gold supply of the country if shipments were continued and the American embargo should check the movement from the United States to Japan.

While our Government's embargo on gold shipments was made with a view to preventing the metal from reaching the enemy, it was also a step rendered necessary by the hardening of the money market. It was recognized that tight money must at all hazards be averted so as to facilitate the financing of the second Liberty Loan. To be prepared to cope with the situation the New York Federal Reserve Bank on Sept. 11 requested the banks and trust companies of the city to supply it daily with certain special information. The data called for related to the balances carried with the reporting institutions by those outside the city, the amount of *strictly* call

loans carried by each institution for its own account, as well as for out-of-town banks and firms, the amount of different classes of securities eligible for discount or as collateral for loans at the Federal Reserve bank, and the amount of additional securities owned by the reporting bank which may be accepted by the Reserve Bank as collateral to secure Government deposits. It was stated that the information was requested pursuant to plans which were being developed by the Federal Reserve Bank in co-operation with the Liberty Loan General Committee of the New York district, with the object of facilitating the financing the new Government Loan so as to avoid unnecessary disturbance to the money market. It was also stated that a special committee consisting of Messrs. George F. Baker, Walter E. Frew, Gates W. McGarrah, Chas. H. Sabin, Frank A. Vanderlip, James N. Wallace, and Benjamin Strong, Chairman, had been appointed for the purpose of dealing with the matter. On Sept. 18 the New York Federal Reserve Bank issued a statement saying that this special Sub-Committee of the Liberty Loan Committee had held two meetings and had been enlarged by the addition of Messrs. James S. Alexander, President of the National Bank of Commerce, and Albert H. Wiggin, Chairman of the Board of Directors of the Chase National Bank. The two meetings, it was stated, were principally devoted to a study of data assembled as the result of reports being made every day to the Federal Reserve Bank by almost all the banks of New York City and Brooklyn. As a result of the discussions at these meetings, but without any formal action being taken, certain of the larger New York banks and trust companies, it was announced, had put out a considerable amount of time money, the loans being made by each institution for its own individual account on such terms and collateral as it might determine for itself. It was further declared that frequent meetings of the Committee would be held, though no statement could be made as to future proceedings or plans, which must necessarily depend upon the information before the Committee and the conditions prevailing at the time.

Through the loaning out of about \$30,000,000 on all industrial collateral on the day mentioned (Sept. 18) following the conference referred to, anything akin to a money crisis in the financial district was averted. Wall Street houses had for some time been experiencing difficulty in arranging for time accommodation and were thus compelled almost exclusively to depend upon the call money market for their loans—a condition that not unnaturally resulted in a definite policy of cutting down commitments. By actively enlarging margin requirements liquidation by clients was encouraged. While not refusing accommodation on time to their old customers, banks and other lenders took the ground that they could not loan on industrial securities exclusively, but must have mixed collateral to include, besides a certain proportion of well-selected industrial shares, a good sprinkling of high-grade railroad stocks. Owing to a gradual change in the character of trading on the New York Stock Exchange during the last few years—the drift being away from railroad stocks and bonds to those of industrial properties—brokers were finding themselves without the necessary railroad securities to make their collateral acceptable. There seems reason to believe that a part of the \$30,000,000 loaned was employed in making loans for sixty days and four months at 6% on all industrials, and the remainder for thirty days at not far from 5½%. The immediate effect of the offering was to curtail to the extent named the demand for call loans, resulting in a distinct easing of the call loan rate from the 6% basis that previously had prevailed.

The trend of things in the money and investment world was also indicated in the suggestion that came on Sept. 15 from Charles H. Sabin, President of the Guaranty Trust Co. of New York, that it might be well to consider the propriety of forming a commis-

sion to pass on the priority of security offerings, in order that the Government might have the right of way in financing the war. Referring to the fact that the country's business to-day is war, Mr. Sabin took occasion to state that municipalities, corporations and individuals should all be guided by this major consideration and should subject every proposition to the close analysis of war requirements. It might even be necessary, said Mr. Sabin, to suggest the formation of a Government board to pass on the priority of public financial offerings, as is already being done in the field of transportation and production. Mr. Sabin's observations were as follows:

There is one phase of Government financing to meet the needs of war which must not be ignored if it is to be attended with the largest possible measure of success, and that is the desirable elimination of competition for the Government issues as they are offered. To meet the pressing demands of war, the Government should have right of way in its demand for labor, capital and materials; and everything possible which means competition with these demands should be eliminated, or at least postponed.

The country's business to-day is war, and every proposition should be measured by the standard of its necessities. Only as its successful prosecution is furthered can any venture be justified. Both public and private needs which are not absolutely compelled by the exigencies of their situation should be held in abeyance, and no new financing encouraged which does not meet an absolute and immediate need.

Municipalities, corporations and individuals should all be guided by this major consideration and should subject every proposition to the close analysis of war requirements.

It may even be necessary to suggest the formation of a Government board to pass on the priority of public financial offerings, as is now being done in the fields of transportation and production. In order to perform our successful part in this war, there must be continuous new financing in transportation and industrial fields to enable these important military aids to render the service demanded of them. The investment market should be kept open to their requirements as far as possible.

It is increasingly manifest also that new Government financing must be met out of new savings, and not out of the liquidation of existing securities or through withdrawal of bank deposits, which would of necessity cripple the business and industrial world. There can be no such thing as "business as usual" under war conditions, and we must adjust our minds to inevitable sacrifices and new savings in order to meet the changed conditions.

The \$11,538,945,460 War Bond and Certificate bill became a law on Sept. 24. The bill authorizes the issuance of \$7,538,945,460 convertible 4% bonds to retire the \$3,000,000,000 non-taxable 3½% issue previously authorized to cover loans to the Allies, and to provide for new Allied credits of \$4,000,000,000. The remaining \$538,945,460 is for converting certain outstanding bonds, including the Danish West Indies, Alaskan Railway, Panama Canal and naval construction issues. The law also provides for the issuance of \$2,000,000,000 each of one-year Treasury certificates of indebtedness and five-year war savings certificates. The interest rate on the certificates is to be fixed by the Secretary of the Treasury.

Two large issues of short-term Treasury certificates of indebtedness were placed upon the market during September and were absorbed by banks and large corporations. On Sept. 4 the twelve Federal Reserve banks were authorized to receive subscriptions to a \$300,000,000 issue of 3½% certificates, maturing Dec. 15, of the current year. Subscription books were closed on Sept. 11, and Treasury officials announced that the offering had been oversubscribed. The exact amount of oversubscriptions, however, was not made known. On Sept. 24 the Secretary of the Treasury authorized the Reserve banks to receive subscriptions, beginning Sept. 25, to the first offering of certificates authorized under the new War Bond and Certificate Act, signed by the President on Sept. 24. The amount offered was \$400,000,000, which is greater by \$100,000,000 than any of the issues put out under the War Bond Act of April 24. The certificates mature Dec. 15 next, and bear interest at 4%; this is one-half of 1% higher than the last previous issue, which, as stated above, bore interest at 3½%. Subscription books

closed on Oct. 2, and it was announced that the offering had been oversubscribed.

The details of the second Liberty Loan offering were made public by Secretary of the Treasury McAdoo on Sept. 27. The bonds, it was stated, would be offered on Oct. 1 and subscriptions be received until Oct. 27. In the campaign for the first Liberty Loan the issue was limited to a total of \$2,000,000,000 bonds; the amount of the new issue was placed at \$3,000,000,000 or more, the right being reserved to allot bonds in excess of the \$3,000,000,000 to the extent of not more than one-half the oversubscription. The bonds bear interest at 4%, payable semi-annually on Nov. 15 and May 15. They are offered, as before, at par and accrued interest and are in denominations of \$50 and multiples thereof. The bonds are convertible into bonds of any succeeding issue bearing a higher rate than 4% during the period of the war, but there is a limit as to this, the limit being contained in the following proviso: "If the privilege of conversion so conferred shall once arise, and shall not be exercised with respect to any bonds of the present series within the period above prescribed, then such privilege shall terminate as to such bonds and shall not arise again though again thereafter bonds be issued bearing interest at a higher rate or rates than 4% per annum." Through an arrangement under which the bonds will be printed with four coupons instead of fifty (to be exchanged at the end of two years for the bonds containing the full number of coupons) deliveries will be prompt. In this manner the issue of interim certificates will be avoided. The bonds will mature in twenty-five years, but are redeemable at the option of the Secretary of the Treasury after ten years. It is required that 2% of the subscription be paid on application, the further payments being as follows: 18% on Nov. 15 1917; 40% on Dec. 15 1917, and 40% on Jan. 15 1918. The bonds are to be exempt, "both as to the principal and interest from all taxation now or hereafter imposed by the United States, any State or any of the possessions of the United States, or by any local taxing authority, except (a) estate or inheritance taxes, and (b) graduated additional income taxes, commonly known as surtaxes, and excess profits and war profits taxes, now or hereafter imposed by the United States upon the income or profits of individuals, partnerships, associations, or corporations." The interest on an amount of bonds and certificates authorized by said Act, the principal of which does not exceed in the aggregate \$5,000, owned by any individual, partnership, association or corporation, is however to be exempt from the taxes provided for in clause (b) above.

The United States Government, during the month of September, advanced additional credits to the Allies to the amount of \$400,000,000, and the total of all loans made to the Entente nations since the entrance of the United States in the war, aggregated on Sept. 30, \$2,466,400,000. On Sept. 5 Great Britain and France received \$100,000,000 each; on Sept. 11 \$55,000,000 was advanced to Italy; on Sept. 19 \$50,000,000 was loaned to Great Britain and \$20,000,000 to France; on Sept. 24 another credit of \$35,000,000 was extended to Great Britain, and on Sept. 26 \$40,000,000 was loaned to France.

J. P. Morgan & Co., during the month of September, each week placed upon the market \$15,000,000 ninety-day Treasury bills, in accordance with their plan to dispose of \$150,000,000 of the notes. The sales in each case were satisfactory, although efforts were not made to dispose of the full \$15,000,000 each week. The first two weekly offerings made during the month were sold on a discount basis of $5\frac{1}{4}\%$. On the third and fourth issues the rate was raised to $5\frac{1}{2}\%$.

In addition a syndicate, composed of the Guaranty Trust Co., the National City Co., the Bankers Trust Co., William A. Read & Co., and Bernhard, Scholle & Co., purchased and offered to investors on a 7%

discount basis, \$6,300,000 one-year discount bills, dated Sept. 18 1917, of the Metropolitan Water Board, of London, Eng. The bills were in the denomination of \$5,000 and \$10,000, and are payable at the Guaranty Trust Co., New York, in gold dollars of the United States of America of the present standard of weight and fineness.

The Republic of Cuba announced on Sept. 18, through its local news bureau, that half of the \$30,000,000 war bonds, recently authorized by the Cuban Congress, had been subscribed by the United States Treasury. The other half (\$15,000,000), it was stated, would be taken up by Cuban investors. The decision of the United States financial authorities to take half the loan followed, it was announced, a conference in Washington between Secretary of the Treasury McAdoo and officials of the State Department of Cuba. The proceeds of the loan are to be used in large part in carrying out President Menocal's plans to make Cuba an active ally of this country in the war.

As to Government price fixing, it was announced on Sept. 20 that after investigation by the Federal Trade Commission as to the cost of producing copper, the President had approved an agreement made by the War Industries Board with the copper producers fixing a price of $23\frac{1}{2}$ cents per pound, f. o. b. New York, subject to revision after four months. Three important conditions were imposed by the Board: First, that the producers would not reduce the wages now being paid; second, that the operators would sell to the Allies and to the public copper at the same price paid by the Government, and take the necessary measures, under the direction of the War Industries Board, for the distribution of the copper to prevent it from falling into the hands of speculators who would increase the price to the public; and, third, that the operators pledge themselves to exert every effort necessary to keep up the production of copper to the maximum of the past, so long as the war lasts. According to the announcement, the War Industries Board felt that the maintenance of the largest production should be assured, and that a reduction in wages should be avoided. The stipulation that present wages shall not be reduced, it was stated, compels the maintenance of the highest wages ever paid in the industry, which without such stipulation would, with the reduction made in the price of copper, be reduced under the sliding scale so long in effect in the copper mines. It was pointed out that within the year copper had sold as high as 36 cents per pound, and the opinion was expressed that the market price would now be higher than it is, had it not been well known for some weeks that the Government would fix the price. The announcement further said that the proper departments of the Government would be asked to take over the mines and plants of any producers who fail to conform to the arrangement and price, if any such there should be.

Steel prices were announced Sept. 24 and also caused no dissatisfaction, though they involved a reduction in current market prices of from 43.1% to 70.5%. They were the result of an agreement between the steel men and the War Industries Board, to which President Wilson gave his approval. The prices became effective immediately, but are subject to revision on Jan. 1 1918. The price fixed for steel shapes is \$3 per hundredweight, or \$60 a ton; for steel bars \$2 90 per hundredweight, or \$58 per ton, and for steel plates \$3 25 per hundredweight, or \$65 per ton; for coke the price agreed on is \$6 a net ton, and for pig iron \$33 per gross ton. Iron ore is the only commodity which was not subjected to price cutting, the rate agreed on, \$5 05 per gross ton being the recent prevailing price. The following was the official comparison of the quotations:

It was understood that the prices prescribed would not affect existing contracts, and that pending the time when these contracts run out—they are usually for about seven months in the steel indus-

tries—the average price paid for steel would be at least \$75 or \$80, perhaps somewhat more.

Commodity—	Basis.	Price Agreed upon.	Recent Price.	Amount.	Reduction. Per Ct.
Iron ore	Lower Lake ports	a\$5 05	a\$5 05		
Coke	Connellsville	b6 00	b16 00	\$10 00	62.5%
Pig iron		a33 00	a58 00	25 00	43.1%
Steel bars	Pittsburgh	c2 90	c5 50	2 60	47.3%
	Chicago				
Shapes	Pittsburgh	c3 00	c6 00	3 00	50.0%
	Chicago				
Paltes	Pittsburgh	c3 25	c11 00	7 75	70.5%
	Chicago				

a Gross tons. b Net tons. c Hundredweight.

It was stipulated first, that there should be no reduction in the present rate of wages; second, that the prices above named should be made to the public and to the Allies, as well as to the Government, and, third, that the steel men pledge themselves to exert every effort necessary to keep up the production to the maximum of the past, so long as the war lasts. It was announced that measures would be taken by the War Industries Board for placing orders and supervising the output of the steel mills in such manner as to facilitate and expedite the requirements of the Government and its Allies for war purposes, and to supply the needs of the public according to their public importance and in the best interest of all, as far as practicable.

Announcement that the entire sugar industry would be placed under Government control on Oct. 1, through the adoption of a system of licensing to include manufacturers, refiners and importers, was made by the Food Administration on Sept. 11 and on Sept. 15 the President issued his proclamation to that effect. The announcement said that the critical situation in the sugar markets made prompt action necessary and that general licensing of the industry would serve as a step toward the regulation of prices by the prevention of speculation and the securing of equitable distribution.

Announcement was made by the United States Shipping Board on Sept. 6 that it would shortly assume immediate control of freight rates charged by American vessels, and that it had decided to create a chartering commission which will exercise control over the chartering of all American tonnage. The announcement of the Shipping Board followed a conference with members of the Shipping Committee of the Council of National Defense. It was stated that the new scale of freight rates called for reductions of from 65% to 75% from present tariffs, and would range from \$8 to \$13 per ton for Atlantic cargoes. Pacific freight rates, or rates on shipments of materials not concerned with the prosecution of the war, it was said, would not be affected. The Shipping Board in reducing rates as much as 75% still left rates high, but it is stated that the intention was to fix a scale that would not have to be increased. Present freight rates range from \$17 to \$18 a ton. The new rates will vary, and, it is said, in some instances may run as high as \$13, but the general level will be far lower than \$13. While the new rates will apply only to Government cargoes, it is expected that the proposed chartering commission will enforce practically the same rates on ships carrying other cargoes. In the endeavor to strengthen the control of the Shipping Board over shipping it became known on the 6th inst. that President Wilson had decided to give the Board representation on the Exports Council, which now comprises the Secretaries of State, Agriculture and Commerce and the Food Administration. Through the chartering commission and with the aid of the Exports Administrative Board, the Shipping Board, it is pointed out, will be in a position to dominate freight rates absolutely.

On Sept. 27 the United States Shipping Board announced the charter rates which the Government will pay for requisitioned ocean-going merchant vessels, and also made known the fact that every American merchant ship of more than 2,500 tons dead-weight capacity, available for ocean service, would be requisitioned by the Shipping Board on Oct. 15.

American ships available for ocean traffic total, it was said, slightly more than 2,000,000 tons, but some of them already have been taken over for the army and navy. In most instances, except where required for actual Government services, the ships, it was announced, will be turned back to their owners for operation on Government account, subject at all times to any disposition the Shipping Board may direct. The new ocean freight rates become operative Oct. 15 and, it is stated, are expected to save the Government millions of dollars in transporting troops and war supplies to Europe.

The Government's wheat-buying agency, the United States Grain Corporation, assumed control of the wheat markets in all leading centres on Sept. 4. During the early hours of trading on the Chicago Board of Trade on the 4th, traders not fully acquainted with the Government's rules as to the buying of wheat, and thinking that they could buy wheat unreservedly until Sept. 10, when the Grain Corporation was to begin to sell, sold spot wheat at 3 to 6 cents a bushel higher than the Government's fixed price. They were immediately informed by the Food Administration's Chicago representative, Howard B. Jackson, that all buying should be confined to the official basis. The buyers, however, were allowed the trades made before [Mr. Jackson intervened.

A prominent event of the month was a further sharp rise in silver to the highest figure reached since 1878 (silver was demonetized in 1873), followed, however, by a very rapid decline. On Sept. 1 the quotation in London was 46d. per ounce, which compared with 36d. the previous January; by Sept. 21 the price was up to 55d., and this figure was maintained up to and including Sept. 25; on Sept. 29 the figure was only 49d, and a further drop occurred in October.

The stock market was weak and depressed throughout almost the whole month and the declines reached large proportions. The principal influences in the downward movement were the large excess profits taxes imposed under the War Revenue Bill in process of enactment by Congress, coupled with the reduced prices to be allowed under the Government's price fixing policy, and the stiffening of money rates. The price prescribed for copper, namely 23½¢., when announced appeared to be somewhat higher than had been generally looked for, and an upward reaction in Stock Exchange values ensued. But the rally was only temporary. The experience was partly repeated when the prices prescribed for steel were promulgated. These, too, indicated less drastic reductions than had been generally counted upon and the stock market again responded with a sharp rally. This recovery also was not fully maintained. In the general depression, however, the railroad shares suffered even more severely than the industrial shares, the downward plunge being especially severe in Milwaukee & St. Paul and New Haven stocks, though the railroad shares of higher order also all participated in the downward movement. The explanation seemed to lie in the high operating costs. Gross earnings of the roads are proving satisfactory enough, but net earnings, in face of these large gains in gross, make quite unfavorable comparisons as a rule, because of the great augmentation in expenses. The augmentation is particularly noticeable in the case of the Eastern trunk lines, like the New York Central and the Pennsylvania. West of the Mississippi River, and especially as regards the southerly transcontinental systems, the showing as to net has been very much better, though even here there are exceptions to the rule, as in the case of the Milwaukee & St. Paul, already mentioned. The high rates for money on call also exercised a depressing influence on the stock market, though the tone did not improve even when the tenseness of the money situation was relieved. The knowledge that the Government would have to engage in financing on a huge scale for a long time to come acted as a

deterrent on speculation. The market as a whole, nevertheless, closed at a considerable recovery from the extreme low figures of the month.

As regards the course of the money market, declining bank reserves and Government absorption of funds through the placing of certificates and other borrowing served to bring about high rates for money on call and to advance rates for loans for fixed maturities. On Sept. 4, after the intervention of the labor holiday, call money was quoted all day at 6%, the quotation touched on Aug. 31; after a few days of lower quotations, 6% was again reached on Sept. 10, and also on Sept. 17; this led on Sept. 18 to the concerted offering of funds by some of the larger institutions, as mentioned above, but on Sept. 25 and Sept. 26 there was a renewed upward spurt under which call money advanced to 7%.

In the foreign exchange market fluctuations in sterling were, as previously, encompassed within a narrow range, prices continuing under the arbitrary control of the British Government. In the rates on the Continental centres the feature was the renewed decline in the Russian ruble, this getting down to 11¼c. on Sept. 12, as against 51.46 cts., the quotation for the ruble when at par. A sharp recovery from this low point ensued with somewhat better reports regarding political conditions in that unfortunate country. By the 21st the quotation was up to 17½c., but the close was at only 14¾c. On the neutral countries of Europe foreign exchange rates continued to run strongly against the United States, and the action of our Government in putting an embargo on gold exports did not serve to improve the situation.

NEW YORK STOCK EXCHANGE

MONTHLY AND YEARLY RECORD

The following tables furnish a complete record of the New York Stock Exchange transactions for the past month and the year 1917. They need no extended introduction, as they are self-explanatory. The tables embrace every security (excepting only State bonds) dealt in on the Exchange. We give bonds first, using the classification adopted in the official list. The black-faced letters in the column headed "Interest Period" indicate in each case the month when the bonds mature.

In accordance with the rule adopted by the New York Stock Exchange in 1909, all quotations for interest-paying bonds are at a price to which accrued interest must be added. The exceptions to the rule are income bonds and bonds on which interest is in default. This method of quoting bonds became effective January 2 1909.

For foot-notes to tables see last page of bonds and last page of stocks.

STOCKS—PRICES AND SALES FOR SEPTEMBER 1917 AND THE YEAR TO DATE.

In accordance with a rule of the Stock Exchange effective Oct. 13 1915, all stocks are now quoted dollars per share.

Prices are on basis of 100-share lots. Exceptions of stocks which sell only in a small way are noted by the letter s. Option sales are disregarded.

GENERAL QUOTATIONS

OF

BONDS AND STOCKS.

1. In the following thirty-two pages of tables, quotations are given for all the more important securities listed on any Stock Exchange in the United States; also for leading unlisted and inactive securities.

2. Quotations from all Stock Exchanges are as near as possible for the closing day of the month preceding the date of issue. As the New York Stock Exchange began with Jan. 2 1909 to quote all bond prices "and interest," we have adopted the same method, and no longer employ a designating mark to indicate the fact except where there is a deviation from this rule. The reader will understand, therefore, that unless the letter "f" is prefixed to the price, he must pay accrued interest in addition to the price. This, however, does not apply to income bonds or bonds in default, in which cases the price includes the interest, should there be any.

3. The letter "f" prefixed to bond prices denotes that the quotation is a flat price—that is, that the accrued interest forms part of the price, and therefore the purchaser does not have to provide for it separately in making payment. As already stated in the case of income bonds and bonds in default, the price is always "flat," and no designating mark is employed to indicate the fact.

4. Stock prices marked thus (d) are per share. All others are per cent except bank stock prices, which are quoted per share unless otherwise stated.

5. It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.

6. The following abbreviations are often used, viz.: "M" for mortgage, "g" for gold, "g'd" for guaranteed, "end" for endorsed, "cons" for consolidated, "conv" for convertible, "s f" for sinking fund, "l g" for land grant, "op" for optional.

7. The black-faced type in the letters showing the interest period indicates the month when the bonds mature.

NOTICE—All bond prices are "and interest" except where marked "f" and income and defaulted bonds.

PUBLIC UTILITIES

In the following rearrangement of our quotation lists we bring together under the general designation of "Public Utilities," all the different forms of such securities, thinking it easier for the reader to find any particular issue in a general list than when the securities are subdivided under separate heads and there is doubt as to what head to look under. In other words, under "Public Utilities," we include Street and Electric Railways, Gas, Electric, Power, Water and Telegraph and Telephone Companies.

In quoting Public Utility bonds, we employ the same method as in quoting the bonds of steam railroads. The great majority of issues being quoted "and interest," we use no designating mark whatever where that is the case. On the other hand, we prefix the letter "f" where there is a deviation from this rule; in such cases the interest forms part of the price. Unless, therefore, "f" appears against a quotation, the buyer will understand that the accrued interest is to be added on. This, however, does not apply to income bonds and bonds in default, in which cases the price takes account of the interest (should any payment be announced) and no designating mark is employed.

NOTICE.—All bond prices are "and interest" except where marked "f" and income and defaulted bonds.

INDUSTRIAL AND MISCELLANEOUS SECURITIES

In the rearrangement of our quotation lists we classify under the designation "Industrial and Miscellaneous Securities," all issues which do not appear under the previous two headings, namely "Railroads (Steam)" and "Public Utilities." In the case of stocks, however, we put "Textile Manufacturing," "Insurance," "Mining," "Real Estate and Land," "Title Guar-antee and Safe Deposit Companies" under separate heads, then follow with the rest of the "Industrial and Miscellaneous." Quotations marked "f" indicate that accrued interest is included in the price. Prices not marked are "and interest," that is, purchaser has to pay accrued interest in addition to the price. This, however, does not apply to income bonds and bonds in default, in which cases the price takes account of the interest and no designating mark is employed.

NOTICE.—All bond prices are "and interest" except where marked "f" and income and defaulted bonds.

STATE AND MUNICIPAL BONDS

In State and municipal bonds the custom has always been to quote them, "and interest." That is the accrued interest must in all cases be added on. There are a very few instances which form exceptions to the rule—that is, where the prices given are flat prices, the accrued interest having been taken into account in making them. These are indicated by a special mark, thus (f).

The figures in the column "to net" indicate the basis on which the securities sell or the interest rate which the securities if held to maturity will net to the purchaser at the present market price.

BANKS AND TRUST COMPANIES.

Quotations in this department are given per share, not per cent, except for stocks of New York City, Brooklyn and Canadian institutions, and are as near as possible for the closing day of the month preceding the date of issue, though often are nominal. An asterisk (*) denotes sales. The letter (h) prefixed to a price indicates that the figures show the book value.

Figures of deposits, capital and profits for the national banks are from the Comptroller's last call; for all other institutions they are the latest obtainable, direct returns being procured by us where no periodic statements are required. For the Clearing House banks of New York, Philadelphia and Boston, deposits are taken from the latest weekly statement.

Where Names are Printed in Italics Fuller Returns may be Found in the Advertising Columns

NEW INCOME TAX LAW

With Explanatory Analysis

We have in course of preparation the Third Edition of our Income Tax Book. This edition will contain the New Income Tax Law, to be enacted by Congress, with an explanatory analysis of its practical operation. We shall be glad to reserve a copy of this booklet for investors on request.
